9600 items (47 boxes).

Organization: Selected items cataloged; remainder arranged.

Summary: Correspondence, manuscripts, notes, research materials, lectures, speeches, galley proofs, news releases, appointment diaries, photographs, printed materials, audio and video cassettes. The correspondence consists of letters from editors and publishers as well as a selected group of letters from readers reacting to his columns and articles. Among these letters are one or two each from Joseph Alsop, Warren E. Burger, J. William Fulbright, John Kenneth Galbraith and Hubert H. Humphrey. The manuscripts, with corrections, notes and research materials are for his numerous contributions to periodicals, such as the "Letters from ..." series in The New Yorker, radio and television scripts, interviews with prominent government officials, such as George Shultz. Lectures, speeches, ideas and proposals for books and an extensive file for his unpublished history of the investment firm, Lehman Brothers Kuhn Loeb, Inc. There is a set of news releases for his column, "Washington Insight," 1965-84 and for his Los Angeles Times column, 1980-1985. The printed materials include newspaper clippings, articles by Kraft in foreign periodicals and some books from his library. The audio and video cassettes contain interviews with presidents and prime ministers as well as radio and television broadcasts on which Kraft appeared.
