SPECIAL NOTE TO ALUMNI OF AUBURN SEMINARY

In 1964 by action of the alumni councils of both Union and Auburn Seminaries the two bodies merged to become the Union-Auburn Alumni Association. This directory, therefore, includes in a separate section beginning on page 560 all alumni of Auburn Seminary. There is also a brief introduction by the Reverend Frank Otheman Reed, Secretary of the Auburn Program.
Dear Alumni:

I am glad that we are at last to have a new edition of the Alumni Directory which we intend to publish every decade. The old one now on my desk I have used constantly. Even the few facts recorded help me to place someone whose name has come to my attention and then I know how to find out more about him or her. Those few facts supplemented by my own memories in many cases bring the person vividly before my mind.

I hope that many alumni will come to own this book because it will help them to keep up with their own contemporaries at Union and it will make it a little easier for them to place and then to know fellow alumni in their own community or region.

Union Seminary has changed from generation to generation and even from decade to decade but I have always found that our relationship to the seminary is a real bond between us who are alumni no matter how different our memories of our years here may be. It is not easy to specify exactly what it is that different generations of alumni have in common but as one whose good fortune it has been to know alumni from all periods I can testify that there is something real that binds them together. Perhaps the contrast between the seminary as it is now and what it was in all periods before 1960 will prove to be unusually great but I hope that this will not be an obstacle to growing mutual understanding. In all that I say I am not thinking of a consensus of convictions or agreement in theology or politics but of a spirit characterized by faith combined with openness, by a high place given to intellectual competence and by concern not only for God’s church but also for God’s world.

This edition of the Directory goes out with my warm greetings to all of our alumni scattered throughout the world and engaged in many new and old forms of ministry in the name of Christ.

John C. Bennett

President
This new edition of the Alumni Directory (formerly called "Catalogue") supersedes earlier listings of the officers, faculty members and alumni of Union Seminary.

Established in 1836, the Seminary issued Annual Catalogues for the years 1841-42 to 1848-49 which contained a list of all students previously graduated. As the number of names increased, a series of Catalogues appeared in 1850, 1853, 1856, 1859, and 1865 in which the names of Seminary officers and faculty members were included. Brief biographical sketches of each alumnus were first given in the Catalogue of 1865 which was followed by a General Catalogue in 1876. This plan was followed in subsequent editions of the Catalogue which appeared approximately each decade thereafter. The present edition, the first since 1958, includes graduates of the Class of 1969.

This Directory contains a record of all former students of the Seminary who completed at least one full year of study or the equivalent, whether or not they received a degree. Each class, including former students of the School of Sacred Music, is divided into two groups: (1) Those who received degrees and (2) those who qualify as alumni through a year of study at the Seminary or who received graduate degrees in cooperation with Columbia University and Teachers College.

Alumni who died prior to 1958 and whose biographical sketches may be found in earlier editions of the Directory are listed only by name with the date of death. Complete biographical sketches are included for alumni who are known to have died since 1958. All others, known or assumed to be living, are included with records giving the name in full, college graduation with date and name of college, later graduate study and seminary training with dates of residence and degrees; date of ordination with name of denomination and of the ordaining body; pastoral charges and other positions held after graduation with dates; and honorary degrees with the name of the institution which conferred them and the dates. Limitations of space have made it impossible to include special honors, books written and other biographical data which may often be found in the various types of "Who's Who" publications. In a few cases names of alumni are omitted at their own request. The numbers in each class are totalled at the end of the class roster.

A single date after the name of a college indicates the year of graduation. The degree of A.B. is usually to be understood unless another degree is mentioned or except in special cases, such as alumni of the School of Sacred Music, where there is reason for listing the A.B. degree. Entries following college graduation give the period of study in residence in seminaries or in other institutions, with degrees received. In these entries, single dates indicate either the year in which a degree was received, or study during only one term, either spring or fall according to the context. Abbreviations used are listed in a special section in the back of the Directory.

Every care was exercised, within the limits of the Seminary's resources of staff and funds, to make this new Alumni Directory complete and accurate. Questionnaires were sent to all alumni whose addresses were known or could be secured. These were followed by second and third requests when no response was received. When these mailings produced no results, information was sought from newspaper clippings, class letters and secretaries, denominational yearbooks and members of the Seminary staff. When all these efforts failed to provide up-to-date information, the name of the alumnus was marked with (*) and the reader is referred to the edition of 1958 as the only record in our possession. Corrections and suggestions for future issues of the Directory will be most welcome.

While this Directory is a composite work, involving many people on the Seminary staff, we are especially indebted to Miss Eleanor Clarkson who served as Editor of this volume. Her work was painstaking and diligent as she worked for over two and a half years to bring this volume to completion.

Note: Throughout this directory a biography appears under the year an alumnus first received a UTS degree. Degrees he received later are mentioned, but his name does not reappear. However, it was not feasible to apply this policy to those who received additional UTS degrees in 1969. The following is therefore a complete list of degrees awarded in 1969.

INTRODUCTION

In 1960 a "General Biographical Catalogue of Auburn Theological Seminary, 1919-1940" was published and distributed. It included supplementary information on alumni from the classes of 1846-1918.

Alumnae (and alumni) of the School of Religious Education at Auburn were listed in the "Directory of Living Alumni" published by Auburn Seminary in 1948, but were not included in the catalogue of 1960.

Union had published its Alumni Catalogue some little time before Auburn's. Hence it did not seem wise to the Alumni Council to add biographical data about Auburn alumni and SRE alumnae in the present volume.

We therefore present here our current list of these men and women of the Auburn family, now members of the Union-Auburn Alumni Association.

In some cases the information in our records is incomplete — the present location, for example, or date and place of death. Any help you can give by furnishing details for the files will be appreciated.

The list that follows includes only the name and class, and the town of residence, or the date of death where known.

Frank Otheman Reed
Secretary of the Auburn Program

</table>
Arabic numerals alone, following the name, indicate the year of graduation. When preceded by "p" ("partials" — those who have completed a certain number of hours of study but have not received a degree) the name will be found in the second alphabetical list under the given year. Prior to 1870 the year is given in full. Beginning with 1870 the first two figures are omitted.

Names of members of the Faculty and of others connected with the teaching staff are printed in capital letters and are followed by roman numerals which refer to the pages preceding the records of alumni, where records of the Faculty and teaching staff are given.
