Eastern Spruce has moved to a fair extent as cargoes come to hand, and we find no dealer complaining of any great difficulty in securing customers for the offering. The common and inferior lots were kept pretty low as the surest way to insure a quick sale, but on good to prime specifications there was a steady to firm feeling, and now and then a particularly desirable parcel would excite competition enough to carry figures something above the ordinary range of quotations. The offerings, according to some accounts, have been a trifle larger than anticipated, but receivers still insist that all the leading mills will shut down on the production and greatly reduce shipments unless our market shows signs of an improvement pretty soon. As we close the piers are full, and there is a pretty large amount of stock still available, the market having rather a tame tone throughout. We quote at $15@17 for inferior to fair; and $17 50@19 for good to prime. There does not appear to be much, if any, call for Eastern Hemlock at present, and values are nominal. Some lots were brought in here on contract at $15@16 per M, but were rejected and do not now appear to have any positive market value. White pine is still quoted as very firm on all grades, and the demand good. The general call from the trade, however, begins to be somewhat modified, as dealers are gradually accumulating their assortments, and with the prices asked buyers will not operate beyond positive wants. We quote at $21@28 per M for ordinary to prime box and shipping boards, and $29 for choice do. For Yellow Pine there is still a good demand on special contracts, and buyers bid full prices, but agents cannot meet all the outlet owing to the difficulties of transportation, and the market from necessity is dull. Prices of course remain firm, and we continue to quote at $29@33 per M for random cargoes; and $35@38 do for special orders. All other descriptions without new features of interest.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.
Africa	——	461,991	450,509
Alicante	——	——	41,700
Amsterdam	——	——	——
Antwerp	——	959,689	774,100

Value	$10,892	$403,951	$449,541

We note additional exports as follows:—

To Hayti, 50,000 shingles, value $600; to Bremen, 6,000 staves; to Antwerp, 9,600 do; to Liverpool, 6,466 do; to Glasgow, 3,600 do; to Gibraltar, 6,000 do; to Havre, 8,400 do; to Cadiz, 13,200 do; to Lisbon, 24,000 do; to Peru, 9,680 do; to British West Indies, 700 shooks; to Cuba, 750 shooks and 24,500 hoops; to Porto Rico, 466 shooks. The receipts reported are as follows:—From Jacksonville, 200,000 feet lumber; from Savannah, 140,000 do; from St. John, N. B., 1,010,427 feet lumber, 430,000 lath; from St. George, N. B., 754,000 lath; from Lepreaux, N. B., 100,000 feet lumber, 10,000 lath, 5,000 pickets; from Shulee, N. S., 425 pcs piling; from Maine coast, 25 cargoes lumber, 6 do lath.

Charters as follows:—A Br. Barque, 400 M Lumber, from Montreal to River Plate, $21 net: a Barque, 289 tons, from New Orleans to New York, Black Walnut, $18 and primage; a Schr. from Jacksonville to Corpus Christi, Lumber, $16, and back to New York, Wool and Hides, 1¼ c.: one, 160 tons, from Jacksonville to Port-au-Prince, Lumber, $13, and back to New York from St. Domingo, Logwood, $6; a Br. Brig, 271 tons, from Brunswick, Ga., to Martinique, Lumber, $12, and back to New York from St. Domingo, Logwood, $6; a tern. Schr., 230 tons, from Satilla River to Cardenas, Lumber, $13, and a second trip $10; three Schrs. from Jacksonville to New York, dry Boards, $12.75: two same voyage, $13; one from Savannah to New Haven, Resawed Lumber and Timber, $10.50 and $11.50; one from Charleston to New Haven, Plank and Timber, $10.50: one from Jacksonville to Washington, D. C., Resawed Lumber and Boards, $11; a Br. Schr., from Charleston to St. John, N. B., Yellow Pine Timber and Stowage, $11.50 gold.

Late mail advices from Rio Janeiro are to the following effect:—

Pitch Pine Deals.—Good assortment worth 42$000@46$000 per dozen 14 x 3 x 9 (to net G. $43.10@44.30 per 1000 feet.)

One Inch Lumber.—Only arrival sold at 100 rs. per foot (to net G. $35 per 1000 feet.) The market is firm, and with light receipts we may look for higher prices.

Swedish Deals.—34$000@35$000 per dozen 14 x 3 x 9—very dull.

The close of last week's market at Chicago is reported by the *Times* as follows:—

The receipts for the week are—

	Lumber. Feet.	Shingles. No.	Lath. No.
Monday	4,505,000	2,816,000	336,000
Tuesday	5,940,000	3,220,000	120,000
Wednesday	4,838,000	5,926,000	164,000
Thursday	6,964,000	770,000	786,000
Friday	5,656,000	1 872,000	225,000
Total	27,903,000	13,614,000	1,631,000
Since Jan. 1, 1871	769,822,000	558,549,000	62,844,000

The shipments for the week are:—

	Lumber. Feet.	Shingles. No.	Lath. No.
Monday	2,486,000	2,428,000	256,000
Tuesday	1,409,000	728,000	252,000
Wednesday	2,624,000	3,672,000	305,000
Thursday	2,616,000	1,314,000	182,000
Friday	2,604,000	1,588,000	327,000
Total	11,739,000	9,730,000	1,322,000
Since Jan. 1, 1871	426,486,000	374,135,000	48,099,000

CARGOES.—Only two cargoes being offered, the market ruled quiet. We note sale of cargo of barge Wyoming, to arrive from Grand Haven, 155,000 ft mill-run lumber at $22; 1,000 pickets at $8, sold by E. M. Doubleday.

Prices were nominally unchanged, as follows:—

Joist and scantling	$11 75@12	12½
Common strips and boards	12 00@14	00
Good strips and boards	14 50@16	00
Choice mill-run	16 50@20	00
Shingles	3 10@ 3	25
Lath	2	12½
Pickets	8	00

The following were the ruling rates of freight from the points named to Chicago:—

Pere Marquette	$2 00	
Manistee	2 00	@2 12½
Muskegon	1 75	@1 87½
Pentwater	2 25	....
Grand Haven	1 87½	....
White Lake	2 00	....
Green Bay	2 50	....
Oconto	2 75	@3 00
Menomonee	2 25	....
Red River	2 50	....
Sturgeon Bay	2 50	....
Ford River	2 12½	....

A correspondent of a Detroit paper writes from Saginaw, Mich., as follows:—

Lumber still demands $7, $14 and $25, and for the present is at a stand still at those figures. A few sales are made at a quarter less, but only when it is necessary to raise funds for the winter's campaign.

The *Saginaw Courier* reports as follows:—

There is no material change in the market since our last report. Quotations are about the same, but prices, if anything, are a little firmer. Shipping is going on as rapidly as the facilities will admit, and lake freights, in consequence, are better than they have been this season. The shipments are exceeding manufacture, with the prospects of leaving a small stock on the docks. Lumbering has already commenced, and many firms have full gangs of men in the woods. Logs are demanding good prices, and a large amount have already been contracted for next season's sawing.

EAST TAWAS, Sept. 15, 1871.—The air is filled with smoke from the fires in the woods, and unless we have rains to put out the fires that are now raging, the present will more than equal the smoky summer of 1856. There has been a very large amount of timber destroyed along the Au Sable and its tributaries. Cross-roads are being blocked up by falling timber, cross-ways are burned up, and unless we have rain the damage will be incalculable.

Men are very scarce here just now. The mills are running short handed, and the vessel captain's and shippers are paying 40 cents an hour for loading. W. G. Grant & Son, have an agent in Saginaw now hiring men for his mill, and woodmen can get ready employment here now at good wages. The mill of Newton & Joslin has commenced running.

The Iosco *Gazette* says: Land-owners, land-lookers, jobbers—lumbermen all—are crowding in upon us with ever increasing rapidity. The staple of conversation is lumber. Active preparations are going on for the winter's business in the woods. Camps have already been erected, or old ones repaired in many instances, and, early as it is, some of the "shore" men have already begun the cutting and skidding of logs, while supplies are being purchased outside and shipped to our ports in almost endless quantities.

The mill belonging to the newly organized firm of Newman & Joslin, which is situated near the bridge on Tawas River one half mile distant from the town, is progressing rapidly toward completion. When finished it is to contain two shingle machines and one circular for sawing bill stuff. It will prove a great convenience to our builders.

J. C. Cameron & Co., have two camps now running, and expects to haul and bank three million feet of logs on the bay shore, besides the several millions they will float down Tawas River.

SAGINAW LUMBER MARKET.

Sales by cargoes about as follows:—

First clear	$38 00@40	00
Fourths	35 00@38	00
Box	30 00@35	00
Three upper grades—dry	35 00@38	00
Common	12 50@14	00
Shipping culls	6 00@ 7	00
Lath	1 75@ 1	95
SHINGLES—		
Sawed A 1	4 00@ 4	25
Sawed A 2	2 25@ 2	75
Shaved—None in market.		

The following is the September price list for lumber delivered on cars, observed by Chas. Merrill & Co.

First clear	$42 00
Second clear	27 00
Third clear	33 00
Select	27 00
Clear stock, 12 inch	37 00
Select stock, 12 inch	27 00
B stock, 12 inch	19 00
Common stock, 12 inch	14 00
Select stock, 10 inch	24 00
Clear strips	27 00
Fencing strips	18 00
No. 1 flooring strips	24 00
No. 2 flooring strips	19 00
Wide select flooring	22 00
Select common	19 00
Common boards and plank	13 00
Coarse common	9 00
Scantling, joist and timber, 12 to 18 ft	13 00
Scantling, joist and timber, 20 ft	16 00
Scantling, joist and timber, 22 and 24 ft	17 00
Pickets	10 50
Shingles	4 40
Lath	2 25

From away up in Portland, Oregon, we obtain the following quotations:—

LUMBER.—Redwood boards and ceiling per M. feet, $50; in quantities over three M. $47.50. Eastern lumber—Oak, hickory, and ash plank, 16c per foot. Street plank, $12. Sidewalk, $12. Assorted rough, $16; do edged, $17.50, dressed on one side, $22.50; do two sides, $25; do four sides, $30. Spruce—Ceiling and shelving, $30. White fir do, $28@30. Flooring—Tongued and grooved, $28; do dressed, two sides, $30; do seasoned, $28; do do dressed two sides. $31; siding, $22.50. Cedar fence posts, rough, $15@20; do dressed, $30. Lattice, per lineal foot, ¾c. Picketing do, ¾c. Lath per M, $3. Shingles, $2.75. Slab-wood per load, $1.50@2.

The following is from the Quebec *Mercury*:—

COMPARATIVE STATEMENT OF TIMBER, MASTS, BOWSPRITS, SPARS, STAVES, &C., MEASURED AND CULLED TO DATE:—

Barrel Staves	12.8.2.7	0.3.2.8	83.8.3.14

Quebec, Sept. 22, 1871. WM. QUINN, Supervisor.

The following is from a city contemporary:—

One of the finest steam saw-mills in Maine has just been completed at Bath, by Messrs. Treat, Lang & Co. The building is 120 by 62 feet, two stories, and is supplied with new machinery of the latest patterns. The steam engine is of 325 horse-power, built by Charles Staples & Sons, of Portland. The working force of the mill, when run at its full capacity, will be 150 hands. Its product will comprise sawed lumber of all kinds, staves, shingles, &c. Attached to the mill is a cooperage establishment, in which 25 workmen turn out 150 sugar and molasses hogsheads per ay, besides a large number of barrels for dry packing, and also fish barrels. The firm intend to manufacture 150,000 barrels per year. This mill was built by Atwood & Howland, of Gardiner, Me., who are esteemed the best mill-wrights in the State. Treat, Lang & Co., also own and operate a mill at Whitefield, in which, with a force of 25 hands, they manufacture shingles and staves, turning out 8,000 of the latter daily.

The Boston *Commercial Bulletin* reports as follows:—

The market for lumber is steady, and all the seasonable grades are in moderate consumptive request at fair prices. At the retail yards a good business is being done, and the demands of carpenters and builders have been quite large. A larger amount of building is being prosecuted than is usual at this season of the year, and the aggregate amount of sales for the Fall trade will foot up comparatively large this season. Prices are firm and unchanged.

The following are the surveys for the week:—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	922,700	Spruce	2,688,654
Hemlock	229,050	Pine Tim. & Joist.	114,259
White Wood	28,095	So. Pine Plk & Tim.	167,798
So. Pine Flooring	612,039	Black Walnut	130,160
Hard wood	16,993		
Total			4,912,178

The following are dealers' *wholesale* prices, and the range given covers the different qualities and grades, and those *paid* for consignments sent here from different sections.

Western Lumber.—Michigan Pine, Nos. 1 and 2, $52@56; No. 3, $45@46; No. 4, $35. Black Walnut, Nos. 1 and 2, $60@75; do. do. Culls, $40@50. Ash, Nos. 1 and 2, $40@48; 3d quality do. $30@35. Cherry, Nos. 1 and 2, $55@60; 3d quality do. 35@40. White Wood, Nos. 1 and 2, $36@44; do. ½, $28@33; 3d quality, $25@30. Oak, $45@50. Butternut, Nos. 1 and 2, $55@65; 3d quality, $30@35. Michigan Pine Saps, $40@45; do. Pickings, $25@28. No. 4 Michigan Pine Board, $25@28. Best Michigan 6 in. Strips, $45@50.

Canada Pine.—Selects Dressed, $50@53. Shelving Dressed, $36@38. Sheathing, 1st qual., $45@47; do. 2d do., $30@32; Ceiling Dressed, $37@40. Dressed Shippers, $26@28.

Eastern.—Pine Clear, Nos. 1 and 2, $55; No. 3, $45@48; No. 4, $35@38; No. 5, $30@32. Common, Pine Shipping Boards, $20@21; No. 5, $20@21; Refuse, $15@16; Spruce, Scantling and Plank, $15@16.50; Boards, $16@17. Hemlock boards, $14. Laths, spruce, $2@2.50; Hemlock, 1.75; Pine, $2.25@2.50.

Southern Pine.—Timber, resawed, $20@37. Flooring, Nos. 1 and 2, $30@36; Ship stock, $30@34; Hewn timber, $22@33; Refuse, $14@22.

Shingles.—Spruce, extra, $2.25@2.50; No. 1, $1.75@2; Shaved Pine, $6@8; Sawed, $2.50@6. Shaved Cedar, $4@6¼; Sawed, $2.50@5. Extra 18 in. Sawed Pine, $2.75@6.25; do. 18 in. Shaved Pine, $7¼@7¾.

Clapboards.—Spruce, extra, dressed 4 ft., $37@38; clear, $27@28; No. 1, $18@20. Dressed, extra, 6 ft. 6 in., $48@54. Clear, 6 in. $45@50. No. 1, 6 in., $40@46. Extra, 5½ in., $43@50. Clear do. $40@46. No. 1 do. $35@42. Pine extra, sap dressed, 60. Clear, 55. No. 1 $30@35.

The Pensacola Lumber and Freight market is reported by the *Mail* to Sept 22d, as follows:—

Since our last report, we have very few changes to note in either the timber, lumber, or freight market.

TIMBER.—The hewn timber market is dull and quotations are only nominal, as there is none being offered. Contract prices are much the same as last year. We quote—

60	feet average	10c to 11c	per cubic	feet	
70	"	11c to 12c	"	"	"
80	"	12c to 13c	"	"	"
90	"	13c to 14c	"	"	"
100	"	14c to 16c	"	"	"

For B1 good class and upward, delivered at Ferry Pass.

In sawn timber there is some slight activity, and several mills are making preparations for a large supply of this article next season. We quote:—

20	feet average	11c to 12c	per cubic	feet	
25	"	12c to 14c	"	"	"
30	"	14c to 16c	"	"	"
35	"	16c to 18c	"	"	"

Delivered at vessel.

LUMBER.—There seems to be an active demand in the North for flooring and other kinds of lumber, but the prices do not encourage shipments; nevertheless many of the mills here seem to be busy upon orders, and very little is shipped on speculation. We quote:—

Flooring boards, prime	$17.50 to 19	per M ft.	f. o. b.
Scantling, ordinary sizes, Cuba and Texas	15.00 to 16	"	"
Do. special sizes and long lengths	16.00 to 20	"	"
Edge Boards, No. 1	10.00 to 11	"	"
Do. No. 2	8.00 to 9	"	"
Deals, S. A. market	17.00 to 18	"	"
Do. Eng. do.	13.00 to 14	"	"

FREIGHTS.—The demand for coastwise vessels has lessened, owing to a number having been chartered at current rates. There is still a demand for Cuban vessels, although shippers do not hold out the same inducements they did a few weeks since. A good many vessels are being chartered on the other side of the Atlantic, for both hewn and sawn timber, at something under our quotations. These quotations are for vessels ready for cargo, or in any of the Gulf ports seeking freights. We quote:—

U. Kingdom, hewn, orders, per load	28s to 40s
do. do. direct ports, "	36s 6d to 37s6d
Liverpool, sawn "	25s to 36s
Cuban ports, lum., per M sup. ft	$10 to 11 gold
Buenos Ayres, " "	21 to 22 "
Galveston, " "	10 to — cur.
Ports north of Hatteras	10 to 12 "

METALS.—The demand for manufactured copper continues moderate, and the market presents no new feature. Holders remain firm owing to the small stock in their hands, but a large production in prospect prevents any decided advance. We quote at 32c for new sheathing: 23c for yellow metal, and 20@21c for old sheathing. There has been a decided falling off in the demand for ingot copper, but the market remains in a firm condition, consumers having supplied themselves by the recent large sales. Supplies are small and there is but little stock offering, closing at 23⅞@24c on the spot, and 24c for Oct., Nov., Dec., and Jan. delivery. There has been a good demand for Scotch pig, for parcels to supply the immediate wants of consumers. Prices have advanced and close firm, with a light stock and an advancing market. On the other side holders have the advantage, closing at 34@38c. There has been an improved inquiry for American pig, but the small supply on hand checks business. Holders remain firm and we note an advance. We quote at $27@38 per ton for No. 1; $35@36 do for No. 2, and $33@34 do for forged. There has been a fair trade in bar iron, and the market continues firm with the usual supply on hand, and only a moderate amount of stock offering. We quote from store as follows:—Bar Swedes, $107.50@120.50; refined, ordinary size, $85; refined, 1¼ to 6 by ¼ and 5-16, $90; refined, 1 and 1½ by ¼ and 5-16, $92.50; refined, 2½ to 3 round and square, $92.50; scroll, $102.50@132.50; ovals and half round, $102.50@122.50; band, $97.50; horse-shoe, $100@106; rods, 5-8 to 3-16 inch, $90@125; hoop, $107.50@150; nail rod, per lb., 6¾@7c. Common sheet has been in fair demand and prices are firm. The mills are now busy running on orders. We quote at 4¾@5¾c for single D and T., and 5¾@6¼c for D. and T. charcoal. There has been a good demand for galvanized sheet, and the market has a firm tone. We quote at 12@13c for 14@20; 12½@13¾c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 30 per cent. to the trade. Russia sheet has been very firm at a decided advance with a large business, but the demand at the close is checked by the small supply. We quote at 16@16½c gold, according to number, and sound do. 17c. The market for pig lead remains dull, in fact almost at a stand, and prices are nominal at 6@6½c per lb. gold for common to good foreign manufactured. Lead remains unchanged. 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade, and pig tin has been very dull pending the Dutch sale. Prices are nominal. We quote in coin at 34¾@34¾c for English; 26½@26½c for Straits, and 40½@41c for Banca. There is a fair stock of plates on the market at present, but with a good demand prices are higher. Zinc remains firm at 9¼@9½c from store.

NAILS.—The market has shown rather a dull tone since the writing of our last report, but otherwise is without any very decided change. Former prices are retained on all grades, and as the trade generally operate on the recent revised price list, there is a tone of steadiness preserved even during a period of inactivity though very desirable customers can occasionally manage to obtain some moderate allowances as an inducement for large orders. So far as the present outlet is concerned the stock on hand is ample for all calls, but in reality there is some scarcity of desirable grades of cut, owing in part to the fact that a few of the principal makers sold ahead of production and have not as yet been able to catch up. The export movement is fair but not very quick, as the scarcity and cost of freight continue to interfere with the operations of shippers. We quote per 100 lbs.: cut, 10@60d, $4.50; cut, 8@9d, $4.75; cut, 6@7d, $5; cut, 4@5d, $5.25; cut, 3d, $6; cut, 2@3d, fine, $6.75; cut spikes, all sizes, $4.75; cut finishing, casing, box, etc., $5@$6.50; clinch, $6@6.50; horse-shoe, forged, No. 10 to 5, per lb., 19@21c. Other styles are selling as follows:—Copper, 36@38c per lb.; yellow metal, 22c do. The exports for the week are 485 pckgs., valued at $2,051; and since January 1st, 12,157 pckgs., valued at $76,000. We also notice shipments of — pckgs. to San Francisco.

PAINTS AND OILS.—In the wholesale market we find rather less general activity, and at times since our last, the market has been in quite a dull state. Considering the rather active period just passed however, dealers seem to be very well satisfied, and in the majority of cases report their aggregate business as sufficient to keep them moving fairly in order to prevent running behind on their engagements. There is also some indications that the present lull is only of a temporary character, and that a great many interior buyers yet have wants of considerable magnitude which will be likely to be met before the close of navigation and the advance in freight charges. Exporters seem somewhat indifferent, but are really in want of a fair amount of stock, their movements having been somewhat trammeled by the fluctuations in gold, scarce and high freight room, and the difficulty experienced in negotiating exchange. Jobbers report some little falling off in trade, and a reduction of the outward movement to the ordinary calls at regular buyers. Former prices are asked and obtained, however, and the market generally has a steady tone. The supplies accumulated both in first and second hands are very good and with a few exceptions very well assorted. Linseed Oil has shown a trifle more steadiness and crushers are looking for better figures. The demand however, though fair, includes only such small lots as may be wanted for the immediate requirements of the regular trade giving the market a barely active tone, and allowing supplies to accumulate to some extent. Export orders are moderate.

Exports as follows:—

	This week.	Since Jan. 1. 1871.
Paint.....pckgs.	118 value $2,190	6,579 value $104,756
Linseed oil, galls.	— " —	9,453 " 8,629
Oxide zinc, pckgs.	750 " $7,500	3,420 " 35,610

PITCH.—We have an entirely nominal market to report, the trade being so small that prices are merely nominal, dealers getting according to the quantity from ten cents to ten cents more than we quote. Receipts are small and stocks are lighter. We quote at $2@3.25 for city: $3.12½@3.25 for Southern; and small lots very choice in a jobbing way, from store, $3.25@3.35. Receipts for the week nil bbls; since January 1st, 640 bbls; for same time last year, 2,192. Exports for the week 100 bbls; since January 1st, 2,124 bbls; same time last year, 3,015 bbls.

SPIRITS TURPENTINE.—The market during the past week has been less active, though on the whole prices are firmer. There has been a corner in Wilmington, and sales even made them as high as sixty cents but the effect on this market has been very slight, as sales were made here the same day at two cents higher, while the difference should be at least five cents. The position here is, however, very steady, as the stock is nearly all held by a few parties who are not sellers at present. The receipts at Wilmington are increasing, but they were anticipated and oversold. The business done has been either on speculation or consumption, mostly for the former; exporters have done comparatively nothing since our last. We quote at 62@63c for merchantable and shipping order, and 63@64c for New York bbls: small lots at 64@65c; and retail lots from store at 65@66c. Receipts for the week, 1,264 bbls; since January 1st, 47,792 bbls; and for the same period last year, 52,056 bbls; Exports for the week, 150 bbls; since January 1st, 10,858 bbls; and for the same period last year, 14,212.

TAR.—There is a dull and not very firm market, for both Wilmington and Washington. Sales are entirely of a jobbing character and our quotations are only for such lots. We quote as follows:—$3.@3.12½ per bbl for North County, as it runs $3@3.10 per bbl for Wilmington, and $3.25@3.50 for rope, and occasionally $3.75@4 for something very choice in a small way. Receipts for the week, 661 bbls; since January 1st, 16,851 bbls; for corresponding period last year, 44,717 bbls. Exports for week, 300 bbls; since January 1st, 8,297 bbls and corresponding period last year, 13,826 bbls.

ALBANY LUMBER MARKET.

The *Argus*' report for the week ending September 26, 1871, is as follows:—

A large sale reported a short time since at one of the principal Ottawa mills in Canada, was hardly credited, on account of the price being higher than ever paid at the mill for the product of the log. A further sale has since been made at the same mill at an advance of $1 per M. feet. The first price was $16 50 per M. feet; the last, $17 50 per M. feet. At such high figures it would be difficult to realize cost in this market, to say nothing of a profit. From this it will be seen why less Ottawa lumber finds its way here; and it also accounts for some of the Albany yards being so bare at this season; for, although engaged in manufacturing in Canada and Michigan, it has paid dealers better to sell at the mills than bring the product here. The tendency to direct trade between manufacturers and consumers is more evident than ever. Sales are now freely made at all the mills, to small dealers and consumers, and new distributing points are rapidly growing up. A further advance is reported in Pennsylvania lumber, on account of mills running out of logs from low water, and it is too late now to make up for lost time. The northern mills are also at a stand for the same reason. This market keeps firm, with an upward tendency in prices, and the prospect of increased activity for the rest of the season. Stocks compared with other years, are very light. Large sales are now made, and since our last report one firm sold 7,000,000 feet at full prices.

The Chicago *Daily Tribune* reports the receipts and shipments of lumber for the seasons of 1871 and 1870 as follows:—

	Received. Feet.	Shipped. Feet.
1871	741,920,000	414,747,000
1870	691,524,000	425,303,000
Increase	50,596,000	Dec. 10,556,000

The receipts at Buffalo during the week, by lake and rail, are reported at 10,714,100 feet; at Oswego, by lake, 12,202,000 feet.

The receipts at Albany by the Erie and Champlain canals for the third week in September were:—

	Bds. & Sc'tl'ng. ft.	Shingles, M.	Staves, lbs.
1871	22,911,100	1,242	339,000
1870	18,056,900	617	1,457,000

Of the boards and scantling received, 16,400,000 feet were by the Erie, and 6,511,100 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals from the opening of navigation to September 23 were:

	Bds. & Sc'tl'ng, ft.	Shingles, M.	Staves, lbs.
1871	299,672,000	23,344	8,298,900
1870	313,390,300	13,753	13,932,200

Lake freights are $4 to Buffalo, and $6@6.50 to Oswego, Canal freights from Buffalo to Albany are $7 50 on hard wood, and $6 on soft; from Oswego to Albany, $4.

River and Eastern freights are quoted as follows:

River and Eastern freights are unchanged. We quote:—

To New York, per M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	3 00
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, per ton, to Boston	2 50

Office hours, 10 a. m. to 4 p. m.

TIN-LINED LEAD PIPE is a Block-Tin Pipe heavily coated with solid lead. Tin is a metal closely resembling silver, both in color and purity: hence water flows through tin-lined lead pipes as pure as if drawn through silver. It is as flexible and as easily worked as lead pipe; it is also stronger and more durable. By its use iron-rust, lead and zinc poison are all avoided, and general health promoted. Price, fifteen cents a pound for all sizes. Circulars and sample of pipe sent by mail free. Address the
Collwells, Shaw & Willard M'f'g Co.,
No. 213 Centre Street, New York.
Also, Manufacturers of Block-Tin Pipe, Sheet-Lead, Lead Pipe, Solder, etc. ORDERS SOLICITED.

FULLER, WARREN & CO.,

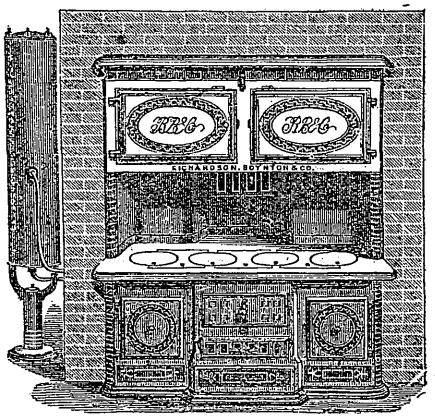
MANUFACTURERS OF

Warren Range,

Lawson Furnace,

Stewart Stove,

Hot Blast Range,



Keeps' Side Burner.

236 Water Street, NEW YORK.

BOYNTON'S

IMPROVED ELEVATED

OVEN RANGE.

This *Beautiful Range*, improved last year, is offered to the *Public* as the most *Complete*, *Convenient*, and *Desirable Elevated Oven Range* in the *Market*, and is the *result* of long experience in the *Manufacture* and *Setting* of *Cooking Ranges*; and we do not hesitate in recommending it as the *nearest* to *perfection* of any *Elevated Oven Range* in the *Country*.

The *body* of this Range is higher than other *Patterns*, and is more like the *French Kitcheners*, making it much more convenient and *easy* for the *cook*.

The *Hot Closets* are more accessible, placed in a *natural* position, being in the body of the Range, instead of above the ovens, as in other patterns.

ALSO,

FURNACES, HEATERS, AND STOVES

IN LARGE VARIETY.

We always guarantee the work we do ourselves to be perfectly satisfactory.

RICHARDSON, BOYNTON & CO.,

234 Water St., and 1314 Broadway, N. Y.

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. VIII. NEW YORK, SATURDAY, OCTOBER 7, 1871. No. 186.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

WHAT IS NEEDED.

WITH the exception of the *Nation*, the press of all parties have carefully abstained from any discussion of the proper remedies to be applied to secure good government for New York City in the future.

The suggestion of that able periodical that no legislation will be really effective until the people who pay the local taxes shall control the disbursements of their money, may be sound in itself, but it is wholly impracticable as yet to get such a scheme even considered. The political education of our people for a century has made them fanatically democratic, and a proposition to restrict suffrage to the rich, if seriously advocated, would ruin the journal or politician who proposed it.

There is one remedy, however, on which the tax-payers could act effectively without running counter to the political illusions of the day: *Let the new charter provide that no bill shall be paid by the City Comptroller until after it has passed the scrutiny of a board of auditors appointed by the tax-payers.*

Of course it is understood that these auditors would have no legislative power whatever. Their duty would be to pass all bills not fraudulent or excessive. They might also be permitted to make suggestions respecting extravagant appropriations; but they should have no power beyond the right to refuse to pay a bill for which service had not been rendered. Had such a board been in existence, we would have been saved all the municipal scandal of the last six months. The difficulty with the bills of Keyser, Miller, Garvey, Ingersoll, and others, is that they were excessive or fraudulent. The work they were ordered to do was proper enough in itself—the loss to the city was wholly in the loose or dishonest auditing and paying of their bills.

This scheme has the demerit of being simple, and probably will not find much favor with charter-makers, but the property holders, whom we address, ought to see its effectiveness. How this board of audit shall be chosen and constituted is a matter of practical legislation we do not now care to discuss. Under our present State Constitution tax-payers alone could not be made a class by themselves to vote for municipal officers, but it is competent for the Legislature to appoint certain large property-holders as auditors, with power to add to their number, without whose indorsement no warrant for payment should be issued by the Comptroller.

A simple scheme of this kind would have saved millions of dollars of the present indebtedness of New York City. The enlightened self interest (to use a cant phrase of the real estate holders) will be a sufficient guarantee that they will not pay out any more of their own money than they are compelled to by proper authority.

MECHANICS' LIENS.

NEW YORK.

MARKET REVIEW.

BRICKS.—Dealers have very little really fresh or interesting to communicate for the period under review, the the market for North River Hards appearing to keep well up in firmness on all grades, and business showing full as much life as heretofore. In fact everything has sold about as soon as received, and, of course, while buyers were plenty enough to keep the piers clear and nothing afloat unsold, there was no great difficulty in inducing them to pay rates which are not considered extravagant, and which manufacturers constantly claim as too low to afford a margin for profit. How near correct this claim may be is a matter of some doubt, however, and it is noticeable that the production still keeps up with unabated vigor, and that brick are being turned out in probably as large quantities as at any time during the season, while the shipments are made to the full extent of the means of transportation, every vessel available being pressed into service to bring stock to market. This applies particularly to the smaller manufacturers, and is no doubt to be traced to a necessity which compels continued sales in order to bring in funds for ordinary daily business requirements, though some of the largest makers, while holding back extra fine goods, such as likely to command extreme rates at any time, are getting rid of a good many odd lots, and seem to take the current prices quite willingly. This plan, however, is no doubt the safest after all, for by thus keeping everything moving the surplus is worked off, an undue accumulation prevented, and the chances for the future much improved. Indeed, if the present demand continues much longer, the selling interest can hardly fail to gain the sought for advantage, for with the appearance of frost, the production must cease, whether there be concert of action among the makers or not, and as soon as supplies outside of shed-room are sold off, the very natural movement will be to check receipts, and so reduce the offerings as to stimulate the anxiety of buyers and induce them to increase their bids. The Eastern shipments continue to a fair extent, but our local consumption is first rate, and with the wants of neighboring cities, keeps open the largest outlet for stock. There is probably nothing worth mentioning now selling as low as $8 per M, and "Up-rivers" may be placed at about $8.25@9 per M, and "Bays" $9@9.50, with now and then something fancy at $10 per M. New Jersey Hards are not very plenty, and such lots as come to hand are selling pretty readily at an average of about $8 per M, with the tendency of prices, however, rather above than below this figure. Pale brick has been scarce and the demand first rate, better if any thing than last week, with a pretty firm tone throughout and prices somewhat stiffer. We hear of nothing selling below $5.50 per M, and some cargoes up to $6. where the quality was extra. Croton Fronts are without important change, the demand running about fair and prices standing as before on the general range, say $12@15 per M. Philadelphia Fronts firm by cargo at $28@30 on pier, and selling well from yard in small lots at the usual advance.

FOREIGN WOODS.—The general market is in a somewhat unsettled condition, according to the stock of goods on hand, but as a whole the position rather favors the selling interest. Very little, if any, Cuba Cedar is on the market, and the stock of cedar of other foreign growths is far from being large, and this keeps values up fairly, the position ruling pretty steady. Mahogany in first hands is not plenty, but there has been a fair amount distibuted to jobbers and retailers, and the call runs comparatively light. About the same may be said of Rosewood in regard to the demand, but the supply is very good and pretty well assorted. Lignumvitæ has been in small supply and at times very scarce, with holders of course insisting upon all the advantage thus realized, and offering their goods with moderation. Other woods have arrived to a fair extent and met with a pretty good demand at full prices. City dealers have been the principal buyers, and managed to make a place for pretty much all the stock offered from first hands, but operated in the usual cautions manner, seldom venturing upon a bid until sure of the quality of the goods, and making no large invoices. Anything really fine, however, received immediate attention and was pretty certain to find its way into yard, to be laid away for future use, if not required for the current wants of trade. The consumption has rather improved of late, and seems likely to keep up to good. fair average all winter. Exporters just now are somewhat indifferent operators, and unless orders are of the most positive character, do not venture upon bids. Supplies are wanted to some extent abroad, but a good many direct shipments from points of growth are known to have been made, while exports from here are much retarded by the fluctuations in gold. the difficulty experienced in negotiating exchange, and the scarcity and high cost of freight room. The receipts, covering a period of about ten weeks, are as follows: From St. Andrews, 75 logs cedar, and 35 do mahogany; from Manititlan, 284 logs cedar and mahogany; from Nassau, N. P., 56 tons lignumvitæ, and 5 pcs mahogany; from Liverpool, 113 pcs rosewood, 12 logs, 160 crotches mahogany, and 5,277 pcs boxwood; from Vera Cruz, 4 logs cedar; from Tuspan, Mex., 2,106 pcs cedar; from Ponce, P. R.. 16 logs cedar; from Porto Platte, 145 logs, 139 crotches mahogany, 89 logs satinwood; from Manzanilla, 562 logs cedar, 2,768 sticks granadilla; from Rio Janeiro, 1,401 logs rosewood; from Ahrispola Bay, 80,000 ft cedar and mahogany; from Tabasco, 313 logs, 14 crotches mahogany, 120 logs cedar; from Ruatan, 20 logs cedar; from Cesparti, 190 sticks cedar; from London, 17 pcs Hungarian ash; from Para, 110 logs cedar; from Bahia, 359 logs rosewood; from Curacoa, 15 tons lignumvitæ; from Surinam, 843 pcs cedar; from Aux Cayes, 2 tons lignumvitæ; from St. Marc, 170 pcs mahogany; from Sechuguilla, 275 pcs cedar; from Gaboon, Africa, 8 tons ebony; from Zanzibar, 2,875 pcs do; from Porte Cabello, 149 pcs lignumvitæ; from Santa Anna, 398 logs, 10 ends mahogany; from St. Domingo, 29 tons lignumvitæ: from Havana, 30 logs cedar. Total receipts: 4,688 logs and 20,000 ft cedar; 1,365 logs, 303 crotches. 20,000 ft mahogany; 108 tons, 179 pcs lignumvitæ; 2,768 sticks granadilla, 1,873 pcs rosewood; 8 tons, 2,875 pcs ebony; 5,277 pcs boxwood; 94 pcs satinwood. Exports during same period as follows: To Hamburgh, 244 crotches mahogany, value $1,177; to Bremen, 245 logs mahogany, value $2,250; 4,150 logs cedar, value $27,750; 250 tons do, value $7,100; 336 cases do, value $7,675; to Liverpool, 622 logs cedar, value $2,568; to Havre, 247 logs rosewood, value $6,856; to Antwerp, 330 logs mahogany, value $2,303; to Beyrant, 1 pckg mahogany, value $50; to British N. A. Colonies, 280 pcs mahogany, value $231; to Oporto, 30 logs mahogany, value $800; to Cisplatine Republic, 226 pckgs mahogany, value $1,086. Totals: 705 logs mahogany, value $6,353; 172 crotches do, value $344; 227 pckgs do, value $1,135; 4,919 logs cedar, value $31,733; 250 tons do, value $7,100; 336 cases do, value $7,675; 247 logs rosewood, value $6,856.

LATH.—The general tone of this market has continued quite firm throughout the period under review, and all accrued advantage is in sellers' favor. The receipts were fair, indeed at times pretty large, but the demand did not appear to flag in the least, and cargoes found an outlet about as soon as offered, with some buyers even anxious enough to secure stock ahead of arrival, and in one or two cases where quality was known to be extra fine, or the consignment happened to be coming from a favorite mill or locality, 5 c above the market rate was willingly paid in order to shut off competition. Still, on the whole, the policy of holders has been to meet all calls freely, and though this naturally prevents values from increasing to any extent now, it must result beneficially in the end, by preventing too large an accumulation. Dealers have been so busy of late distributing for consumption that they have not found it possible to lay away any very heavy supply, and as soon as the present yard trade subsides, it will be time to look out pretty sharp for stocks for winter use. There is said to be comparatively small amounts due just at the moment, as a large number of the regular vessels are at this end of the route; but no scarcity is looked for, and there is now acknowledged to be a very goodly amount at the mills waiting to come forward. As we conclude our report a good demand is making a place for a pretty large offering, and the market rules firm at $2.35 per M on spot, and $2.40 said to have been obtained on cargoes to arrive.

LIME.—There is nothing very new on this market for the week past, sellers having deemed it advisable to retain about previous rates on most transactions, and keep stock moving as rapidly as possible. In this respect, however, there was no great difficulty, as the trade appeared to be ready to handle all cargoes about as fast as they came to hand, and an accumulation of unsold stock was prevented. The receipts did not prove heavy at any time, and the amounts immediately due are said to be small, but it is intimated outside official sources of information that manufacturers are commencing to feel like realizing a little more freely, with a prospective eye to an enlargement of somewhat contracted bank accounts, and if this be true, the supply of stock available will increase. This, however, may be counteracted to a great extent, if not wholly, as the current purchases by dealers go almost directly into consumption, and should the distribution for this outlet fall off, buyers will no doubt want to secure cargoes to store away. The State lime of finishing quality has met with a good demand, and commanded full market rates readily, with the supply about all sold up, but the common grade sold in quite an irregular manner, and on a great many invoices the usual 5@10 c per bbl concession from regular market rates had to be made in order to secure customers, and sales then were not always quick or liberal. At the close the general offerings are pretty free, but sellers appear to be working off their stock at former rates, and quote at $1.25 per bbl for common; and $1.75 do for lump.

