

Columbia Chemistry Careers Committee

Careers in the USDA

Steven Lehotay
Lead Scientist, US Dept. of Agriculture

Dr. Lehotay will be talking about careers in the Agricultural Research Service, the research agency of the USDA. He will discuss career opportunities in programs including nutrition and food safety and animal production and protection. He will also share his experiences as a research chemist working towards improving methods of analyzing pesticides, veterinary drugs and other food and environmental contaminants.

For more information about federal jobs: <http://www.usajobs.opm.gov>

Dr. Lehotay received his Ph.D in analytical chemistry from the University of Florida. He began his career with the USDA in 1992 as a Research Chemist and was promoted to the position of Lead Scientist in 2000. During his tenure at the USDA, he has authored over 75 publications and given over 50 invited talks.

Wednesday, October 1

4:30 pm

209 Havemeyer
