CONGRESS:

1. For years after 1980, Congressional results are obtained from state election authorities.
Some differences may be noted when compared to the reports published by the Clerk of the U.S. House.
 - a. NY: results included here are combined by candidate regardless of party label.
 - b. LA: results included here are only for November elections with no more than one Dem and/or one Rep candidate.
 - c. AR, FL, OK: in some years candidates do not appear on ballot, or votes are not tabulated. Here, one vote is cast for the winner.

PRESIDENT:

2. In some years the OTHER vote for President is only one independent; in some years it may be a combination.
For 1992 & 1996: Perot; 1968: Wallace; 1956: Thurmond.
3. Presidential Results by Congressional District from 1984 on were generally compiled by Polidata with assistance of sponsors.
Previous results were compiled from several sources, notably the NRCC; and Congressional Quarterly; and National Journal.
4. The degree to which Presidential results were recompiled for new districting plans will vary by both the changes in the plan and the availability of resources.

GENERAL

5. A plurality indicator in lowercase means plurality, uppercase means majority.

ONLINE

6. Formatted report pages of this information are available online at www.polidata.org/books/default.htm at the bottom of each state page. For selected years only.