LUMBER.—Retail dealers still speak encouragingly of both the present and prospective condition of trade, and seem to be satisfied that they are as favorably situated in regard to business as could reasonably be expected, and look forward to a steady movement until the usual dullness with the approach of the holidays sets in. The current demand comes from all the usual sources, including builders, manufacturers, Southern shippers, and now and then a small order or two from near-by country points when the quantity wanted is too light to warrant the expense of bringing it from the interior points of distribution. Prices are now pretty generally in a firm condition on all grades and in some quarters an advanced range is talked about, but there is no well enough established improvement to warrant a change on quotations, except here and there to a moderate extent. Goods due this fall are being hurried through with as much expedition as possible, and the supply in yard continues to slowly augment. There is enough here now to indicate about what the assortment will be, and everything shows well for the judgment of dealers in making their selecions as the supply contains pretty much all goods likely to be wanted. In some cases however it is rather singular to note a scarcity of a few of the most common grades, these being overlooked in the desire to secure the fine qualities, but purchases are being made to cover the neglect, and the assortment will be completed before the season closes.

Our wholesale market has been active or dull according to circumstances, but is without any generally new features. Agents for mills, etc., in the interior, are making few if any contracts of magnitude as they are very uncertain as to their ability to deliver fully on previous engagements before the season closes, but receivers of coastwise cargoes having been pretty busy either in disposing of parcels just at hand or others to arrive and now in course of transit. Values have been variable with average advantage if anything slightly in buyers' favor. Deliveries on contract have also continued free, and taking care of these has occupied the time of buyers and undoubtedly diverted attention to some extent from fresh unsold receipts. There is nothing positively new from the sources of supply, manufacturers, dealers, speculators, etc., all holding firmly in order to take advantage of the necessities of the dilatory buyers who are likely to appear as the season draws to a close, but business in some sections is evidently rather below expectations. The export movement here continues rather slow, but shippers are buying a little more freely on the St. Lawrence for West Indian and South American account, and paying full prices readily.

Eastern Spruce has met with a fair demand, but hardly up to the aggregate of receipts, and the market had a slack tone during the greater portion of the week both as regards the movement of goods and the general range of prices. Our dealers are now having stock crowded in upon them from both river and coastwise receipts, and being about as busy as they can drive in getting the lumber stored and out of the way are by no means anxious to engage in fresh operations. Still by watching every call and searching out buyers at other near-by cities receivers have managed to get rid of their cargoes before any serious accumulation took place and without submitting to much of a reduction on prices. One noticeable feature has been the fact that in many cases it was much easier to dispose of the small sizes in the open market than the long sticks, though the latter had a sure sale when offered to certain buyers. The close is steady, but without indications of any early improvement in the demand. We quote at $15@17 per M for inferior to fair; and $17.50@19 for good to prime. White pine is firm at former figures, with a good steady demand on home account, but the export movement somewhat small, aside from an occasional inquiry to fill freight room, etc. A goodly number of lots are coming to hand on contract. We quote at $21@28 per M for ordinary to prime box and shipping boards; and $30 for choice do. Yellow pine of choice length is wanted, and to get suitable lots early buyers would pay somewhat higher figures. It is however difficult to get stock through with any degree of certainty just now, and contracts cannot be closed readily. We quote at $29@33 per M for random cargoes, and $35@38 do for special cargoes. Piling is in demand and steady, but the supply fair, except of very choice sticks.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.

Value	$9,033	$412,984	$452,761

We note additional exports as follows.—

To Liverpool 42 logs maple valued at $1,500; to Hayti, 500 bundles shingles, value $555; to Marseilles, 19,800 staves, to Cadiz 75,320 do.; to British North America Colonies 3,600 do.; to Glasgow 12,000 do.; to London 7,200 do; to Liverpool 5,600 do.; to British West Indies 3,940 shooks; to Cuba 72 do.; to New Granada 100 do.; to Venezuela 105 bundles box shooks.

Receipts reported as follows:—From Jacksonville 300,000 feet lumber; from Fernandina 160,000 feet do.; from Savannah 150,000 feet do.; from Maine coast 21 cargoes lumber, 4 cargoes lath; from St. John, N. B. 698,701 feet lumber, 165,000 lath; from St. George, N. B., 105,979 feet lumber; 151,400 laths, and 413 dock logs; from Musquash, 142,000 feet lumber, 24,000 lath; from La Have, N.

S. 600,000 feet lumber; from Shulee, N. S., 500 pieces piling. Charters as follows:—A Brig, 425 tons, from Brunswick, Ga., to Rio., Lumber $20 and primage, and back to New York or Baltimore, Coffee 27s. 6d.; two Br. Barques (now in Provincial waters, from St. John, N. B., one to Dublin and the other to Belfast, Deals 75s.; a Brig, 297 tons, to Matanzas and back, $3,250 and port charges; two Br. Brigs to St. Johns, N. F., 50c. for Dry and 55c. for Wet Bbls.; a Schr., 125 M lumber, from Satilla River to St. Kitts, $12.50 gold and port charges, and back to New York from St. Domingo, Logwood, $6 currency; one. 160 M lumber, from Pensacola to North Side Cuba, $11.50; a Barque, 246 tons (now at Boston), from Fernandina to Guadaloupe, Lumber, $12.50; a Schr. 150 M Lumber, from Jacksonville to St. Thomas, $13.25; a Brig, 236 tons, to Jacksonville, general cargo, round sum, and back with Lumber, $12.75; a Schr. from Fernandina to New York, re-sawed Lumber and Timber, $11; a Brig, 277 tons, from Pensacola to New York, Lumber, $11.

A despatch from Chicago during the past week says:—

A letter from Oconto, Wis., states that fierce and disastrous fires are prevailing in the lumber regions in that vicinity. The people of Preshtigo expect to be driven from the town. Holme's Shingle Mill, at Peusaukee, several barns, a slaughter house, and immense quantities of wood, hay, and rails, have been burned.

We obtain the following items from the *Saginaw Courier*:—

LAKE FREIGHTS.—The following charters are reported by E. Newkirk: Propellor Dubuque and barge Mariner, Bay City to Cleveland, freight $2.50; propeller Estabrook, Bay City to Toledo, freight $2.50; barges Saginaw and Sheldon, East Saginaw to Cleveland, freight $3: barge A. Walton, East Saginaw to Buffalo, $4.12½; barge Wesley, East Saginaw to Toledo, freight $3.

PINE LAND BURNED.—On Saturday before last about 1,000 acres of woodland near Tawas—on which the timber had been killed by fire several years ago—about 6 miles west of the town were swept over by the flames, which burned with appalling fierceness, and left in their track nothing but a few smouldering logs. Dense volumes of smoke poured out of the woods in the McMillan settlement, frightening the people so that they prepared to leave, but happily their homes escaped unharmed.

RIFLE RIVER.—We learn that the logs are all out of the Au Gres, and all the old logs out of the Rifle River. On the latter stream, however, there are about two million feet of new logs still to come out this season.

SAGINAW LUMBER MARKET.

Sales by cargoes about as follows:—

First clear	$38 00@40 00
Fourths	35 00@38 00
Box	30 00@35 00
Three upper grades—dry	35 00@38 00
Common	12 50@14 00
Shipping culls	6 00@ 7 00
Lath	1 75@ 1 95
SHINGLES—	
Sawed A 1	4 00@ 4 25
Sawed A 2	2 25@ 2 75
Shaved—None in market.	

The *Saginaw Courier* of September 28 says:—

Lumber is firm and active. Many of the mills are out of stock, and during the next ten days not a few will shut down for the season. Mill men who will not cut their own timber are contracting stocks for the next season, and at the high price of logs now ruling the present price of lumber must be kept up, or somebody is going to lose money. A number of sales have been made within the past ten days, $7, $14 and $26 being the maximum, and $6.50, $13 and $35 being the minimum prices realized. Considerable lumbering has been done this fall, and several million feet of this fall stock will come to market this season. On the Rifle there are about two million feet of new logs to come out.

EAST TAWAS, Sept. 21st.

Those heavy rains that we have had have put a stop to the smoking business. The fires are all out on the land, but on Monday night the heavens were all ablaze, and by the way it blows, I should think we shall be visted by the fire and smoke again.

MILWAUKEE, Oct. 4.—A special dispatch to the *Daily News* from Green Bay, says the fires which have been raging in the woods between there and Michigan have extended across Fox River, and cover a strip 30 miles wide in Shawano and Oconto Counties. The large lumbering towns of Marinette and Pishtego are threatened with destruction. The fires are now raging over 3,000 square miles of territory. About 100 families are rendered homeless. Green Bay and other towns are full of refugees. At least 100 other families are in danger of being burned out. Farm buildings, bridges, fences, and absolutely everything have been swept away. Thousands of square miles of valuable pine forests have been destroyed. Bears and other wild beasts have been driven in dismay from the woods, and are flying about in every direction. The entire population has been fighting the fires without success. Many of the people have been prostrated, suffocated by the heat and smoke, and had to be carried by their comrades to places of safety. All supplies of food for man and beast have been destroyed, and starvation during the coming winter stares them in the face.

Extensive fires are also in progress in Minnesota, near St. Paul, doing immeuse damage.

FOREST FIRES IN OHIO—TRAINS DELAYED.

TOLEDO, Oct. 4.—The woods are on fire on both sides of Toledo and Wabash Railroad for the greater part of the way between Antwerp and New Haven, and covering an area of four or five miles. The woods are burning also between Antwerp and Cecil, destroying the timber hundreds of cords of fire-wood, and miles of fences. At Woodburn, Oct., 2, three houses were destroyed, and the steam mill was only saved by breaking furrows in the ground around the building. The trains are delayed in consequence of the necessity of replacing heated rails with new ones. The corn-fields and meadows are entirely destroyed, causing a loss of from $5,000 to $6,000. The fire is still raging.

HEAVY SALE OF LOGS.—At East Saginaw, one day last week, 2,500,000 feet of logs changed hands at $13 per M.

From Savannah we have the following:—

TIMBER AND LUMBER.—TIMBER—The receipts have light and demand fair. We quote: Mill Timber $7@9; Shipping do, 600 feet average, $8@9: 700 feet average, $10@11; 800 feet average, $11@12; 900 feet average, $13@14; 1,000 feet average, $14 50@16. LUMBER—The Mills are generally at work: orders are offered freely. The recent storms have rendered it impossible for the mills on railroads to do full work for the past six weeks, some mills having shut down most of the time. We quote: Ordinary sizes, $20@21; difficult sizes, $21@25: flooring boards, $21@22; ship stuff $20@22, according to sizes.

FREIGHTS.—Vessels continue to be wanted. The few arrivals have not affected the market, and there are still large quantities of lumber awaiting shipment. We quote: To Matanzas, lumber, $8 gold. Timber to Liverpool, 26@ 27s; to Queenstown, for orders, 28@29s: to Philadelphia, $10. Resawed lumber to Baltimore, $7.50: to New York, $10; Sound ports, $11; to Boston, $10.50; to Philadelphia, $9.

DEALS, Bright according to Specification, £20 for 1sts, 2ds, and others in proportion.

Do floated, £19 for 1sts, 2ds. and others in proportion.

Do Spruce do. £8 for 1sts. £5 10s for 2ds, £4 for 3ds.

Our market is exceedingly dull, and we have few transactions to note, owing, in a great measure, to the stringency in the money market, and as long as this continues we cannot look for any improvement.

WHITE PINE.—A few common rafts have been disposed of at 8d to 9d for 48 to 55 feet average; 10d for ordinary 58 feet; 11d to 11¾d for good 49 feet to 51 feet; and for good and superior, 14½d for 54 feet average, 15 inch girth; and 16½d for 70 feet, average, 16 inch girth.

RED PINE—Selling with White Pine Rafts, at 8½d@11d for 40 to 42 feet, according to quality.

ELM—No sales.

OAK—Firm at quotations.

STAVES—In good demand.

DEALS—Selling at quotations.

FREIGHTS—For Liverpool, 31s timber, and 82s 6d deals; London, 82s 6d timber, and 82s deals; Clyde, 27s 6d timber.

From Halifax we have the following:—

LUMBER.—Receipts, 362,681 feet lumber. Exports, 176,700 feet lumber, 80,000 shingles and 5,000 lath.

The recent fires, hurricanes, etc., in the West Indies have created a demand for Lumber and shingles. At Barbadoes white pine lumber was very much wanted, and would bring high rates. Last sales made on private terms. Quotations given, $22.37 and $24.01 for two cargoes. Shingles were also in good demand. Last sales of white pine and spruce being at $3.13 and gaspe at $7.36 to $8.25. In Jamaica a decline has taken place in white pine and spruce, and the demand is not so active. No quotations given. In Demerara white pine lumber was wanted. Last sale $27.54. The principal sales at Barbadoes were for Trinidad, St. Kitts, Antigua and other islands. Porto Rico advices of the 9th inst quote white pine lumber at $27.

SHINGLES.

Long West India (cedar)	$4 70@4 80
Short Shingles do	2 50@2 75
do (pine)	2 50@3 00

A recent report on the Toronto freight market says:—

Vessels have been very scarce and much wanted all week. There have been only two arrivals from the East, but a change of wind having occurred, a good many are expected by Monday. A vessel was chartered to-day at 4c, gold, to Kingston; 4½c is asked to Oswego, and 4¼ was refused. Lumber to Oswego is up to $2.25.

From the *Evening Wisconsin* of Milwaukee we obtain the following:—

The offerings, though better, are still inadequate to the demand, and prices are firmer. We quote scantling and joist at $11.75@12.25; strips and boards, common to fair, at $13.50@14.50; choice do at $15.50@18.50; shingles, "A" or Star, at $3.10@3.20; lath per M pieces, $2.12½; pickets at $8@12.

The scarcity of vessels has caused carriers to advance their views materially, and quotations to-day are nominally 15 and 20c for wheat to Buffalo and Oswego. One charter is reported to have been made to the latter port, to arrive, at the above rate. Rates on lumber have advanced from 75c to $1.50 per M from Green Bay ports. The schooner L. B. Shepard was yesterday afternoon chartered at $3.25 for lumber from Menominee to Chicago; late in the day a vessel was taken at $4 per M for lumber from Oconto to Chicago. One vessel was offered $2.75 per M from Muskegon to Chicago. This would make the rate from Manistee $3.25. We hear of no advance in rates on wood, although they must come up in proportion.

DETROIT, Sept. 28.—For lumber carriers there is a good inquiry, at better rates than heretofore offered. On lumber from Byng Inlet to Cleveland $4.55 is bid, an advance of 75c@$1 over previous rates. Charters are reported as follows:—Prop. Missouri, wheat, Detroit to Buffalo, at 5¾c; schr. Tailor, wheat, Detroit to Oswego, at 10c; schr. Lucy Auchard, telegraph poles, Port Hope to Port Huron, at 15c each, on the rail; scow Storm, dry lumber, Detroit to Cleveland, at $1.50 on the rail.

A letter to the *State Gazette*, Green Bay, Wis., says:—

The conflagration in the woods north of Two Rivers, heretofore reported, continues without abatement. Captain Clark, of the propeller Navarino, reports that the fire has extended six miles north of Ahnepee, and is still sweeping northward. The roads on both sides of the peninsula are on fire. Nearly all the bridges and corduroy roads between Bailey's Harbor and Sturgeon Bay have been consumed. The Peshtigo company has been compelled to stop its establishments and send the men in its employ to fight the fire, which they had done for two days. The inhabitants of Oconto are also busily engaged in fighting the fire. Large amounts of valuable pine timber have been consumed, also an immense quantity of wood, bark, and ties, ready for shipment. Mr. Green, owner of a pier five miles north of Kewaunee, loses 800 cords of wood, besides bark and ties. Horn's pier at the clay banks is consumed, with a large amount of wood and 600 cords of tan bark belonging to the Wisconsin Leather Company. The same company had 250 cords of bark burned near the Two Rivers. Their loss is believed to be $3,500 or $4,000. Many farmhouses and outbuildings have been consumed. At one time the fire threatened to sweep through the town of Ahnapee, and several buildings in the outskirts were destroyed before the danger could be averted. The country along the lake shore, between Two Rivers and Peshtigo, looks as if a hurricane of fire had swept the ground. The smoke is so dense that navigation is almost impossible. The loss by the conflagration in Kewaunee County alone already reaches $200,000. Nothing but a heavy rain will check it.

The Pensacola *Mail* of Sept. 29th reports as follows:—

TIMBER.—As yet quotations of hewn timber can only be nominal, as we have not had enough rains to raise the creeks and rivers and bring timber to market. Contract prices are much the same as last year. We quote:—

60 feet average	10c.@11c.	per cubic feet.			
70 "	"	11c.@12c.	"	"	"
80 "	"	12c.@13c.	"	"	"
90 "	"	13c.@14c.	"	"	"
100 "	"	11c.@16c.	"	"	"

For B1 good class and upwards delivered at Ferry Pass.

In sawn timber there is already some activity, and we find a number of our mills preparing to supply a very large quantity this season. We quote:—

25 feet average	12c.@14c.	per cubic feet.			
30 "	"	14c.@16c.	"	"	"
35 "	"	16c.@18c.	"	"	"

Delivered at vessel.

The Boston *Commercial Bulletin* says:—

The market for lumber is active, and most grades are firm at last week's prices. The arrivals are light for the season, and the retail yards are doing a good business and gradually reducing their stock. They have not as yet taken on a full supply for Fall and Winter, and most cargoes are disposed of about as fast as they arrive. Building operations continue fairly active, and more work is being done in this line than is usual at this season. Western lumber is fairly active at full rates, and with liberal receipts and a steady demand, the market is buoyant.

Shingles and spruce clapboards are in large stock, but the demand is extremely light. Prices are unchanged.

Canada lumber is very firm and prices have anvanced. The demand is good. Water is low in Canada, and the mills are doing only a limited amount of business. Stocks at Burlington are fair, and there is great firmness manifested on all sides. Canada is, and will be for many years, the great source of supply for New England, New York, and New Jersey, the coast cities, and, within a few years, Pennsylvania. Possessing a vast territory, with large resources of timber, its capacity of production is great; but it is a hard country to lumber in, and it has also to meet the large and increasing demand of Great Britain, the European continent, South America, Australia, and other parts of the world. Its forests suffer fearfully from fires, as well as by a wasteful system of lumbering. It has also an immense amount of over-ripe pine. Strange as it may seem, it is a fact that the finest qualities of pine in Michigan are being cut, to a limited extent, for the Quebec market.

The following are the surveys for the week:—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	1,327,161	Spruce	1,583,056
Hemlock	274,615	White Wood	16,548
Black Walnut	187,004	Hard Wood	14,689
Total			3,403,073

METALS.—There has been only a moderate demand for manufactured copper, in fact, the market presents no new feature, holders still remain firm in view of the small stock in their hands. We quote at 32c for new sheathing; 23c for yellow metal, and 20@21c for old sheathing. Ingot Copper has been less active, but the market remains firm, consumers are fairly stocked Supplies are small sales at 23¾@24 for spot, Oct., Nov., and Dec., delivery. Advices from London report a dull and unchanged market. There has been a good demand for Scotch Pig Iron, but business was checked by the light supply. Prices ruled firm but show no material alteration, only on the extreme which is 50c higher, closing at $34@38.50. American do has been more active, and prices have advanced. We quote at $37@38.50 per ton for No. 1; $35@36 do for No. 2, and $33@34 do for forged. Refined Bar Iron has been in good demand at an advance. The price in Philadelphia is $84, in Philadelphia equal to $86.25 laid down here. Advices from Liverpool have been of a favorable character. We quote from store as follows:—Bar Swedes, $107.50@120.50; refined, ordinary size, $85; refined, 1¼ to 6 by ¼ and 5-16, $90; refined, 1 and 1½ by ¼ and 5-16, $92.50; refined, 2½ to 3 round and square, $92.50; scroll, $102.50@132.50; ovals and half round, $102.50@122.50; band, $97.50; horse-shoe, $100@106; rods, 5-8 to 3-16 inch, $90@125; hoop, $107.50@150; nail rod, per lb., 6¾@7c. Common sheet Iron has been in good demand at full prices. The mills are still busy running on orders. We quote at 4¾@5¾c for single D and T., and 5¼@6¼c for D. and T. Charcoal. Galvanized Sheet continues in good demand and the market remains firm. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 30 per cent. to the trade. Russia Sheet is in reduced supply, in fact, there is nothing here, and prices are nominal. We quote at 16@16½c gold according to number, and sound do 17c. The demand for pig lead continues light and prices remain as nominal as ever. We quote at 6@6½c per lb. gold for common to good foreign. Manufactured Lead is unchanged, 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin has advanced under favorable telegrams from London, the business, however, has been only to a moderate extent. We quote in coin at 35¼@35½c for English; 36¾@37c for Straits, and 41@42c for Banca. Plates have been in fair demand, and prices are unchanged. Mosselmann Sheet remains steady with a fair jobbing demand, sales from store at 8@8¼ gold nett, and 9¼@9½ currency, also a sale from agents hands to arrive at 8¼ less 4 per cent. gold.

NAILS.—The general demand still fails to improve and the market has continued in a dull and somewhat unsatisfactory condition since our last. Some few manufacturers are behind in the orders to be sure, but the majority could easily supply a much larger outlet for goods than any now presented, and stocks in some quarters commence to accumulate with a little rapidity. Exporters have taken fair amounts, but they operate very closely to actual orders as the condition of the gold and freight markets makes them very cautious and indisposed to handle goods for which a place has not been positively secured. The home trade is somewhat indifferent as the amounts in the interior are pretty full. Full former figures are asked according to price list and are the nominal market rates, but desirable customers can obtain some very fair concessions in a quiet way. We quote per 100 lbs.: cut, 10@60d, $4.50; cut, 8@9d, $4.75; cut, 6@7d, $5; cut, 4@5d, $5.25; cut, 3d, $6; cut, 2@3d, fine, $6.75; cut spikes, all sizes, $4.75; cut finishing, casing, box, etc., $5@$6.50; clinch, $6@6.50; horse-shoe, forged, No. 10 to 5, per lb., 19@31c. Other styles are selling as follows:—Copper, 36@38c per lb.; yellow metal, 22c do. The exports for the week are 521 pckgs., valued at $3,959; and since January 1st, 12,678 pckgs., valued at $80,019. We also notice shipments of — pckgs. to San Francisco.

PAINTS AND OILS.—The demand for invoices in a wholesale way has continued moderate, and we have again to note a dull and somewhat uninteresting market. The call in the main appears to come from local jobbers, and dealers taking just enough stock in odd lots to keep up assortments, though now and then a small call is made on account of interior operators and a few exporters can be found looking around on positive orders, though the foreign movement is somewhat restricted by the irregular condition of gold and the high cost of freight accommodations. The stocks in first hands are very fair and rather increasing during the present lull, both in quantity and assortment, the imports keeping up to an average and the domestic production running pretty full. The retail distribution has become dull also, and the majority of dealers are now merely filling their customary orders from regular buyers. On values there appears to be no quotable change of importance from all accounts, but there is an absence of any great amount of strength, and first-class buyers could probably obtain somewhat easier terms. Linseed Oil has been in moderate demand throughout, and the market is in a generally dull condition, with the feeling on prices rather tame. Crushers have resisted a decline as a rule, but the slow movement of stock had the usual effect, and in odd lots offerings were occasionally made quietly at something off regular rates. We quote at about 82c.@83c. in casks. Exporters call for very little, the outlet being mainly on home account.

Exports as follows:—

	This week.	Since Jan. 1. 1871.
Paint.....pckgs.	181 value $1,490	6,760 value $106,246
Linseed oil, galls.	— " —	9,453 " 8,629
Oxide zinc. pckgs.	— " —	3,420 " 35,610

PITCH.—Owing to the advance in Rosins the market for this product has become firmer though the demand has been only moderate. We quote at $3.25@3.50 for city; $3.37½@3.62½ for Southern; and small lots very choice in a jobbing way, from store, $3.75@4.. Receipts for the week nil bbls; since January 1st, 640 bbls; for same time last year, 2,192. Exports for the week 60 bbls; since January 1st, 2,184 bbls; same time last year, 3,015 bbls.

SPIRITS TURPENTINE.—There is a further advance to report, although the business done since our last has been quite moderate. The business has been done chiefly for home use, although we note considerable many sales for export, and one or two of large size. The Wilmington market has been very firm, not having fairly recovered from the late corner. The price there has not varied much from 60c, leaving no margin for shipping to this market. We quote at 64@65c for merchantable and shipping order, and 65@66c for New York bbls; small lots at 65@66c; and retail lots from store at 66@67c. Receipts for the week, 2,148 bbls; since January 1st, 49,940 bbls, and for the same period last year, 52,668 bbls. Exports for the week, 913 bbls; since January 1st, 11,771 bbls, and for the same period last year, 14,374.

TAR.—There has been more trade done during the past week, but at generally easier prices. The demand is exclusively from the home trade, one or two lots only have been taken by exporters. We quote as follows:—$3@3.12½ per bbl for North County, as it runs $3 per bbl for Wilmington, and $3.10@3.25 for rope, and occasionally $3.50 @3.75 for something very choice in a small way. Receipts for the week, 30 bbls; since January 1st, 16,881 bbls; for corresponding period last year, 44,777 bbls. Exports for week, 150 bbls; since January 1st, 8,447 bbls and corresponding period last year, 13,881 bbls.

ALBANY LUMBER MARKET.

The *Argus'* report for the week ending October 3, 1871, is as follows:—

Private letters state that nearly every mill in Canada is suffering from low water, and that a large quantity of lumber must consequently remain behind this season. The supply of water has not for many years been known to be so low as it is at present. The general opinion is that very little more lumber will be got out of the Ottawa this fall, as the barges could not run. For lack of water many of the mills were shut down. We speak of this as it will materially lessen our receipts of lumber from that section, though the receipts from October 1 last year to the close did not exceed 100,000,000 feet. The high rates of lake and canal freights will also have a tendency to lessen receipts from Michigan. Indications are favorable for a firm and steady market. Shipments, as is usual at this season, are active, and barges are in demand. The wholesale and retail yards at the various points South and East report a steady trade. Spruce still scarce on account of low water North.

The Chicago *Daily Tribune* reports the receipts and shipments of lumber for the seasons of 1871 and 1870 as follows:—

	Received. Feet.	Shipped. Feet.
1871	785,738,000	414,747,000
1870	724,968,000	406,103,000
Increase	60,770,000	Dec. 31,356,000

The receipts at Buffalo during the week, by lake and rail, are reported at 8,400,000 feet; at Oswego, by lake, 8,550,800 feet.

The receipts at Albany by the Erie and Champlain canals for the fourth week in September were:—

	Bds. & sctl'g, feet,	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	17,161,400	533	....	....
1870	13,414,100	1,728	1,250	807,000

Of the boards and scantling received, 12,079,000 feet were by the Erie, and 5,082,400 feet by the Lake Champlain canals.

The receipts at Albany by the Erie and Champlain canals, from the opening of navigation to October, were:—

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	316,833,400	23,877	....	8,298,900
1870	326,804,400	15,481	1,250	14,739,200

Lake freights are $4 to Buffalo, $6@6.50 to Oswego. Canal freights from Buffalo to Albany are $7.50 on hard wood, and $6 on soft; from Oswego to Albany, $3.75.

River and Eastern freights are unchanged. We quote:—

To New York, per M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	3 00
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, per ton, to Boston	2 50

TIN-LINED LEAD PIPE is a Block-Tin Pipe heavily coated with solid lead. Tin is a metal closely resembling silver, both in color and purity: hence water flows through tin-lined lead pipes as pure as if drawn through silver. It is as flexible and as easily worked as lead pipe; it is also stronger and more durable. By its use iron-rust, lead and zinc poison are all avoided, and general health promoted. Price, fifteen cents a pound for all sizes. Circulars and sample of pipe sent by mail free. Address the

Collwells, Shaw & Willard M'f'g Co.,
No. 213 Centre Street, New York.
Also, Manufacturers of Block-Tin Pipe, Sheet-Lead, Lead Pipe, Solder, etc. ORDERS SOLICITED.

BOYNTON'S

Portable "Salamander"

FURNACES.

Surface or Base Burners.

THIS NEW AND POPULAR PORTABLE FURNACE HAS BEEN TESTED IN LARGE NUMBERS during the past three years, and we feel perfectly SAFE in stating that there never has been a more SUCCESSFUL FURNACE introduced in the market, and one that has acquired so FAVORABLE AND EXTENDED A REPUTATION.

The SUCCESS of the BOYNTON SALAMANDER PORTABLE FURNACE for the past THREE YEARS has been so REMARKABLE, that we have been induced to adapt the THREE LARGEST SIZES TO BRICK WORK, and by the addition of a CAST-IRON RECESS FRONT, we are prepared to furnish a BRICK-SET FURNACE at a price almost as cheap as a PORTABLE, and one that we will GUARANTEE to give entire satisfaction.

They are adapted for Heating all classes of Private and Public Buildings.

Also, RANGES and STOVES in large variety.

We always guarantee the work we do ourselves to be perfectly satisfactory.

TIN-LINED LEAD PIPE is a Block-Tin Pipe heavily coated with solid lead. Tin is a metal closely resembling silver, both in color and purity; hence water flows through tin-lined lead pipes as pure as if drawn through silver. It is as flexible and as easily worked as lead pipe; it is also stronger and more durable. By its use iron-rust, lead and zinc poison are all avoided, and general health promoted. Price, fifteen cents a pound for all sizes. Circulars and sample of pipe sent by mail free. Address the

Collwells, Shaw & Willard M'f'g Co.,
No. 213 Centre Street, New York.
Also, Manufacturers of Block-Tin Pipe, Sheet-Lead, Lead Pipe, Solder, etc. ORDERS SOLICITED.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

CLARK ST., NO. 5, REAR, ONE FOUR-STORY BRICK work-shop, 24.1x20; owner, JOHN M. STRACHAN; architect, JULIEN CREVIER, JR.; builder, G. M. LITHGOW.

EIGHTY-FIFTH ST., S. S., 80 E. 1ST AV., ONE THREE-story brick dwelling, 20x40; owner, THOMAS GILLIS; architect, JOHN MCINTYRE; builders, J. M. & E. THORP.

FORTY-FIRST ST., S. S., 300 W. 9TH AV., FOUR four-story brick tenements, 25x58; owner, MICHAEL DOOLEY; arthitect, W. H. CANVET.

FORTY-THIRD ST., N. S., 200 E. 10TH AV., ONE four-story brown-stone tenement, 25x61; owner and architect, JAMES SCOTT.

FORTY-FIFTH ST., S. S., 200 W. 9TH AV., ONE TWO-story stable, 21x78; owner, N. GARDNER; architect and builder, W. P. TYSON.

FORTY-FIFTH ST., N. S., 100 W. 10TH AV., ONE six-story brick factory, 25x100; owner, W. P. BROWN.

FIFTY-FIRST ST., N. S., 200 W. 2D AV., ONE five-story brown-stone tenement, 20x60; owner, E. V. LOEW; builders, BREEN & MASON.

FIFTY-SECOND ST., S. S., 100 E. 7TH AV., TWO five-story brick tenements, 25x60; owner, J. J. BURCHELL; builder, G. W. WATKINS.

FIFTY-THIRD ST., N. S., 129 E. 9TH AV., TWO four-story brick tenements, 29.9½x40; owner, M. HULLIHAN; architect, CANVET; builder, MICHAEL BRESNEY & CO.

FIFTY-EIGHTH ST., N. S., 75 E. 10TH AV., ONE two-story brick public building, 30x50; owners, ROOSEVELT HOSPITAL; architect, CARL PFEIFER; builder, J. T. SMITH & CO.

FIRST AV. AND 123D ST., N. W. COR., TWO FOUR-story stone stores and tenements, 22x28x50; owner, J. S. DALE; architect, J. DOUGLAS; builders, HENRY & WALKER.

MADISON AV. AND 37TH ST., N. W. COR., ONE four-story brick dwelling, 28x60; owner, H. R. CORNING; architect, S. D. HATCH; builder, ALEXANDER M. ROSS.

NINTH AV. AND 49TH ST., N. E. COR., THREE four-story brick stores and tenements, 25x60x50; owner and architect, JOHN J. BURCHELL; builders, JAMES A. FRAME and G. W. WATKINS.

ONE HUNDRED AND TWENTY-FIFTH ST., N. S., 90 e. 3d av., one three-story brick stable, 35x30; owner, LEVI ADAMS; architect, S. B. ISAACS; builder, HENRY DAVIS.

ONE HUNDRED AND TWENTY-SIXTH ST., N. S., 185 w. 2d av., three three-story brown-stone dwellings, 16.8x42; owners, BRETLETT BROS.; architect, W. H. HANLON; builder, W. J. HARGRAVE.

ONE HUNDRED AND TWENTY-SEVENTH ST., S. S., 280 w. 3d av., one three-story brown-stone dwelling, 20x45; owner, E. B. STEAD.

SEVENTEENTH ST., S. S., 100 E. 9TH AV., TWO four story brick tenements, 18.9x50; owner, ALBERT L. THOMPSON; architects, J. J. & L. B. HOWARD; builders, L. J. MEAD and JAS. M. POST.

SEVENTY-SIXTH ST., N. S., 155 W. 3D AV., ONE three-story brick public building, 25.8x80; owners, HEBREW BENEVOLENT AND ORPHAN ASYLUM; architect, HENRY FERNBACH; builder, JOHN E. SIDMAN.

SECOND AV. AND 112TH ST., N. E. COR., ONE four-story brick store and tenement, 18.10x50; owner, PATRICK LALOR.

SECOND AV., E. S., 75 S. 44TH ST., ONE FOUR-story brick store and tenement; owner, J. J. BURCHELL; builder, J. A. FRAME.

TWENTY-SIXTH ST., N. S., 100 E. 2D AV., FOUR five-story brick stores and tenements, 25x60; owner, JOHN J. BURCHELL; builder, J. A. FRAME.

THIRTY-SEVENTH ST., S. S., 150 E. 9TH AV., FOUR five-story brick stores and tenements, 25x60; owner, JOHN J. BURCHELL; builder, J. A. FRAME.

THIRTY-EIGHTH ST., N. S., 250 E. 2D AV., ONE five-story brick store and tenement, 25x54; owner, M. GAVIN; architect, J. JOHNSTONE.

THIRTY-NINTH ST. (WEST), FROM NO. 328 TO 332, one five-story brick factory, 42x83; owner, A. FINK; architect, A. PFUND.

EIGHTEENTH ST. (NO. 229 WEST), REAR, ONE four-story brick tenement, 25x26; owner, W. E. SCHEFER; architect, CHARLES COCHRANE.

ALTERATIONS IN BUILDINGS.

Two brick dwellings, south side of One Hundred and Twenty-fifth street, 100 feet east of Third avenue, four stories, 52 by 52 and 80, first floor to be converted into stores; Levi Adams, owner.

One brick dwelling, No. 15 Roosevelt street, two stories and attic, 25 by 45, attic story to be raised to full story; F. A. Conklin, owner.

One brick dwelling, No. 40 West Twenty-ninth street, three stories, 20.7 by 42, two stories to be added and extension 20.7 by 32, 53 feet high; W. D. Avery, owner.

One brick dwelling, north side of Fourteenth street, 80 feet east of Fifth avenue, four stories, 33 by 70, first story to be converted into stores; Wm. Simpson, owner.

One brick store and dwelling, No. 100 Orchard street, two and a half stories, 18 by 25, attic story to be raised to full story, and first story converted into a store; Lyons, Fellows & Brown, lessees.

One brick first-class store, No. 69 Robinson street, five stories, 23.9 by 38, front to be taken down and rebuilt on new street line; Wm. R. Renwick, owner.

One brick workshop and stable, No. 232 East Fortieth street, two stories, 25 by 55, two stories to be added, and extension 10 by 12, 19 feet high; C. Flerx, owner.

UNSAFE BUILDINGS.

Tenth avenue, ten buildings from Fifty-fifth to Fifty-sixth streets, Morris Poznanski, owner; unsafe rear walls.

Sixth street, Nos. 726 and 728, Dederick Johnson, owner; unsafe walls.

Tenth street, building south side, 100 feet east of Avenue D, John Roach & Son, owners; unsafe front wall.

Grand street, Nos. 72 and 74, William W. Winans, owner; unsafe walls, timbers, piers, and floors.

Tenth avenue, No. 492, Eleazer Ayers, owner; unsafe south wall.

Grand street, No. 260, Samuel S. Bancker, owner; unsafe front wall.

Broadway, Nos. 395 and 397, David Selling, agent; unsafe ceilings.

MARKET REVIEW.

BRICKS.—The general tone of the market has continued very firm and quite encouraging for the selling interest, and prices have improved throughout on hard bricks, with the receipts selling just about as fast as they come to hand, and, indeed, a great many cargoes were disposed of previous to arrival, on the reputation of the maker's name alone. The weather, as a rule, has proved most favorable for outdoor work, and aided the consumption materially, and some wholesale dealers say it seems as if builders and contractors could never get enough stock. One of the best features of the prevailing demand was the fact that nearly every brick bought will probably go into immediate use, so far as is known, nothing having as yet been piled away for winter stock. The quality of the offering is not altogether as fine as might be, or as buyers desire, but manufacturers naturally take advantage of a free outlet and work off their poorest lots first, reserving the better grades for such time as buyers may begin to feel a little offish and require some inducements to make them operate quickly. In addition to the wants of this city and Brooklyn there is also a steady call from Jersey City, Newark, etc., and considerable shipments still making to the Eastward. The grades wanted for the latter outlet range pretty high in quality, and would command about $10 here, but sellers make slightly easier terms, say $9.75 per M, in order to stimulate the demand from Eastern buyers, for by so doing they manage to keep our supplies at all times a little short, not so much in the matter of the number of brick sold as from the diversion of the means of transportation to other sources. We quote at present at $9 per M for about the lowest figure on merchantable stock, up to $9.50@10 per M for prime to choice, with now and then fancy Haverstraw stock reaching $10.50 do. The production continues quite free at most points, but many of the makers are preparing for the last burning of the season. New Jersey Hards have continued to sell to about the full extent of the supply, and ruled firm at $8@8.50 per M, with some extra fine lots reported at $9 per M. Pale Brick have been very much wanted, and the supply inadequate to the demand. Prices naturally, under the circumstances, ruled quite firmly, with $5.50 per M easily obtained, and $6 more frequently than before the close still favoring sellers, in view of the fact that in preparing their last and largest burning, manufacturers will require nearly all the stock they have on hand, and cannot send forward many cargoes for several weeks to come. Philadelphia Fronts steady and in good average demand at $28@30 per M on pier. Croton Fronts selling moderately, but without change in price, with quotations standing at $12, and $14@15 per M for brown, and dark and red

LATH.—While manufacturers and their agents here claimed to have gained rather than lost confidence in this market they have been obliged to exercise a great deal of patience, and submit to a very slow improvement in values, the advantage for the selling interest amounting to only about 10@15c per M for many weeks. Trade, however, has been in a very healthy condition throughout, and cargoes found an outlet about as soon as offered, while in the meantime the distribution on consumptive account was so liberal as to keep dealers on comparatively scant allowance in yard at all times. The early wants of the city are not by any means satisfied as yet, and beside this some winter stock must be accumulated, all of which would seem to indicate that a good outlet is open for supplies, and receivers certainly are justified in talking encouragingly, though a very decided advance until towards the close of the fall is not likely to occur. The production is growing smaller as the season advances, but there is a good many lath at the mills yet to come forward, and there is no danger of any other scarcity than such as may be produced by a combination to hold back supplies. No decided change has taken place on prices during the period under review, but everything offered found a quick sale at full former figures, and the market closes firm at $2.35 per M.

LIME.—The market for Eastern has shown a pretty firm tone, and business has been very fairly active with indications that a larger movement would have taken place had the supply been available. The season now begins to approach for a more rapid and general consumption, and as after this flurry is over, dealers will begin to think of laying in winter supplies, the selling interest feels duly encouraged. Both kinds are inquired after, but if anything, lump has a little preference at the moment to fill a few special orders. The supplies now available, or likely to become so are said to be small, but manufacturers seldom fail to have enough cargoes on hand when there is any positive demand for them, and a scarcity of stock is hardly to be apprehended. "Nothing new" is reported for state lime, the finishing grades finding a very fair outlet, and commanding full figures, and common still showing the usual irregular and nominal tone, though with the exception of very large orders, probably selling a little more closely to the general quotation than two or three weeks ago. Supplies are said to be coming forward with a fair amount of freedom, and some preparations making to pile up a winter stock under agents control. As we conclude our report, there is very little stock on the market, and the feeling quite firm at $1.25 per bbl for common; and $1.75 do for lump.

