American Negro Leader Hails China's Nuclear Test

(NCNA English, Accra, November 5, 1964)

Nikola X, the American Negro leader now on a visit here, today hailed China's successful explosion of its first atom bomb as "the greatest thing that has ever happened in the 20th century to the black people."

In an interview with NCNA here he said that China's nuclear test helped not only the cause of the Afro-Americans but also that of all people of the world fighting against the imperialists.

He praised the Chinese government's proposal for a world summit conference to discuss the complete prohibition and thorough destruction of nuclear weapons. It was indeed "a very good suggestion," he said.

Referring to the present struggle of the American Negroes and the firm support given to this struggle by the Chinese people, he said that the U.S. imperialists would never loosen their grip on the 22 million colonized American Negroes before the peoples of Asia and Africa cast off the yoke of imperialism and became strong. "bearing this in mind, we therefore appreciate the great strides that the Chinese people have made toward true independence and the unlimited contribution they are making to help the oppressed peoples in other parts of the world to throw off the chains of imperialism."

He termed the recent U.S. presidential elections as a "farce," which, he said, hardly had any significance to the American Negroes. "Both candidates do not see the interests of the Afro-Americans," he declared.

There was no difference between Johnson and Goldwater, he continued, for both served the interests of U.S. monopoly capital. "The only difference between them is that while the one uses the method of a wolf, the other employs the approach of a fox." "But both of them are trying to eat us up," he added.

Johnson tried to represent himself as "peace-loving." But he was the one who had ordered direct intervention in Leopoldville Congo, massacred the Vietnamese people and committed atrocities in other parts of the world, he said.

Commenting on the so-called "Civil Rights Bill" of which Johnson has made great show, the American Negro leader said, "It is nothing but a farce designed to give the Africans, to give them the false impression that the U.S. is different from Africa and that the problems (of racial discrimination) in the U.S. are being solved." He drew attention to the fact that many Negroes in the United States were killed when the bill was adopted.
