

## Transcript of We Hold Truths to be Self-Evident

09 December 2016

James Hansen

Here is the [transcript](#), requested by a few people, of the video (  ) discussion of the Constitutional and practical basis for solving the climate matter (opportunity/problem) in democracies. I agree that 20 minutes was long for a video. Sophie has an idea of how to speed this up and make it more entertaining, using a whiteboard and speeding up the film. We will try this the next time.

Here I repeat our end-of-year request for support of organizations that we think are important:

Our Children's Trust: web site <https://www.ourchildrenstrust.org/>.

[Citizens Climate Lobby](#) (CCL)

[Climate Science, Awareness and Solutions](#)

As discussed in my Communication on 02 December.