LUMBER.—We find "nothing new" to be the general report among the trade for the period under review so far as the retail movement is concerned, and in consequence have little of interest to advise. Business seems to be moving along to about the same average extent as for several weeks past, and to preserve a sort of general character, nearly all the regular styles being called for in large or small quantities, with however now and then a buyer to be found who wants something extra nice in the way of seasoned wood, etc. In the latter case it of course costs a little more to operate than usual but prices as a rule are now pretty firm with some approach to buoyancy on the most desirable styles. The stock of old supplies is rather small, but of new stuff there is a large and constantly increasing accumulation with a goodly amount still to come, the deliveries on spring and summer contracts showing themselves from all quarters. As noted last week the selections of the trade have apparently been made with some care, and though of course not seasoned, the assortment is about all that could be expected, especially in the soft woods. Some of the hard woods are deficient in the prime and the choice grades, though to what extent, can hardly be ascertained until the demand is more fully developed.

The demand for wholesale parcels seems to have been active enough so far as the current arrivals were concerned to keep the market clear of stock, but not many contracts have been made, particularly with the interior mills, and buyers seem now to be rather offish as a rule, though exceptions can be found in the way of dealers who have neglected operations somewhat or miscalculated as to actual wants, and are now in a hurry to secure supplies before it becomes too late. Reports from various sections of the country are still all very strong and indeed in many cases buoyant and this is most undoubtedly felt here, though dealers have been claiming for a long period that they should be able to so conduct matters as to force producers into a modification of views before the close of the season. It certainly doesn't look like anything of the kind just now, and the time is growing remarkably short in which to bring about a change. The exports have for some time been about the same as last year and shippers seem to work along easily and indifferently, taking only such lots as are required for positive orders, especially as they find the supply very good both as to assortment and quantity. On the St. Lawrence the outward movement continues large and at full prices.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.

On Eastern Spruce the supply has again proved just about all the market required, with now and then a little to spare, and there was in consequence something of a tame and unsettled feeling noticeable throughout the period under review with opportunities occurring for buyers to secure pretty cheap parcels. Still there could not be said to prevail any decided weakness, nor a desire on the part of receivers to urge the market, and there appears to be full confidence in a reaction as soon as dealers can obtain room for storage, and time to attend to the selection of cargoes. The Maine shippers have been sending a fair proportion of the supply for the past few weeks, but there has also been large amounts received from the provinces. The market closes with a fair supply, offering a light demand, and prices only steady. We quote at $16@17 per M for inferior to fair specifications; and $17.50@19 for good to prime do. White Pine does not show any very positive advance, but has ruled quite firm and uniform on all grades and met with a good demand for manufacturing purposes and a few calls for shipment. The stocks on hand are now pretty large and rather on the increase. We quote at $21@28 per M for ordinary to prime box and shipping boards; and $30 for choice do. Yellow Pine continues in good demand and very firm in view of the small supply available to meet the call. Some lots come to hand

certainly, but they are on orders of many weeks standing, and present buyers are unable to learn positively when they can satisfy their wants. There is lumber and timber enough accumulated at the principal points of shipment but no vessels to ship it by, and not likely to be many until danger from contagious diseases is pretty generally removed. We quote at $29@33 per M for random cargoes; and $35@38, and even $40 per M for special cuttings.

The terrible disaster to the city of Chicago has, of course, excited the sympathy of our lumber dealers, and in connection with the citizens of New York generally they have been prompt in sending substantial and liberal aid to the sufferers. The effect of the fire upon business has not shown itself to any extent as yet, and will not until full details of the position are obtained. As in all other business circles, however, the disposition of operators is to move with much caution, the fears of a tight money market dictating the course as the best for the present.

Messrs. Carbray & Routh, lumber commission merchants, of Montreal and Quebec, Canada, report as follows, under date October 1:—

A review of the lumber market as it now stands in Canada is soon done, as it would not be a great exaggeration to say in one word "Sold out." The year near closing has been a busy one for mills here, and must also have been a profitable one, as never before have such high prices in the spring been not only maintained but gradually increased, under a large demand as the year progressed.

In the Ottawa section the mills on the small tributaries are stopped since July for want of water, and though usually resuming about the middle of last month, they are still idle, with no immediate prospects of a change for the better. The mills on the large rivers have worked hard till now, but unable to ship their lumber on account of low water, they are now shutting up for want of piling ground with the expectation of resuming when the rivers rise. The greater part of this lumber is under contract, and causes great inconvenience to buyers, who had relied on getting it before now. Common lumber is very scarce, culls are not to be had; some nice lots of good lumber could still be picked up in this section, but full prices would have to be paid. On the St. Lawrence, we know of mills each of which have every winter carried over regularly several million feet of lumber that have, even at this comparatively early date, not a stick unsold on hand, and have buyers for more lumber than they can make, and are going round, fruitlessly, however, trying to pick up some lots to keep their customers supplied. It was expected that Deals would recover the falling off they experienced this summer; such has not, however been the case; stocks are very heavy in England on account of an uneasy feeling that matters are not yet definitely settled on the continent, and this, coupled with unusually high rates of freight, prevents business resuming any of its former vigor. Holders are, however, in nowise discouraged, and some large English buyers are quietly paying for their Deals, and causing them to be piled here till the spring. Common boards in this section are very difficult to pick up, and prices are high; some nice lots of d al sidings could be bought at very fair quotations. Spruce is in good demand at full rates, but is getting scarce.

Freights for United States from points on the St. Lawrence are lower than at the same time last year, on account of the difficulties to be encountered on the Ottawa, causing a rush of boats for the former section.

We might notice here an increased activity in the demand for mill property in Canada; there is, however, a fair field for enterprise in this line, and no fear, with present prospects, of overdoing it.

Shipments to River Plate from the St. Lawrence show this year to Oct. 1st, 27 vessels, carrying 10,226,000 feet, against 41 vessels, carrying 15,060,000 feet, to same date last year.

We note additional exports as follows: To Porto Rico, 50 bundles lath, value $225; to Hayti, 15.000 shingles, value $90; to Liverpool, 9,378 staves; to London, 5,700 do; to Glasgow, 3,600 do; to Havre, 7,186 do; to Oporto, 5,760 do; to British West Indies, 467 shooks; to French West Indies, 645 do; to Porto Rico, 28,000 hoops, 2,256 shooks; to Brazil, 8,000 shooks. The receipts reported are as follows: From Jacksonville, 200.000 feet lumber; from Pensacola, 163.000 do; from Norfolk, 85,000 shingles; from Maine coast, 22 cargoes lumber, 6 do lath, 1 do piling; from St. John, N. B., 864,290 feet lumber, 31,000 lath; from Musquash, 170,000 feet lumber, 25.000 lath; from Sand River, N. S., 400 pcs piling; from Two Rivers, N. S., 450 pcs piling; from Rockland, N. B., 335 pcs deals. Charters as follows: a schr. from Wilmington, N. C., to Porto Rico, lumber, $13, and back to New York from St. Domingo, logwood, $6 and port charges; a schr. from Brunswick, Ga., to Martinique, lumber, $13; one, 225 tons, to Kingston, Jam., 75c ₱ bbl; one, 180 M lumber, from Satilla River to Barbadoes, $13.

Recent Rio Janeiro dates report as follows:—

Pitch Pine Deals.—We note arrival of the Chanticleer, from Pensacola, with 181,000 feet; this cargo was placed many months ago at 40‖000 ₱ doz. The cargo of 400,000 feet to arrive per Alice Tainter has been sold at 46‖000 ₱ doz. We quote 45‖000@48‖000 ₱ doz., 3x9x14, according to the assortment.

Lumber—Is in better demand, and may be quoted 100@105 rs ₱ foot.

The following report appeared in the Chicago *Times* of October 7th.

The receipts for the week are—

	Lumber. Feet.	Shingles. No.	Lath. No.
Monday	856,000	3,260,000	150,000
Tuesday	3,519,000	2,895,000	140,000
Wednesday	3,846,000	2,040,000	668,000
Thursday	4,851,000	1,002,000	315,000
Friday	3,312,000	1,830,000	100,000
Total	16,364,000	11,027,000	1,373,000
Since Jan. 1, 1871	815,222,000	592,842,000	64,592,000

The shipments for the week are:—

	Lumber. Feet.	Shingles. No.	Lath. No.
Monday	2,250,000	2,373,000	383,000
Tuesday	1,256,000	1,296,000	66,000
Wednesday	2,741,000	2,214,000	167,000
Thursday	2,015,000	1,576,000	79,000
Friday	2,276,000	1,783,000	263,000
Total	10,618,000	9,242,000	958,000
Since Jan. 1, 1871	453,773,000	396,512,000	50,684,000

Cargoes.—Yesterday was one of the most active days of the season in the wholesale lumber traffic. The large fleet of lumber-laden crafts that arrived on Thursday afternoon were on sale, and with a fair wind a large number of vessels arrived during the day. Both country and city buyers entered the market early, and by noon the sales docks were nearly cleared, about 40 cargoes having been disposed of. As regards prices, the feeling was firm, though the advance in joist and scantling that occurred on Thursday was not sustained, sales being made at $13.50. Strips and boards were active and firm at full prices. Shingles and lath were steady and unchanged. We quote the closing prices as follows:—

Joist and scantling	$13 50@14 00
Common strips and boards	14 00@15 00
Good strips and boards	15 50@17 00
Choice mill-run	18 00@22 00
Shingles	3 20
Lath	2 12½
Pickets	8 00

A few short hours after the above report appeared, the best portion of the City of Chicago, was a heap of blackened and smouldering ashes, the *Times* building and all its contents being consumed in the general ruin. With true Western enterprise, however, the proprietors have taken prompt steps to resume operations, and just as soon as type, presses, and paper can be procured, the paper will be again issued.

The shipments from the port of Saginaw for the month of September, 1871, were:

Lumber	29,484,228
Lath	2,442,000
Shingles	10,005,500
Salt, bbls	13,948
Headings	105,000
Wood, cords	15
Ash lumber, ft	91,000
Staves	100,000

Good Day's Work.—The last issue of the Alpena *Pioneer* has the following: Last week Gilchrist's mill cut 75,000 feet of lumber in one day, with one 5 feet circular saw, one Mulay and one gang. The engine is 14 inches.

The Muskegon *Enterprise* says:—

Lumber—The following shipments of lumber from this port, during the month ending Sept. 15th, are furnished us by G. P. Kingsbury. There were 396 shipments during the month. The following amounts are reported:

Lumber, feet	44,632 000
Lath	7,767,000
Shingles	725,000
Pickets	3,000
Ties	800
Cords Slabs	105
Cords Tanbark	49

A large quantity of lumber and shingles has also been shipped by rail, of which we have no account. We will furnish our readers, during the balance of the season, the above statistics, and will endeavor also to obtain the shipments by rail, which will largely increase the figures.

The number of vessels cleared from Manistee port for the month ending Sept. 25th, was 174, carrying away 24,578,000 feet of lumber and employing 1,639 men.

We obtain the following from the Green Bay *State Gazette* of recent date:—

AMONG THE MILLS.—A FEW WEEKS' VISITING THE SHINGLE MILLS, FROM SEPT. 6TH TO 7TH.

Big Suamico, 15 miles from Green Bay, Wis.

GREVY'S MILL

has done well this season—plenty of logs, but they have suffered some from the want of water. The manager, Milo Turners, since he has had charge, has made improvements, and it is now a much better paying concern. They expect to run four weeks longer.

CHASE'S MILL, BIG SUAMICO.

This mill is new, and is not yet in full operation; but Mr. Chase is a persevering man and must succeed.

LAMB'S MODEL MILL. BIG SUAMICO.

is doing the most work of any mill in Northern Wisconsin—turning out 200,000 per day, giving bread to 200 breadeaters most every day in the year. I write from memory: I think 235,000 have been cut in one day's try for a big run.

FOSTER & COOK'S MILL

comes next. They have done wonders in the way of roads and bridges: and have had a big day's sawing of shingle, turning out 200,000. Levi Morrel, the foreman, says he is going to exceed Lamb & Co.'s big day's sawing, or "bust." The mill is doing well. They expect to run until some time in December; and if Jack Frost does up his work quickly, when he sets about it, they will not stop at all.

BENJAMIN'S MILL.

This mill is doing a large amount of work, and that of good quality. The proprietor is a progressive man, and will soon introduce superior machinery.

KLEOVER'S NEW MILL, MANITOWOC ROAD.

The management of this mill expect to commence running it in the course of a few days, when the work will be done with new machinery.

SLYE'S MILL

we found in successful operation. They have a sufficient number of logs for forty days.

STETSON'S MILL.

Stetson is putting up charcoal furnaces, probably with the view of turning to account the waste lumber from his mill, and the hard wood he is clearing from his land. He has made miles of road. Surely such mill men as Stetson, Cook & Foster are a great blessing to the neighborhood where they operate. Stetson has a good crew, and has a few more logs left.

EVANS' MILL.

This establishment appears to be doing well and turning out its proportion of work. It has a fine crew of working men, and they manage well. The have a fine lot of logs.

GREEN & REYNOLD'S NEW MILL.

The building is large. The new engine, built at Fort Howard, is handsome, and, what is better, successful and powerful in getting out lumber and shingles. They have just been running a few logs, and are getting more and better ones. They are just finishing a large and commodious boarding-house, which will contribute much to the comfort of their help. They have an excellent manager for this department of their business. On the whole, we think the employees at this mill are very lucky; and one important item in their good luck consists in their having the prompt Lewey Day as paymaster

FROM NEW FRANKEN—FIRE IN THE WOODS.

Fire is making fearful havoc around this neighborhood (Humboldt and Kewaunee counties). Lamb, Watson & Co. had two logging camps burned, and the most of 1382 logs, in the woods—choice logs, the most of them. A man lost a new threshing machine and from 300 to 400 bushels of wheat, and barn, etc., and cattle, hogs, by the fire. Several lost their houses, barns, fences, logs, cord-wood, etc. The wells are mostly dry, making it very difficult to conquer the fire. Klaus' mill escaped with the greatest exertion. All the day and night crews have been engaged. The teams, too, are hauling water.

LAMB, WATSON & CO.'S MILL, NEW FRANKEN.

This mill comes the nearest to being the best laid out and to displaying the most genius in the arrangement of machinery, and the easiest and best methods of making shingles at the least expense, to my mind, of any I ever saw. I think it deserves to be called The Champion Mill of the North. The average run is 125,000 per day. We are much opposed to racing horses, steamboat-racing, etc., but men doing their best to make their employers millionnaires from the manufacture of shingles, will bring about a better state of things all around. We will have better mills, boarding-houses, board, and, last and most, the employers will feel more disposed to give increased wages for increased work. And now let us hear which are the best men and the best mills.

Fire.—*Shingle Mill Burned.*—We get from Mr. Byron Holmes the particulars of the loss of his mill at Pensaukee, on Tuesday morning. The fire had been raging in the woods for a week past and Mr. Holmes had been at work, fighting it, for four days and nights and retired Monday night in the hope of complete success. Tuesday morning between 3 and 4 o'clock he was aroused to find his mill completely wrapped in flames. The mill burned so rapidly and the heat was so great that nothing could be saved, even a lumber wagon standing some distance off being burned as well as about 140,000 shingles. The mill was situated about 4 miles above the village of Pensaukee, on the Pensaukee River, and had the manufacturing capacity of about 80,000 shingles per day. Mr. Holmes' loss is about $12,000 insured for $5.000. He intends to rebuild immediately.

The Green Bay *Advocate* referring to the recent fires in the woods, says:—

What will be the result in the standing pine in adjacent counties, cannot yet be ascertained. No access to the forests can yet be attempted, and nothing can be estimated except from the effects of the fire near the settlements, where it penetrates the parched ground from one to two feet, and destroys the life of the trees.

From the westward we hear that the fire extends to Keshena and the Wolf River.

The Detroit *Tribune* contains the following;

Navigation Suspended.—The past few days the dense smoke and fog have been unparalleled in the memory of the oldest navigator, and on Thursday night navigation was entirely suspended. For the first time in many years the Cleveland boat failed to leave on her accustomed time, and did not take her departure until this morning at about 7 o'clock. Tows which reached here early in the evening from above did not deem it advisable to attempt to pick their way through so blinding an atmosphere. During the greater part of the time a strong westerly wind has prevailed, rendering it doubly hazardous for vessels. The first intimation they have of an approaching craft is the sound of spray from the bows of a boat, when it requires no little strategy to avoid a collision. It is scarcely possible that during such weather disasters can be avoided.

Oconto County (Wis).

From the *Marinette and Peshtigo Eagle*—

An alarm of fire was given Thursday at the Wooden Ware Factory. Some sawdust had been ignited about the premises from some cause. Everybody went for a pail

and the water squelched the fire. No damage was done. We could not help thinking how easily one of those Babcock Fire extinguishers, of which several were handy, would have put out that fire with less than half the fuss.

The saw mill of the Wooden Ware Factory, with two circular saws, with inserted teeth, has cut 5,693,334 feet of lumber this season, up to the 12th inst. The saws were manufactured by the American Saw Company. This company warrants their saws to cut an average of 50,000 feet to each tooth. In the two saws spoken of (Mr. M. A. Evans was filer) there were fifty-six teeth, and it will be perceived by computation that these saws have averaged 101,669 6-14 feet to a tooth so far this season!

The N. Ludington Co. cut at their mill, last Friday, 177, 630 feet of lumber, the whole averaging less than 1¼ inches in *thickness* (not width). 62,095 feet of this amount was cut with one circular in less than twelve hours run, and is claimed to be the best work of any circular in the State.

The Boom Company as soon as the assorting of the logs is finished will commence building a break-water below the lower dam on the Michigan side, to protect the shore and facilitate the operations of the company another season.

The logs are beginning to play out. It will not be many weeks now, before the mills will be all shut down, and the boys off to the woods.

Pepin County.

The navagability of Beef Slough for steamboats has been established. The *Monitor*, having on board some of our valley lumber manufacturers, passed safely through the Slough last Saturday, from Alma to the head at Round Hill, without touching bottom. G. E. Porter, of the firm of Porter & Moon; Alex. Kemp, of the firm of the Eau Claire Lumbering Company: Mr. Kennedy, of the firm of Ingram & Kennedy: Mr. Newell, of the firm of Daniel Shaw & Co.: of Eau Claire: and Wm. Wilson, of Knapp, Stout & Co., of Menominee, and other lumbermen hired the *Monitor* for this trip so safely made. The bridge across the Slough about a mile below Farmer's Home, was passed in safety, by taking down the smoke-stack, and a part of the pilot house. The water is deeper in the Slough than it is in the river, caused by the narrow banks and lack of sand. Now that the Slough has been proven navigable, we expect that it will be made the rafting stream. It is said that hereafter all lumber will be run through the Slough.

MILWAUKEE, Wis., October 11.—The Mayor has been telegraphed that several towns in the lumber district of Green Bay have been burned. Pishtego village and Sugarbush settlement were destroyed by fire on Sunday night and Monday. It is reported that upwards of two hundred persons perished in the flames. Menominee is reported safe—only one mill (Gilmore's) was burned.

A correspondent of the *Saginaw Courier* writes as follows:—

BAY CITY, Sept. 20, '71.

Three wagons, with two span of horses attached to each, and loaded with camp equipage, arrived in this city to-day, en route for the lumber regions:

After giving an account of the earnings of the Flint & Pere Marquette Railway the letter proceeds as follows:—

The increase in incoming freight has been mainly owing to the transportation of logs and timber from the western division to this city. As a large amount of lumbering is to be done in that section this coming winter, this item in the earnings of the road will undoubtedly be largely increased next year over this. The earnings on outgoing freights are comparatively light as yet, but the contemplated change in the track through this city and Portsmouth will make a very great difference in this respect. The change the company have in view is to run to the river at a point just this side of the trestle work above Portsmouth, striking McGraw's mill, and thence down through Water street to Twelfth, and then to Jefferson street, the present location of the track. This will bring the main track near the majority of the mills above Centre street, and thus afford ample facilities for the shipment of lumber by rail. The change will be made this fall and the new track ready for business by February.—McGraw & Co. agree to ship 2,000,000 feet per year when the change is made, and this is but one of the many mills that will be reached by the road.

Mr. J. F. Willey, having taken the contract for grading that portion of the line, has advertised for 100 laborers, and proposes to commence the work Monday.

The following are the shipments from this port for the month of September, 1871, and the corresponding month of 1870:

	1870.	1871.
Lumber	37,699,333	22,327,907
Lath	1,126,0?0	4,817,670
Shingles	3,845,250	4,822,000
Staves	7,650	393,787
Salt	36,033	15,692
Hoops	1,007,000	1,595,000
Timber	287,000	98,000
Pickets	.....	7,050

The following is from Buffalo:—

Vessels are scarce. Up freights are of little account now. The large demand for vessels at Western ports, with offers of liberal rates on down freights, induce them to leave port light and with light ballast. Time is valuable, and were it not that ballast is essential as a precautionary measure against the probable storms of this season of the year, rates on up freights would necessarily advance, because there is no inducement in present rates for vessels to waste their time in loading and unloading.

The Boston *Commercial Bulletin* reports:—

The market for lumber has been seasonably active this week, and transactions have been made on an extensive scale for building purposes. The retail yards are doing a good business, and all cargoes arriving are readily disposed of. Prices are not quotably changed, and dealers are looking for more than an average amount of business this Fall.

Canada lumber is firm and the demand is good. From six to seven hundred million feet of pine are annually imported into the United States from Canada. The cutting for export to other countries and for home consumption may be estimated at seven hundred million more. Allowing the supplies to increase annually it may be questioned whether they will grow more rapidly than the increasing wants of the markets they will be called on to supply. The statistics of the lumber business in the United States, though by no means full or perfect, show a ratio of increase since 1860 beyond all precedent in the past. It has become an interest of enormous magnitude.

The following are the surveys for the week:—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	985,269	Spruce	1,488,498
Hemlock	200,146	Pine Tim. & Joist..	59,684
So. Pine Pl. & Tim..	244,850	So. Pine Flooring...	45,204
Black Walnut	322,521	Hard Wood	77,979
Total..			3,424,231

Prices at Jacksonville, Fla., as follows:—

LUMBER—				
Sawed Timber, 20 to 30 ft.	M	18 00	@	20 00
do. do. 30 to 45 ft.	M	22 00	@	25 00
Flooring boards	M	18 00	@	20 00
Edge boards	M	8 00	@	11 00
West India Cargoes	M	17 00	@	19 00
Dressed Flooring, 1st qual.	M	25 00	@	28 00
do. do. 2d qual.	M	14 00	@	18 00
Shingles, cypress	M	3 00	@	5 00
do. pine	M	4 00	@	4 50

WILMINGTON, N. C. October 6—Shipping is very scarce at present, and but little doing in lumber. The city mills are selling cargoes at the following rates:— Pine, steam-sawed lumber, cargo rates, per M feet ordinary assortment, Cuba cargoes, $17@18; Hayti do, $18; full cargo wide boards, $26@25; do, rough flooring boards, $22@23; ship stuff, as per specifications, $23@24; and deals, 3 by 9, $20@22.

METALS.—Business prior to the fearful calamity at Chicago was fair, and there was every appearance of the market being in a healthy condition, but since the news business generally was suspended. Operators were but little inclined to enter upon negotiations during an excitement, and until more positive information could be obtained and the situation fully understood. There was the usual degree of moderation in the business for Manufactured Copper: in fact, the market remains in the same normal condition as noted for several weeks past, but with a stock here of little account, and pretty well under control, holders naturally enough are firm and demand higher prices than those current for the last month or two. We quote at 32c for new sheathing; 23c for yellow metal, and 20@21c for old sheathing. There is nothing of special interest to note in the market for Ingot Copper; holders remain firm, but the business is only moderate and confined to small lots, closing at 23⅞ on the spot, and 24 for Nov., Dec., and Jan. delivery. The stock of both Scotch and Pig Iron having been reduced, holders are firm and claiming higher prices. There was a pretty good demand, but the business of the week shows only a moderate degree of activity. The former is quoted at $35@38.50, and the latter at $37@38.50 per ton for No. 1; $35@36 do for No. 2, and $33@34 do for forged. There has been a good demand for Refined Bar Iron, but business has not been large. Prices are firm and sustained. We quote from store as follows:—Bar Swedes, $107.50@120.50; refined, ordinary size, $85; refined, 1¼ to 6 by ¼ and 5-16, $90; refined, 1 and 1⅛ by ¼ and 5-16, $92.50; refined, 2½ to 3 round and square, $92.50; scroll, $102.50@132.50; ovals and half round, $102.50@122.50; band, $97.50: horse-shoe, $100@106; rods, 5-8 to 3-16 inch, $90@125; hoop, $107.50@150; nail rod, per lb., 6¾@7c. Common sheet Iron has been in fair demand at full prices. The mills are still busy running on orders for future delivery. We quote at 4¾@5¾c for single D and T., and 5½@6¼c for D. and T. Charcoal. Galvanized Sheet has been in fair demand, but principally jobbing. We quote at 12@12c for 14@20; 12½@13¾c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 30 per cent. to the trade. Russia Sheet is in reduced supply, in fact, there is nothing here, and prices are nominal. We quote at 17½@18c gold, according to number, and sound do 17c. There has been a slight improvement in the demand for Pig Lead, but no activity or change in prices. We quote at 6@6½c per lb. gold for common to good foreign. Manufactured Lead is unchanged, 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. With steady Cable advices, Pig Tin has met with only a moderate demand, and prices unchanged. We quote in coin at 35@35¼c for English; 26½@26¾c for Straits, and 41@41½c for Banca. Plates have been only in moderate demand, but prices are unchanged. Mosselmann Sheet remains steady, with a fair jobbing demand, sales from store at 8@8¾ gold nett, and 9¼@9¾ currency, also a sale from agents' hands to arrive at 8¼, less 4 per cent. gold.

NAILS.—There appears to be a little disappointment among the trade as to the amount of business doing, and the position generally is still quoted as quite dull. The expected call from the interior has not developed into anything like the proportions predicted, indeed, has been somewhat smaller than at the date of our last, and confined mainly to mail orders, while exporters have still to contend against high freight charges and scarcity of room, and take very few parcels, except as a matter of necessity. Easy terms are said to have been allowed in a good many cases, but this is not positively known, and former figures remain the nominal market rates. The supplies on hand are ample and well assorted, and also likely to increase somewhat, as most leading contracts have been filled, and the bulk of the production is now available for stock. We quote per 100 lbs.: cut, 10@60d, $4.50; cut, 8@9d, $4.75; cut, 6@7d, $5: cut, 4@5d, $5.25; cut, 3d, $6, cut, 2@3d, fine, $6.75; cut spikes, all sizes, $4.75: cut finishing, casing, box, etc., $5@$6.50; clinch, $6@6.50; horse-shoe, forged, No. 10 to 5, per lb., 19@31c. Other styles are selling as follows:—Copper, 36@38c per lb.; yellow metal, 22c do. The exports for the week are 157 pckgs, valued at $898; and since January 1st, 12,835 pckgs, valued at $80,917.

PAINTS AND OILS.—There is a pretty general complaint of dullness on the wholesale market for all kinds of paints, colors, etc., and dealers have little to communicate for the week of an interesting character. Prices generally are called firm, and in the ruling condition of affairs, steady would probably be a better word to express the position of values, and it is hinted that now, and then to close out odd lots, or quicken the movements of desirable customers, some little favors in the way of concessions, etc., are shown. The stocks in first hands are very fairly assorted, and are increasing to some extent both in the way of foreign and domestic goods. Certain styles of goods, especially fancy articles of painters' supplies, of which the supply was much reduced during the recent European war, are now again commencing to appear in larger quantities and better selection. The prevailing demand, such as it is, comes from local jobbers, with a few interior orders, and now and then an invoice made up for export. The jobbing business is very light and confined in the main to standard goods on orders from regular customers; but the amounts going from small retailers direct into consumption are said to be very fair. Linseed oil has again met with a slow, uncertain demand, and the market was in an extremely dull condition throughout the entire period under review. Prices also had a very irregular tone, and though some crushers asked full former extremes, others were willing to concede somewhat, in order to operate, and sales have been made all the way from 84c down to 81c in casks. We retain former quotations in our table, a sort of compromise between the above rates, but all figures for the present are nominal.

Exports as follows:—

	This week.		Since Jan. 1, 1871	
Paint.....pckgs.	263 value	$1,600	7,023 value	$107,846
Linseed oil, galls.	— "	—	9,453 "	8,629
Oxide zinc, pckgs.	200 "	2,500	3,620 "	38,110

PITCH.—A further advance in rosin has aided an improvement in this market for this product, and though there was no activity, a fair business was done. The sales, however, have been of a jobbing character. We quote at $4.25 for city; $4.25@4.37½ for Southern; and small lots very choice in a jobbing way, from store, $4.50. Receipts for the week 50 bbls: since January 1st, 690 bbls; for same time last year, 2,192. Exports for the week nil bbls; since January 1st, 2,184 bbls; same time last year, 3,080 bbls.

SPIRITS TURPENTINE.—Early in the week there was a depressed tone to the market, owing to the free arrivals, but an active demand soon sprung up, partly speculative, and with a falling off in the receipts there was a decided reaction and an advance of 3 to 5c was obtained over those in our last review. The Wilmington market was firm, the closing price there being 60c, same as last week. Our market here closes with some excitement prevailing and prices sustained. We quote at 67@68c for merchantable and shipping order, and 68@69c for New York bbls: small lots at 69@70c; and retail lots from store at 70@71c. Receipts for the week, 2,262 bbls; since January 1st, 52,202 bbls, and for the same period last year, 52,693 bbls. Exports for the week, 11 bbls; since January 1st, 11,782 bbls, and for the same period last year, 14,451.

TAR.—The market has been fairly active and prices have slightly advanced. The demand being exclusively from the trade, only occasional lots taken for export, closing firm. We quote as follows:—$3@3.12½ per bbl for North Country, as it runs. $3.25 per bbl for Wilmington, and $3.25@3.37½ for rope, and occasionally $3.50@3.75 for something very choice in a small way. Receipts for the week, 238 bbls; since January 1st, 17,119 bbls; for corresponding period last year, 44,777 bbls. Exports for week, 20 bbls; since January 1st, 8,467 bbls, and corresponding period last year, 13,911 bbls.

ALBANY LUMBER MARKET.

The *Argus*' report for the week ending October 10, 1871, is as follows:—

The cost of Canada lumber will be materially increased by the advance in lake freights, the rate now being double what it has been during the season. Certain kinds of lumber, now scarce and in active demand, will consequently bring higher prices. Those buyers who have put off laying in their supplies of common grades of pine and other sorts are now at a loss for them, and are willing to pay higher prices. Spruce is also held at an advance, on account of short supplies. Favorable reports are received from New York, Boston, and other parts of increased activity and improved prices. Sales here are now active, and with the prospect of lighter receipts, stocks will be run down pretty low before the close of the season. More is doing on the St. Lawrence in shipments to South America and the West Indies. The shipping season being nearly over there has given an impetus to the trade. Throughout Ohio, Indiana, and Illinois it is reported that stocks in retail yards are very light, with an active demand. It is therefore expected in Michigan that all the lumber there will be wanted for that section of the country, and keep prices firm and leave a small stock to winter over.

The disastrous fire at Chicago will also, no doubt, cause an active demand for lumber.

The Chicago *Daily Tribune* reports the receipts and shipments of lumber for the seasons of 1871 and 1870 as follows:

	Received. Feet.	Shipped. Feet.
1871	812,928,000	429,047,000
1870	768,468,000	462,200,000
Increase	49,470,000	Dec. 33,153,000

The receipts at Buffalo during the week, by lake and rail, are reported at 3,365,700 feet; at Oswego, by lake, 8,823,000 feet.

The receipts of lumber at Oswego from the opening of navigation to October 1, for four years are thus stated:—

	Feet.		Feet.
1871	233,752,400	1869	241,225,100
1870	259,282,000	1868	208,752,700

The receipts at Albany by the Erie and Champlain canals for the first week in October were:—

	Bds. & sctl'g, feet,	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	14,805,090	540	....	408,000
1870	13,816,400	1,668	....	410,700

Of the boards and scantling received, 11,386,200 feet were by the Erie, and 3,418,800 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals, from the opening of navigation to October 8, were:

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	331,638,400	24,417	....	8,706,900
1870	340,120,800	17,149	1,250	15,149,900

Lake freights are $6 to Buffalo, $9@9.50 to Oswego. Canal freights from Buffalo to Albany are $7.50 on hard wood, and $6 on soft; from Oswego to Albany, $3.75.

River and Eastern freights are quoted as follows:—

To New York, per M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	3 00
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, per ton, to Boston	2 50

Office hours, 10 a. m. to 4 p. m.

TIN-LINED LEAD PIPE is a Block-Tin Pipe heavily coated with solid lead. Tin is a metal closely resembling silver, both in color and purity: hence water flows through tin-lined lead pipes as pure as if drawn through silver. It is as flexible and as easily worked as lead pipe; it is also stronger and more durable. By its use iron-rust, lead and zinc poison are all avoided, and general health promoted. Price, fifteen cents a pound for all sizes. Circulars and sample of pipe sent by mail free. Address the

Collwells, Shaw & Willard M'f'g Co.,
No. 213 Centre Street, New York.
Also, Manufacturers of Block-Tin Pipe, Sheet-Lead, Lead Pipe, Solder, etc. ORDERS SOLICITED.

THE only sales which have been made of Chicago real estate since the terrible conflagration of last week, show a depreciation of about fifteen per cent. from the ruling prices of last summer. On the west side of Chicago, a location comparatively untouched by the fire, improved property available for business has been sold at a large advance over prices asked a month ago.

CONVEYANCES.

THIRTY-SECOND ST., S. S., 120 E. 4TH AV., ONE six-story brick store, 80x98.9½; owner, JOHN H. MORRELL; architect, JOHN B. SNOOK.

THIRTY-THIRD ST., S. S., 175 E. 8TH AV., ONE two-story brick stable, 16.9x12; owner, L. ARNHEIM; builder, PETER HERBISON.

TENTH AV., E. S., 25 N. 25TH ST., ONE TWO-STORY brick store, 24.8x60; owners, FLANNIGAN & WALLACE; builder, C. HANLON.

WEST BROADWAY, No. 42, ONE FOUR-STORY IRON store, 23.9x50; owners, HYMES BROS. & CO.; architect, L. J. O'CONNOR.

ALTERATIONS IN BUILDINGS.

One brown-stone front dwelling, south side of Forty-first street, 140 feet east of Fifth avenue, four stories, 20.10 by 55, extension 13 by 24, 30 feet high; J. J. Baldwin, owner.

One public building (brick), No. 21 Avenue A, two stories, 32 by 60, one story to be added; Felix Horn, owner.

One brick dwelling, No. 385 Water street, four stories, 20 by 50, extension 18 by 14, 11 feet high; Abbey Better, owner.

One brick dwelling, north side of Forty-eighth street, 100 feet east of Seventh avenue, four stories, 25 by 27.9, extension 14 by 11, 11 feet high; Ascher Hecht, owner.

One brick dwelling, No. 50 Rose street, three stories, 27 by 41, to be remodelled, and extension 34 by 37, 14 feet high; Amelia Adamson, owner.

One brick dwelling, No. 627 Hudson st., four stories, 25 by 55, extension 16 by 16, 15 feet high; Mercer West, owner.

One brick-front dwelling, No. 254 Monroe street, two and a half stories, 25 by 34, attic story to be made full story; Mr. Murray, owner.

One brick store and tenement, No. 86 First avenue, five stories, 25 by 50, extension 25 by 22, 11 feet high; Louis Shaffner, owner.

One frame dwelling, south side of One Hundred and Twenty-sixth street, 100 feet east of Fourth avenue, two and a half stories, 25 by 37, attic story to be made full story; James McKenna, owner.

One frame dwelling, north side of Eighty-seventh street, 150 w. Third avenue, two and a half stories, 21 by 46, attic to be made full story; Mrs. M. F. Conklin, owner.

UNSAFE BUILDINGS.

West Twenty-eighth st., No. 235, West, Bradley & Carey owners, unsafe wall.

Watts street, No. 41 (front and rear), Trinity Church Corporation owner, unsafe walls and floors.

Second avenue, building east side, 19 feet north of One Hundred and Twelfth street, Edward Birmingham owner, unsafe walls and foundation.

West Fifty-ninth street, building north side, 425 feet west of Tenth avenue, John Glass owner, unsafe walls.

Greenwich street, No. 579, Mrs. C. Smith owner, unsafe chimney.

Pine street, No. 71, Lewis C. Jones owner, unsafe chimney.

MARKET REVIEW.

BRICKS.—The wholesale dealers have very little fresh news to communicate for the period under review, the general market for North River Hards having retained a firm tone throughout, the sales quick and full prices realized, in some cases a slight advance, and most of the stock finding an outlet about as soon as offered. At the present writing the feeling continues to be quite confident, and there is no indication of a pressure to effect sales, though at the same time no full bids are refused, and the inclination appears to be in favor of letting the market have all the supplies wanted. A good many makers are quitting work for the season, and from this time forward we may look for a steady falling off of the production; but there are some who will keep on manufacturing just as long as the absence of frost permits and present values can be realized. Our city consumption continues unusually large, and a goodly proportion of the cargoes sold go direct from vessels to buildings; but here and there are to be found contractors who begin to talk tight money markets, etc., and also advance the probability that a great many workmen may be induced to leave for Chicago, in hopes of obtaining higher wages during the anxiety to speedily rebuild the ill-fated city. The quality of the offering is only fair, but a trifle better than last week, on the general average, as most of the very poor lots have been worked off, and shipments have now to be made from parcels of finer grade, hitherto held in reserve. Our city retail dealers have thus far failed to accumulate any stock in yard, partly bec use the distributive call was active enough to use up the bulk of the arrivals, but in the main because values were thought to be too high, and a reaction was constantly hoped for. Whether they have gained anything by waiting remains to be seen; but it is barely possible that even if no decidedly new depressing influences arise, manufacturers may have to modify their views a trifle before the river closes, as the current cost already partially checks the Eastern shipping call, and builders assert that after their present hurry is over they will be more cautious and demand easier terms. We quote at $9.25@10 per M for ordinary to prime, and $10.50 per M for choice. New Jersey Hards in very good demand, and the comparatively small receipts all find an outlet at extreme rates when quality is in any way attractive. Prices range at about $8@9 per M. Pale Brick do not advance, but command full former figures without difficulty, and the market has a most decidedly firm tone throughout, about $6 per M being obtained for anything merchantable. Croton Fronts are without change, business proving slow from day to day, and prices still standing at $12@15 per M, according to shade. Philadelphia Fronts firm and in rather better demand at $28@30 per M from pier.

CEMENT.—The reports of the market for Rosendale vary considerably, and the position evidently is not quite as strong as has been supposed in the absence of any official change in quotations. Most manufacturers still call the market rate $1.75 per bbl, and are certainly making sales at this figure, especially the leading brands, while in a very few cases the orders on hand are well up to production. On the other side, however, we find dealers who laugh at the above figure, and assert positively their ability to secure all the stock they want, and good stock, too, and a very fair modification of rates, intimated to be as much as 10@15c per bbl, while forced sales were made on still more liberal terms; though, of course, such transactions are not taken into account as likely to influence the general position. It is not likely, however, that buyers can hold any decided advantage, especially after the late Fall trade sets in, as there has been no great accumulation here, and the production at the largest is hardly equal to the average consumption of the past two or three years. For foreign grades the market is rather dull and the tone somewhat unsettled, though the tendency is mainly in buyers' favor. The "Portland" is the principal style, and of this the stock is liberal, and more said to be coming, without any indications of an increase of the demand. On retail lots the figures asked and obtained is $6 per bbl, but in a wholesale way the rate stands at $5 per bbl, and it is a question whether some sellers would not do even a little better. We understand that arrangements have been made for the production of "Portland" cement here, the quality claimed to be in every way equal to the imported article.

LATH.—The past summer has witnessed scarcely any variations on this market, and none of any magnitude, while receivers have occasionally complained of the low prices ruling, and asserted that there was no margin for profit. It has been noticeable, however, that manufacturers kept on sending stock to a full general average, if not in excess, considering the increased consumption, and seldom made any decided attempt to force an advance. Indeed, there is little doubt that all cargoes sold at $2.25 per M or thereabouts netted a fair return on the cost of production, and that being satisfied with this figure is the best thing manufacturers could have done, as a good, steady consumption has been stimulated, and buyers were evidently to take supplies as they came to hand. This prevented an accumulation either afloat or piled out, and the result is that the market is now comparatively bare, the Fall wants of builders likely to prove extensive, and it is time to lay away something against the time when coastwise arrivals will be something of a rarity. There are a good many lath yet to come forward, but not many making, and it is reasonable to suppose that sellers expect to hold most of the accrued advantage and probably gain something higher on current values by cargo. As we close, the offerings are very small on the spot, and we cannot learn of many cargoes available to arrive, while full former rates are bid, and the market has an extremely firm tone at $1.35 per M.

