Man-Chung Tang is the Chairman of the Board of T.Y. Lin International, a consulting engineering firm with headquarters in San Francisco. He received his Doctor of Engineering degree in 1965 from the Technical University Darmstadt, Germany and has since been working as a structural engineer. He has been involved with the design, design review and/or construction engineering of over 100 major bridges in various parts of the world. He is an honorary professor of nine universities, a member of the US National Academy of Engineering, a foreign member of Chinese Academy of Engineering, and an honorary member of the American Society of Civil Engineers. He was an Adjunct Professor at Columbia University from 1989 to 1995.

March 30, 2010 (Tuesday)
3:15 - 4:30 p.m.
Davis Auditorium
