SURF Symposium

Last summer, 68 undergraduate students conducted research in the biological and medical sciences through the Summer Undergraduate Research Fellowship (SURF)

Come hear them describe their experiences and learn more about this program

Friday, February 17th, 2012

11:00 -12:00 noon	Low Library, Faculty Room
Opening Remarks:	Dr. Alice Heicklen
Student Lectures:	Adam Geber Metalloproteinase-9 contributes to ALS progression
	Madeleine Jensen Mg-dependence of ribosome-tRNA interactions
	Dylan Marshall Prospective Metacognition in the Rhesus Macaque
	Kapil Wattamwar Resonant Frequencies of a Model Tympanic Membrane
12:00 - 2:00 PM	Low Library, Rotunda
Poster Session:	2011 Student Research Posters

Light Lunch