LIME.—There is always more or less doubt as to the probable course of this market, owing to the fact that it is a good deal of a one-sided affair, and controlled by the combination of Eastern manufacturers, which last Spring was made stronger than usual by taking in all but one or two of the principal firms. At this season, however, a decline is hardly to be expected, except through temporary causes, and values are, as a rule, considered in favor of the selling interest. The general distribution from dealers' hands to consumers is good, and in many cases quick, keeping the current receipts pretty well sold up, and cargoes now seldom go begging for customers, whether offered on spot or to arrive; and a few more vessels could probably be kept running to advantage, though sellers would prefer seeing the supply a little short of the call at all times. The State-made stock meets with a very good demand also from regular sources, but the common grade does not settle to a uniform rate, the figures being fixed on a range from the price of Eastern to about 10@15c lower, according to circumstances. The finishing grade, however, rules pretty steady, and sells closely up to the supply at all times. The general market closes firm, and the supplies offering small. The demand is not sharp, but a few more cargoes would be very acceptable just at the moment. We quote at $1.35 per bbl for common, and $1.75 for lump.

LUMBER.—At the yards the position remains much the same as noted from week to week for some little time past, the great majority of dealers seeming to consider business "about as good as could be expected," and very well satisfied with the general outlet. Indeed, as books are examined and comparisons made, it is found that though sales in a good many cases have been in moderate parcels, and the margin for profit at times apparently small, the general aggregate foots up very fairly, and that a good, comfortable balance remains above cost and expenses. Some little trouble occasionally arises in making collections, but the number of bad debts contracted during the past season has not been large, the very cautious policy of most buyers in operating closely to actual wants, keeping affairs on a pretty sound basis. A certain class of speculative builders seem to meet with the most disfavor among the trade; but even these have done better than in former years, and confidence is fairly established. The supply now on hand shows a good assortment of new lumber, and no scarcity of old; but thoroughly seasoned parcels are hardly ever plenty, and are considered as something peculiarly desirable by those who may happen to hold them. We find no occasion to make any important alteration in quotations as yet, but the tone is very strong, in view of the great destruction of stock, mills, etc., at the West by fire, and the general upward turn at all the primary markets.

In a wholesale way the general tone is pretty firm and a little more regular than a few weeks ago, as the demand is improving somewhat and sellers are enabled to dispose of their offerings with rather greater freedom, especially when early delivery can be insured, and there is no danger of stock being shut off by the close of navigation. Reports of continued firmness at all interior points of distribution, and some very extreme rates paid at the mills, have induced buyers to take hold with a show of freedom, and a considerable amount of lumber is changing hands. Still, the demand is not remarkably large, and we think from certain hints thrown out that agents and manufacturers are a trifle disappointed with the volume of trade in this direction this Fall. Odd lots have been picked up here and there during the summer until quite a fair assortment was secured, and the call is now mainly from the usual negli-

gent buyers, or dealers desiring to secure invoices to round off their stocks nicely. A good many agents still report the filling of very fair export orders at the mills for most of the usual points to which shipments are made, but the foreign trade at this port is slow and uncertain, and shippers demand very liberal terms as an inducement for them to operate.

Eastern Spruce has shown a somewhat more encouraging tone on desirable cargoes since our last, and an improvement is hoped for from this time forward. The reaction, to be sure, is not very decided as yet, and indeed, the indications of a favorable nature for the selling interest may not be verified, but a good many dealers are in a somewhat better position to receive and handle stock; the distribution from yard to consumers has been and still continues good, and dealers predict that there will be demand enough before winter sets in to make a place for all the cargoes likely to come to hand. No actual scarcity is predicted, but it is said that the production has been so much reduced by want of water for the mills and from other causes, that manufacturers will have no over-stock upon which they will be anxious to realize, and few, if any, forced sales made. As we close our report, only a few cargoes are on the market, and the feeling is quite steady. We quote at $16@17 per M for inferior to fair schedules, and $17.50@19 for good to prime do. White Pine has remained firm and not offered in excess of the demand, holders of desirable lots, both here and in the interior, feeling much confidence generally, and prefering to carry their stocks rather than submit to any concession. The consumptive wants have been very fair, and seem rather to increase, while the call is general, covering both the high and the low grades. We quote at $21@28 per M for ordinary to prime box and shipping boards, and $30 per M for choice do. Yellow Pine still feels the influence of "Yellow Jack" to some extent, and until the Southern ports are pronounced perfectly free from all danger of fevers it will be difficult to get a full supply here. Some of the best stock, however, comes from points where no contagious diseases have appeared or are likely to; and we understand that a number of captains understanding this well, have secured cargoes at full freight charges, and that a very fair amount of stock is *en route* for this place, though mostly on special contract. Prices remain firm and we continue to quote at $29@33 per M for random cargoes, and $ 5@38 for special do.

We have made considerable inquiry as to the feelings of the trade in regard to the probable effect of the late disastrous and terrible storms of fire visited upon the western section of our country, and while few think our market is likely to be seriously affected this year, all agree that the position is naturally stronger for holders of lumber throughout the entire country, and that by Spring values will have reached a much higher level. Eastern buyers have already completed all their purchases for this year, and the bulk of the lumber is shipped, and this probably is all that prevents a material rise at all the wholesale points of distribution in this direction, as it is hardly possible that anything now could be obtained if wanted. Millions of feet were consumed at Chicago, and probably double the amount destroyed will be wanted to temporarily rebuild the city, to say nothing of the large consumption in the permanent structures as they gradually reappear, and dealers have already advanced prices about $3 per M. Throughout Michigan and Wisconsin, in addition to the standing and cut timber lost, a great many valuable and very productive mills have been burned, and the manufacture is delayed for months in consequence, and in some cases probably entirely suspended. This, in connection with the short supplies left at the Canadian mills, gives the outlook a very buoyant tone, and with any ordinary demand sellers can hardly help gaining much advantage.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.

We note additional exports as follows:—To Danish West Indies, 8 masts, value, $1,193; to British N. A. Colonies, 2 masts, value $700; to New Zealand, 100,000 lath, value $256; to Hayti, 160 bundles shingles, value $175; to Chili, 1 Saw mill, value $2,500; to Bremen, 5,000 staves; to Liverpool, 13,200 do; to Glasgow, 3,600 do; to Havre, 4,614 do; to Cette, 14,640 do; to Cadiz, 128,060 do; to British West Indies, 4,627 shooks; to British Guiana, 450 shooks; to Cuba, 2,759 shooks, 76,000 hoops. Receipts reported as follows: From Jacksonville, 500,000 feet lumber; from Pensacola, 190,261 do; from Maine coast, 9 cargoes lumber, 2 do lath; from St. John, N. B., 360,201 feet lumber. Charters as follows: A Br. Barque, 500 tons (now at Boston), from Savannah to Montevideo and Buenos Ayres, lumber, $25.50 and primage; a bark, 566 tons, hence to Buenos Ayres, reported $19 for Lumber, and 19c. ₱ ft. for Mdse.; a Br. Brig, 254 tons, to Montevideo and Buenos Ayres, lumber, $21 and primage; a Br. Bark, 254 tons (now at Picton), and one 294 tons now at Boston), from St. Mary's, Geo., to Montevideo and Buenos Ayres, lumber, $23 and primage, privilege Rosario $5 extra; one 375 tons, from Fernandina to Montevideo and Buenos Ayres, lumber, $25 and primage; a Brig, 311 tons, from Wilmington, N. C., to the Windward, lumber, $12.50; a Br. Brig, 188 tons, to Hayti and back, $18 50 and port charges; a Brig, 268 tons, to Minitian and back with wood, $10 and port charges; five Schrs., from Jacksonville to New York, resawed lumber and boards, $12.50; one from Jacksonville to Philadelphia, $11.25; another, same voyage, $11; one from Jacksonville to Baltimore, $11; one from Jacksonville to Wilmington, Del., $11.25; one from Savanna to New Haven, $10; two from Fernandina to New York, $11; one, 284 tons, from New Orleans to New York, Black Walnut, $18 and primage; one, 207 tons, from York River to New York, R. R. Ties, $1,000; one from a Maryland port on the Potomac, R. R. Ties, 25c. each.

The Chicago *Evening Journal* of October 12th contains the following:—

MEETING OF LUMBER MEN THIS MORNING.

The lumber dealers of the city held a meeting this morning, at the present business office on the corner of Market and Lake streets, to regulate the price of lumber at the yards.

The Chairman, Mr. Blanchard, called the meeting to order, and stated that the committee of lumber dealers, consisting of Mr. A. G. Vanschaack, Alderman Calkins, T. W. Harvey, W. B. Phillips, and J. C. Brooks, appointed to investigate the affairs of the market, and make some report to the meeting to-day, were now ready to report. Mr. Vanschaack, the Secretary, was then called on to read the report of the committee, which was offered merely as their opinion.

The report of the committee stated that they understood there was a disposition to advance prices, and that the committee advise that the price of lumber shall not be advanced more than two dollars on common culls, and in proportion on better grades. That lath at $3. Shingles at $4. That cash be exacted on all sales outside the city.

The following resolution was offered by Senator T. W. Ferry, of Michigan, and adopted:—

That a Committee of three lumbermen be appointed, who shall assess, pro rata, upon the lumber dealers of the city, according to the quantities severally each has now on hand in the yard, 50,000,000, which upon the endorsement of this committee that such lumber is to be used in rebuilding the city, shall be sold at a price no higher than before the fire, to wit: $15 per M for common lumber, and on that basis for other grades.

The following was also adopted:—

That all lumber commission men dealing in cargo lumber request the owners thereof in behalf of this meeting to pay over in cash to this committee through them the difference between the price of cargo lumber before the fire, and higher prices, if any, following to the close of navigation on the same basis of distribution accordingly to quantity severally so sold, and to cover all sales to city and country dealers.

The Committee appointed to assess the yards in accordance with the resolutions were: T. M. Avery, T. W. Harvey, A. G. Vanschaack.

The committee of five was then appointed to canvass the lumber district and learn the amount held by different dealers and report the same to the assessing committee.

Malcolm McDonald, W. S. Babcock, D. P. Wood, J. C. Brooks, and D. F. Chase.

On motion the committee then adjourned.

Later advices from Chicago are as follows:—

An attempt was made by a number of lumber dealers to carry up the price of lumber from $3 to $4 per thousand feet, but was resisted by many of the larger and more respectable dealers, and the attempted extortion defeated, and lumber is selling at the old prices. There are fully 250,000,000 feet now in the yards of this city, and the supply will continue to be abundant.

The *St. Louis Times* reports under date of Oct. 14th, as follows:—

Receipts during the week were very moderate, covering 1,750,000 feet, of which 1,200,000 feet goes into the yards of the Eau Claire Lumber company. Prices show a strong advance, and there is an active demand for all lots offering. Sales comprise 200,000 feet Chippewa dimension at $16.50, and 250,000 feet same, mill run, at $18.50, afloat. There is no offering of Wisconsin river lumber.

Mills on the upper river are all shut down, and but little lumber is afloat on the Mississippi.

The Saginaw *Courier* contains the following:—

BAY CITY, Oct. 10, 1871.

The principal mills of our city have shut down on account of the fire.

SAGINAW LUMBER MARKET.

Sales by cargoes about as follows:—

First clear	$38 00@40 00
Fourths	25 00@38 00
Box	30 00@35 00
Three upper grades	25 00@38 00
Common	12 50@14 00
Shipping culls	6 00@ 7 00
Lath	1 75@ 1 95

SHINGLES—

Sawed A 1	4 00@ 4 25
" A 2	2 25@ 2 75

Shaved—None in market.

The following is the Oct. price-list for lumber delivered on cars, observed by Chas. Merrill & Co.:—

First Clear	$42 00
Second Clear	37 00
Third clear	32 00
Select	27 00
Clear stock, 12 inch	37 00
Select stock, 12 inch	27 00
B stock, 12 inch	19 00
Common stock, 12 inch	14 00
Select stock, 10 inch	24 00
Clear strips	37 00
Fencing strips	13 00
No. 1 Flooring strips	24 00
No. 2 Flooring strips	19 00
Wide select flooring	22 00
Select common	19 00
Common boards and planks	13 00
Coarse common	9 00
Scantling, joist and timber, 12 to 18 ft	13 00
Scantling, joist and timber, 20 ft	16 00
Scantling, joist and timber, 22 and 24 ft	17 00
Pickets	10 50
Shingles	4 40
Lath	2 25

The *Courier* contains a long account of the terrible visitation of the fire fiend upon that section of the country, from which we make the following extracts:—

The excessive drought which has prevailed through the Western country for several weeks, we might, not improperly, say months, for we have had but a very slight amount of rain for nearly three months, has been the means of increasing and multiplying fires to a degree hitherto unknown the oldest settler. To the North of the Saginaw River, to both upon the East and West shore of Lake Huron, the woods have been on fire for several weeks, and a black pall of smoke has impeded navigation, and led of late almost to its suspension. For the past week the cities of the Saginaw Valley have been covered with a cloud of smoke, which has been indicative of the near approach of the devouring element. During the latter part of the week, the smoke had become most dense, and the air, laden with it, had become almost suffocative. No serious apprehensions had, however, been excited until on Sunday, when the cloud had become so heavy, and lay so near the earth, that a good deal of alarm, and no little inconvenience had been excited in our midst, as well as in Saginaw City and Bay City. With great disquietude, the citizens of these cities retired on Sabbath night, speculating on what the end of all this might be.

After describing the burning of East Saginaw the report proceeds:—

About midnight a fire broke out in the shingle mill of Burnham & Still, just above the upper bridge, located on what is known as the "Island." The alarm was sounded from an adjoining mill, but before any assistance could be rendered the fire was well under way, and fanned by a brisk southerly wind, scattered sparks in every direction. The flames made such rapid progress that it was not in the power of human agency to stay them. The salt works, south, were not damaged materially, but the shingle mill, drill-house, and boarding-house were totally destroyed. From Burnham & Still's the flames or sparks communicated with the shingle mill of Taylor, Inscho & Co., to the north of Chapin, Barber & Co., and nearly opposite Court street, Saginaw City. This, too, was swept away, together with a boarding-house. And then the salt works and mill of Chapin, Barber & Co., located between the two mills destroyed, and within a half an hour this property was in ashes. The loss includes two salt blocks, steam and kettle, a saw mill, a drill-house, office, two dwelling-houses, one owned by Frank Dupue, and the other by — Labright. Beside these a dwelling-house owned by Henry Chapin, worth probably $500, and a dwelling house owned and occupied by David Strong. This including about 1,200,000 feet of lumber on Chapin, Barber & Co.'s docks, the docks, 80 tons of coal owned by Chapin, Barber & Co., includes the major part of the losses.

THE LOSSES

May be briefly summed up as follows. The total loss of Burnham & Still is estimated at from 12,000 to 15,000.

The shingle mill was insured for six thousand dollars.

Same parties were insured for $1,000 on drill-house; $1,000 on the boarding-house, and $250 on the dwelling.

The loss of Lathrop, Inscho & Co., is estimated at from 15,000 to 18,000.

The loss includes shingle mill, dock, boarding-house, office. A horse was also burned to death in this fire.

The loss of Chapin, Barber & Co., is the most severe.

These gentlemen estimate their loss at $75,000 to $80,000 over insurance, which was only $10,000. Their mill was perhaps as well if not better supplied against fire than any in the valley, but water was unable to save. Exclusive of the lumber, the loss was nearly $3,000 barrels of salt in bins and packed out. The dock is destroyed and the largest part of the lumber. Some 250,000 feet of the lumber belonged to Sturrevant & Co., of Cleveland. George L. Burrows also had about 25,000 oak lumber piled at the dock, which was lost. The balance of the lumber, we believe, belonged to Chapin, Barber & Co.

This fire is a severe loss to this enterprising firm.

David Strong, whose building was destroyed, was insured for $400 on the furniture, but no insurance on the house. The total loss by the Island fire will not fall much short of $125,000.

* * * * * * *

At the Boom house, at the junction of the Tittabawassee

and Saginaw river, the fire made its appearance about four o'clock, and in an incredibly short time the stumps and dead trees as well as the fallen débris were scattering their sparks towards the upper portion of the village. The village council being in session, immediately took steps to check the fire, and within half an hour after its commencement, over a hundred men, with twenty teams carrying barrels of water onto the field, were at work staying the further progress of the insatiable monster. Had not their efforts proved successful, nothing could have saved the line of salt works and saw mills which line the river bank, and which extend continuously to the village: fearful indeed must be the havoc if their efforts in that direction were unsuccessful.

* * * * * * *

At Pine Grove, three miles south of St. Charles, the fire had destroyed the whole town, consisting of a mill owned by McArthur & Reynolds, a large quantity of lumber, and several boarding houses: estimated loss $20,000 to $25,000. At Chesaning the fire was all around the village, but no buildings had been burned. In the town of Albee, the saw mill of Bush & Andrus was burned during Sunday night.

* * * * * * *

Particulars are beginning to come from the country on the line of the Flint and Père Marquette Railway, but amid the attending excitement, and the still continuing danger from the surrounding fires, men have little time to report their losses, which are liable to be increased at any moment. Mention was made yesterday of the destruction of several shingle mills near Midland. Of these we are pleased to learn that the one belonging to Reardon, Andrews & Co. is of comparatively slight loss, the machinery and engines from it having been taken out of the frame, in anticipation of the danger, and buried: the fire, therefore, damaged nothing but the frame of the mill, which is now being rebuilt. Duncan Bros, fearing for their personal safety, with their men, endeavored to escape to Midland, abandoning everything to the fiery element. Finding that their pathway was obstructed on every hand, and escape was impossible, they returned and fought the fire with such effect that they saved everything about their premises, and their mill is again at work. Not so at Dowlers, Cowles and Garber, and Rockwell's mills, which were destroyed with all their surroundings, only the horses belonging to these firms being saved. The reports which were rife through the day yesterday and the day before, of the destruction of a large quantity of shingles at Smith's station, prove to have been greatly exaggerated, only some twenty thousand having been destroyed.

THE SAGINAW LUMBERMEN HAVING TROUBLE WITH THEIR PINE LAND SPECULATION.—The annual tax sales commenced on Monday morning last. Previous to the opening of the sale, however, a little thing occurred which may prove interesting before it is settled. Two injunctions; one on the complaint of L. B. Curtis, A. A. Brockway, *et al.*, the other on the complaint of L. B. Curtis, Gnerdon Corning, *et al.*, were served on the county treasurer, enjoining him from selling certain lands in Sherman township. These lands comprise a large share of the non-resident pine lands of that town, upon which the owners do not propose to pay the enormous taxes levied by the various authorities. The taxes on some of these lands rate, with accrued interest, etc., at $175 per section; this on a township of good land all taxable, would give the snug little fortune of $17,000, and on a county $272,000. But Sherman is a new township; make the taxation of all the other townships proportionate to their valuation, and we should have probably half a million of dollars as the tax levy for a single year, half enough to build the proposed magnificent State Capitol at Lansing, or to put the Tammany Ring in a state of unalloyed happiness. How the assessment roll and records of Sherman will look in court remains to be seen.—*Isabella Enterprise.*

The following was recently published in the *Chicago Tribune*:—

In April last the Legislature of the State of Mississippi granted to the Pearl River Improvement Company a tract of very valuable selected pine lands, located in the counties of Hancock, Simpson, Copiah, Marion, and Lawene The The object of this extensive grant of land was made for the purpose or rendering Pearl River the largest water course in that State, navigable to Jackson, the capital of the State. These pine lands are estimated to run over 50,000 feet of sawed lumber to the acre, which, in comparison with the price at which pine lumber is selling for per 1,000 feet in the tree, in Wisconsin and Michigan, creates a value for these Mississippi pine lands of $150 per acre. We are informed that Mr. Edward Evers, of St. Louis, and a leading Chicago banker, have purchased two hundred thousand acres of this pine land from the Pearl River Improvement and Navigation Company. Mr. Ever's object is to establish a large lumber manufacturing business for the purpose of supplying the Southern, Mexican, West Indian, and European market. The facilities for getting the lumber to market via New Orleans and Mobile are unsurpassed on this continent, as the Pearl River empties itself in the Mississippi. Besides, there are two lines of railroad now building through these pine lands. The development of these vast untouched forests will prove of immense advantage to the South, and soon we hope to hear of the woodmen of Maine, Wisconsin, and Michigan working hand in hand with their Southern brethren. The State of Mississippi, in its grant to the Pearl River Improvement and Navigation Company, exempted these lands from taxation for five years from the 8th of April, 1871.

The *Boston Commercial Bulletin*:—

The lumber market continues buoyant and is in a generally healthy condition, with the full average amount of seasonable business doing. The Fall demand for nearly all descriptions of lumber for building purposes is very satisfactory, and the market for general distribution is active. There has been a general improvement during the past two weeks; and as cool weather comes on, and the necessities of finishing up contracts become pressing, carpenters and builders have been buying more freely. Though the arrivals of Eastern lumber are not large, the supply here is fair and ample for all present requirements. The retail yards are not carrying heavy stocks, and most of them are busy filling orders.

Western lumber is advancing, as the great conflagration in Chicago has affected shipments East. The quantity coming forward is now comparatively small. The demand here, however, is good, and most dealers are busy. Government lands east of the Mississippi are becoming a thing of the past. Timber lands in the Western States have been closely examined and taken up, and between railroad grants, the investments of lumbermen for the supply of their mills, and those of capitalists who appreciate the future value of pine lands, few are left at government prices: and fair and good pine lands in Michigan and other States are being sought for eagerly at rapidly ncreasing values, varying according to situation and value.

Shingles and clapboards are in good supply, but the demand is limited. Prices are shading. Large quantities of six feet clapboards are stored, as there is no demand. Southern pine flooring boards are quick at quoted rates, with arrivals light.

The quantity of lumber burned in the Chicago fire is ascertained, from official reports, to be about 50,000,000 feet. The number of feet on hand at that point was 75,000,000 and 24,000,000 feet still remain uninjured.

The following table shows the amount of lumber surveyed in Bangor, Me., from Jan. 1 to Oct. 1, 1871, as compared with the amounts surveyed during the same period in 1870:—

	1870.	1871.
Green Pine	15,382,000	23,428,000
Dry Pine	5,361,000	4,840,000
Spruce	102,654,586	121,721,971
Hemlock, etc	16,736,000	18,482,000
Total	140,133,586	168,481,971

The following are the surveys for the week:—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	282,916	Spruce	1,978,389
Hemlock	476,828	So. Pine Flooring	17,681
So. Pine Pl. & Tim.	260,998	Hard Wood	150,015
Black Walnut	66,2.6		
Total			3,233,093

The *Savannah Republican* reports:—

TIMBER AND LUMBER.—*Timber*—The receipts have been light for the past week, and the demand good for all classes of Timber. We quote: Mill Timber $7.00@9.00; Shipping do., 600 feet average, $8.00@9.00; 700 feet average, $10.00 @11.00; 800 feet average, $11.00@12.00; 900 feet average, $12.00@14.00; 1,000 feet average, $14.50@16.00. *Lumber*—The mills are all at work on orders. The mills on the railroads are doing but little on account of the severe rains. Orders are plenty. We quote: Ordinary sizes, $20@21; difficult sizes, $21@25; flooring boards, $21@22; ship stuff, $20@22, according to sizes.

FREIGHTS.—To Matanzas, lumber, $8, gold. Timber to Liverpool 36@37s; to Queenstown, for orders, 38@39s; to Philadelphia $10.00; Resawed lumber to Baltimore $7.50; to New York $10.00; Sound ports $11.00; to Boston $10.50; to Philadelphia $9.00

COMPARATIVE EXPORTS OF TIMBER AND LUMBER FROM THE PORT OF SAVANNAH.

EXPORT'D TO	From Sept. 1, 1871, to Sept. 28, 1871.		From Sept. 1, 1870, to Sept. 28, 1871.

Grand Total	1,304,146	.....	3,569,357	178,000

The Pensacola *Mail* reports as follows:—

TIMBER.—As yet quotations of hewn timber can only be nominal, as we have not had enough rains to raise the creeks and rivers and bring timber to market. Contract prices are much the same as last year. We quote:—

60 feet average.....10c.@11c. per cubic feet.
70 " " .....11c.@12c. " " "
80 " " .....12c.@13c. " " "
90 " " .....13c.@14c. " " "
100 " " .....14c.@16c. " " "

For B1 good class and upwards delivered at Ferry Pass.

In sawn timber there is already some activity, and we find a number of our mills preparing to supply a very large quantity this season. We quote:—

25 feet average.....12c.@14c. per cubic feet.
30 " " .....14c.@16c. " " "
25 " " .....16c.@18c. " " "

Delivered at vessel.

LUMBER.—There seems to be an active demand in the North for flooring and other kinds of lumber, but the prices do not encourage shipments; nevertheless many of the mills here seem to be busy upon orders, and very little is shipped on speculation. We quote:—

Floor'g Bds, prime	$17.50 to $19	pr m.	ft. f. o.b.
Scantling, ord'y sizes, Cuba & Texas	15 to 16	"	"
Do. special sizes and long lengths	16 to 20	"	"
Edge Boards, No. 1	10 to 11	"	"
Do. No. 2	8 to 9	"	"
Deals, S. A. market	17 to 18	"	"
Do. English do.	13 to 14	"	"

FREIGHTS.—The demand for coastwise vessels has lessened, owing to a number having been chartered at current rates. There is still a demand for Cuban vessels, although shippers do not hold out the same inducements they did a few weeks since. A good many vessels are being chartered on the other side of the Atlantic for both hewn and sawn timber at something under our quotations. These quotations are for vessels ready for cargo, or in any of the Gulf ports seeking freights. We quote:—

U. Kingdom, hewn, orders, per load	38s to 40s	
do. do. direct ports, "	36s 6d to 37s 6d	
Liverpool, sawn "	25s to 26s	
Cuban ports, lum., per M sup. ft	$10 to $11	gold
Buenos Ayles, " "	21 to 22	"
Galveston, " "	10 to —	cur.
Ports north of Hatteras	10 to 12	"

QUEBEC TIMBER MARKET.

J. Bell Forsyth & Co.'s Prices Current of Timber, Deals, &c.

QUEBEC, Oct. 5, 1871.

	s. d.		s. d.
WHITE PINE, in the raft, for inferior and ordinary according to average, &c., measured off	0 8	@	0 9½
for fair average quality do	0 11	@	1 2
for superior do do	1 2	@	1 6
in shipping order according to average and quality	1 0	@	1 6
board, 18 to 20 inch	1 6	@	1 8
RED PINE, in the raft, measured off, according to average and quality	0 8	@	1 0
in shipping order, 40 to 45 ft	0 10	@	1 0
OAK, Canada, by the Dram, according to average and quality	1 7½	@	1 9

STAVES, for Specification, Merchantable std according to quality	£64 00	@	£65 00
Do W O Punch'n Merchantable	£18 5	@	£18 10

DEALS. Bright according to Specification, £20 for 1sts, 2ds, and others in proportion.

Do floated, £19 10s for 1sts, 2ds, and others in proportion.

Do Spruce do. £8 for 1sts, £5 10s for 2ds, £4 for 3ds.

WHITE PINE.—We have few sales to report, and we regret to state that there is not that activity in our market which we expected there would be at the present time. Sales of common and ordinary timber are effected with some difficulty at 8d to 9½d for 46 to 50 feet average, while good and superior rafts are placed according to manufacture and quality at 15½d @ 16d for 16 inch girth; 16½d for 16½ inch; 18d for 17 inch, and 19½d for Waney Board, 19½ inch girth. A superior raft of 64 feet average with Waney Board 19½ to 20 inch, changed hands at 29½c; small Pine at 15c.

RED PINE.—Selling in small parcels, and with White Pine Rafts.

ELM.—Enquired for in small quantities.

OAK AND STAVES.—Firm at quotations.

DEALS.—In fair demand.

FREIGHTS.—For Liverpool, 31s and 32s for deals: London, 32s 6d and 33s 6d; and for Warrenpoint, 32s 6d deals.

The *St. Paul Press* contains the following:—

The uncertainty produced by the great fire in Chicago extends to every interest. Lumbermen are looking for a material increase of demand for stock and a consequent advance in price, caused by the burning of many of the largest yards in Chicago, and the probability that the amounts remaining on hand, as well as the current receipts from the points of supply, will be needed to rebuild the devastated city. Our latest advices from St. Louis represent business in stocks afloat as limited, owing to the small amounts offering, the result of excessive low water and difficult navigation over the rapids, with a strong upward tendency in prices. There was on Monday an active demand for all rafts offered, at an advance of $2.50@$3 per M. The sales of last week cover 200,000 feet of Chippewa river lumber at $16.50, and another lot of 250,000 feet at $18.50—all mill run lots.

METALS.—There has been a moderate demand for Ingot Copper, and prices at the close are a shade easier. New sheathing and yellow metal close steady. We quote at 32c for new sheathing, 21c for yellow metal, and 20@21c for old sheathing; and for ingot copper 23½@23¾c. There are no new features in the market for Scotch and American Pig Iron, the demand being only for small parcels, but on account of light stock, holders are enabled to keep prices firm. We notice sales of about 160 tons Glengarnock at $36 from yard, and $35 from ship. The former is quoted at $35@38.50, and the latter at $37@38.00 per ton for No. 1; $35@36 do for No. 2, and $33@34 do for forged. There continues a moderate call for Wrought Scrap, and we note sales of 200 tons No. 1 from ship at $39.25 currency. In Refined Bar from store prices rule steady, closing firm. We quote from store as follows:—Bar Swedes, $107.50@120.00; refined, ordinary size, $85; refined, 1¼ to 6 by ¼ and 5-16, $90; refined, 1 and 1¼ by ¼ and 5-16, $92.50; refined, 2½ to 3 round and square, $92.50; scroll, $102.50@132.50; ovals and half round, $102.50@122.50; band, $97.50; horse-shoe, $100@105; rods, 5-8 to 3-16 inch, $90@125; hoop, $107.50@150; nail rod, per lb., 6¾@7c. Common sheet Iron, although quiet, closes firm at our figures. We quote at 4¾@5¾c for single D and T., and 5¾@6¾c for D. and T. Charcoal. Galvanized Sheet has been quiet. We quote at 12@13c for 14@20; 12¾@13¾c for 22@24; 13¾@14c for 25@26; and 15@18c for 27@29, all less 30 per cent. to the trade. Russia Sheet is nominally quoted at 17½@18c gold, according to number, and sound at 17c. Pig Lead has been in only limited demand, and prices close rather weaker. We quote nominally $5.95@6 for common to good foreign. Manufactured Lead is unchanged, 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin has ruled quiet, and the sales made have all been in a retail way for immediate consumption. We note sales of 150 pigs Straits, in lots at 36¾c gold, and 5 tons English on private terms. Latest despatches from England quote English L & T £141, and Banca £138. We quote in coin at 34@35¾c for English; 36¾@36¾c for Straits, and 41@41¾c for Banca. Plates have ruled steady at former quotations. We note sales of 1,300 bxs, assorted charcoal Tin at $8 87½; 2,100 do charcoal Terne at $8.25; and 500 J. C. Coke, 14 by 20 $8@8.12½ gold. Mosselmann Sheet remains steady, with a fair

jobbing demand, sales from store at 8@8¼ gold nett, and 9¼@9½ currency, also a sale from agents' hands to arrive at 8¼, less 4 per cent. gold.

NAILS.—On a manufactured article of this kind where the market is controlled to some extent by a combination of producers and agents, and a regular trade price-list established, values seldom show any very decided variation, except at a general meeting of the trade, called for the purpose of revision, and former figures may therefore still be considered the nominal market values. Buyers, however, have undoubtedly been accorded a great many little advantages of late, and the position is virtually lower. Business has been dull in all directions, the stocks on hand were fair and daily growing somewhat, and the only way to draw out a demand was to offer attractive terms. Still the modifications were not by any means liberal, and in the main calculated to influence certain buyers who, though wanting a little stock, seem half inclined to postpone operations until a later day. The production is fair, and embraces all the leading styles of cut and clinch. We quote per 100 lbs.: cut, 10@60d, $4.50; cut, 8@9d, $4.75; cut, 6@7d, $5; cut, 4@5d, $5.25; cut, 3d, $6; cut, 2@3d, fine, $6.75; cut spikes, all sizes, $4.75; cut finishing, casing, box, etc., $5@$6.50; clinch, $6@6.50; horse-shoe, forged, No. 10 to 5, per lb, 19@31. Other styles are selling as follows: Copper, 36@38c per lb; yellow metal, 22c do. The exports for the week are 318 pckgs, valued at $1,733; and since January 1st, 13,153, valued at $82,650.

PAINTS AND OILS.—There is not much of a new or interesting character to advise on the wholesale market for paints since our last report, the general demand still keeping within quite narrow bounds, and a dull feeling prevailing throughout. The regular jobbing dealers send in a few orders occasionally, with a view to keeping their stocks and assortments in store in good shape; and now and then an out-of-town buyer, fearful of an advance in freight charges operates with some little freedom; but taken altogether, the call is light and business not entirely satisfactory. Stocks in the mean time continue to accumulate slowly, both in the way of domestic and foreign goods, and there is now quite a fine assortment available from which to make selections. On prices there is a little uncertainty, but while certain necessary concessions are allowed in the present condition of the market, buyers cannot claim a decided gain on any style of goods. Jobbers find their business sympathizing to a great extent with the wholesale market, and are distributing only very small retail parcels; but, as a rule, former prices are asked, and there appear to be many hopes of an early recovery of annimation. Linseed Oil has continued in moderate request from all quarters, and the market is in a generally tame condition throughout. The offerings were at all times ample, and though crushers refrained from any great amount of pressure the desire to operate was much more noticeable among sellers than among buyers. We reduce quotations to 80@81c, in casks, but even these rates are nominal.

Exports as follows:—

	This week.		Since Jan. 1, 1871.	
Paint.....pckgs.	354	value $17,791	7,377	value $121,640
Linseed oil, galls.	84	" 74	9,537	" 8,703
Oxide zinc, pckgs.	—	" —	3,620	" 38,110

PITCH.—The market has ruled quiet, with but a moderate business transacted. We note sales of 100 bbls Leavitt's City at $4.25, free on board. We quote City at $4.25. Receipts for the week 50 bbls; since January 1st, 740 bbls; for same time last year, 2,192. Exports for the week, 30 bbls; since January 1st, 2,214 bbls; same time last year, 3,080 bbls.

SPIRITS TURPENTINE.—Early in the week an attempt was made to break the market; but the majority of holders were firm in view of the small stock now on hand. The advices from the South and abroad are more favorable, and at the close the market was strong, with probably a further advance in the immediate future. Very little if any Wilmington could now be bought under 70c. We note 1,000 bbls in Wilmington offered here at 66c, and 65c bid, in shipping order, free on board. The sales since our last have reached 1,600 bbls, at 68@70c, principally at 69c, including 300 in Shipping at 70c, and 170 bbls to arrive at 69c cash. We quote merchantable and shipping order, 70@71c. Receipts for the week, 1,165 bbls; since January 1st, 53,367 bbls, and for the same period last year, 54,540 bbls. Exports for the week, 180 bbls; since January 1st, 11,962 bbls, and for the same period last year, 14,776.

TAR.—The market has experienced an advance in Wilmington, which has stimulated the market here, and at the close prices are firmly held. We note sales of 125 bbls Wilmington Rope, etc., at $3.12½@4.25, and 50 do large Washington as it runs at $3.50 in yard. Receipts for the week, — bbls; since January 1st, 17,119 bbls; for the corresponding period last year, 45,434 bbls. Exports for week, 100 bbls; since January 1st, 8,567 bbls, and corresponding period last year, 13,911 bbls.

ALBANY LUMBER MARKET.

The *Argus*' report for the week ending October 17, 1871, is as follows:—

If all the lumber now sold was shipped, stocks would be materially reduced. The difficulty now is to get barges to carry the lumber engaged ahead. The greatest scarcity is of spruce and low grades of pine, prices of which are gradually advancing. It is so late in the season that even if the mills North were to get water the supply of spruce would fall much short of the demand, and low grades of pine cannot be got except to a limited extent either from Canada or elsewhere. There is still the same difficulty in getting lumber forward from Ottawa on account of low water, and freights have lately advanced 1@2 ₱ cent. Many of the mills are at a stand and unable to fill their contracts, which will upset the calculation of those who have depended on the lumber. The Western markets previous to the disastrous fire at Chicago were very firm, with no accumulation of stocks and retail yards barely supplied. Prices now must go up, and once the bustle and confusion consequent upon the fire is over, it is expected that the market will become excited and higher. Private letters estimate the loss of lumber by the Chicago fire at 60 to 70,000,000 feet. To this has to be added large quantities burnt in Michigan and Wisconsin; not only lumber but logs, standing timber, mills, &c. A general advance in the prices of lumber may be regarded as certain so soon as the apprehensions about stringency in money and disturbances in business have subsided. The effects of the fearful ravages of the fires, with the destruction of lumber, are neutralized by the general excitement, &c. The market closes very firm, and our quotations on some grades are higher, with a general tendency to advance.

The receipts at Albany by the Erie and Champlain canals for the second week in October were: —

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	11,033,200	634	....	....
1870	13,250,700	969	....	470,000

Of the boards and scantling received, 7,466,500 feet were by the Erie, and 3,566,700 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals, from the opening of navigation to October 15, were:—

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	342,671,600	25,051	....	8,706,900
1870	353,371,500	18,118	....	15,619,900

Lake freights are $6 to Buffalo, and $9@9.50 to Oswego, Canal freights from Buffalo to Albany are $7.50 on hard wood, and $6 on soft; from Oswego to Albany, $3.75.

River and Eastern freights are quoted as follows:

To New York, per M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	3 00
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, per ton, to Boston	2 50

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. VIII. NEW YORK, SATURDAY, OCTOBER 28, 1871. No. 189.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET.

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

THE REMEDY FOR OUR TROUBLES.

IT is idle to suppose that any possible change in our city charter will ensure honest and economical government, unless effectual means be taken to prevent the payment of excessive or fraudulent claims. The difficulty heretofore has always been that while it was the interest of thousands of persons to get unearned money out of the city treasury, there was no opposing interest powerful enough to conserve the city funds. The persons put in control of the money of the municipality being always politicians elected by the popular vote, it has always been their interest to court the favor of the contractors and claimants rather than that of the tax-payers.

Further reflection has satisfied us that the only plan to ensure economy in the city expenditures is that proposed in a recent issue of the RECORD, to wit:

That no bill against the city be paid until it has passed the scrutiny and had the approval of a board of audit representing the tax-payers of New York city.

Let it be understood that this scheme does not propose to give the tax-payers, as a body, any voting, legislative, or executive power not possessed by their fellow-citizens, nor should they have authority to stop the payment of any bill for which honest service or material had been rendered; their power of veto would only be over excessive or fraudulent bills. This authority should naturally be lodged with them, because it is they who foot the bills. We have no illusions about tax-payers as a body. We do not claim for them any virtues not possessed by bankers, merchants, or mechanics. We simply want to utilize their personal selfishness to prevent the payment of improper bills. Had such a board been in existence for fifteen years past, the city would have saved $50,000,000 and all its recent municipal scandals; for, be it remembered, all the bills presented were for work which was needed; the whole difficulty was in its being no one's interest to scrutinize the charges.

If this scheme worked well, it might be competent for some future legislature to put the whole financial department of the city government in the hands of the property-holders; but public opinion will not now tolerate a more radical plan than the one we propose.

But is this all that is needed to make New York a model municipality? we may be asked.

Here again we labor under no illusions. In no civilized city on earth is the experiment of universal suffrage and republican institutions put to so severe a test as in New York. It is a city of yesterday; its people have few local attachments; nine-tenths of its voting population were born and educated elsewhere; it has no common language, religion, or national sympathy; and worse than all, the bulk of its real estate is in comparatively few hands; in short, all the elements which went to make the New England township the just pride and boast of the believers in the divinity of democratic institutions, are almost wholly wanting in this city. The breaking down of republican institutions here would be no just argument against them where the conditions were more favorable.

But, we may be asked, have you nothing else to propose? will your board of audit of tax-payers be all-sufficient? This question we will try and answer next week.

MARKET REVIEW.

