IV. Efficient Email Resolution
   Introduction by Benjamin Brickner. This resolution unites several Senate initiatives to reduce unsolicited mass email and have information of interest to the entire community reliably appear in one place. Included is (1) an automated system to summarize announcements and events information into a daily email sent to the entire CLS community, (2) a policy restricting who can email student class lists and for what limited purposes and (3) “opt-in” student group listservs. Last semester, this suite of proposals was presented to the Student Activity Council (boards of all student groups) and it was well received.
