

What's inside an LCD Monitor?

From liquid crystal to solid-state circuits, find out what makes an LCD function! Professor John Kymissis takes one apart and uses a microscope to examine the high-definition world of LCD Monitors.

All Engineers and Non-Engineers Welcome!!!!

When: Thursday, November 29 @ 5:30pm

Where: Interschool Lab in CEPSR (Rm750)

Why: Because we know you're curious!