BRICKS.—Following the writing of our last report there were two or three pretty sharp calls, and for some of the very best lots prices were carried up a point or two by competition, but there was no fully astablished improvement and the market has since become rather tame, with former extreme prices barely sustained on all kinds of North River Hards. The consumption, though still pretty fair, is gradually falling off; buyers are more particular as to quality, and figure closer on cost, while dealers still fail to show any anxiety to secure winter stocks, and hold to the idea that values must come down before it is necessary to fill up storage room. Manufacturers, of course, resist a decline, and assert that they will not be compelled to give way, but it looks as if they could hardly fail to accord buyers rather greater advantages than now current. As noted above, the wants of consumers are not so large as a month ago, and apparantly growing smaller daily; the retail dealers stocked up cheaply last year, and are determined to do so this year, if possible, and the rates charged have already materially reduced the call from the Eastward, and given increased facilities for bringing brick to this market, by restoring vessels to their regular routes on the North River. The recent free sales, it was thought, would exhaust the supdly somewhat, but we are informed that such is not the case, and that the production has all along been fully equal to the outlet, and that now the accumulation on hand at all the points of production is fully equal to last year, and in some cases shows quite an excess. Manufacturers claim to have been working without a margin for profit, but still they seem to have kept on turning out brick, and nothing but the very free consumption of our city by the liberal up-town improvements has enabled them to keep the level of values as high as they have done since the first of July. We quote at about $9.50@10.50 per M for extremes on the bulk of the wholesale transactions. New Jersey Hards not very plenty, and quoted in a nominal sort of way at about $8@9 per M. Pale Brick have sold well, and commanded rather higher prices, the small supply having a strengthening effect. There are plenty up the river, but makers are not prepared as yet to send them forward with any freedom. We quote at $6@6.50 per M for common to best. Crotons are quiet, but there is some talk of putting up prices again in expectation of a demand from dealers for winter stocks. Philadelphia Fronts firm at $28@30 per M from pier, with a fair demand.

LATH.—In a general way the market remains much the same as at the date of our last, or, for that matter, for months past. Holders, or rather receivers, are firm in views, and now and then hint at a little higher figures, as the stock continues to sell up about as fast as offered; but still it is not deemed advisable to look for too high figures as yet, in view of the probability of reducing the call. The consumption, to be sure, continues very good, and quite a number of dealers are without an accumulation of stock in yard, but the great rush to complete buildings seems to have subsided somewhat, and many of the operations are conducted in such a shape that there is every probability buyers would withdraw should any important advance be charged over previous figures. The supply yet to come down the coast is also very fair, and mills are working in some sections on an increased supply of both water and logs, the result of late heavy rains. Some little difficulty is occasionally reported in obtaining transportation, but vessels are not actually scarce, their absence arising from temporary delays. The market closes rather quietly, owing in part to an absence of stock; but there is a demand current from dealers, and full former rates would be paid. We quote at $2.35 per M for Eastern.

LIME.—The market has been quoted firm at the late improvement in values, and undoubtedly was so, as sellers have only to name a figure to fix a market rate, especially at this season of the year. The demand has also appeared very good, everything not previously disposed of finding an outlet, and the increased supply giving buyers no advantage. Dealers, however, are not remarkably eager to secure any very large amount of goods, and we find some of the principal yards very fairly stocked with both grades, while the distribution to consumers is no larger than the usual average for the season. Buyers evidently are willing to pay a fair figure on stock, but seem likely to resist any unreasonable advance. State finishing lime meets with a good steady call, a great many purchases being made for the bleacheries, etc., and commands full rates; ineeed, some buyers would prefer paying more than for Eastern, if it were necessary, but on this agents do not insist. The common grade, however, varies considerably, and while never in excess of Eastern, frequently is offered 5@10c, and now and then even 15c, lower, to attract desirable customers. Of late, however, agents have appeared less anxious, and on several large orders we learn that there was a direct refusal to operate except at the regular market figures. The general market as we close is pretty firm, and we continue to quote at about $1.35 per bbl for common, and $1.75 do for lump.

LUMBER.—The demand for stuff at the yards does not increase to any extent, and our retail market continues to show rather a dull tone in a general way, though the odd lots moving out make a respectable aggregate when taken together. As to values, the feeling is very firm on nearly all grades, but more particularly Western and Northern stock, and some holders commence to talk of advancing rates somewhat for the most desirable selections. This, however, is a rather difficult matter on the current inquiry, which is void of an anxious tone, and would be likely to fall away somewhat on an increase of cost of goods. Another point somewhat favorable to buyers is the large and well assorted accumulation on hand, and the comparative ease with which selections can be made, though nothing is offered in excess of the outlet, and an entire absence of anything like pressure to realize is noticeable even on the most undesirable styles. The local wants still afford the best market for the outgoing goods, the demand coming from builders in the up-town sections quite largely, but down-town a good many manufacturing orders are filled, and here and there we find parcels in yard being put in shape for shipment South and to a few points in New Jersey. This, however, appears to cover about all the distributive movement outside consumers wants, as a large number of country dealers now buy direct from the mills, in view of the improved and cheaper means of transportation available.

The wholesale market has been pretty firm, with a gain, if anything, on some grades, and the demand very fair for the season. The coastwise receipts have fallen off, and supplies coming through from interior points are not so plenty, especially in a shape likely to come upon sale, and buyers in want of stock are willing to pay full figures, those who do need supplies at this season needing them very badly. Agents have been rather stiffening in their views, in sympathy with the feeling in the interior, and also from the fact that some few bids have been made for delivery next year at full figures now ruling. A considerable amount of stock is being delivered, but a great many contracts cannot be filled this fall, especially of Canadian lumber, owing to the difficulty of moving stock forward in some cases, and also in view of the reduced production at many of the mills consequent upon low water. The export movement here is only fair, and on the St. Lawrence is good on West India and South American orders, but the English deal trade is dull.

Eastern Spruce has remained in the somewhat improved condition noted in our last, in fact, has gained a little if anything, and the market may now be written as quite steady. Our dealers have so straightened out matters on pier and at the yard, that they are now enabled to give their attention to fresh purchases, and though not buying freely or with any particular anxiety, manage to make a place for the somewhat smaller offerings, both on spot and to arrive. Advices from the mills represent manufacturers as in a very firm mood, and not inclined to sell unless they can realize full figures, but this appears to be the tenor of the advices at all times, and there will probably be an average amount available, especially as recent rains have given plenty of water. The market closes with a reasonably steady tone, owing to small supplies, but there is no buoyancy. We quote at $16@17 per M for inferior to fair schedules, and $17.50 @20 for good to prime do. Eastern Hemlock has been inquired after on special orders, with bids at $15 per M. but this was refused, and business remained dull. White Pine has met with a good, steady demand, if anything the outlet has been larger, and the position generally seems quite encouraging to the selling interest. There is not much available in first hands on the spot and for parcels now expected to arrive except on contract. We quote at $21 @28 per M for ordinary to prime box and shipping boards, and $30 do for choice do. Yellow Pine continues in demand, especially on invoices to order, and full prices are bid. Frost has appeared at the South, however, sickness is disappearing, and with a larger number of vessels out and going out there is a probability that they will soon be bringing in more stock. We quote at $29@33 per M for random cargoes, and $35@40 do for special do.

The Western papers are filled with accounts of the horrible destruction of life and property by the late fires in the woods of Wisconsin and Michigan, but as yet the greatest amount of space has been given to calling attention to the human suffering entailed, and taking measures to provide for the wants of the destitute families who have escaped the devouring element with their lives, but nothing else, except the clothing on their backs, and many with scarcely enough to cover their nakedness. The loss of life can be counted by the thousands, while of property no just estimate can as yet be formed. It is simply immense, however, and it behooves the charitable throughout the length and breadth of the land to stand not upon the order of their giving, but to give at once, and freely, too, from the abundance with which they are blessed. Anything and everything will be acceptable, and our daily papers teem with suggestions as to how and where to send contributions.

No detailed account has as yet come to hand, but a large number of mills and millions of feet of standing and cut timber and lumber have added fuel to the flames, and though we are not directly affected here, the lumber markets generally are strengthened, and in some cases show great excitement and an advance. In this connection we quote the following from a correspondent at Troy:—"It is a singular fact that from the West and North down to New York as you *recede* from the point of production the value of lumber *decreases*, attributable no doubt to our production. But this is now done with, and already are apparant all the incipient conditions of a sharp and positive upward turn. It will come next spring, if not this fall."

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.
Africa	——	477,508	457,009
Alicante	——	——	41,700
Amsterdam	——	——	——
Antwerp	——	959,689	774,100

Porto Rico	6,000	879,694	124,401
Rotterdam	——	7,000	2,250
Venezuela	——	93,870	124,115
Total feet	161,273	13,377,877	13,049,003
Value	$4,463	$437,900	$468,551

We note additional exports as follows:—

To British West Indies, 27 pcs black walnut, value $80; to Central America, 100,000 shingles, valued at $800; to Bremen, 26,800 staves, to Rotterdam, 12,000 do; to Antwerp, 7,200 do; to Liverpool, 12,600 do; to London, 12,600 do; to Havre, 9,800 do; to Madeira, 2,400 do; to Oporto, 6,000 do; to French West Indies, 6,000 do, and 100 shooks; to British West Indies, 400 shooks; to British Guiana, 666 shooks; to Cuba, 380 shooks and 10,000 box shooks, and to Porto Rico, 1,407 shooks. The receipts repored as follows:—From Jacksonville, 175,000 feet lumber; from Charleston, 150,000 feet do; from Savannah, 140,000 feet do; from Maine coast, fifteen cargoes of lumber, two do lath; from St. John, N. B., 323,975 feet lumber; from St. George, N. B., 326,270 feet lumber, 97,500 lath; from Musquash, 185,000 feet lumber, 20,000 lath; from Shules, 2,000 inches spars, 200 sticks, 600 poles.

Charters as follows:—Barque, 378 tons, from Portland to River Plate, lumber, $15; a Brig, 360 tons, hence to Montevideo and Buenos Ayres, lumber, &c., rate reserved; a Br. barque (now at Boston), and a Br. brig (now at Providence), from St. Marys to Montevideo, lumber, $23 and primage; a barque, 234 tons, from Fernandina to the Windward, lumber, $12.25; a schr., 317 tons, to Trinidad, P. S., shooks, 33c.; a Br. brig, 284 tons, to Vera Cruz, $3,000, and back from a Mexican mahogany port, $12; a schr. from Fernandina to Matanzas, lumber, $11; a brig, 206 tons, hence to Jamaica and back, equal to $2,700 gold; a schr., 176 tons, to Jacksonville and back, with lumber, $16; covering outward freight; a schr. from Savannah to Bridgeport, $10; a schr., 230 M. lumber, from Fernandina to Matanzas, $11; a schr., from Savannah to a Long Island Sound port, lumber, $10; two from Jacksonville to Philadelphia, lumber, $11.50; four from Jacksonville to New York, $12.50; one from Satilla to New York, $11.50.

Recent advices from Rio Janeiro report as follows:—

Pitch Pine Deals—Worth 45$000@46$000 ℔ doz. of 14x3 x9, to net G. $43.47@$44-70 ℔ 1000 feet.

One Inch Lumber—Worth 105 rs. ℔ foot, to net G. $37.49 ℔ 1000 feet.

Swedish Deals—31$000 ℔ dozen of 14x3x9.

From the Williamsport, Pa., *Gazette and Bulletin* we obtain the following report on the Williamsport Lumber market:—

With our mills all idle from the want of logs, and no immediate prospect of a flood to bring forward the logs now in the river and tributaries, waiting high water, with the demand for lumber constantly increasing, there is no prospect of a decline in prices the present season. If we add to the natural causes for an upward tendency in prices the devastating fires in lumber regions at the west, and the vast amounts of manufactured lumber, mills and forests that have been destroyed, we shall find other reasons for firmness in all Eastern lumber markets.

The amount of lumber manufactured at this point the present season has been about 116,000,000 of feet. Of this amount, more than one-third has already been disposed of, leaving not far from 75,000,000 of feet now on hand, but going off rapidly. The excitement in the market is such that no settled price can be quoted, as each operator is anxious to make sales at a little better figures than his neighbor. We have no lumber exchange, and business is done on the plan of "every man for himself." Under the present excited state of the trade we deem it best to omit our table of prices, with the remark that the rise will average three dollars per thousand, many qualities going considerably above that mark.

The Saginaw *Courier* contains the following:—

The lumber market has taken a jump upwards, with the prospects of another advance before the spring trade of 1872 opens. The causes which induce the advances are plain. Eastern markets have a short stock, fifty million feet and upward of lumber were destroyed at Chicago; many mills with their stocks have been burned, and pine lands have suffered to an alarming extent scarcely appreciated. It is estimated that pine timber in the aggregate, amounting to the cut of from three to five years, was destroyed or nearly so. Timber in the burnt districts, not cut during the coming winter, will be of no value. W. R. Burt & Co. had in the neighborhood of fifty million feet of pine burned over. They will not be able to lumber more than one-tenth of this amount, at the farthest, during the winter. Phil. Ketcham, who has been up on the head-waters of the Cass, reports that, of thirty million feet of Ketcham & Co., at least twenty million have been burned. And so it is all over. Some tracts have escaped almost entirely, and others have suffered severe damage. The prospect of a heavy log crop even will scarcely affect the price of lumber. Lumber which would have sold for $7, $14 and $35 ten days ago, is now held stiff at $7.50, $15 and $40, lath $1.90@2.00, and scarce. We hear of parties who are asking $8, $16 and $40.

Sales by cargoes about as follows:—

First clear	$40 00@45 00
Fourths	38 00@40 00
Box	33 00@35 00
Three upper grades	38 00@40 00
Common	14 00@15 00
Shipping culls	7 00@ 7 50
Lath	1 95@ 2 10
SHINGLES—	
Sawed A 1	4 00@ 4 25
Sawed A 2	2 25@ 2 75
Shaved—None in market.	

The following parties are lumbering along the line of the surveyed road from Tawas City to Manistee—all of them east of the meridian line: S. & C. D. Hale, of this village; Oscar Pierson, of East Tawas, for Grant & Noyes; Fred Rayner & Co., of Bay City; P. Nestor, David Hope, Stone, of Saginaw, Draper & Sage.

The Iosco *Gazette* says:—Nearly all over this county the fires in the woods continue their devastating progress. For several days Laidlawville has been threatened, and it has been hard work to save the settlement.

In the interior some camps have been destroyed, while others have required hard word to save them. Mr. Hale lost a skidway of logs a few nights ago, and his men have had all they could do to save their camps and equipage.

The Milwaukie *Sentinel* reports the Lumber market as follows:—

There has been but little doing in the cargo trade for a week past, and since the great conflagrations at Chicago and other points, prices have become wholly unsettled. The few sales since our last report have been made on strictly-cash-on-delivery terms, the feeling being one of extreme caution on the part of both sellers and buyers. We quote:

Joist and scantling	$13 00@14 00
Strips and boards, common to fair	14 00@15 00
Medium to good to strips and boards	16 00@18 00
Lath, ℔ m pieces	@ 2 12½
Shingles, "A" or Star	3 15@ 3 25

The Saginaw *Enterprise* devotes nearly the whole of its columns to accounts of late fires in that vicinity, but we are unable to give room to more than the following few items bearing directly on the lumber interest:—

At Bay City the lumber, grain, distillery and iron manufacturing interests are not severely crippled, and business in all these departments will probably proceed with its accustomed vigor in a few days.

Through the "Shore" country the destruction of lumber camps is very great. R. McDonald endeavored to reach his camp, but the flames drove him back. There is a well-founded, report that a gang of men and teams, belonging to J. C. Cameron, who were on their way to Alabaster, have perished in the flames. No trace of them has been found.

From Isabella it is reported that the damage to pine timber is beyond estimation. Probably half a million dollars will not nearly cover the losses of the 48 hours ending Tuesday morning, and had rain been withheld another day there is no doubt the destruction would have been three times as great.

From Chesaning a correspondent writes as follows:—Thanks to a kind Providence, and to our townsmen for their vigilance. Chesaning has escaped the ravages of the fires without the loss of a single building. Several times it has seemed almost certain that the whole village must succomb, and a great many packed up their valuables and put themselves in readiness to leave their homes at a moment's notice.

Among those of our townsmen who have suffered pecuniarily, are Chapman & Co., who lost about $1,800 worth of lumber at McArthur's mill; F. P. Kenyon, who lost a lot of logs, and Anson Sheldon, whose loss was about 60 or 70 cords of wood.

Another correspondent says:—

St. Louis is safe. We have been enveloped in smoke, but have not suffered to any extent from fire. One house and one barn within about half a mile from the village was destroyed, and this is all the loss within the immediate vicinity. We certainly have every reason to be very thankful for our deliverance from what at one time seemed entire destruction. From the woods north and west of us we hear that large quantities of pine have been destroyed and many camps have been burned. In many cases the large stock of winter supplies have been entirely consumed. There is yet much fire in the woods, but we have reason to hope that the great danger is now past.

The losses at Manistee were as follows:—

SAW MILLS, LUMBER, ETC.

Names.	Loss.	Insurance.
Cushman, Calkins & Co	$121,000	$80,000
J. Canfield	62,000	25,000
Green & Milmoe	75,000	40,000
Tyson & Robinson	25,000	12,500

The following are the losses, as far as heard from, in the village of Peshtigo and its farming vicinity: Harter & Harwarth, $12,000; T. A. Hay, $3,000; F. J. Bartels, $20,000; Charles Johnston, $10,000; George Robinson, $5,000; N. Cavoit, $20,000; P. J. Marshall, $10,000; Williams & Brother, $50,000; Peshtigo Company (outside loss on pine land), $1,000,000; Levi Hale, $20,000; Chas. Woodward, $15,000; W. A. Ellis, $6,000; G. C. Hemstead, $2,000; M. T. Ward, cash and goods, $3,000; John Dress, $15,000; Edward Dress, $6,000; Edward Kittrens, $15,000; John Anderson, $6,000; John Stewart, $13,000; Joe Gregg, $3,000; John Farrell, $4,000; Charles Jacobson, $10,000; other residences and personal property in the village, $250,000: estimate of losses throughout the farming districts, $748,000.

The Huron County *News* says the property destroyed at Hurpn City mainly belonged to R. B. Hubbard & Co. Their principal items of loss are the saw-mill and new shingle-mill, worth probably $15,000; their store and stock of goods, $25,000; Langdon Hubbard's residence and household goods, $6,000; new grist-mill, just ready to run, $5,000; seven thousand bushels of oats and corn just received for the coming winter's lumbering, $5,000; new dock and track, $10,000; 180,000 feet clear lumber on dock, $6,000; about two hundred hogs, burned alive, $1,000; lumber sleighs, wagons, farming implements, $2,000; barns and contents, work-shops, the various dwellings for the workmen, boarding-houses and furniture, &c., &c., at a low estimate would bring the Messrs. Hubbard's loss to at least $100,000, and on which they had not one dollar of insurance.

The Montreal *Witness* has the following:—

LUMBER YARDS AND WOODEN BUILDINGS.—Before the meeting of the City Council last night, a deputation headed by the Hon. John Young waited on His Worship the Mayor, and presented the petition of the citizens and a memorial from the Board of Trade, protesting against the further erection of wooden buildings in the city, and demanding the removal of lumber-yards outside the city limits, with a view to greater security against fire. The citizens' petition was signed by the Protestant and Roman Catholic Bishops, clergymen of all denominations, all the Insurance Agents, and all the principal citizens. The Board of Trade memorial was also influentially signed. His Worship the Mayor received the deputation very courteously, and said the matter was one of great importance and should receive the immediate attention of the Council.

The Lumber market is quite active at present, and prices are firm as follows:—

Black Walnut	$60 00	@	80 00	per mille
Birch	16 00	@	20 00	"
Pine, First and Second	16 00	@	20 00	"
Basswood	10 00	@	13 00	"
Spruce	9 00	@	9 50	"
Hemlock	8 00	@	8 50	"
Pine, 3-inch cull deals	20 00	@	24 00	100 pcs.

TIMBER CIRCULAR.

Messrs. Farnworth and Jardine, under date Liverpool, 29th September, 1871, say: During the past month there has been a heavy import, a considerable portion of which, in spite of the demend being good, has had to be yarded, and the stocks, as shown below, compare unfavorably with last year, and they must be considered excessive. The further advance in the Bank rate, yesterday, to 4 per cent. will not have a beneficial effect upon our market.

The arrivals from British North America during the past fortnight have been 52 vessels, 45,579 tons, against 72 vessels, 45,766 tons, during the corresponding month last year.

Of Canadian Woods the arrivals have been heavy, and the stocks have increased very considerably. We have had a large import of Waney Timber, a considerable portion has gone direct into consumption, being generally of prime quality. Square Timber of good quality continues to command full prices, but the commoner qualities are most difficult to place. Red Pine is difficult to sell, and the stock of common quality is excessive. Oak has been bought freely during the month by the Railway and Wagon companies, and prices have been fully sustained. Elm is rather more inquired for, but it must be fresh, the stock consisting almost entirely of common wood. Ash of small size is difficult to sell, but the larger sizes are wanted. Birch has been imported more freely, and the stock is rather heavy, and late sales have been more difficult to effect. Walnut has been in better demand of late, and holders are asking more money now, especially for the better qualities. Pine Deals have been more inquired for, but the stock is still rather heavy, especially of the lower classes. Staves fully sustain their value, although cousumers have derived a considerable part of their supplies of Puncheon lately from New York. Lathwood is in good request at remunerative prices.

WHOLESALE PRICES OF TIMBER.—Yellow Pine Timber, Quebec, per cubic foot, 1s 4d to 2s 3d; Waney Board, do, 2s 1d to 2s 5d; Red Pine, do, 1s 3d to 1s 6d; Oak, do, 2s 4d to 2s 6d; Elm, do, 1s 3d to 1s 9d; Ash, do, 1s 6d to 1s 10d; Birch, Saint John, do, 1s 4d to 1s 7d; Quebec, do, 1s 4d to 1s 10d; Nova Scotia, &c., do, 1s 2d to 1s 5d; Masts, Calliper measure, Red, do, 1s 6d to 2s; Yellow do, 1s 9d to 2s 6d; Spars, Spruce, do, 10d to 1s; Deals, Quebec Yellow, per standard, 1st quality, do, £17 to £18; 2d do, £12 5s to £12 15s; 3d do, £8 to £8 15s; Deals, Spruce, St. John, do, £7 10s; Nova Scotia, do, £7 5s to £6 7s 6d; Boards, Spruce, &c., £7 to £7 10s; Staves, Quebec standard, mille; 1st quality, £67 10s to £70; 2d do, do, £52 10s to £55; Staves, W O puncheon, per mille; 1st quality, do, £24 10s to £26; 2d do, £18 to £20: Oars, Ash, per running foot, 2½d to 3d; Handspikes, Hickory (dressed) per doz, 15s to 16s; Ash and Birch, do, 5s 6d to 6s 6d; Lathwood, per fathom 4 feet, £2 to £4; Railway Sleepers, Hackmatac, &c., each 2s 6d to 3s 3d.

We have the following from the Chicago *Times*—

CARGOES.—The offerings were again extremely light, and only two or three transactions occurred, though the attendance of operators at the exchange was large, and a good demand existed. Prices were firm, ranging at $16 for joist and scantling; $17.50@21 for boards and strips, and $2.75 for lath. Sales include:—Cargo from White Lake, 99 M feet boards and common piece stuff at $16.62½; cargo from Muskegon, 116 M feet common boards and strips at $17.50.

AT THE YARDS.—The feeling evinced among dealers at the yards is strong and buoyant, though, to their credit be

it said, very few are disposed to take advantage of the short supply and the necesstiies of the public, to demand exorbitant prices. The losses by the fire were heavy, and the great fires in Michigan and Wisconsin have destroyed many logs and mills, but the supply here is still comparatively fair, and vessels are daily arriving with cargoes, as of old, from the different points on Lake Michigan.

The Providence *Journal* says:—

LUMBER.—The market continues excited in consequence of the immense destruction of lumber by the great fires in the West, and prices are tending upward, especially for pine lumber. Prices of all kinds of lumber continue firm at our quotations. We quote pine boards, Nos. 1 and 2, $58@60; No. 3, $48@50 per M; No. 4, $35; box boards, Western, $23@27; Western pine stocks, $28@32; Eastern do, $22; hemlock, $17; spruce, $18; shaved pine shingles, $8 per M; shaved cedar, $4@7; Southern cedar, $5@7; sawed cedar, extra, $4.50; do do, No. 1, $3@3.50; spruce shingles, $2.25@3; laths spruce, $2.50 per M; pickets, spruce $15; pine, $20; clapboards, extra, $65; clear, $60; No. 1, $40; Western ash lumber, $50@60; white ash, $80@100; black walnut, $80; whitewood, $40@50; maple, $40@55; birch, $40@50; cherry, $60@80; oak, $45@60; mahogany, $200@250.

From Griffin & O'Conner's St. Louis *Market Reporter* we clip the following:—

White pine in raft in demand and stiffer; offerings very small. We quote the range for Wisconsin at $16@26.50, as in quality, and Chippewa at $16.50@20. Nothing reported in shingles or lath.

With light receipts there was only a moderate business done on the levee or at the depots. The general market has ruled stronger in consequence of the advance in yard rates by dealers. Transactions, as heretofore noted, were mainly in yellow pine, and all offerings found ready sale at full prices. Pop'ar and choice walnut in demand; none worth mentioning on the market. Oak nominal. Ash and cedar unchanged.

We quote the range for levee and depot lots:—Yellow pine flooring at $15@17 to $18@20 for inferior and common green; $22@24 for good to choice do, and $25@27 to $28@30 for common and fair to choice dry; and mill-run dimensions at $14@14.50. Poplar boards and strips $17@18 to $20@22; chair plank $19@21. Black walnut at $20@25 for common, $33@35@40 for fair to good and choice. Oak at $16@20 to $22. Ash at $20@23. Sycamore at $18@19. Cedar at $25@28 for sawed; hewn nominal at $2.50. Cedar posts at $25@27 M, extra large, higher. Vineyard poles at $10. Special orders filled at higher rates.

The Boston *Commercial Bulletin* says:—

The lumber market is seasonably active, and the volume of business this fall will foot up a larger aggregate than for many years in the corresponding time. Most of the yards are busy filling orders for building purposes, and they have also begun to take on their winter supplies. Hemlock and coarse boards for covering are in demand, and prices are firm. The arrivals of Eastern lumber this week have been considerable; but the market is firm and unchanged, with a good call for all purposes. Spruce is in fair demand at full prices; but shingles and clapboards are dull and neglected, with prices nominal, and to effect sales of good-sized lots concessions would have to be made from prices quoted. Western lumber is advancing, with a prospective large demand for building purposes in the cities and towns of the West, which have beeen devastated by the recent fires. Canada lumber is firm and in good demand at steady prices.

The following are the surveys for the week:—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	382,324	Spruce	1,746,236
Hemlock	247,618	So. Pine Flooring	76,710
So. Pine Pl. & Tim.	188,321	Hard Wood	17,594
Black Walnut	134,790	White Wood	8,687
Total			2,802,280

A report from Memphis is as follows:—

In lumber, from our last report, we have several changes to note. The demand, added to the high freights for clear white pine and rough poplar, has been to the extent that dealers have been compelled to advance in prices. In fact, rearly every class has slightly advanced with the advance in freights. Sash, doors, and blinds are unchanged from our last report. The trade is active, and so long as fair and pleasant weather holds out business will be good.

A recent issue of the Troy *Whig* contains the following interesting report:—

LUMBER.—The transactions of the week have been to a fair extent and at full prices. Without altering quotations, it may be said that rates have advanced to outside figures. The stock on hand is not large, and that to arrive is so small as to be scarcely worthy of mention. Hence, calculations are based mainly on the stock in hand, and allowing for the situation, the ruling prices are extremely low. The high lake and canal freights (now nearly doubled), operate as an embargo on further shipments, as long as the market, though strong, is still unprepared to recognize the increased cost both in value and transport of our staple articles. It is a fact, and a very suggestive one, that walnut is now selling at Toledo and other Western shipping ports at as high a rate as the same goods would command in this market to-day, putting freights out of the question; while at Oswego and Buffalo all grades of pine are relatively as high, if not higher, than they are here. As for Michigan, further shipment from there are simply out of the question for this year, if not for all the next. But one consideration only can properly qualify this remark, viz.: that burnt forests, to be made at all available, must be cut and convered immediately. It is possible that this necessity may induce a very large production, and thus preserve the equilibrium. It is clear, however, that under all the circumstanes, the day of low prices is gone for the present. Lumber always sold too low, will now approximately bring its value.

The Pensacola *Mail* reports as follows to Oct. 17:—

TIMBER.—The heavy rains which fell last week made the timber-getters quite active in rafting the timber which they had ready in the creeks, and if we have a continuance of wet weather, we may expect a large quantity to market very soon. Quotations as yet are nominal. We quote:—.

60 feet average				10c.@11c.	per cubic feet.
70	"	"		11c.@12c.	" " "
80	"	"		12c.@13c.	" " "
90	"	"		13c.@14c.	" " "
100	"	"		14c.@16c.	" " "

For B1 good class and upwards delivered at Ferry Pass.

The scarcity of freights for sawn timber will rather tend to depress prices, although a few mills have contracted for a large supply. We quote as last week:—

25 feet average				12c.@14c.	per cubic feet.
30	"	"		14c.@16c.	" " "
35	"	"		16c.@18c.	" " "

Delivered at vessel.

LUMBER.—Flooring boards are in good demand at the North, and prices are tending upwards, so that we think many mills will turn their attention to this article. We predict a busy season for our mill men, and quote:—

Floor'g Bds, prime	$17 50	to	$19	pr m. ft. f. o.b.
Scantling, ord'y sizes, Cuba & Texas	15 00	to	16	" "
Do. special sizes and long lengths	16 00	to	20	" "
Edge Boards, No. 1	10 00	to	11	" "
Do. No. 2	8 00	to	9	" "
Deals, S. A. market	17 00	to	18	" "
Do. English do.	13 00	to	14	" "

FREIGHTS.—Coastwise vessels are in pretty good demand, and command fair rates of freight. A few can be readily placed to-day for Boston, New York, and Philadelphia, at from $10 to $11.50, and one or two vessels for north side of Cuba, at from $10 to $11 gold.

Owing to the fall fleet being late in clearing for this place, vessels now in the gulf could get extra rates for both hewn and sawn timber to U. K. ports. We quote:—

U. Kingdom, hewn, orders, per load	....	38s to 40s	
do. do. direct ports,	"	....	36s 6d to 37s 6d
Liverpool, sawn	"	....	35s to 36s
Cuban ports, lum., per M sup. ft		....	$10 to $11 gold
Buenos Ayres, " "		....	21 to 22 "
Galveston, " "		....	10 to — cur.
Ports north of Hatteras		....	10 to 12 "

METALS.—The market for Ingot Copper has ruled quiet, and prices show some irregularity. We quote at 23½c for Ingot; 32c for new sheathing; 22c for yellow metal, and 20@21c for old sheathing. There has been only a limited demand for Scotch Pig Iron, and the tone of the market at the close is towards lower prices, though at present they are quotably unchanged. In American the inquiry has been confined to a few small lots, but with a moderate supply prices are firmly held. We quote Glengarnock in yard at $35@38.50, and from ship at $37@38 per ton for No. 1; $35@36 do for No. 2, and $33@34 do for forged. There continues a fair demand for refined bar from store, and prices close firm. We quote from store as follows: Bar Swedes, $107.50@120; refined, ordinary size, $85; refined, 1¼ to 6 by ¼ and 5-16, $90; refined, 1 and 1½ by ¼ and 5-16, $92.50; refined, 2½ to 3 round and square, $92.50; scroll, $102.50@132.50; ovals and half round, $102.50@122.50; band, $97.50; horse-shoe, $100@105; rods, 5-8 to 3-16 inch, $90@125; hoop, $107.50@150; nail rod, per lb., 6¼. Common sheet has ruled quiet but steady at our figures. We quote at 4¾@5¾c for single D and T., and 5¾@6¼c for D. and T. Charcoal. Galvanized Sheet has ruled a little firmer. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 27½@30 per cent. to the trade. Russia Sheet continues extremely quiet. We quote at 17½@18c, gold, according to number. There has not been any demand for Pig Lead; and our quotation of $5.95@6.50 for common to good foreign is only nominal. Manufactured Lead continues steady at 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent to the trade. Pig Tin continues in only limited demand. We quote in coin at 34¾@35c for English; 36¼@36¾ for Straits, and 41@41½c for Banca. The market for Plates is rather quiet, though quotations are firm. We quote I. C. charcoal, $8.75@9; I. C. coke, $7.50@8.50; Coke Terne, $6.37½@7.50, and Charcoal Terne, $7.75@8.25. There is a fair demand for Zinc and prices firm. We quote Mossel-mann Sheet at 9½@10c, currency, with sales from store at 8@8¼c gold, nett, and also a sale from agents' hands to arrive at 8¼c, less 4 per cent., gold.

NAILS.—Reports vary as to the condition of the market, and the tone is somewhat irregular. On the whole, however, the indications are a little more favorable for the selling interest, as the call has increased a trifle, and most dealers are enabled to adhere more closely to the regular price-list. A few customers, to be sure, are to be found who need a little coaxing, and as their purchases are generally quite profitable, they now and then obtain some slight favors, but not enough at present to affect the general position. The production continues very fair and well assorted, and the stocks available along the seabord are good; but we understand that at some of the principal interior points of distributien supplies are low. The demand from foreign shippers is very good. We retain former prices for this point, but manufacturers are charging 40c. per keg more at some of the western cities, and our dealers think they should obtain as much here. We quote per 100 lbs.: cut, 10@60d, $4.50; cut, 8@9d, $4.75; cut, 6@7d, $5; cut, 4@5d, $5.25; cut, 3d, $6; cut, 2@3d, fine, $6.75; cut spikes, all sizes, $4.75; cut finishing, casing, box, etc., $5@$6.50; clinch, $6@6.50; horse-shoe, forged, No. 10 to 5, per lb, 19@31. Other styles are selling as follows: Copper, 36@38c per lb; yellow metal, 22c do. The exports for the week are 304 pckgs, valued at $1,528; and since January 1st, 13,457, valued at $84,178.

PAINTS AND OILS.—We do not find any important change in the general position of this market. In a few cases importers and the large wholesale dealers have increased their sales somewhat during the week, but the demand was only spasmodic, and mainly for goods of which there was an ample assortment on hand, and gave sellers no decided advantage. Values remain nominally steady, and there is no warrant for making any alteration on quotations, but there is the usual little advantages current which a sharp buyer can always obtain on a dull market. From abroad the advices contain nothing, so far as known, calculated to either depress or stimulate the market, and the disposition among holders of the stocks here is to offer readily and accept any full and reasonable bid. The jobbers hold fair supplies, and from these they are distributing odd lots on mail orders to about an average extent, and obtaining former prices on all classes of goods. Our small city retailers, as a rule, are doing a very good business this fall, the consumption proving pretty large. Linseed Oil has met with scarcely any regular demand, buyers calling for merely small job lots as wanted for their most positive and immediate requirements, and the market was in a dull, uncertain condition throughout the week. The tendency, however, was mainly in buyers' favor, and though some crushers continue to ask about former rates, others are willing to operate much lower, and we learn of offerings down to 76@78c per gallon without attracting increased attention. The stock on hand is ample, and available without much difficulty.

Exports as follows:—

	This week.		Since Jan. 1, 1871.	
Paint.....pckgs.	71 value	$1,127	7,448 value	$122,767
Linseed oil, galls.	134 "	119	9,671 "	8,222
Oxide zinc, pckgs.	— "	—	3,620 "	28,110

PITCH.—There has been only a limited demand throughout the week, but prices remain steady. We quote prime city $4.25 free on board. Receipts for the week 48 bbls; since January 1st, 788 bbls; for same time last year, 2,292 bbls. Exports for the week, 45 bbls; since January 1st, 2,259 bbls; same time last year, 3,110 bbls.

SPIRITS TURPENTINE.—The market has generally ruled quiet, and prices show a slight decline as compared with a week ago, closing weak and unsettled. We quote merchantable and shipping order, 68½@69c. for Spot, and 68c. to arrive; New York bbls. 70½c.; cash and retail lots 70@72c. Receipts for the week, 2,040 bbls; since January 1st, 55,407 bbls, and for the same period last year, 57,886 bbls. Exports for the week, 29 bbls; since January 1st, 11,991 bbls, and for the same period last year, 14,783.

TAR.—The stock is becoming low, and prices in consequence are firmly held. We quote Washington as it runs at $3.37½ and selected Wilmington in order in yard at $3.50. Receipts for the week, 37 bbls; since January 1st, 17,156 bbls; for the corresponding period last year, 45,845 bbls. Exports for week, — bbls; since January 1st, 8,567 bbls, and corresponding period last year, 13,989 bbls.

ALBANY LUMBER MARKET.

The *Argus'* report for the week ending October 24, 1871, is as follows:—

Advanced prices having been obtained for Michigan pine we alter our quotations accordingly. The outside figures may be regarded as the present ruling prices for all desirable kinds, with indications of a further advance before the close of the season. A number of buyers are still without their winter supplies of the common grades of lumber, and not a little put out in their calculations at finding such limited supplies now in market. Any lots still to arrive will find a ready sale at remunerative prices. Spruce is still scarce, and by the time the shipping season is over the stocks of all kinds left to winter over will be very light. There is continued excitement in all of the western markets, with some speculative demand; and prices at all points have advanced since the destructive fires in Chicago, Michigan, and elsewhere. At Chicago lumber by the cargo brings $3 per M. higher, and from the yards a larger advance has been established, and it takes cash in hand to buy either by cargo or from the yards. The general feeling is that lumber will be higher another year; not so much on account of the Chicago fire as from the fact of so many mills and so much lumber having been burned in Wisconsin and Michigan, as well as many camps with their supplies, &c. There has been lumber enough sold ahead to keep the freighting capacity busy until the close of the season. From New York and elsewhere the retail yards report increased activity and improved prices. The Buffalo papers report lower freights on the canal, and we reduce our figures accordingly.

The receipts of lumber at Buffalo during the week by lake and rail were 5,537,700 feet. At Oswego, by lake, 7,718,100 feet.

The receipts at Albany by the Erie and Champlain canals for the third week in October were:—

	Bds. & Sc'tl'ng, ft.	Shingles, M.	Staves, lbs,
1871	12,861,100	750	575,600
1870	13,006,600	1,094	697,000

Of the boards and scantling received, 9,019,000 feet were by the Erie, and 3,442,100 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals, from the opening of navigation to October 23, were:—

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	355,522,700	25,801	....	9,282,500
1870	366,378,100	19,212	1,250	16,316,900

Lake freights are $6 to Buffalo, and $9@9.50 to Oswego. Canal freights from Buffalo to Albany are $5.62 on hard wood, and $4.62 on soft; from Oswego to Albany, $3.75.

River and Eastern freights are quoted as follows:

To New York, per M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	3 00
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, per ton, to Boston	2 50

The current quotations at the yards are:—

Office hours, 10 a. m. to 4 p. m.

TIN-LINED LEAD PIPE is a Block-Tin Pipe heavily coated with solid lead. Tin is a metal closely resembling silver, both in color and purity: hence water flows through tin-lined lead pipes as pure as if drawn through silver. It is as flexible and as easily worked as lead pipe; it is also stronger and more durable. By its use iron-rust, lead and zinc poison are all avoided, and general health promoted. Price, fifteen cents a pound for all sizes. Circulars and sample of pipe sent by mail free. Address the

Collwells, Shaw & Willard M'f'g Co.,
No. 213 Centre Street, New York.
Also, Manufacturers of Block-Tin Pipe, Sheet-Lead, Lead Pipe, Solder, etc. ORDERS SOLICITED.

BOYNTON'S
IMPROVED ELEVATED
OVEN RANGE.

This *Beautiful Range*, improved last year, is offered to the *Public* as the most *Complete*, *Convenient*, and *Desirable Elevated Oven Range* in the *Market*, and is the *result* of long experience in the *Manufacture* and *Setting* of *Cooking Ranges*; and we do not hesitate in recommending it as the *nearest* to *perfection* of any *Elevated Oven Range* in the *Country*.

The *body* of this Range is higher than other *Patterns*, and is more like the *French Kitcheners*, making it much more convenient and *easy* for the *cook*.

The *Hot Closets* are more accessible, placed in a *natural* position, being in the body of the Range, instead of above the ovens, as in other patterns.

ALSO,

FURNACES, HEATERS, AND STOVES
IN LARGE VARIETY.

We always guarantee the work we do ourselves to be perfectly satisfactory.

No receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

MUNICIPAL REFORM CONSIDERED.

