WHERE WE STAYED
At the School: St. David’s R.C. Primary School
A man wanted to get into his work building, but he had forgotten his code. However, he did remember five clues. These are what those clues were:

The fifth number plus the third number equals fourteen.

The fourth number is one more than the second.

The fifth number is one less than twice the second.

The first number plus the third number equals ten.

The sum of all five numbers is 30.

What were the five numbers and in what order?
I cannot go to heaven alone.
I need your help to get there.
I want to help you to get there too.
Let us work together to get to Heaven.

A verb is an action word.
E.g., play, read, wash.

We add 'ing' to verbs to show that the action is happening now:
- singing
- jumping
- drinking

The teacher is teaching the children.
They are not coming.
They are having a good time.
They are eating, drinking and singing in the class.

They are jumping.
Ratios - kind of fraction