THE interest which has been excited relative to the question of municipal government is daily increasing in the minds of our citizens. It is admitted on all sides that vast reforms are imperatively required; but the principles of those reforms do not seem to be very clearly understood, and there are certain changes, as, for instance, that in relation to official appointments, the mention of which both parties sedulously avoid. For our own part, we have already pointed out the advantages which would accrue to the city if the whole body of tax-payers was constituted a Board of Audit, with power to veto and throw out bills or charges of a fraudulent character. Like most other measures combining simplicity and manifest utility, this, however, will not, we fear, receive the attention it deserves; yet we can really see no way of preventing the waste of the city funds, except the putting of some such machinery in operation, adequate in its powers to resist the whole force of those who are greedy for unearned money.

The other reforms that are necessary seem to be chiefly these :—

First, the Mayor should be invested with very full and ample authority; with power to appoint and to remove; with direct responsibility for the whole executive action of the city government. The Mayor should have a Cabinet composed of the heads of departments, the Comptroller, the chief Law Officer, Presidents of Board of Works, of Dock Department, of Public Parks, and so forth.

Secondly, there should be a Board of Aldermen elected on a general ticket, on the personal representation or "cumulative vote" system.

Thirdly, a Board of Councillors or Assistant Aldermen should be elected from four or five districts, within which also the cumulative vote should obtain.

Thus we should fix direct responsibility for administration in the Mayor and heads of departments; and in the Boards all parties and shades of opinion would obtain representation.

All experience in this city is against small election districts. The more they are subdivided the more the character of their representation is debased. The first reform movement in this city resulted in giving us the old Board of Councillors of sixty members, each returned from a single district; and it proved to be the most atrociously corrupt body that ever assembled in the City Hall. It is a delusion to suppose that the people are entirely pure, while the office-holders only are corrupt; and the delusion based upon this one, that the smaller the districts are, and the nearer we get to the people, the better for the cause of good government, has been still more mischievous in its practical effect. It has always been seen that the smaller the constituencies the worse was the character of the representatives returned. Yet how people continue to be deceived with those catchwords and that demagogism which flourishes under popular institutions! A large, nay, an overwhelming, proportion of the people of New York are in a low condition of life, very poor, very ignorant, caring little for moral excellence, and, indeed, posessing few of those mental traits which render even its recognition possible. Is it to be supposed that by narrowing the electoral areas, and thus practically enlarging the power and influence of every one of these ignorant, brutalized persons, we shall get a pure, high-minded, public-spirited set of men in our Common Council? The suggestion might provoke a laugh, but for the magnitude of the interests involved. But large constituencies mostly attain a decent conception of public duty—especially if they be diluted with a fair share of respectability. In a theatre the gangs of ruffians and rowdies always take the side of innocence and virtue against villany. Their hands are red with crime; and each one in his little sphere delights to enact the part of the ruffian of the play; but now the public air of justice and rectitude penetrates the "dull substance of their flesh," arrays them against the simulated criminal of the stage, and unites them in hoarse applause at his downfall.

We hope to see the reform movement take a direction steadily hostile to small districts. The principle is false; its results fatal.

The system of cumulative voting, if adopted here, will furnish a means by which those classes of tax-payers and reformers who cannot command a majority of the votes will at least be able to control a number sufficient to place a few of the men of their choice in the local boards. This may seem but a small matter to accomplish—but a small guarantee to those who have been fleeced and plundered in the past; yet we fear it is the best they will be able to do for the next twenty-five years in the city of New York. If in a local body of, say, forty members, we can return five or six honest, public-spirited men, it is about all that we can hope to accomplish; and this, as compared with the past situation of affairs, will be an improvement of considerable value to tax-payers. Five or six resolute, upright, competent men, acting in concert against the forty thieves, might spoil many a pretty scheme of plunder, prevent a great deal of waste, and block the game of bad legislation.

There is a measure, also, much discussed by the public, but not even hinted at by politicians or journals on either side—the application of the Civil Service Reform to the city government. The new charter ought to contain a provision for throwing open the whole of the minor appointments under the municipal government to the graduates of our public schools—or rather to such of the graduates as pass examinations qualifying them for official employment. There should be no more appointments for political or personal reasons. Let every city boy, and, for certain positions, every girl as well, have a fair chance of obtaining these appointments; and when they are appointed, let it be for life. This is a measure that would pluck up by the roots the deadliest evil connected with our city government. This would kill at once the influence of the lottery-policy and rum-shop voters in our local legislation. This would destroy the occupation of the loafers and bummers who get up political clubs and thrive thereby. This would dismiss to honest industry the small army of sinecurists who corrupt and poison all the branches of our municipal administration. It is true that neither of the great parties will hint at such a sweeping reform; nor dare any of the party organs allude to or discuss it; but we can have no approach to good government in the city of New York until its Civil Service is thoroughly reformed; and this seems to be the best way of reforming it. Let the appointments be for life, and after competitive examination; the only questions asked being the Jeffersonian test: "Is he capable; is he honest?"

WEST FORTY-THIRD ST. (NOS. 205, 207, 209, 211 and 213), five four-story brown-stone dwellings, 21.5x55; owner, WILLIAM B. ASTOR; architect, P. KISSAM; builders, WEBB & SON and ISAAC LEWIS.

WEST FORTY-FIFTH ST. (No. 424), ONE FOUR-story brick tenement, 25x50; owner, JACOB MICHEL; architect, A. FUND.

EAST FORTY-EIGHTH ST. (No. 322), ONE TWO-story brick factory, 18x24; owner, AMERICAN MF'G CO.; builders, OWEN & GELSTON.

FIFTY-SEVENTH ST., S. S., 95 E. 6TH AV., three four-story brown-stone dwellings, 25x65; owner, architect, and builder, PHILIP FITZPATRICK.

GOUVERNEUR ST. (No. 58), ONE FIVE-STORY brick store and tenement, 25x52; owner, C. A. BUDDENSIECK; architect, W. JOSE.

MERCER ST., W. S., 96 S. BROOME ST., ONE iron store, 25.1x124.4; owner, W. MOSER; architect, G. THOMAS; builder, W. B. PETITT.

NINTY-SECOND ST., N. S., 375 E. 2D AV., ONE two-story frame dwelling, 22x33; owner, DAVID ALEXANDER; architect, P. R. MCGINNESS.

SIXTY-SIXTH ST., S. S., 100 E. MADISON AV., nine four-story brown-stone dwellings, 3 (25x62), 3 (23x62), 3 (18x55) each; owner and builder, PATRICK MULLINS; architect, J. G. PRAGUE.

SIXTY-EIGHTH ST., N. S., 80 E. LEXINGTON AV., one three-story brick public building, 40x164; owners, SISTERS OF CHARITY'S NEW YORK FOUNDLING ASYLUM; architect, N. LE BRUN.

SEVENTY-FIRST ST., N. S., 200 E. LEXINGTON AV., four four-story brown-stone dwellings, 15.1x60; owner, CHARLES FOX; architect, G. INSLEE; builders, DYE & BENTLEY.

TWENTY-FIFTH ST., N. S., 75 W. 1ST AV., ONE five-story brick tenement, 25x48; owner, MARY KRUSE; builders, HELYARD & POTTER.

ALTERATIONS IN BUILDINGS.

One brown-stone first-class dwelling, No. 135 East Seventy-eighth street, three stories, 18 by 44½, one story to be added; Mrs. L. A. Conklin, owner.

One brick dwelling, No. 41 West Tenth street, four stories, 25 by 46, extension 18 by 23, 18 feet high; Victor Bishop, owner.

One brick dwelling, No. 3 Carlisle street, two and a half stories, 23.6 by 41; two and a half stories to be added; Joseph Goldberg, owner.

One brick and stone first-class store, No. 294 Broadway, five stories, 23.5 by 129, new iron front, and to be remodeled: R. H. Cudlipp, owner.

One brick second-class store, north side of Water street, 80 feet west of Pike street, five stories, 40 by 56, one story to be added; Hecker & Brothers, owners.

One brick factory, west side of Greenwich street, 50 feet south of Vestry street, two stories, 25 by 40, new store front; Wm. J. Wilcox & Co., owners.

One brick stable, Nos. 598 and 600 Greenwich street, three stories, 50 by 30, extension 15.5 by 46.10, 18 feet high; Robt. Stoddart, owner.

One frame dwelling, west side of First avenue, 25 5-12 feet south of One Hundred and Nineteenth street, two stories, 21 by 31, one story to be added; James Hutchinson, owner.

UNSAFE BUILDINGS.

One Hundred and Third street, building north side, 65 feet west of Third avenue, unsafe walls, sills, and lintels; Charles H. Beman, owner.

Second avenue, building north-west corner One Hundred and Third street, unsafe walls and floors; Charles H. Beman, owner.

Laight street (No. 40), unsafe walls; Wm. C. Baker, owner.

Stanton street, building south-east corner Cannon street, unsafe walls and piers; Simon Roesman, owner.

Twenty-fourth street, building south side, 100 feet east of First avenue, unsafe wall and cornices; Henry Leger, owner.

MARKET REVIEW.

BRICKS.—Without any serious or decided break in values, the turn of the market for North River Hards has been rather against the selling interest, and all feelings of buoyancy seem to have disappeared. Sellers have assumed an air of confidence and talked quite firmly, but with the supply exceeding the outlet it has been found very difficult to realize except at some shading of values, and it is hinted that a good many contracts have been made at something lower than any figures quoted for several weeks. Brooklyn buyers are still calling for a fair amount of stock. Some few cargoes go to the Eastward, and Newark and Jersey City are wanting supplies to a moderate extent, but were it not for these outlets it is probable that the accumulation at this point would become very troublesome and force a still lower range on prices for all grades. Our retail dealers continue to hold off, and seem to feel confident that they will soon be offered cargoes at a much lower cost than is now current, while the builders and contractors really do not require stock at present, and in a great many cases are out of the market entirely. A great many buildings are projected and will undoubtedly be commenced in proper time, but there is an immense amount of summer work to be finished up, and until contracts are fulfilled there is not much inclination to lay in stock for new engagements, especially if there be a chance of purchasing on easier terms. The belief in lower prices is based in the main upon a large supply, and a good many reliable authorities assert that brick are very plenty at all the yards, and that manufacturers are likely to keep forwarding until they can get the amount down to more manageable proportions. How soon this will take place is, of course, a question time can alone decide, but every sale now made has a tendency to reduce the number of brick available, as with a few unimportant exceptions the production has about ceased. Frost and brick-making don't agree. We quote at $9.50@10.50 per M, the latter extreme. New Jersey Hards are dull and remain nominally at about $8@9 per M. Pale Brick reached another advance on a continued good demand and moderate offering from all quarters, but as the makers are now done burning, the supply of Pale, it is thought, will soon increase, and all full bids are accepted readily. For the best lots $7 has been reached and all merchantable stock brought $6.50 per M. For Fronts the demand has been fair on Crotons and fully equal to the rather moderate supply of Philadelphias, with full prices obtained in a comparatively easy manner, and the feeling generally firm.

GLASS.—The general tone of this market is reported as very firm and encouraging. The receipts of late have been fair of foreign window glass, but dealers claim that the amount coming to hand was not by any means sufficient to offset the sales, and that the stock has failed to increase in the aggregate, while the assortment is poor and cannot be made better from anything now known to be on the way. Values have ruled pretty firm, and though a very desirable customer occasionally gets 30 and 5 per cent. off, about 30 per cent. is the general discount allowed from the foreign list. A great many Western orders have recently been filled, and the demand from interior sources continues good, though buyers as a rule are only taking such small lots as may be required for immediate use. On local account the distribution is not large, buyers being near the source of supply and not feeling much alarmed in regard to an increased cost, taking matters rather slowly. The imports since January 1st have been 484,051 pckgs. glass; and 10,942 pckgs. glass plate. Domestic is dull and almost nominal, owing to an absence of attractive stock. The mills are producing fairly, but sending out supplies direct to interior distributors, and having little to spare for this direction. About 60@60 and 5 per cent. off old American list is quoted.

LATH.—The selling interest retain the bulk of the advantage, and in general terms the market may be called firm and very well supported, though without any very decided buoyancy. The advantage above noted does not indicate that those who control the supplies, or more properly speaking, manage the consignments to this port, can put up values with a certainty of being met, but that they are strong enough in their position to resist the demands of buyers for concessions, and the probabilities are that any changes in price at this season of the year will be toward a higher level. No scarcity of stock is apprehended except in a

temporary way, as adverse winds and other circumstances of an unexpected character may bring about, and indeed we are informed by some parties who ought to and who claim to know, that the amounts at the mills are now relatively larger than they were five or six weeks ago, owing to recent opportunities presented for an increase of production. Some out of town orders are being filled at this point, but at the moment our local wants require the bulk of the offering, a portion of the purchases made going directly into consumption, though a few dealers are commencing to "lay by" a little stock for future use. The quality as a rule is very good on present offerings, though some odd lots of short common grade come in with lumber cargoes. As we close, the general market is very firm, with $2.35 freely bid and $2.40 said to be paid for a few parcels.

LIME.—The demand is again reported as first rate and the market is in the usual very encouraging condition which sellers always claim. There is said to be much activity among the manufacturers, and the production almost if not quite equal to full facilities, and in addition to the shipments in this direction large amounts are going out for delivery along the Eastern coast. Of vessels there is a fair supply, but no excess by any means, and freight charges are such as to materially curtail the margin for profit. All of which is supposed to be preparatory to another advance. Our dealers are not remarkably quick or heavy buyers at present, taken individually, but there are a good many more of them in the market, and their wants keep an outlet open for about the cargoes as they are offered either on spot or to arrive. The Northern stock is somewhat more steady on all grades, but still common does not settle to a uniform basis, and though not so freely offered as heretofore, concessions are occasionally allowed where a desirable trade can be brought about thereby. "Nothing new" is reported at the close, but prices are called very firm, and the offerings for immediate delivery are quite small. We quote at $1.25 per bbl for common; and $1.75 do for finishing.

LUMBER.—Among the retail dealers the feeling appears to be quite steady and uniform, and as a rule the reports made at most of the principal yards indicate a very fair volume of business. Nothing extravagant or even unusually heavy in the way of sales takes place, but just a good, healthy movement of stock calculated to require an average amount of attention and make a very respectable aggregate business from day to day. The call from local sources includes all the regular attendance of buyers and from out of town a few orders drop in now and then, mainly from the Southern cities. The great bulk of the stock expected this season is now here, with most of it stored, and there appears to be a first-rate assortment collected; indeed, some dealers tell us they were never better supplied and can meet any of the ordinary outlets without difficulty either in the way of hard or soft woods. Prices almost without exception are firm and in a few cases somewhat higher. An advance now rather tends to retard the demand somewhat, but still holders are not alarmed at this, and some say they would prefer it should be so, in view of the belief that lumber must be higher before spring and continue so for some time after the opening of the next season, owing to the probability of a diminished production. The trade do not appear to have suffered to any extent from money pressure, though a few complaints are made of the difficulty experienced in obtaining prompt settlements with some of our city consumers, such as speculative builders, etc.

In a wholesale way we find some irregularity on the market, without, however, any very decided changes established. On Eastern supplies there was an absence of general strength, and now and then an odd lot run off at a comparatively low figure, provided the buyer could be bound to keep the matter as secret as possible and act liberal in the way of payments. Northern and Western goods, however, have remained very firm, in some cases buoyant, and the few sales made were all at full figures. The season, however, is too late to effect many contracts, and the volume of business was not large on any grade. Shipping movements on foreign account are being hurried forward at the mills and have proved very fair here, the aggregate export of late rather exceeding last year. There is a pretty good supply of stock suited to the foreign markets now accumulated here, and owners anticipate a much better trade when the outward movement from the mills is checked on appearance of ice.

Eastern Spruce has retained the steadiness previously noted, and sellers have managed to obtain about the former general range of prices, especially on the choice schedules containing an extra assortment of long sticks. There was not, however, any appearance of buoyancy to the market, and as a rule sellers appeared quite as willing to operate as buyers, if not a little more so. Some few receivers, who appear to have settled into a sort of chronic habit, continue to quote everything as most remarkably strong and sure to do better at once, but we find a number of dealers who are not prepared to indorse such views, and though claiming a reasonable amount of strength and a possible tendency to a slight improvement, do not think the position indicates any very positive gain for the selling interest. Supplies at the points of production are plenty, and a goodly proportion are likely to come forward yet before the season closes, and with our dealers here pretty well stocked, it is thought it will require some close figuring to find a place for everything. As we conclude our report the feeling is steady and the offerings comparatively small. We quote at $16@17 per M for inferior to fair specifications, and $17.50@20 for good to prime do. White Pine has remained extremely firm, with the tendency upward, if anything, all advices from points of supply and the general feeling of confidence prevailing having a very stimulating influence. The local consumption has been good, and there is also a fair number of shipping orders being filled. We quote at $22@30 per M. Yellow Pine has been in better supply, with a prospect that receipts will be pretty free for some time to come. Everything offered, however, appears to be wanted, and agents speak with much general confidence of the immediate future of the market. We quote from $40 per M for very extra orders down to about $25 for the average special lengths; and $29@33 for random cargoes, with few sales at the inside figures.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.

Value	$10,546	$448,446	$486,640

We note additional exports as follows:—

To Hamburgh, 44 logs walnut, valued at $1,150; to British West Indies, 12,000 shingles, value $96; to Antwerp, 12,900 staves; to Liverpool, 14,300 do.; to Glasgow, 6,000 do.; to Harve, 450 do.; to Cadiz, 88,440; to Barcelona, 35,000 do.; to British West Indies, 3,400 shooks; to British Guiana, 224 do.; to Cuba 4,835 shooks, and 10,000 hoops; to Brazil, 1,381 shooks; to Cisplatine Republic, 120 shooks; to Argentine Republic, 60 do.

The receipts reported are as follows:—From Charleston, 163,000 feet lumber; from Wilmington, 410,000 shingles; from Norfolk, 5,000 railroad ties; from Plymouth, N. C., 3,000 do.; from St. John, N. B., 459,215 feet lumber, 433,700 lath, 423 pieces piling; from Musquash, N. B., 165,000 feet lumber, 25,000 lath, and 525 pieces piling; from Moncton, 1,900 railroad ties; from Shulee, 900 pieces piling.

Charters as follows:—A Br. Barque, 500 M Lumber from Montreal to River Plate, $21.50 net; a Schr., from Bucksville, S. C., to Guadaloupe, Lumber, $11, privilege of a second port $1 extra; one from Fernandina to North Side Cuba, Lumber, $11; a Brig, 313 tons, to South Side Cuba and back, Sugar, 50c. and port charges; two from Jacksonville to New York, resawed Lumber, $12; one same voyage, $12,25; one from Jacksonville to a Long Island Sound port, $13; a Brig, 248 tons, to Savannah and back, with Lumber, $14, covering outward freight.

We obtain the following clippings from the Saginaw *Courier*:

We have been favored with a conversation with Mr. Hubinger, of Frankenmuth, and Mr. Campbell, of Sanilac county, both of whom have been looking over the portion of the burned district north and east of this city. Mr. Hubinger reports that, what is commonly known as "the Cass" lumbering section, has lost at least three-fourths of its timber, and in this statement Mr. Hubinger is understood literally. The forests which were relied upon in that section and from which our finest and best timber was obtained, has been burned and has fallen to such an extent that the timber cannot be lumbered with any profit—what is not burned has fallen in masses, so that the expense of lumbering it will eat up its value. Mr. Hubinger is a part owner with Messrs. Marks and Flits in a tract of 4,000 acres on White Creek, on which it was estimated that there was 25,000,000 feet of pine timber, which is damaged to the extent of from $40,000 to $50,000, and he reports that this case is no exception to the general rule. On the low lands the timber is universally down, on the ridges where the soil is less burned, the timber is standing, but what is saved, must be lumbered the coming winter, to save it from the ravages of the insect, which always follows the scorching of a pine tree.

Another account referring to the same section says:—

On thousands of acres burned over last week, on which ten days ago there was a dense forest, to-day there is not a tree standing. The fire burning around the roots loosened the trees and the hurricane of Saturday night prostrated them.

Cass City, in Tuscola county, near the Huron county line, was destroyed, and we hear that between that place and Gageville, about 15 miles, hardly a house is left standing. Gamble, M'Phail & Co.'s large saw-mill has been burned, together with numerous shingle mills.

TITTABAWASSEE LOGS.—From Mr. Charles Burleson we learn that the rear of the Tittabawassee logs is now in the neighborhood of the railroad bridge, and that all of the logs will be out of the booms by the 1st of next month. The amount of logs to come out of this stream will be in the neighborhood of 266,000,000 feet, showing a falling off from last season, but an amount larger than the estimates early in the season.

BIG PINE CUTTING.—In the lumber woods of Remp, Stone & Co., the following log cutting was done in one week by four men, named respectively David and Andrew Lawrence, who sawed the timber down, and Luther and Warren Johnson, who sawed it into logs, keeping their own saws in order. First day, 215 logs; second, 154; third, 172; fourth, 180; fifth, 190; sixth 151—making in all 1,062 logs in six days' time. This we think stands unrivalled in any lumber camp. The work was done in the town of Bruce, Iosco county, twenty miles from Tawas City, on the river AuGres. The logs will average about four and one-half to the thousand feet, and are of good fair quality.

SAGINAW LUMBER MARKET.

Sales by cargoes about as follows:—

First clear	$40 00@45 00
Fourths	28 00@40 00
Box	33 00@35 00
Three upper grades	38 00@40 00
Common	14 00@15 00
Shipping culls	7 00@ 7 50
Lath	1 95@ 2 10
SHINGLES—	
Sawed A 1	4 00@ 4 25
Sawed A 2	2 25@ 2 75
Shaved—None in market.	

A writer from Au Sable says:—

Business has not been interrupted to any great extent by the fires. J. & C. Parks' mill has shut down for the season; also Burrows & Spring's mill. Loud, Gay & Co.'s mill is still running, and I have been told by the company that they will run late this fall, and will most likely have to carry over from 2,000,000 to 3,000,000 feet, which they will be unable to saw. They are doing a larger business this year than ever before, having shipped about 12,000,000 feet to the present time, against about 9,000,000 feet to the same time last year. They have now on their dock 3,000,000 feet of choice lumber, part sold and part for sale.

Lumbermen are receiving supplies for the winter, and are busy starting men to the woods, intending to put in a large amount this winter. Wages are quite high, from $30 to $35 per month, and $2 to $5 per day is being paid in the mills.

Bickus' mill is running and will have work until compelled to shut down by cold weather. They are cutting 5,000,000 feet of logs for Brooks & Adams, of Detroit.

The Green Bay *Advocate* says that among the villages either wholly or in part destroyed by the late fires are the following: Green Bay, Humboldt, Casco, Red River, Brussels, Roisere, Robinsonville, Thirty Deames, Glenmore, Hubbard's Mill, Bersey Mill, New Franken, Oak Orchard, Coullark Bridge, Williamsonville, Monekaunee, Marinette, Birch Creek, Union Town, Peshtigo, The Sugar Bush, Messiere, Dyckesville, Abnepee, Pierce, Kewaunee, and many others.

The *Advocate* also contains the following:—

DAMAGE TO PINE TIMBER.—Capt. W. R. Bourne, who has recently returned from a visit to the Wolf river pineries, tells us that in his opinion the pine damaged by the recent fires on the Wolf river and its tributaries (the Shioc, Embarrass and Red sivers,) will amount to 50,000,000 feet. If this pine is all cut the coming winter and got into the streams, the damage to it will be about $1 per thousand feet; but if not cut the loss will be almost total, as it would be bored by worms another season and destroyed for every purpose but fencing. There is very little pine injured above Keshena. Thus the lightest estimate of damage to the Wolf river pine is $50,000.

The pineries along the bay shores have suffered to a still greater extent, but the damage is easier repaired, provided the lumbermen can raise the means to put into the rivers two or three years' stock of logs, for a much greater amount of logs can be put into the Menominee, Oconto and Peshtigo rivers, which are not navigable, than into the Wolf, where they would interfere with navigation. One lumbering firm down the bay estimate their loss in pine at $50,000.

Now, if ever, is the time for close figuring by the lumbermen, in order to make their losses as light as possible.

Those who cannot get their logs into water will do well to cut them and score the bark off the upper side of the log, two or three inches wide, allowing the rain to soak in and sour the sap, which will prevent the borers from attacking the logs, although it will deteriorate the quality of the lumber.

DEMAND FOR LUMBER.—During the past few days our city has been visited by lumber speculators, who have bought every foot of that material to be obtained in this section, doubtless apprehending a rise in prices from the effects of the Chicago conflagration. Mr. Whitney, of Detroit, purchased large quantities of this material from Hon. C. C. Comstock, which will be shipped to that place. We trust, however, dealers will retain a sufficient stock of lumber to supply local demands, that building projects here may be vigorously prosecuted.—*Grand Rapids Democrat.*

The Gazette and Bulletin, of Williamsport, Pa., reports as follows:—

The mills are still idle, while the demand for lumber is on the increase and the tendency is still upwards.

From Savannah we have the following:—

LUMBER.—Orders are offered freely at good prices. We quote:

Ordinary sizes	$20 00@21 00
Difficult sizes	21 00@35 00
Flooring boards	20 00@22 00
Ship stuff	20 00@24 00

TIMBER.—The receipts have been light. The demand is good for all classes of timber. We quote:

Mill Timber	$ 7 00@ 9 00
Shipping Timber	
700 feet average	9 00@10 00
800 "	10 00@12 00
900 "	12 00@14 00
1,000 "	13 00@16 00

The Boston *Commercial Bulletin* reports:—

The market for lumber has been fairly active since our last, with the continuance of extensive building operations, and all seasonable descriptions and grades have been moving off briskly. The arrivals have been light, with unfavorable weather for navigation, and the supply at the retail yards is only moderate for the season. There is considera-

ble lumber in transit to supply the yards for winter, and receipts for the next ten days will probably foot up large. Spruce of desirable sizes is in good demand at steady prices. Western lumber is quick at quoted rates. Canada is firm and in good demand.

The following are the surveys for the week :—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	744,810	Spruce	2,631,017
Hemlock	88,668	So. Pine Flooring	182,070
So. Pine Pl'k & Tim.	525,291	Hard wood	21,474
Black Walnut	179,571	White Wood	19,711
Total			4,393,612

The following are dealers' *wholesale* prices, and the range given covers the different qualities and grades, and those *paid* for consignments sent here from different sections.

Western Lumber.—Michigan Pine, Nos. 1 and 2, $52@56; No. 3, $43@46; No. 4, $25. Black Walnut, Nos. 1 and 2, $60@75; do. do. Culls, $40@50. Ash, Nos. 1 and 2, $40@48; 3d quality do. $30@35. Cherry, Nos. 1 and 2, $55@60; 3d quality do. 35@40. White Wood, Nos. 1 and 2. $36@44; do. ¾, $28@33; 3d quality, $25@30. Oak, $45@50. Butternut, Nos. 1 and 2, $55@65; 3d quality, $30@35. Michigan Pine Saps, $40@43; do. Pickings, $25@28. No. 4 Michigan Pine Boards, $25@28. Best Michigan 6 in. Strips, $45@50.

Canada Pine.—Selects Dressed, $50@53. Shelving Dressed, $36@38. Sheathing, 1st qual., $45@47; do. 2d do., $30@32; Ceiling Dressed, $37@40. Dressed Shippers, $26@28.

Eastern.—Pine Clear, Nos. 1 and 2, $60; No. 3, $45@50; No. 4, $35@38; No. 5, $30@32. Common, Pine Shipping Boards, $20@22; No. 5, $20@22: Refuse, $15@16; Spruce, Scantling and Plank, $16@16.50; Boards. $16@17. Hemlock boards, $14.50. Laths, spruce, $2@2.25; Hemlock, $1.75; Pine, $2.25@2.50.

Southern Pine.—Timber, resawed, $30@37. Flooring, Nos. 1 and 2, $30@36; Ship stock, $30@34; Hewn timber, $22@33; Refuse, $14@22.

Shingles.—Spruce, extra, $2.25@2.50; No. 1, $1.75@2; Shaved Pine, $6@8; Sawed, $2.50@6. Shaved Cedar, $4@6½; Sawed, $2.50@5. Extra 18 in. Sawed Pine, $2.75@6.25; do. 18 in. Shaved Pine, $7½@7¾.

Clapboards.—Spruce, extra, dressed 4 ft., $37@38; clear, $27@28; No. 1, $18@20. Dressed, extra, 6 ft. 6 in., $48@54. Clear, 6 in. $45@50. No. 1, 6 in., $40@46. Extra, 5½ in., $42@50. Clear do. $40@46. No. 1 do. $35@42. Pine extra, sap dressed, 60. Clear, 55. No. 1 $30@35.

The following are the prices current at Portland, Maine :—

A writer for the *Evening Post* of this city remarks upon the scarcity of Oak Timber in Europe as follows :—

Oak timber is disappearing from Europe with great rapidity. France, with an annual production of 1,220,000,000 gallons of wine, is especially injured by this change. In 1857 she imported 20,000,000 of staves; in 1866 she imported 63,000,000, at a cost of $9,000,000. Most of this timber came from Austria. France requires every year 1,500,000 cubic feet of oak timber for wine casks, 600,000 for her fleet, 150,000 for railway cars, and 750,000 for building purposes. In 1826, oak staves were worth six cents each of our money; in 1866, they were worth fourteen cents each. In 1826 the total value of imported staves was $4,000,000: to-day the total value is $30,000,000. A similar increase in the importation of oak for the next thirty years would probably double the present price.

France, after losing Alsace and Lorraine, contains 135,000,000 of acres, of which 20,000,000 are covered with forests.

In Norway, the Central Administration of Forests declares that it is necessary to stop the cutting down of timber.

In France, since 1669, no oak has been felled until full grown, that is, until within thirty years of its probable decay. The consumption of oak timber in France has doubled during the last fifty years. In 1866 $50,000,000 worth were consumed, of which $3,000,000 worth were imported, against $25,000,000 worth consumed in 1820, of which $2,000,000 worth were imported.

The same enormous consumption is going on all over Europe. France still possesses 20,000,000 acres of woodland, while Italy has 1,250,000 acres. England has no heavy timber but her traditional oaks, and her imports are twice as large as those of France. Her distant colonies furnish very little timber, a special restrictive law having been enacted in India, March 1, 1866, to preserve the forests from destruction.

Holland and Belgium are also nearly denuded of timber, and are large importers.

North Germany is rich in forests, but within half a century she has begun to cut down young trees, and is now importing from France.

Austria has sold her forests at auction since railways have been introduced.

Spain and Greece are almost absolutely woodless.

The German Government has just issued a decree creating sixty-three forest "administrations" in Alsace and Lorraine, each to superintend fourteen thousand acres of land, thus following up with vigor Napoleon's measures for preserving the forests.

St. Louis advices report :—

Receipts by river during the week cover 2,600,000 feet, all of which goes into yard on manufacturers' account. There have been no offerings afloat. Prices ruled at $18.50 @19, afloat, for Chippewa, and $19@23 for Wisconsin. Trade from yards is active at an advance during the week of fully $1.50@2 ₱ M., all grades of common lumber being held at $22.50@23. Offerings of yellow pine are light, rough flooring changing hands on track at $22@23 for common and green to $27@28 for select grades. Lath and shingles are in moderate supply only, and show an advance of 20c ₱ M. on shingles and 60@75 on lath.

The Chicago *Times* of October 30, 1871, reports as follows :—

CARGOES.—There was no diminution in the demand on Saturday, but, on the contrary, for joist scantling and common boards so urgent was the local inquiry that the receipts were found inadequate to meet current wants. The larger portion of the supply was taken for the temporary buildings now in process of erection throughout the burnt district. Sales were chiefly at $16@18 for common boards, joist, and scantling, and $18@24 for fair to good mill-run boards and strips. The demand for shingles and lath was also brisk, and prices were firm and unchanged.

In the yards the local demand was brisk, while the wants of the interior were larger than usual. The difficulty in procuring freight room, however, checked the shipments out to a considerable extent.

METALS.—There has been only a limited demand for Ingot copper, a few jobbing sales comprising the week's business. The manufactures of copper and yellow metal continue steady in price. We quote Ingot, 23¼@23½c; new sheathing, 32c; 22c for yellow metal, and 20@21c for old sheathing. The demand for Scotch Pig continues limited, and prices, if anything, are rather lower. The supply of American is light and the demand more brisk, which gives prices a firmer tone, although not quotably higher. We quote Glengarnock in yard at $33@37 and from ship at $25@26.50 per ton for No. 1; $25@26 do for No. 2, and $33@34 do for forged. The market for refined bar from store is moderately active and prices steady. We quote from store as follows: Bar Swedes, $107.50 @120; refined, ordinary size, $85; refined, 1¼ to 6 by ¼ and 5-16, $90; refined, 1 and 1½ by ¼ and 5-16, $92.50; refined, 2½ to 3 round and square, $92.50; scroll, $102.50@132.50; ovals and half round, $102.50@122.50; band, $97.50; horse-shoe, $100@105; rods, 5-8 to 3-16 inch, $90@125; hoop, $107.50@150; nail rod, per lb., 6¾. Common sheet is unchanged. We quote at 4¾@5¾c for single D and T., and 5½@6¼c for D. and T. Charcoal. Galvanized Sheet is quiet but steady. We quote at 12@13c for 14@20; 12½@13¼c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 27½@30 per cent. to the trade. There is a fair demand for Russia sheet, but prices are unchanged. We quote at 17½@18c gold, according to number. There is a better inquiry for Pig Lead and prices are held a little more firmly. We quote at $5.95@6.50 for common to good foreign. Manufactured lead continues quiet an unchanged. We quote at 9¾c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin continues inactive and prices a shade easier. We quote in coin at 34½@34¾c for English; 35⅞@36¼c for straits, and 41@41½c for Banca. A better demand is apparent for plates, and prices are steady. We quote I. C. charcoal. $8.75@9; I. C. coke, $7.50@8.50; Coke Terne, $6.87½@7.50, and Charcoal Terne, $7.75@8.25. The market is moderately active and prices a fraction higher. We quote Mosselmann sheet 9½@10c curreney, with sales from store made at 8⅛@8⅜c gold.

NAILS.—The market has been in a pretty firm condition generally, and dealers speak more hopefully than a few weeks ago. The improvement is rather a prospective one, to be sure, in many cases, but still the majority of the trade appear to feel confident of an increased attendance of buyers at an early day, and a comparatively liberal movement is predicted before the close of navigation. The amount of stock available is very fair in the aggregate at this point, but there is still difficulty experienced in satisfying all the Western calls, and as a large number of manufacturers are sending almost their entire production to the west of the Alleghanies, it is not improbable that a scarcity will soon begin to be felt here. On foreign account, there has been a considerable amount of stock secured, and some very fair orders are said to be still on hand, but the movements of shippers are checked in consequence of a scarcity of proper freight accommodations. On prices the recent meeting of manufacturers made an advance of 15c per keg, and we revise quotations to conform to the figures adopted. We quote per 100 lbs.: cut, 10@60d, $4.65; cut, 8@9d, $4.90; cut, 6@7d, $5.15; cut, 4@5d, $5.40; cut, 3d, $6.15; cut, 2@3d, fine, $6.90; cut spikes, all sizes, $4.90; cut finishing, casing, box, etc., $5.15@$6.65; clinch, $6.15@6.65; horse-shoe, forged, No. 10 to 5, per lb. 19@33c. Other styles are selling as follows: Copper, 37@39c per lb; yellow metal, 24c do. The exports for the week are 267 pckgs, valued at $1,862; and since January 1st, 13,724, valued at $86,040.

PAINTS AND OILS.—There does not appear to be anything new developing on the general market for paints, colors, &c., the volume of business keeping along at about the average of the past three or four weeks, and including pretty much all styles to a greater or less extent. Prices remain nominally as before, as the movement is hardly large enough to make a good basis for quotations, or to have any decided influence. Any existing advantage, however, is in buyers' favor, and it is quite positive that an attempt to force sales would surely result in a decline. The supply and assortment keep up pretty large both of domestic and foreign goods, and the current additions more than balance the outlet. In varnishes there has been a very good trade; including some export orders. Glues are meeting with quite a steady uniform demand, and most of the manufacturers manage to keep the production pretty clearly sold up, though there is no actual scarcity. Among jobbing dealers there is a fair business, with the general position in sympathy with the wholesale market, though in view of the small lots sold, the relative advantage in favor of buyers is smaller. A considerable amount of putty has been sold for Western shipment. Linseed Oil has continued in an irregular, uncertain condition during the entire week, but still, on the whole, the tendency was downward, and quotations may be again reduced. Crushers are not urging business to any great extent, but still on the whole are pretty free sellers and there is more than enough stock available for the outlet. We quote at 74@76c in a wholesale way.

Exports as follows :—

	This week.		Since Jan. 1, 1871.	
Paint	pckgs. 110	value $1,136	7,558	value $123,903
Linseed oil, galls.	336 "	200	10,007 "	8,512
Oxide zinc, pckgs.	— "	—	3,620 "	38,110

PITCH.—The market continues quiet and prices steady. No transactions of importance have taken place during the week under review, and we quote nominally at $4.25@4.50 for city. Receipts for the week 100 bbls; since January 1st, 888 bbls; for same time last year, 2,292 bbls. Exports for the week, 24 bbls; since January 1st, 2,283 bbls; same time last year, 3,220 bbls.

SPIRITS TURPENTINE.—The market generally has ruled quiet, with buyers and sellers apart in their views, but at the close a firmer tone is apparent, with the tendency toward higher figures. We quote merchantable and shipping order, 68@69c. for spot, and 68c. to arrive: New York bbls, 70½c.; cash and retail lots 70@72c. Receipts for the week, 1,520 bbls; since January 1st, 56,927 bbls, and for the same period last year, 59,542 bbls. Exports for the week, 162 bbls; since January 1st, 12,153 bbls, and for the same period last year, 14,903.

TAR.—Is in moderate demand, and, with a small stock, prices are strong and in some cases higher. We quote Washington as it runs at $3.50@3.75, and selected Wilmington in order in yard at $4. Receipts for the week, 275 bbls; since January 1st, 17,531 bbls; for the corresponding period last year, 45,945 bbls. Exports for week, 86 bbls; since January 1st, 8,653 bbls, and corresponding period last year, 14,259 bbls.

ALBANY LUMBER MARKET.

The *Argus'* report for the week ending October 31, 1871, is as follows :—

Philadelphia and Burlington buyers are not often seen in this market. Their presence here since our last report is a noticeable feature, and the purchases made by them is a confirmation of low stocks and higher prices in Pennsylvania and Michigan. The low water compelled the mills in Pennsylvania to shut down some time ago for want of logs, and the destructive fires having advanced Michigan prices, our market closes firm with higher figures on some descriptions and an improved tendency in the quotations of all kinds of lumber. The common grades more especially are scarce and in active demand at higher prices. The tone of advices from all quarters foreshadows a scarcity of lumber, and the present and prospective demand for manufacturing and building purposes promise a healthy and remunerative business. Manufacturers usually claim that the capacity of manufacturing is tried annually to the full extent, but there has seldom been a year when there has been such incentives to stimulate over-production, and with a favorable winter for lumbering, there can be no doubt of a very large production. The fact of such extensive tracts of timber lands having been burned over by the recent ravaging fires, will be a further stimulant for every possible effort to make those lands available, which can only be done by immediately cutting down the trees. One thing must be borne in mind, even should the winter be favorable for logging; that is: the increased cost of producing lumber, from a scarcity of men, high wages, and the long distance of driving logs. This, with the contingency of a variety of obstacles to contend with during the winter, and the capacity of manufacturing seriously lessened by so many mills being burnt down, it is a question if, under any circumstances, there can be an over-production of lumber the coming year. Receipts continue free, showing in the aggregate only a small margin under last year's figures, but the active shipping movement checks all accumulation.

The receipts of lumber at Buffalo during the week by lake and rail were 4,717,600 feet. At Oswego, by lake, 4,856,400 feet.

The receipts at Albany by the Erie and Champlain canals for the third week in October were : —

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	20,253,300	1,505	....	336,000
1870	14,808,900	148	....	331,000

Of the boards and scantling received, 15,039,100 feet were by the Erie, and 5,315,200 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals, from the opening of navigation to November 1, were :—

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	375,887,000	27,306	....	9,618,500
1870	581,187,000	19,360	1,250	16,647,900

Lake freights are $6 to Buffalo, and $9@9.50 to Oswego. Canal freights from Buffalo to Albany are $6.75@7 on hard wood, and $5.75@6 on soft; from Oswego to Albany, $3.75.

River and Eastern freights are quoted as follows:

To New York, per M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	3 00
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, per ton, to Boston	2 50

TIN-LINED LEAD PIPE is a Block-Tin Pipe heavily coated with solid lead. Tin is a metal closely resembling silver, both in color and purity: hence water flows through tin-lined lead pipes as pure as if drawn through silver. It is as flexible and as easily worked as lead pipe; it is also stronger and more durable. By its use iron-rust, lead and zinc poison are all avoided, and general health promoted. Price, fifteen cents a pound for all sizes. Circulars and sample of pipe sent by mail free. Address the

Collwells, Shaw & Willard M'f'g Co.,
No. 213 Centre Street, New York.
Also, Manufacturers of Block-Tin Pipe, Sheet-Lead, Lead Pipe, Solder, etc. ORDERS SOLICITED.

F. & S. E. GOODWIN,
House-Movers,
OFFICE AND YARD, 517 EAST 17TH ST.,
BETWEEN AVENUES A AND B, NEW YORK.
Buildings of all descriptions Moved, Raised, Lowered, and Shored up; Girders raised and their Foundations repaired. All bad Foundations and weak Buildings properly secured. Iron and Granite, Wood and Iron Wedges for sale. Screws, Hydraulic Jacks, and Derricks to let.

BOYNTON'S
Portable "Salamander"
FURNACES.
Surface or Base Burners.

THIS NEW AND POPULAR PORTABLE FURNACE HAS BEEN TESTED IN LARGE NUMBERS during the past three years, and we feel perfectly SAFE in stating that there never has been a more SUCCESSFUL FURNACE introduced in the market, and one that has acquired so FAVORABLE AND EXTENDED A REPUTATION.

The SUCCESS of the BOYNTON SALAMANDER PORTABLE FURNACE for the past THREE YEARS has been so REMARKABLE, that we have been induced to adapt the THREE LARGEST SIZES TO BRICK WORK, and by the addition of a CAST-IRON RECESS FRONT, we are prepared to furnish a BRICK-SET FURNACE at a price almost as cheap as a PORTABLE, and one that we will GUARANTEE to give entire satisfaction.

They are adapted for Heating all classes of Private and Public Buildings.

Also, RANGES and STOVES in large variety.

We always guarantee the work we do ourselves to be perfectly satisfactory.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

BROOME and GREENE STS., S. W. COR., TWO SIX-story iron stores, 50x60.4; owner, WM. H. GUNTHER; architect, GRIFFITH THOMAS.

DELANCEY ST. (No. 276), ONE FIVE-STORY BRICK store and tenement, 25x61; owner, B. GOETZ; architect, A. H. BLANKENSTEIN.

WEST 49TH ST. (No. 128), ONE FOUR-STORY brown-stone tenement, 25x40; owner, P. FITZPATRICK.

FIFTY-FOURTH ST., N. S., 160 E. 3D AV., ONE three-story brick stable, 30x62; owners, HOFFMAN & MERKEL; architect, A. PFUND.

MADISON AV. AND 63D ST., N. W. COR., FIVE four-story brown-stone dwellings, 20x56x62; owners, T. G. CHURCHILL & A. SMITH; architect, GAGE INSLEE.

ONE HUNDRED AND TWENTY-THIRD ST., N. S., 89 w. 4th av., nine three-story brown-stone dwellings, 19.6x54 each; owner, GEORGE E. KUHN; architect, WM. JOSE.

SIXTY-EIGHTH ST., S. S., 125 E. 4TH AV., ONE five-story brick Public Building, 126x60; owners, TRUSTEES OF OLD LADIES' HOME OF BAPTIST CHURCHES OF NEW YORK.

THIRD AV., E. S., 50 N. 23D ST., ONE THREE-story brick dwelling, 24.6x90; owner, EDWARD DUFFY; builder, M. RUPPERT.

ALTERATIONS IN BUILDINGS.

One brick theatre, north side of Fourteenth street, 125 feet west of Sixth avenue, three stories, 75 by 150, extension 50 by 50, 40 feet high, and remodelled; Chas. Fechter, owner.

One brick hotel, east side of Fifth avenue, 40 feet south of Twenty-seventh street, eight stories, 42.8 by 50, extension 42.8 by 45, about 40 feet high; Chas. F. Livermore, owner.

One brick hotel, south side of Forty-second street, 64 feet east of Fourth avenue, five stories, 40 by 50, one story to be added, with Mansard roof; Jas. E. Shaw, owner.

One brown-stone front first-class dwelling, north side of Thirty-seventh street, 300 feet east of Sixth avenue, four stories, 20 by 50, extension 20 by 11, about 26 feet high; Prof. Davies, owner.

One brown-stone front dwelling, No. 597 Fifth avenue, four stories, 26.5 by 70, extension 11.6 by 12, 36 feet high; Mr. Clowes, owner.

One brown-stone front dwelling, No. 109 West Forty-eighth street, four stories, 20 by 50, one story to be added to extension; Mrs. Trotter, owner.

One brown-stone front tenement house, north side of Tenth street, 170 feet east of Avenue A, four stories, 25 by 50.4, one story to be added to main building and extension; John Reichert, owner.

One brick dwelling, No. 104 Greenwich avenue, two and a half stories, 21 by 36, one and a half stories to be added; M. B. Thompson, owner.

One brick dwelling, No. 121 Eldridge street, three stories, 20 by 37, one story to be added; Mrs. Kipp, owner.

One brick factory, No. 417 West Eighteenth street, three stories, 31 by 42.6, extension 31 by 50, 38 feet high; William Shute & Co., owners.

One brick stable, No. 145 West Thirty-ninth street, two stories, size not stated, extension 19 by 29.8, 13 feet high; G. E. W. Reid, owner.

One brick and frame dwelling, No. 170 Rivington street, one and a half stories, 22 by 32, one story to be added to extension, 9 feet high; Mr. Weis, owner.

UNSAFE BUILDINGS.

East Twelfth street, No. 613, Morris O'Brien, owner; unsafe walls.

East Thirty-fifth street, Nos. 417, 419 and 421, Sarah Hanneman, owner; unsafe buildings.

Third avenue, building southeast corner of 110th street, Hugh Meehan, owner; unsafe walls.

Eldridge street, No. 181, Joseph J. Jennings, owner; unsafe walls.

West Houston street, No. 214 (rear), Astor estate, owner; unsafe west wall.

Chatham street, No. 179, James Hannigan, owner; unsafe chimneys.

St. Mark's place, No. 45, Mr. Bailey, agent; unsafe chimneys.

MARKET REVIEW.

BRICKS.—Business on North River Hards has not been very rapid, the election, and the excitement consequent thereon, tending somewhat to check the free movement of trade in this as well as all other markets. Aside from this influence, however, the demand has most certainly fallen away, and the market, as compared with a month or six weeks ago, is very dull. As previously noted, a large number of buildings have now got beyond the brick work, and new jobs are not commencing with much general freedom, while the large contractors are not ready as yet to talk about what they shall want for winter, and most of the retail dealers continue to persistently refuse to lay in supplies beyond their ordinary daily wants. This, of course, makes the accumulation now on hand at this point comparatively small, most of the summer purchases having already been consumed, and any sudden revival of the demand would undoubtedly have a very stimulating effect; but the latter is not likely to occur, and should brick really be wanted there is a most liberal stock at the points of production, most of which can be made available on short notice. Prices naturally continue weak and somewhat irregular, and just a trifle nominal, with a fair range to cover both extremes, standing at about $9@10.50 per M, the latter pretty high, and as sellers appear very reticent about naming figures, we have applied more closely to buyers, some of whom assert their ability to obtain just as good brick as they want to handle at something under $10, and plenty offered. Reports from up the river continue to place the amounts in shed and on pier awaiting shipment as very large, in many cases in excess of any season for years, but owners, now that manufacturing is over for the season, are rather inclined to hold back hopeful of better call and rates to correspond. In fact the position now represents a sort of contest between manufacturers and our retail dealers, and it will probably require some little time to show who is to have the advantage. New Jersey Hards are without important change and still quoted at $8@9 per M, the latter pretty high. Pale Brick have been somewhat irregular in price, and the upward turn seems to be checked. A few very nice lots reached nearly or quite $7 per M, but $6.50 is a good price, $6 a fair general quotation, and one or two sales of rough stock were made at $5.50 per M. Philadelphia Fronts, not very plenty, in pretty good demand and firm at $28@30 per M on pier. Croton Fronts we still quote at $12, $14, and $15 per M for brown, dark, and red, and the market is dull. The price was said to have been advanced $1 per M, but as even half cargoes have since been sold at old figures we retain them.

LATH.—The demand has been fair and has taken the supplies about as fast as received, with the market showing a continued steady tone during the greater portion of the period under review. Dealers are in many cases holding off, and in various ways endeavoring to force a lower range of values; but their success is not very apparent, and any gain on figures will not be likely to be long retained by the buying interest at this season of the year, as there is not much time to waste in providing for the winter wants. Still, on the other hand there does not appear to be a likelihood that sellers can gain any very decided improvement as the supply all through the recent free consumptive distribution was fully equal to the call, and it is believed that there is plenty yet to come forward. Again, an increased cost of any magnitude is likely to induce greater caution on the part of buyers, and receivers are not much inclined to run the risk of checking sales by asking too much money for their goods. The average of quality of late offered has been fair, though some lots from the Maine coast were not altogether desirable, and were difficult to dispose of at regular market rates. The market closes with a very fair supply offering, but the demand pretty good and the feeling generally quite firm. Sales have been made as high as $2.42½@2.45, and $2.40 is an inside figure.

LIME.—The general tone of the market for Eastern has been pretty firm and the sales quick at full figures on all grades, including a good many parcels to arrive. The wants of the trade, present and prospective, have increased somewhat, and most of our dealers showed some anxiety to secure full cargoes, while at the same time the offering was hardly equal to the call, and all orders could not be met. The production has been pushed forward to the fullest extent possible, but manufacturers are still behind in their deliveries. A scarcity of vessels, high rates of freight, and full cost of cooperage stock are all cited as influences calculated to stimulate the market. The State Lime is firm and in demand, with hardly enough available to meet all wants, and some agents sold ahead especially on finishing. The kilns, however, are mostly working up to the average for the season, and considerable stock will come through before the close of navigation. Few concessions are now allowed on any quantity, receivers storing stock rather than accept lower figures. As we close, and, in fact, during the week, the number of cargoes reported shows a pretty large aggregate, but all buyers were not supplied, and receivers still call the market firm at $1.35 per bbl. for common; and $1.75 do for lump.

LUMBER.—The general demand at the yards, while not exactly showing any great amount of activity, is as a rule fair, and enough stock is moving to keep most of the trade pretty busy, and many of the leading dealers continue to report themselves as very well satisfied with the position.

The somewhat advanced cost on many grades, especially of pine, naturally has a tendency to make buyers a little more cautious, and probably calculations are made with a closer look to positive necessity; but in view of the very stiff tone to nearly all the lumber markets throughout the country it begins to be understood that this point must follow sooner or later, and those who buy now are likely to do better than those who hold off with the almost certainly vain hope of gaining any further advantage. Our figures represent, as near as may be, the rates bid and those asked, but it would be well to remember that scarcely any sellers are to be found at inside quotations. In this connection, however, it is only fair to remark that not until this week have any of the leading dealers deemed it advisable to put up their prices, as having a fair margin for profit already they were adverse to frightening off the little trade moving, by asking too high rates. Again, the improvement at Albany is something of a nominal one and more in the asking than the getting, while some of the sellers at that point are actually quietly seeking customers at old figures. On Pine uppers we make no change as yet. Few if any complaints are made in regard to the assortment offering, and, indeed, there could not be justly, as dealers have undoubtedly selected their stock with care and wisdom, while the quantity is fully up to all expectations, but the additions commence to fall off somewhat as the great majority of deliveries on contract have been made, and only odd and irregular parcels are now expected. The outlet on current sales is still almost entirely of a local character, though in a few instances shipments are being made to regular customers.

The wholesale market shows a comparatively firm, general tone, and buyers, to operate, must pay full prices on all grades, even coastwise stock, which has for some time had a tendency to drag a little, showing a better tone, and anything at all desirable now selling fairly when offered, and agents finding that their views as to values are accepted with much less hesitation than heretofore. It is rather late to expect many contracts to be made on either Western on Northern goods, except where the supplies are already at tide water; but all the primary and large distributing markets show such extreme firmness that it appears to be very generally accepted that lumber has seen its lowest rates for a twelvemonth at least. In some quarters there is an inclination to cast doubts on the buoyant reports from the interior, but the advices receive too many confirmatory additions from the most disinterested sources to be without pretty strong foundation on fact, and present owners of stock have undoubtedly every reason to look for a liberal increase of their margins for profit. The export demand is only fair both here and on the St. Lawrence, being confined in the main to West India orders, most of the long voyage shipments having been made earlier in the season.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.

For Eastern Spruce there has been a reasonably firm tone, with a slight inclination to buoyancy on prime to choice lots, as these are becoming rather scarce, and the demand if anything is improving. There is no strong upward turn, however, and the trade as a rule look upon the market as merely developing the natural better state of affairs almost sure to prevail as the regular season draws to a close, but further stimulated just now by the strong prevailing tone on all other kinds of lumber. The majority of the large dealers are indifferent operators and may refuse to forward goods at current rates—indeed, very few could if they would, as they have all they can do to complete engagements, and anything like pressure to realize comes from agents of small mills where money is much needed and holding out for full figures cannot be afforded. The market closes with a somewhat larger supply here, and prices a little tame. We quote at $16@17 per M for inferior to fair schedules; and $17.50@20 for good to prime do. White Pine is in demand, is very indifferently offered, and the entire market shows a most decidedly strong and encouraging tone. The supply available right here is fair, but it would be extremely difficult to make any important additions thereto even at full figures, and holders do not care about selling. The poorest culls are worth about $21 per M; good to prime shipping boards, $22@28 do; choice do, $30; pickings, $35; and selects, $45 per M. Yellow Pine continues in demand, and the market has a very firm tone generally. Random cargoes are a little slow as usual, but there is not enough of these offering to depress the market, and for all orders on special lengths sellers are still asking and obtaining full former rates. We quote at $28 @33 per M for common to choice random; and $34@40 for common to very extra special schedules.

We note additional exports as follows:—

To Hamburg, 40 logs walnut, value $947; to Liverpool, 86 logs maple, value $1,700; to Havre, 38 logs do, $580; to British West Indies, 2 spars, value $250; to British Australia, 85,000 lath; to Hayti, 205,000 shingles; to Antwerp, 4,800 staves; to Rotterdam, 2,400 do; to London, 2,700 do; to Havre, 14,400 do; to Marseilles, 6,000 do; to Funchal, 4,040 do; to Liverpool, 15,200 do, and 2,124 shooks and heads; to French West Indies, 16,200 staves and 400 shooks; to Danish West Indies, 15,000 hoops and 200 shooks; to British West Indies, 6,195 shooks: to Cuba, 33,500 hoops and 1,400 shooks; to Porto Rico, 456 shooks; to Brazil, 3,709 shooks. Receipts as follows:—From Charleston, 150,000 feet lumber; from Brunswick, Ga., 170,000 feet do; from Maine coast, 49 cargoes lumber, 7 do lath; from St. John, N. B., 1,177,521 feet lumber, 1,471,000 lath, 5,000 pickets, 407 pieces piling; from Lepreaux, N. B., 1,530 pcs piling; from Two Rivers, N. S., 430 pcs do; from Goose River, N. S., 425 do; from Windsor, N.S., 668,000 lath.

Charters as follows:—A Br barque, 497 tons, from Satilla River to Montevideo, lumber, $22.50 and primage; a barque, from Portland, Me., to Montevideo or Buenos Ayres, lumber, $16 and primage; a Br brig, 298 tons, from St. Mary's to Montevideo or Buenos Ayres, $23, privilege Rosario, $26 and primage; a barque, from Pensacola to New York, lumber, $12; a schooner from Jacksonville to New York, $13; one, same voyage, $12.75, privilege Fall River, $13.25.

MILL BURNED.

OTTAWA, Nov. 1.—Skead's lumber mill was burned this A.M. Loss $40,000; insured $20,000.

From the *Saginaw Courier* we obtain the following interesting items:—

PINE TIMBER DESTROYED—OPERATIONS DURING THE WINTER—THE MARKET.—The late extensive fires throughout the pine timber region of Michigan is likely to put a new phase on lumbering operations during the coming winter. The favorable condition of the lumber market would doubtless stimulate increased operations, but a still greater impetus has been given in the fires, which have burned so much timber, that it will be necessary to cut it to save it. It would be difficult to estimate the amount of timber that has been burned.

The Rusts, it is estimated, had in the neighborhood of 100,000,000 feet; W. R. Burt & Co. 50,000,000; Sage & Co. and other large pine-land owners, large amounts. On the Cass, Ketchum & Co., out of 30,000,000, had about 20,000,000 feet burned. The Tuscola *Pioneer* says that "the fires have run over large tracts of land belonging to Murphy & Avery, Page & Peters, in Tuscola, Genesee, and Lapeer counties. We understand that some 20,000,000 of feet on Murphy & Avery's tract have been run over by the late fires, much of which is probably killed, and will have to be worked up soon, or it will greatly depreciate in value."

It has been the policy of heavy Saginaw manufacturers and lumber dealers to meet the present supply by the purchase of logs from smaller lumbermen, local dealers in the pine districts, and from farmers and others lumbering from their own lands, rather than to lumber extensively from the large bodies of pine lands which most of them own. The timber on these tracts is held in reserve by those whose capital enables them to hold it, to meet the demand when other sources fail, and when a monopoly will enable them to control the market and secure their interests. The late fires, however, have burnt over large bodies of these pine lands, killing the timber, and making it necessary to cut a great deal that would not otherwise have been cut, to save it brom decay and the borers. In consequence it is expected that a full supply for the mills will be put in from these burnt lands, and the market for logs is thereby materially affected. Sales can hardly be made now at any price; but it is hoped that the damage may not be so great as feared. Agents are out looking the woods over, and the extent of the "deadenings" they report will determine the condition of the market for logs. The Gratiot *Journal* says, that competent judges who have been over the ground, estimate that there will have to be at least 10,000,000 feet put in from the township of Seville, more than would have been cut but for the fire. If the districts north and west have suffered in proportion, it will require but a modicum of the burnt timber to supply the demand. As the stumpage of these burnt lands will be of little value after this winter, an effort will be made to save as much of the timber as possible.

Lumbering operations have already commenced in earnest. Large numbers of men are now at work in the woods, and men are leaving daily. The demand for men has created a scarcity. The leading lumbermen will make it a point to cut as much of the burnt timber as possible; but even then much will be lost. One point to consider is the capacity of the booms. The boom faculties will admit of so many logs passing through, and no more. There is a limit beyond which they cannot go, and this limit was nearly reached in 1870. This will prove a check-mate to overstocking the lumber market, and no decline in prices need be apprehended in consequence of overstocking the market.

LUMBER SHIPMENTS.

The shipments of lumber from the port of East Saginaw, for the month of October just closed, show a falling off from the same month last year of nearly 12,000,000 feet. This is owing entirely to the fact of the rough weather that has prevailed, and the consequent disasters. An unusual circumstance was that during the month, for three successive days, there were no arrivals or clearances reported at the Custom-house. We give below the shipments from the port of East Saginaw for the month of October, 1871, and the corresponding time last year:—

	Oct. 1870.	Oct. 1871.
Lumber, ft	36,340,335	24,964,800
Lath, pcs	4,320,450	2,053,000
Shingles	13,840,500	8,165,000
Salt, bbls	16,500	14,100
Staves and heading	.....	125,000
Staves	130,000	.....
Hoops	360,000	.....
Pickets	65,000	.....

SAGINAW LUMBER MARKET.

Sales by cargoes about as follows:—

First clear	$40 00@45 00
Fourths	38 00@40 00
Box	33 00@35 00
Three upper grades	38 00@40 00
Common	14 00@15 00
Shipping culls	7 00@ 7 50
Lath	1 95@ 2 10
SHINGLES—	
Sawed A 1	4 00@ 4 25
Sawed A 2	2 25@ 2 75
Shaved—None in market.	

The following is the November price-list for lumber delivered on cars, observed by Chas. Merrill & Co.:—

First clear	$42 00
Second clear	37 00
Third clear	32 00
Select	29 00
Clear stock, 12 inch	37 00
Select stock, 12 inch	29 00
B stock, 12 inch	21 00
Common stock, 12 inch	15 00

Pickets	10 00
Shingles	4 40
Lath	2 50

SAGE & CO.'S SALT WORKS AND MILL.

Since the commencement of operations this season, the mill of H. W. Sage & Co. has cut, up to the evening of October 26th, 19,667,771 feet of lumber, running only twelve hours per day. They have shipped from their docks, since navigation opened, 24,784,032 feet of lumber. The Salt Works, since operations were commenced, have packed but 13,831 barrels of No. 1 Salt, 12,894 barrels of which has been shipped. It is controlled by the Saginaw & Bay Salt Association.

LUMBER SALES.

The Bay City *Chronicle* reports that Shearer & Co. have made a sale of 750,000 feet of lumber at $7.50, $15, and $36, to be shipped immediately to Buffalo. Lumber sells readily at $7, $14, and $35, but parties who are indifferent about selling demand $7.50, $15, and $36, which will soon be recognized as the selling price.

GOING TO THE WOODS.

The Iosco (Tawas) *Gazette* says:—"Our town was full of men on Sunday 'lying' over here for a start toward the woods on Monday. The crews of lumbermen Smith, Beach & Mansfield, Gardiner, and Hill & Miller, were among those that formed the caravan that wound out of our village on Monday morn."

MUSKEGON LUMBER.

From the Muskegon *News:*

The journals on the East Shore are a unit in delaring that the logging season about to commence in the pineries generally has much better prospects the coming winter for getting in a full stock than has been the case during the past three years. The woods are already alive with men, though five weeks earlier than usual. Considerable money has already been paid out, and so many contracts made in the counties of Muskegon, Ottawa, Oceana, Mason, Manistee, and clear up to Grand Traverse, that a number of our cotempor aries give timely warning to our lumbermen to take care and not overstock next year's market, and thereby depreciate the real value of lumber. Contracts amounting in the aggregate to 350,000,000 feet have already been made on the Muskegon River and its tributaries. White River will not fall short of 75,000,000, making a total for this county of 425,000,000, to say nothing of the small manufacturing localities. It is the same with our neighboring counties, and it seems as if the owners of pine had become mad, and seek to cut down all that comes within reach in a single season. We fear the prosperity of lumbermen during the last year will induce them to a suicidal act. After all, it matters but little what preparations for logging are made, the weather during the winter will regulate the log crop, and the capacity of the booms will prevent a very large overstock. The hauling will in most cases be a long distance. The extraordinary exertions on the part of the manufacturers to slaughter pine the coming winter is due to the high price paid for lumber, and logs have advanced about $1 already.

The cutting and shipping season draws to a close here, as will be seen by comparing the last three months' figures, as recorded in the books of Mr. Kingsbury, the Custom House officer here.

The amount of lumber, lath, shingles, etc., from July 15th last to October 15th inst., shipped from this port, is as follows, to wit:—

Lumber, feet	121,801,000
Lath, pieces	20,604,000
Shingles	2,068,000
Railroad Ties	6,600
Timber	220,000
Pickets	5,600

The Chicago *Post* reports as follows:

The unpleasant weather has prevented much business at the lumber docks this morning, and the few sales made were at substantially the same prices as on yesterday. Shingles are steady at $3.50, and lath at $2.62½@2.75.

We quote the ruling prices as follows:—

Common to fair lumber	$18 00@20 00
Good to choice mill-run	20 00@22 50
Joist and scantling	17 00@17 25
Shingles	3 50
Lath	2 62@ 2 75
Pickets	12 00

Montreal prices as follows:—

LUMBER.—There has been a fair degree of activity in lumber during the week. We do not alter our quotations, which are as follows:—

Black Walnut	$60 00@80 00	per mil.
Birch	16 00@20 00	"
Pine, First and Second	16 00@20 00	"
Basswood	10 00@13 00	"
Spruce	9 00@ 9 50	"
Hemlock	8 00@ 8 50	"
Pine, 3-inch cull deals	20 00@24 00	100 pcs.

The Williamsport (Pa.) *Gazette* has the annexed:—

THE DRY VALLEY BOOM.

A Sunbury correspondent, writing to the *Millonian*, says that the firm of Friling, Bowen & Engle, of the large sawmill, have transferred the principal part of their interest in the boom at Dry Valley, and a firm from Williamsport will proceed at once to erect a new one at a cost of $25,000. It will be made strong and substantial. The estimated number of logs in the river above is 40,000,000 feet. In case of high water part of these may go adrift, and a good boom at the above-named point will be readily seen to be a good thing.

The East Saginaw *Enterprise* says:—

The movement in lumber was not very brisk during the past month. The heavy smoke which prevailed all through the recent fires made navigation dangerous, and interfered with business. The heaviest shipments were made during the past week, and had it not been for the scarcity of vessels, which were not to be had under any consideration, from 12,000,000 to 14.000.000 feet more lumber would have been shipped. When the smoke cleared away, the eagerness of shippers to fill their contracts caused a rush, and consequently every available craft was brought into service. The great storm, which occurred about two weeks ago, which did so much damage to shipping generally, the heavy smoke, and the scarcity of vessels, have all helped to reduce the monthly shipments from this port.

The *Enterprise* says the lumbering interests of Kewaunee County suffered severely by the late fires. Messrs. Slauson, Grimmer & Co. had about 20.000,0000 feet of pine burned over in the town of Montpelier, and 5,000,000 feet in Casco. Such of this timber as can be got out during the coming winter will be all right, but it will be impracticable to get it all out, and what is left over will be comparatively worthless.

The Eau Claire *Free Press* reports that the Eau Claire Lumber Company has manufactured over 30,000,000 feet of lumber this season up to the present time, and its mills are both running in full blast.

The Green Bay *Advocate* says:—

THE FIRES IN THE WOODS.

The recent conflagration has done more damage to the timber that stood in its course than was at first supposed. The beautiful hardwood ridges which lay south and west of Peshtigo, and those west and north of this place, have been ruined, and after a few years will be worse than useless. Along the two rivers large quantities of pine had been left standing by the mill companies as a sort of "rainy day" provision, left to repair the misfortunes of some unfortunate season's logging, which must all be put into the water during the coming winter, or the worms will spoil it. Good woodsmen, who have passed over the pineries affected on the Menominee, estimate that fully two-thirds of the timber is down, and should the approaching winter be one of deep snows, the expense of cutting and hauling will be very great. Fortunately, however, no one company has more in this State than they can use for a season's work, and they will not be obliged to overstock in order to preserve the timber. Some provision should also be made as soon as possible for cutting the pine on R.R. land, and the C. & N. W. officers should go so far as to obtain an act of Congress allowing the pine to be cut if necessary. There is not so much of it that it can be wasted as well as not.

A few days since we drove up the River State Road to Kirby, Carpenter & Co.'s Little River Farm, and found that the utmost desolation had marked the path of the fire in every direction, and in the drive of over twenty miles, through a country where every species of wild animals and birds incident to the climate were to be found in profusion a few short weeks ago, only one solitary chipmonk and a very small bird was seen. Corduroys covered with dirt a foot deep have been burned, great noble pines that have withstood the element for centuries have been mown down like hay before a scythe.

The Boston *Commercial Bulletin* reports:—

The market for lumber remains steady, and transactions are on an extensive scale for the season. With the return of good weather, which greatly facilitates building operations, carpenters and builders are mostly busy, either in finishing up contracts or making repairs on old work before cold weather sets in. Business at the retail yards is brisk. Arrivals still continue light from the Eastward, and the advance in prices, noted a few weeks since, is well sustained. Spruce of desirable quality, and of the right length, is in good demand at full rates; but there has been no improvement in shingles and clapboards. Western lumber is firm, and Canada is quick at current rates.

The rapidly increasing trade in lumber at Burlington, Vt., bids fair to place it in the front rank as a market for that commodity, and soon make it equal to its older and more pretentious rivals. The energy of its operators, and the facilities afforded both for the transit of Canadian and Western lumber, cannot fail to render it ultimately a place of considerable commercial importance. The enterprising spirit of its inhabitants, in contributing so largely as they have done towards that important undertaking, the Caughnawaga Canal, should have the endorsement of the whole of the New England States, who will be equal participators in the benefits arising from this new channel of communication.

To form some idea of the rapid growth of the lumber trade in Burlington, it should be stated that in 1855 the total amount of lumber shipped to that place was only fifteen million feet: in 1870 it footed up one hundred and ten millions, employing some 1,200 vessels for its transportation. This year, however, although the monetary value of the returns will be nearly the same, there will be a falling off of some ten per cent. in quantity, owing to two important facts not generally known. In the first place, the Michigan crop last year was about twenty-five per cent. below the average, whilst the dry season has not only stopped many mills from running in Canada, but from the low condition of the streams precluded the possibility of transit, and many of the vessels that did run carried only half cargoes. Therefore, the advance in the prices of lumber is not mainly attributable, as generally supposed, to the Western fires, although that event certainly accelerated the upward tendency. This advance varies from ten to fifteen per cent., there being a large and active demand for the lower grades; these necessarily have risen the most, whilst the smaller demand for the select has not caused a rise of more than ten per cent. The proportion of sales of the different grades will be eight per cent., select; twelve per cent., second quality; twenty-seven, third quality; forty-two, fourth quality; pickings and box, twelve per cent.

The whole of this extensive trade is in the hands of some four or five operators, viz., Messrs. Shepherd & Davis, Blodgett & Son, Rolfe & Tyler, W. & D. G. Crane, and W. H. Barnes. The great planing mill at Burlington built by Mr. Barnes, of the firm of Skillings, Whitney & Barnes, but now the property of Messrs. Shepherd & Davis, is a remarkable specimen of its kind. The building itself is 275 feet long, 100 wide, and is fitted with thirty planing and matching machines, whose united power in June last planed some 5,913,561 feet of lumber. The shavings from these machines are carried, by a series of square wooden tubes, to a reservoir, by the action of McGannan's patent blower, where they are deposited to the amount of some thirty tons daily. The division of the lumber trade at Burlington will be about as follows: Messrs. Shepherd & Davis, fifty per cent.; Blodgett & Son, twenty-five per cent.: Rolfe & Tyler, fourteen per cent.; and W. & D. G. Crane, eleven per cent.

The lumber sold here consists almost exclusively of pine; and it is worthy of note that the lumbermen in the pine forests of Canada have so far outstripped communication with the railroads, that the expense of transporting their provisions is very considerably more than formerly, which likewise greatly adds to the cost of their lumber.

The following are the surveys for the week:—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	717,550	Spruce	2,159,044
Hemlock	407,539	So. Pine Flooring	51,825
So. Pine Pl. & Tim.	68,056	Hard Wood	45,781
Black Walnut	31,164	Pine Timber & Joist	37,278
Total			3,518,237

The Pensacola *Mail* reports as follows:—

TIMBER.—As we have still been deprived of rains, the creeks and rivers are still low, and very little timber has come to market. The timber cutters are, for the most part, busily engaged in hauling their timber to the banks, so as to be ready to take advantage of the first rise. Quotations, which are only nominal, are as follows:—

60 feet average	10c.	per cubic feet.	
70 " "	11c.	"	"
80 " "	12c.	"	"
90 " "	13c.	"	"
100 " "	14c.	"	"

For B1 good class and upwards delivered at Ferry Pass.

The scarcity of freights for sawn timber will rather tend to depress prices, although a few mills have contracted for a large supply. We quote as last week:—

25 feet average	12c.@14c.	per cubic feet.	
30 " "	14c.@16c.	"	"
35 " "	16c.@18c.	"	"

Delivered at vessel.

LUMBER.—Flooring boards are in good demand at the North, and prices are tending upwards, so that we think many mills will turn their attention to this article. We predict a busy season for our mill men, and quote:—

Floor'g Bds, prime	$17 50 to $19	pr m. ft. f. o.b.	
Scantling, ord'y sizes, Cuba & Texas	15 00 to 16	"	"
Do. special sizes and long lengths	16 00 to 20	"	"
Edge Boards, No. 1	10 00 to 11	"	"
Do. No. 2	8 00 to 9	"	"
Deals, S. A. market	17 00 to 18	"	"
Do. English do.	13 00 to 14	"	"

FREIGHTS.—Coastwise vessels are in pretty good demand, and command fair rates of freight. A few can be readily placed to-day for Boston, New York, and Philadelphia, at from $10 to $11.50, and one or two vessels for north side of Cuba, at from $10 to $11 gold.

Owing to the fall fleet being late in clearing for this place, vessels now in the Gulf could get extra rates for both hewn and sawn timber to U. K. ports. We quote:—

U. Kingdom, hewn, orders, per load		28s to 40s
do. do. direct ports, "		30s 6d to 37s 6d
Liverpool, sawn	"	35s to 36s
Cuban ports, lum., per M sup. ft		$10 to $11 gold
Buenos Ayres, " "		21 to 22 "
Galveston, " "		10 to — cur.
Ports north of Hatteras		10 to 12 "

The St. Louis *Democrat* of Nov. 6 says:—

During the past month our market has presented an animated appearance. Men and teams have been kept busy hauling and piling lumber, and the dealers were likewise engaged in waiting on customers and filling orders. The receipts have been comparatively light, consequent upon the low water which has prevailed this season on the Upper Mississippi and tributaries, the amount of stock held back, and the heavy falling off in shipments by the lake, while shipments have been very brisk from the yards and stocks considerably reduced. This has urged the dealers to replenish their stocks before the season closes, and consequently there has been a heavy demand during the month for yellow pine. Our lumbermen were pleased with the divergence of trade to this point, which has of late argely attracted buyers, and feel satisfied with the usual advance at this time of the year instead of making any extortionate demands. This has induced buyers to seek our market from Kansas, Nebraska, Iowa, and parts of Illinois, that have heretofore traded elsewhere.

The Milwaukee market is reported as follows:—

The market is quiet and prices firm at our quotations. Business is light, and very few cargoes are marketed here, prices in Chicago being materially higher than at this point. Lath and shingles are steady. We quote:

Scantling and joist	$15 50@16 00
Strips and boards, common to fair	16 00@17 00
Good to choice strips and boards	18 00@20 00
Lath, ₱ m pieces	2 50@ 2 62½
Shingles, "A" or Star	3 25@ 3 40

METALS.—Ingot copper continues in only limited request, but prices are steady. Yellow metal and copper manufactures are unchanged. We quote ingot 23¼@23¾c; new sheathing, 32c; yellow metal 24c; and old sheathing 20@21c. The market for Scotch Pig continues dull, but firm at the late advance. The demand for American is limited, but quotations continue firm. We quote Glengarnock in yard at $34@40 and from ship at $36@39 per ton for No. 1; $35@36 do for No. 2, and $33@34 do for forged. Refined bar is quiet but steady. We quote from store as follows: Bar Swedes, $107.50@120; refined, ordinary size, $85; refined, 1¼ to 6 by ¼ and 5-16, $90; refined, 1 and 1½ by ¼ and 5-16, $92.50; refined, 2½ to 3 round and square, $92.50; scroll, $102.50@132.50; ovals and half round, $102.50@122.50; band, $97.50: horse-shoe, $100@105; rods, 5-8 to 3-16 inch, $90@125; hoop, $107.50@150; nail rod, per lb., 6¾. Common sheet is unchanged. We quote at 4¾@5¾c for single D and T., and 5½@6¼c for D. and T. Charcoal. Galvanized Sheet is in limited request, but steady. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 27½@30 per cent. to the trade. The market for Russia sheet is quiet and prices unchanged. We quote at 17½@18c gold, according to number. The market for Pig Lead is quiet, but prices are steady. We quote at $5.95@6.50 for common to good foreign. Manufactured lead continues quiet and unchanged. We quote at 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. The market for Pig Tin has ruled fairly active under more favorable European advices, and with lower prices, large sales have taken place. We quote in coin at 35@35¼c for English; 36@36½c for straits, and 41@41½c for Banca. The inquiry is limited for plates, but prices are steady. We quote I. C. charcoal, $8.75@9; I. C. coke, $7.50@8.50; Coke Terne, $6.37½@7.50, and Charcoal Terne, $7.75@8.25. Zinc is quiet and unchanged. We quote Mosselmann sheet 9½@10c curreney, with sales from store made at 8½@8¾c gold.

NAILS.—Much strength and confidence have been shown by manufacturers and agents on all the leading grades, and the market generally was in a healthy and encouraging condition during the period under review. The call was not very active from any one quarter, but nearly all classes of buyers were represented to a greater or less extent, and they took enough in the aggregate to make quite an impression on the stock accumulated. The Western movement has subsided a little, though still reported as fair in several quarters, and full values positively insisted upon for all classes of goods. The production ranges up to about the ordinary average, and there is not likely to be an actual dearth of supplies, yet some manufacturers report that they are behind on orders and gaining very slowly. Prices remain very firm at the late improvement noted by us, and at the close the general outgo is fair. We quote per 100 lbs.: cut, 10@60d, $4.65; cut, 8@9d, $4.90; cut, 6@7d, $5.15; cut, 4@5d, $5.40; cut, 3d, $6.15; cut, 2@3d, fine, $6.90; cut spikes, all sizes, $4.90; cut finishing, casing, box, etc., $5.15@$6.65; clinch, $6.15@6.65; horse-shoe, forged, No. 10 to 5, per lb, 19@33c. Other styles are selling as follows: Copper, 37@39c per lb; yellow metal, 24c do. The exports for the week are 391 pckgs, valued at $2,928; and since January 1st, 14,115, valued a $88,968.

PAINTS AND OILS.—The market has rather an improved tone, and in some cases prices are a trifle higher. The apparently slow movement of the past two or three weeks has in reality been quietly taking off a goodly amount of stock, a large proportion of which was wanted on Western account, and the supplies now are so much reduced that holders gain confidence, and a few have, as above noticed, increased the cost of some of the leading articles. Vermilion and red lead have shown the greatest firmness, though a good many of the other standard qualities are stiffly held and not easily found. Of foreign productions the additions to the supply do not amount to a large aggregate, and hardly off-set the outlet, but still there is enough coming to hand to prevent an actual scarcity. The domestic manufacture is being urged somewhat, and the offerings for early future delivery are fair. Glues still doing well, and stocks in some cases commence to run fair. Retailers are doing their share of the business, and obtaining full prices in all cases, with an advance wherever the wholesale market has improved. Linseed oil has been rather more steady since the break in values noted last week. The demand did not greatly improve, and buyers displayed but little anxiety to secure stock beyond their most positive wants. Crushers

however, deemed the recent concessions all that could reasonably be expected, and few, if any, will now sell below about 76c. in casks.

Exports as follows:—

	This week.		Since Jan. 1, 1871.	
Paint.....pckgs.	133	value $4,329	7,691	value $128,232
Linseed oil, galls.	628	" 591	10,635	" 9,103
Oxidé zinc, pckgs.	—	" —	3,620	" 38,110

PITCH.—The demand is limited, but the tone is a shade firmer. But few sales have been made and those in small lots. We quote at $4.75 for for city delivered. Receipts for the week, — bbls; since January 1st, 8,780 bbls; for same time last year, 2,292 bbls. Exports for the week, 14 bbls; since January 1st, 2,326 bbls; same time last year, 3,370 bbls.

SPIRITS TURPENTINE.—The trade generally has been quiet, but prices are firmly held. We quote merchantable and shipping order, 69@69½c; and from store, 71@72c. Receipts for the week, 1,625 bbls; since January 1st, 57,646 bbls, and for the same period last year, 60,822 bbls. Exports for the week, 1,861 bbls; since January 1st, 12,257 bbls, and for the same period last year, 15,292 bbls.

TAR.—The market continues quiet, and with a light stock, prices are firmly held. Washington is held at $4.75 as it runs. Receipts for the week, 260 bbls; since January 1st, 20,399 bbls; for the corresponding period last year, 45,945 bbls. Exports for week, 54 bbls; since January 1st, 8,807 bbls, and corresponding period last year, 14,359 bbls. There is no Wilmington here, and we omit the quotation.

ALBANY LUMBER MARKET.

The *Argus*' report for the week ending November 7, 1871, is as follows:—

Pennsylvania mills are still idle, and the demand for Lumber there is on the increase, with an upward tendency in prices. Philadelphia buyers are still looking to this market for supplies of certain grades of Lumber, and some large shipments have yet to be made there this fall. Prices of Michigan Pine are firm at our highest quotations, and an indifference on the part of holders to sell, from the fact that the Lumber cannot be replaced at the prices it has been selling for. All kinds of Pine and hardwoods are held firmly at our quotations. The same may be said of Spruce and Hemlock, which are scarce. Accounts from Cleveland, Toledo, Buffalo, and other markets report increased activity, while at Chicago the receipts are found inadequate to meet the current wants. The stringency in money and the firm views of holders have checked sales here a little. Shipments are limited by wants of freighting facilities and this also has its effect on sales. Added to this is the indifference of the trade to sell in view of the general expectation of a further advance in prices. With the exception of coarse Lumber the stock, though moderate, is fairly assorted.

The receipts of lumber at Buffalo during the week by lake and rail were 6,559,000 feet. At Oswego, by lake, 8,351,900 feet.

The receipts at Albany by the Erie and Champlain canals for the first week in November were:—

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	10,338,029	41	9,573	370,000
1870	12,098,300	54	....	....

Of the boards and scantling received, 6,036,629 feet were by the Erie, and 4,301,400 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals, from the opening of navigation to November 8, were:—

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	386,225,029	27,347	9,573	9,988,500
1870	393,285,300	19,414	1,250	16,647,900

Lake freights are $6 to Buffalo, and $9@9.50 to Oswego. Canal freights from Buffalo to Albany are $6.75@7 on hard wood, and $5.75@6 on soft; from Oswego to Albany, $3.75.

River and Eastern freights are quoted as follows:

To New York, per M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	3 00
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, per ton, to Boston	2 50

The current quotations at the yards are:—

Pine clear, ₱ M	$55 00@$57 00
Pine, fourths, ₱ M	50 00@ 52 00
Pine, selects, ₱ M	45 00@ 47 00
Pine, good box, ₱ M	26 00@ 28 00
Pine, common box, ₱ M	@ 24 00

FORTY-THIRD ST., S. S., 100 E. 3D AV., ONE three-story brick workshop, 50x55; owners, SMITH & SON; architect, WM. JOSE.

FORTY-FIFTH ST., REAR (No. 513), ONE FOUR-story brick tenement, 25x40; owner and builder, DAVID KONIG.

FORTY-SIXTH ST., N. S., 200 W. 9TH AV., ONE three-story brick first-class dwelling, 20x55; owner and builder, ROBERT AULD.

FIFTY-SECOND ST. (NOS. 30 AND 32 WEST), TWO four-story brown-stone front first-class dwellings, 17x60; owner, &c., JOHN C. DONNELLY.

FIFTY-THIRD ST., S. S., 150 E. 10TH AV., ONE four-story brick store and tenement, 25x51.5; owner, PATRICK CORCORAN.

FIFTY-FIFTH ST. (NOS. 25, 27, 29, AND 31, WEST), four four-story brown-stone front first-class dwellings, 17.6x56; owners, J. G. & ROBT. B. LYND.

HESTER ST. (No. 190), ONE ONE AND A HALF-story brick stable, 14x25; owner, THEOPHILE RICK; builders, M. STEINBAUER & HAHN.

NINETY-SECOND ST., N. S., 85 W. 2D AV., ONE six-story brick second-class store, 72.6x49.8; owner, GEO. EHRET; architect, A. PFUND; builders, WEBER BROS.

ONE HUNDRED AND TWELFTH ST., N. S., 175 e. 4th av., four three-story brown-stone front, first-class dwellings, 20x45; owner, J. S. DALE; architect, JAMES DOUGLAS; builders, KENEY & WALKER and JAS. DOUGLAS.

ONE HUNDRED AND SIXTEENTH ST., S. S., 175 W. 3d av., six three-story brown-stone front first-class dwellings, 15.10x45; owner and builder, HUGH MEEHAN.

ONE HUNDRED AND THIRTIETH ST., N. S., 200 w. 10th av., one two-story wood second-class dwelling, 20x25; owner, JOHN FEILOR; architect, JAMES PETTIT.

SECOND AV., W. S., 51 S. 79TH ST., TWO FOUR-story brick stores and tenements, 25.6x62; owner, Mr. MULLER; architect, WM. GRAUL.

TWENTY-SIXTH ST., S. S., 250 W. 1ST AV., FOUR five-story brick tenements, 25x60; owner and builder, J. W. BRITT; architect, W. MCNAMARA.

THIRTY-THIRD ST. (No. 433, WEST), ONE FOUR-story brick tenement, 25x59; owner, D. HORGAN; architect and builder, J. V. DONVAN & BRO.

THIRTY-SIXTH ST. (No. 550 WEST), ONE TWO-story brick second-class dwelling, 25x27.6; owner, C. D. PEASE; builder, LOUIS HAMILTON.

ALTERATIONS IN BUILDINGS.

One brick dwelling, west side of Wooster street, 12.3 feet south of Grand street, four stories, 22½ by 44, extension on rear 22½ by 45½, 36 feet high and to be remodelled for store purposes; Nicholas Grari, owner.

One brick dwelling, No. 318 East Thirty-sixth street, four stories, 18.10 by 52, new store front; Thomas Monaghan, owner.

One brick dwelling, No. 116 West Twenty-sixth street, four stories, 21 by 40, extension 21 by 40, 42 feet high; Mrs. S. Hunt, owner.

One brick store and dwelling, No. 317 Eighth avenue, three stories, 17.6 by 46, extension, 17.6 by 16.10 feet high; B. Aymar, owner.

One brick and frame dwelling, No. 384 Third avenue, three stories, 25 by 36, extension 25 by 12, 10 feet high; H. Rosenblatt, owner.

One frame dwelling, east side of Ninth avenue, 30 feet north of Sixty-second street, two stories, 30 by 36, one story to be added; Julia A. Coulter, owner.

UNSAFE WALLS.

Broadway, No. 480 (rear), Goodwin Bros., owners; West Forty-second st., Nos. 627 to 645, Charles Appleby, owner; West Forty-second street, No. 647, Mrs. Allen, owner; West Forty-second street, Nos. 649 to 651, Charles Appleby, owner; Church street, No. 108, Joseph Naylor, owner; East Forty-second street, including north side, 100 feet west of Second avenue, Jackson & Steinmetz, owners, and East Forty-second street, including adjoining, 75 feet west of Second avenue; John Mackenzie, owner.

MARKET REVIEW.

BRICKS.—Nothing particularly encouraging has been developed on the market for North River Hards up to the present writing, and indeed the position, if anything, is rather more strongly on the weak side of the question than ever. The receipts have most certainly been small, in fact at times unusually so, but still there appeared to be enough for all calls and a few to spare, and former extreme prices were seldom if ever really obtained. As noted for a week or two past, the city consumption has been gradually falling away and now amounts to almost nothing, shutting off all direct calls from builders and contractors, and at the same time correspondingly reducing the wants of dealers, while at the same time the latter refuse entirely as yet to commence laying away any stock of consequence for winter use, and say that nothing but a decline in prices will induce them to appear upon the market as buyers. Sellers, of course, talk as firmly as circumstances will admit, and in many cases intimate a determination to hold out in resistance to any modification of values until they force purchasers on their own terms. We find, however, a few dealers in cargoes who are frank enough to admit their disbelief in the possibility of this plan being carried out, on the ground that the new work laid out by builders for the winter is small, that the number of brick left on hand at the points of manufacture is quite large, and that it will soon become an absolute necessity for many manufacturers to realize, as a means of raising funds to meet their accumulated indebtedness of the past summer, and that the very moment that the least pressure is brought to bear upon the market, in its present shape, a break in values is inevitable. The recent scant offerings were due less to a desire on the part of manufacturers

to hold back stock, than to the fact that adverse winds and very low tides left many loaded vessels aground, and not only kept the stock on board out of market, but took away means of transportation for many parcels not loaded. We quote nominally at $9@10 per M, with a few very choice lots somewhat higher. New Jersey Hards scarce but dull, and quoted somewhat nominally at about $8.50@9 per M for the best lots. Pale Brick have met with a fair demand, and good lots commanded extreme rates, but still there does not appear to be much faith in the market, and buyers generally are merely meeting positive wants. We quote at $7 for the best, with some sales as low as $6 per M. Philadelphia Fronts steady, and Croton Fronts somewhat nominal, though quoted as before.

LATH.—Receivers appear to feel quite as confident as ever, and full prices are asked almost without exception on all cargoes either on spot or to arrive. The demand, too, though covered with an appearance of as much indifference as possible, is very good, and rather improving, and a little more anxiety is evidently felt among dealers to secure their stocks for the winter. Indeed some are already piled away and room is prepared for additional supplies. As noted in our last, however, the tone, though very firm, and sellers repudiating any idea of allowing easier terms, does not indicate that any material addition can be made to the cost, but merely that sellers are more than likely to retain the advantage, and possibly work figures up to a somewhat higher level before the season closes. An early cold snap, however, and an unexpected shutting off of navigation at some of the leading points of supply, might cause a sudden upward turn of the market, temporarily at least. As we close, the feeling is very firm, at $2.45 per M, and a few sales have even been made at $2.50 per M, while the demand is quick and the offerings moderate.

LIME.—The advantage continues to be pretty well concentrated into the hands of the selling interest, and though some dealers endeavor to work a little offish, the general demand is quick enough to give position to the market, and the tone is quite firm. Some of the yards at present are fairly supplied, but others, through neglect, or owing to a free distribution, are almost bare of stock, and there is an anxiety to remedy this state of affairs. The amounts available have been pretty large, but the prospective supply is very doubtful. It is claimed, however, that nothing very extensive is to be expected, as the production is slow as compared with the orders on hand, and that the kilns will be taxed to their utmost productive capacity in order to satisfy the outlet now visible. Northern stock also continues quite firm, and is meeting with a full average demand, while the offerings are comparatively small, and cannot be greatly increased at the moment, though a considerable amount of stock is ready to come forward. At the close, receivers call the market firm, and have very little stock to offer. We quote at $1.35 per bbl for common; and $1.75 do for lump.

LUMBER.—The market at the retail yards shows about the average amount of animation, and there is probably as much business doing as usual at this season of the year. Sellers do not as a rule complain of the volume of trade, but still with the stocks on hand they could accommodate a much larger outlet, and would very gladly receive an increased attendance of customers. Values in a general way are firm at the late improvement, and outside figures are asked, but buyers as usual are slow to appreciate the necessity for an advance, and by close figuring can occasionally obtain some slight concessions. Not that holders entertain any doubts as to strength of the present position on lumber, or believe that weakness is likely to occur before Spring, but trade lacks snap; there is considerable competition, and a moderate shading on good-sized invoices frequently hastens sales materially. Local buyers are about the only ones represented at the moment. The arrivals have been fair, and a large proportion are early purchases, though a few lots are received which were bought at Albany since the commencement of the upward turn, and the cost of these makes owners rather more "bullish" in their feelings than those dealers who secured their supplies during the spring and summer. The majority of the hard woods do not appear to have been greatly affected by the buoyant tone on pine, etc., though there is naturally some sympathy, and the desirable parcels of stock are all held with much firmness.

In a wholesale way the market is gaining strength on nearly all grades, but more especially on Pine. Some few buyers are still to be found in want of stock, and they find to their cost that all the interior points from which it is now possible for them to obtain supplies have worked their lumber markets up materially, and that those who are compelled to purchase this fall will have to pay well on all invoices, and may indeed consider it an accommodation if they get any supply at all, while a few who have hinted at contracts for next spring's delivery discover that manufacturers and their agents are more independent than ever, and in many cases refuse altogether to name prices for the present. Exporters continue to operate in the way of small odd lots, but the stiffening values and prospective further increase of cost hastens the execution of orders in some instances.

Eastern Spruce has shown no great amount of buoyancy, neither has the demand proved very quick, but still there appears to be an outlet for nearly or quite all the stock offering, and a very fairly steady tone is preserved on values. This class of stock shows nothing of any greater stimulating character than earlier in the season, but there is a certain sympathy with general strong tone throughout the entire country, which cannot fail to give the producing interest some advantage. The smaller manufacturers seem to have nearly sold out, and the others now begin to talk independently, but still supplies are offered from various points with a fair amount of freedom, and are not likely to be very scarce until the weather becomes cold enough to affect navigation. As we close our report the market is quiet, but scantily supplied, and prices generally steady. We quote at $15.50@17 per M for inferior to fair schedules; and $17.50@20 for good to prime do. White Pine retains all the previously noted firmness, and if anything gains somewhat. Holders are well stocked both as to quantity and assortment, but could not purchase similar amounts now except at an advance, and of course feel strengthened in their views accordingly. There is not much demand, however, at the moment on home account, and only a few orders for shipment, and business has a slightly dull tone. We quote at $22@28 per M for good to prime box and shipping boards: $30 for choice do; and the extra qualities of pickings and selected at $35@45 per M. Yellow Pine in very good steady request, and the market reported as encouraging by agents and dealers. The cotton movement interferes with receipts somewhat, but there is a prospect for a better supply of vessels as the trade along the Eastern coast gradually falls off, and captains seek the Southern voyage. We quote at $28@33 per M for common to choice random cargoes; and $34@40 for special cuttings.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.

Value	$9,394	$472,435	$537,281

We note additional exports as follows:—

To Hamburg, 50 logs walnut, valued at $1,200; to London, 40 logs maple, valued at $870; to Bremen, 15,300 staves; to Antwerp, 6,600 do; to Rotterdam, 6,000 do; to Liverpool, 6,900 do; to London, 8,000 do; to Havre, 7,800 do; to Oporto, 12,000 do; to French West Indies, 16,000 do, and 500 shooks; to British West Indies, 6,942 shooks; to British Guiana, 500 do; to Cuba, 1,150 do and 45,500 hoops; to Porto Rico, 1,271 shooks and 20,000 hoops. The receipts reported as follows:—From Brunswick, Ga., 170,000 feet lumber; from Washington, N. C., 1,500 R.R. ties; from New New Orleans, 439 logs and 40,000 feet black walnut; from St. John, N. B., 134,750 feet deals and 630,500 lath; from Shulee, N. S., 700 pcs piling.

Charters as follows:—A Br Brig, 307 tons (now at Boston), from King's Ferry, Flor. to Montevideo, lumber, $22, privilege Rosario, $25 and primage; a Br Brig, 158 tons, to St. Johns, N. F., 65c for dry and 70c for wet bbls; two Schrs from Jacksonville to New York, boards, $12.50; one from Jacksonville to Providence, boards, $13.

We obtain the following items from the Saginaw *Courier*:—

SAGINAW LUMBER.

Shipments for the past Month and Season—The Market.

We give below, in tabular form, a statement of the shipments from the ports of East Saginaw and Bay City, for October, 1871, and the corresponding month last year, and a comparative statement of the shipments from the Saginaw River, from the opening of navigation to November 1st, for the years named:—

EAST SAGINAW.

	Oct. 1870.	Oct. 1871.
Lumber, ft	36,340,335	24,964,800
Lath, pcs	4,320,450	2,053,000
Shingles	13,840,500	8,165,000
Salt, bbls	16,500	14,100
Staves and heading	.....	125,000
Staves	130,000	.....
Hoops	360,000	.....
Pickets	65,000	.....

BAY CITY.

	Oct., 1870.	Oct., 1871.
Lumber	35,052,143	30,225,035
Lath	2,792,554	2,881,000
Shingles	7,646,250	4,998,000
Timber	56,000	46,000
Salt	11,583	34,657
Hoops	1,442,800	2,143,000
Staves	67,000	485,000
Shooks	1,800	.....
Pickets	.....	20,000

SAGINAW RIVER FOR THE SEASON.

	1869.	1870.	1871.
Lumber, ft	444,394,175	427,207,808	448,966,046
Lath, pcs	42,579,859	38,124,784	39,053,820
Shingles	77,679,500	110,204,520	119,496,500
Salt	492,713	412,859	420,130

The cause of the decrease in shipments has already been noticed. Not a barge in the Saginaw trade but has lost from one to three trips during the fall. The demand for vessels has advanced freights higher than they have been for several seasons. It is estimated that there are from sixty to eighty million feet of lumber in the river at the present time awaiting shipment, which will be moved should navigation continue open and favorable for thirty days. Then, with lumber cut before winter, there will be a stock of about sixty millions to lay over, all but a very little of which is sold. There was on dock at the close of last season 130,420,190 feet of lumber, but 47,862,000 feet of which were sold. The market has continued active up to within a few days, and now is quiet. There is but little lumber to sell, except on contract for next season's cutting. Those who have good stocks and can afford it, are holding steady at $7.50, $15, and $40, but many manufacturers, who propose lumbering heavily, are cutting these figures for the advances, in order to enable them to carry on their winter's operations. There will be a large stock put in, no doubt, but the condition of the leading markets throughout the United States will prevent an overstock of the Saginaw market, even if the facilities for getting out logs would admit. On the shore there will doubtless be a much larger stock than usual got out, but on the Cass, Bad, and Tittabawassee, we do not think the amount got out can exceed that of 1870, about 415,000,000.

THE LUMBER MARKET.—Quiet prevails in the lumber market. The season is nearly closed. There will be some activity in shipping, but not much in buying, for the excellent reason that there is little if any lumber to sell. We hear of an offer of $7.75, $15.50, and $38 made to a Bay City party for a lot of lumber, but the offer was refused, the holder asking $8, $16, and $40. We learn indirectly that the balance of the stock at the Oneida Mill, Mr. Phelon, agent, has been sold at $7.50, $15, and $36.

LUMBERING AT TRAVERSE CITY.—Messrs. Hanna, Lay & Co., of Traverse City, have closed their saw mill for the season. The amount of lumber cut this year is 13,583,200. Operations have been commenced in the woods for getting out next season's supply of logs. Three camps will be run, and it is expected that they will cut 12,000,000 feet of logs.

BAY CITY.—A few days ago we stated that only about one-half of the lumber shipped from this port during the month of October passed through the Inspector General's office. We were under the impression that it should all pass through. We have been creditably informed to-day that every merchant on the river, who sold lumber here, has complied in every respect with the law, hence we are pleased to make the correction. The amount shipped over the 15,000,000, which passed through the Inspector's office, was shipped by some of our principal lumber merchants, who ship to stock their own yards; these lumber men are not required to pass their lumber through the office; the amount of lumber cut and sold previous to the time the inspection bill becoming a law, was exempt.

LUMBERING AT GRAND RAPIDS.—The *Times* says that this season about 125,000,000 feet of logs were brought down Grand River and its tributaries. Of these 50,000,000 were cut by the mills in this city, and 75,000,000 were run over the rapids and passed to Grand Haven. About 36,000,000 were cut on the Rogue River, 64,000,000 on Flat River, and 25,000,000 on Fish Creek. Last year about 25,000,000 were cut on Rogue River, 46,000,000 on Flat River, and 12,000,000 on Fish Creek. The cost of driving these to the city is about 72 cents per thousand on Rogue River, 65 cents on Flat River, and 85 cents on Fish Creek.

LUMBER AT FLINT.—A Flint correspondent says:—"Five million feet of logs have been floated over McCreery's dam, ten miles above here, by great exertions, in spite of the low water, and six of the ten mills in this city commenced work on Monday, and the balance will follow in a few days. It is estimated that 75,000,000 feet of pine were burned in the late fires, a large share of which should be cut this season, and in consequence the demand for laboring men to go into the lumber woods far exceeds the supply.

The following is from the Muskegon *News*:—

Now that the smoke has cleared away, the fearful destruction during the recent carnival of fire becomes more apparent. Not only cities and towns were swept away by the flames, but millions of feet of timber in our forests gave way to the raging element. The pine in many localities on the east shore of Lake Michigan has been almost destroyed by the fire fiend, while that on Muskegon River and its tributaries has been left undisturbed. In a conversation with S. A. Browne, Esq., of Pentwater, S. C. Hall, and others, of this city, we learned that E. B. Ward, of Detroit, had about 50,000,000 out of the 600,000,000 feet of pine that he owns on the Pere Marquette River burned. Grey & Williams lost 20,000,000 feet on the south branch of the same river; and Charles Mears had 50,000,000 feet burned in the township of Golden, Oceana county. Besides there was 25,000,000 of feet destroyed on Manistee River, and 15,000,000 of feet on White River; making a total of 160,000,000 of feet of lumber burned by the recent fires on the east shore. The damage will be repaired to some extent, provided the losers can obtain the means to put into the rivers a two years' stock of logs during the coming winter.

The great fires that raged in various parts of the Northern and Western States last month cannot fail to do incalculable damage to the forests. This is indeed the time for an earnest appeal to the people, or the Government, to take some action toward preventing the reckless and improvident waste of our great national timber resources. In less than half a century—if we continue in our present course—wood for fuel or building purposes will be scarcer here than it is in England now.

The lumber receipts at Chicago are good, and with a fair attendance of buyers, the trading has been active and prices

are firm. Joist and scantling are quoted at $17; common to fair boards and strips at $18@20, and good to choice at $20@20.50, Shingles are quoted at $3.50 afloat, and $3.75 on track. Lath are steady at $2.62½.

MUSKEGON MILLS SHUT DOWN.—The *News* also says that seventeen of the steam saw mills at that point have suspended operations, while the remaining nine will run during this and next week. The cutting season is closing much earlier this year than heretofore. Most of the men who were employed about the mills have either gone or are getting ready to go to the pineries.

The Green Bay *Advocate* contains the following:—

LUMBER PROSPECTS.—The Northern Extension of the C. & N. W. Railway is now completed to Oconto. By the 1st of December it will be in operation to Menomonee—running for upwards of twenty miles through the very heart of the Green Bay pineries, and past mills of large capacity. It is probably not practicable for these mills to do much in the ordinary business of sawing in the winter, while the streams are frozen and logs cannot be taken from the water; but there is a class of lumber, such as long stuff and other varieties, which may be got out from timber hauled to the mills. We learn that the Chicago market is particularly short of long stuff, such as joists, bridge timber, &c., and already we hear that one of the heavy lumber establishments of Menominee is preparing to put up a mill this winter for sawing timber to be sent to Chicago by rail. Much of the timber blown down and partially burned during the late fires will square up for "dimension stuff," and now is the time to use it. There seem to be "no great losses without some gains," and it is hoped that the extension of the North-Western will prove of solid service to lumbermen during the coming winter.

So, too, of the Green Bay and Lake Pepin Railway, which will be in operation to the Wolf River by the first of January. It runs through a hardwood region, interspersed with pine, which yields staves, long timber, some lumber, wagon stuff, &c. It is a country, also, well stocked with teams, and has a farming community which will do a vast deal of work in hauling to the track these products of the forest, and in sending to market just such lumber as shall be most in demand, and bring the most remunerative prices.

The Saginaw *Enterprise*, of a recent date, has the following:—

In some localities the destruction of pine has been much more serious than in others. For instance, in Tuscola the fires attacked the best timber, while in Isabella and Gratiot the fires were mainly confined to undergrowth. Several competent men have made the estimate that in all the districts whence the Saginaw River receives supplies, ten per cent., at the outtide, will cover the damage done. Most of our exchanges draw a gloomier picture.

The Osceola *Outline* says:—

There are very many loggers who will be compelled to cut their pine in order to save it. Wherever the fires have deadened the trees they will not stand more than one season's neglect before the insects render them worthless for lumbering purposes. Lumbermen will, of course, try to cut this class of pine first, and there is probably much more of it than will suffice to supply the market, if it can be all easily reached.

The Midland *Independent* asserts that the demand for lumber will and must be greater next season than last—because, first, the experience of the last few years shows conclusively that the demand for lumber and shingles is constantly increasing. The exhaustion of timber in the older portions of the country, and in the localities from which they have hitherto drawn their supplies, attended by the constant opening of new markets for Michigan lumber, is sufficient proof, without referring to the large destruction of lumber and buildings by the disastrous fires of last month.

The *Independent* considers the damage done by the fires as follows:—

We know from past experience that very few trees, where the fire has been, will live, and may assume, for all practical purposes, that all the pine in the burned district is "killed." Pine not lumbered this winter, or next, will be lost, and probably much that remains after this winter will be seriously damaged by borers.

We think it may safely be stated that one-half of the pine in the burned districts will prove a total loss. As we said before, we do not know how much that will be; we only know that it is a very large quantity. We hope that the Saginaw Valley Lumber Association will take immediate steps to secure reports from owners that will enable us to approximate the aggregate loss.

The Troy Weekly *Times* recently reports as follows:—

LUMBER.—During the past week the usual activity incident to the near approach of the close of the season has prevailed in the lumber market. Receipts have been light, but shipments were heavy. A goodly number of buyers were in attendance, and, as a general thing, their purchases were liberal. The coarse grades of lumber are becoming quite scarce, and some articles of spruce are entirely out of market. The tone of the market is very strong, with an upward tendency. From present indications, when all the lumber that is now sold is shipped away, the stock on hand remaining over winter will be very light. Freights are very active, but remain unchanged.

The Huron County, Michigan, *News* says that the loss in that county by the burning of pine and other valuable timber is very great. It is too soon to make anything like an accurate calculation of the total loss from this source, but from converse, during the week, with the supervisors and others from different parts of the country, we know we are safe in saying that it will exceed one million dollars. Francis Crawford, of Caseville, estimates his loss by the destruction of timber at $100,000. That of the Port Crescent Company cannot be much less. Of this Rock Fall pine, comprising many million of feet, hardly a green tree remains. Already immense tracts of this burnt timber have been laid flat by the high winds that have since blown upon them. But not until spring will the full effect of the damage be seen.

The Boston *Commercial Bulletin* reports as follows:—

The market for lumber has ruled steady all through the week, and full prices have been sustained. The demand has been better than at the corresponding time last year, and the volume of trade will foot up a larger aggregate than for many years. The retail yards seem to be all busy, and carpenters and builders are active in finishing up contracts.

The following are the surveys for the week:—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	906,032	Spruce	2,889,901
Hemlock	673,214	White Wood	47,705
Black Walnut	286,103	Hard wood	95,415
Pine Tim. & Joist	43,502		
Total			5,041,872

From St. Louis we have the following:—

W. B. Fibert's *Circular* says:—The lumber market continues active without any variation in prices, and receipts by river have increased, with a slight falling off by rail. We notice the arrival, since our last "Weekly Report," of three rafts lumber from Stillwater, comprising 3,000,000 feet and 800,000 lath and shingles; two rafts from Chippewa, 1,600,000 feet lumber, and one raft from Black river of 800,000 feet lumber. There is one more raft to arrive, which will probably close receipts for the season from above. Below are given sales and quotations for the week.

SALES AT DEPOTS.

2 cars	yellow pine,	dimension, at	$18
5	"	" green flooring	18
5	"	" "	20
1	"	" "	26
6	"	" dry "	28
1	"	" third rate do.	14

Griffin & O'Conner's *Market Reporter* says:—

The season for raft lumber is about over, and the small amount now coming forward is mainly on manufacturers' account. We quote the nominal range at $16@26.50 for Wisconsin, and Chippewa at $18@20. Shingles and lath in demand and firm.

Advices from the Saginaw district state that lumbering operations have already commenced in earnest, and that large numbers of men are now at work in the woods; that the amount of logs got out the coming winter will only be limited by the capacity of the booms; and that the damage done the pineries by the recent fires will not exceed 10 per cent.

At the depots and on the levee transactions were light. The offerings were mainly yellow pine flooring, which has ruled dull at quotations. Poplar and walnut scarce. Oak slow. Ash and cedar quiet and unchanged.

The Milwaukee *Sentinel* reports:—

The market is dull and nominally unchanged. Nearly all the city yards have a full assortment in store, and refuse to purchase cargoes at the enhanced prices of the past few weeks. Shingles are steady and firm at $3.37½@3.50 for Star or "A." No. 1, $1.00@1.50. Lath scarce and salable at $2.50@2.62½ per M pcs. We quote:

Scantling and joist	$15 50	@16 00
Strips and boards, common to fair	17 00	@19 00
Good to choice strips and boards	19 00	@20 00

The following are three days' market reports taken from Chicago journals:—

CARGOES.—The supply at the sale-docks was large, and prices for the first time since the fire exhibited signs of weakness. With the exception, however, of a depreciation of about 50c per 1,000 feet on upper qualities, prices were without special change. Long joists and scantling were firm at $20@23; short do at $18@19; good to choice boards and strips $21@23, and $15@17; for common boards to fair mill-run.

There were quite a number of cargoes left over from Monday's sales, and, with quite liberal receipts on yesterday, the supply somewhat exceeded the demand, and prices were 50c@$1 per 1,000 feet lower. Good to choice boards and strips sold at $18@20; long joist and scanting at $20; short do at $16.50@18, and $15@17 for coarse common to fair mixed. As in most other departments of trade, business was lighter than usual, owing to the election.

The supply at the sale-docks exceeded the demand somewhat, and prices were weak, at the decline mentioned on Tuesday. These who are actually putting up temporary structures in the burnt district, as well as those who contemplate building this winter, are pretty well supplied, hence the demand for scantling, joist, and common boards is less urgent, and a considerable portion of the receipts are being piled in the yards.

The La Crosse *Republican* says:—

The reports of the rise in the price of lumber in our neigboring cities induced us to pay a visit to the offices of the leading mill men in La Crosse, and ascertain what action they propose to take—if to raise, how much,—and learn the cause assigned for the advance. It has been generally given out by the press that the recent fires have affected the lumber market by the destruction of timber in the northern pineries; but inquiry proves this statement to be good only as to Chicago, the lumber market of which city alone is believed to have been affected by the fire. Oshkosh, Fond du Lac, Minneapolis, and other towns have been obliged to advance the price on boards and sawed stuff, or close up their mills, but none of these cities attribute the stiffening up in prices to fires. The same reason given by our dealers rules and governs the action of the mill men who saw for the northern pineries, which is nothing more nor less than the scarcity of logs. One of the best informed and most careful judges of Western lumber dealers told us that last season not more than three-fourths "crop" of logs was secured, and that for the past four months logs and lumber had been too near the same figures for the manufacturers to save themselves, and that they have been anticipating the change as an enevitable result of last winter's business in the woods.

To the inquiry as to the probability of a fall, we are assured that lumber will be higher before it is lower, and builders should not wait for a decline in the market unless they are prepared to delay purchases until the crop of logs of 1871-72 is "run out" of the pineries. Our dealers have advanced $2 per thousand "all round" on common grades and from $2 to $4 per thousand on the upper grades. They report the demand at their yards in no wise diminished and apprehend the necessity of a further advance if the log market continues to "stiffen up."

The Williamsport (Pa.) *Gazette and Bulletin* reports as follows:—

All kinds of lumber is moving off rapidly, and it is probable that the stock will be lower on the first of January than at any previous time since the lumber business became fully developed at this point. The prices are maintained with great firmness, with a constant tendency to increase rather than diminish.

METALS.—Ingot copper has ruled fairly active throughout the week under review, and large amounts have been sold for both present and future delivery. Yellow Metal and the manufactures of copper are quiet but steady. We quote Ingot at 23⅜@23¾ cash. New Sheathing 32c. Yellow Metal 24c. and old sheathing 20@21c. Scotch and American Pig iron continue extremely quiet, the only business done being jobbing parcels to fill pressing wants of consumers, but with light stocks values of both are firmly held. We quote: Glengarnock in yard at $34@40 and from ship at $36@39 per ton for No. 1; $35@36 do. for No. 2, and $33@34 do. for forged. The demand of Refined Bar is limited, but prices continue steady. We quote from store as follows: Bar Swedes, $107.50 @120; refined, ordinary size, $85; refined, 1¼ to 6 by ¼ and 5-16, $90; refined, 1 and 1¼ by ¼ and 5-16, $92.50; refined, 2½ to 3 round and square, $92.50; scroll, $102.50@132.50; ovals and half round, $102.50@122.50; band, $97.50; horse-shoe, $100@105; rods, 5-8 to 3-16 inch, $90@125; hoop, $107.50@150; nail rod, per lb., 6¾c. Common Sheet is unchanged. We quote at 4¾@5¾c for single D and T, and 5¼@6¼c for D and T Charcoal. Galvanized Sheet is in limited request, but steady. We quote at 12@13c for 14@20; 12¼@13½c for 22@24; 13¼@14c for 25@26; and 15@18c for 27@29, all less 27½@30 per cent. to the trade. Russia Sheet continues quiet at unchanged prices. We quote at 17½@18c gold, according to number. Pig Lead is in only limited request, and prices show a slight decline as compared with a week ago, closing steady. We quote at $5.90@6.00 for common to good foreign. The demand for manufactured lead is moderate, and prices are quotably unchanged. We quote at 9½c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin has ruled rather quiet, but the tone of the market shows considerable strength, and holders appear indifferent about making sales unless at an advance on present figures. We quote in coin at 35½@35¾c for English; 36¼@37c for Straits, and 41¼c for Banca. Plates have been moderately active, and large lots have changed hands, part for future delivery at full prices, closing firm. We quote I. C. charcoal, $8.75 @9; I. C. coke, $7.50@8.50; Coke Terne, $6.37½@7.50, and Charcoal Terne, $7.75@8.25. There has been considerable activity in Sheet Zinc, and with a light stock prices are held very firmly. We quote Mosselmann at 9@9½ ccurreney, with sales made to arrive at 8¾@9c gold.

NAILS.—The market, though not exactly active, has shown a fair amount of animation, and all grades have moved to some extent. The demand includes a good many western orders and an increasing call from near-by interior buyers who are commencing to lay in their winter supplies in view of a probability of an early increase of the freight tariffs. Exporters too are very well represented, though they gauge their orders according to their ability to secure transportation accommodations. Some of the most desirable styles of both cut and clinch are a little scarce though the general assortment holds out very fairly, and the production is kept up well. Prices are very firm at full former figures on all grades, but current rates as a rule appear to be acceptable to sellers. We quote per 100 lbs.: cut, 10@60d, $4.65; cut, 8@9d, $4.90; cut, 6@7d, $5.15; cut, 4@5d, $5.40; cut, 3d, $6.15; cut, 2@3d, fine, $6.90; cut spikes, all sizes, $4.90; cut finishing, casing, box, etc., $5.15@$6.65; clinch, $6.15@6.65; horse-shoe, forged, No. 10 to 5, per lb. 19@33c. Other styles are selling as follows: Copper, 37@39c per lb; yellow metal, 24c do. The exports for the week are 883 pckgs, valued at $5,867; and since January 1st, 14,998, valued a $94,835.

PAINTS AND OILS.—The general feeling among importers and the large wholesale dealers continues quite, firm and confident for most of the leading styles of goods and the market presents a pretty healthy appearance. There is nothing in the way of great buoyancy on anything calculated to lead to excitement but just a good encouraging tone, with a probability that, if any change in prices does occur, it will in buyers' favor. Supplies are in some cases rather small and not much coming to hand either in the way of domestic or foreign goods, but still there is no actual scarcity that we can discover as likely to lead to immediate inconvenience, and most orders have thus far been filled. The principal jobbing-houses are distributing on interior mail orders, and selling direct to regular customers to a fair overage extent, and it is to make good the falling off of stocks in store on this outlet that invoices are being called for. Values are well sustained and as a rule sympathize fully with the wholesale market. Linseed Oil continues slow of sale, and the market almost entirely bare of features of interest. Values have not changed, and neither buyers nor sellers seem much inclined at present to seek any advantage, current operations being too small. Crushers quote at 75@76c in casks.

Exports as follows:—

	This week.		Since Jan. 1, 1871.	
Paint.....pckgs.	58 value	$574	7,749 value	$128,806
Linseed oil, galls.	— "	—	10,635 "	9,103
Oxide zinc, pckgs.	— "	—	3,620 "	38,110

PITCH.—There is no change to note in this market. The stock is light, which imparts strength to prices, which, although quotably unchanged, are held with considerable firmness. No sales of importance have been effected during the week under review. We quote at $4.75 for city delivered. Receipts for the week,—bbls; since January 1st, 8,888 bbls; for same time last year, 2,292 bbls. Exports for the week, 100 bbls; since January 1st, 2,397 bbls; same time last year, 3,525 bbls.

SPIRITS TURPENTINE.—The market has ruled irregular, having at one time declined to 67c for merchantable and shipping order; but later a reaction set in, and the price steadily improved, with sales made at 68¼c, with considerable firmness manifested by holders. We quote merchantable and shipping order, 68@68¼c; and from store, 70@71c. Receipts for the week, 1,800 bbls; since January 1st, 59,853 bbls, and for the same period last year, 61,481 bbls. Exports for the week, 44 bbls; since January 1st, 14,105 bbls, and for the same period last year, 15,336.

TAR.—With a very limited demand, prices are not quite so strong as last week. We quote Washington at $3.50@3.75; Wilmington $3.62½@3.75, as it runs. Receipts for the week, 39 bbls; since January 1st, 17,830 bbls; for the corresponding period last year, 46,393 bbls. Exports for week, 156 bbls; since January 1st, 8,863 bbls, and corresponding period last year, 14,519 bbls.

ALBANY LUMBER MARKET.

The *Argus*' report for the week ending November 14, 1871, is as follows:—

One month more, at the farthest, will close the shipping season. During that time shipments both by barge and Canal boat will be very active. The stocks left to winter over will be much lighter than last year, with an unusual scarcity of the low grades of Pine, as well as Spruce and Hemlock. At Burlington and Whitehall stocks are light; not to exceed one-half of what they were at this time last year. The low waters at Ottawa having materially curtailed shipments to those points, accounts for the unusual occurence of shipments hence and from Whitehall to Burlington. Prices at Burlington are much higher than in this market and holders evince much confidence in still higher figures. Increased activity is reported in Boston for both Pine and Hardwoods, and sales to some extent have been made here, since our last report, for that market. In Pennsylvania the advance in the price of Lumber has been greater than at any other points, owing to the falling off in production attributable to continued low water. Pine sidings, which sold this summer at $22 ₱ M. ft., have lately been sold at $30 ₱ M. ft. The tone of this market remains firm, and full prices are realized for all kinds of Lumber; and if anything be needed to confirm holders in their expectations of a further advance in prices, it is the fact that New York and other markets now admit the necessity of putting up their prices in view of the certainty of an advance being maintained, and yet an article in the "REAL ESTATE RECORD" of the past week, while admitting this fact, remarks that "the improvement at Albany is something of a nominal one and more in the asking than the getting, while some of the sellers at that point are actually quietly selling customers at old figures." This statement is very incorrect and is not borne out by facts.

The receipts of lumber at Buffalo during the week by lake and rail were 2,995,800 feet. At Oswego, by lake, 6,380,100 feet.

The receipts at Albany by the Erie and Champlain canals for the second week in November were:—

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	8,314,600	....	....	370,000
1870	10,168,700	189	....	305,600

Of the boards and scantling received, 6,155,200 feet were by the Erie, and 2,159,400 feet by the Champlain canal.

The receipts at Albany by the Erie and Champlain canals, from the opening of navigation to November 15, were:—

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	394,538,600	27,347	9,575	10,358,500
1870	403,454,000	19,603	1,250	16,952,900

Lake freights are $6 to Buffalo, and $9@9.50 to Oswego. Canal freights from Buffalo to Albany are $6.75@7 on hard wood, and $5.75@6 on soft; from Oswego to Albany, $3.75.

River and Eastern freights are quoted as follows:

To New York, per M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	3 00
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, per ton, to Boston	2 50

The current quotations at the yards are:—

JAMES TAYLOR.

No one should Build or Live in a House
WITHOUT EXAMINING OUR
ELECTRICAL APPLIANCES,
without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'
Burglar Alarm Telegraph.
This one Bell, located in the Sleeping Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.
PARTICULAR ATTENTION
is requested to our new
HOUSE ANNUNCIATOR,
An improvement upon the French system.
IT CONSISTS OF A SINGLE
CALL BELL AND ANNUNCIATOR,
in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house **RINGS THIS BELL AND ANNOUNCES THE ROOM** from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by
ONE BATTERY, OR BY THE SAME BATTERY
that operates the
Burglar Alarm Telegraph.
It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have
An Attachment for Ringing Door Bells and Servants' Bells from the
TABLE OR DINING ROOM,
by placing a spring in the floor, and covered by the carpet. Also, for
Calling the Coachman from the Stable.
Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,
OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.
The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.
All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

BUILDERS' WOOD-WORK.

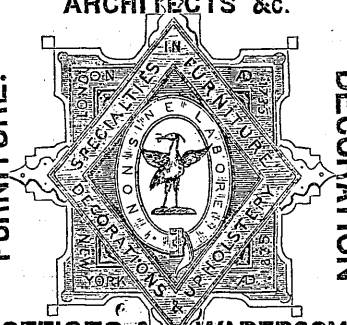
REAL ESTATE RECORD
AND BUILDERS' GUIDE.



VOL. VIII. NEW YORK, SATURDAY, NOVEMBER 25, 1871. No. 193.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

PUBLIC IMPROVEMENTS.

[Communicated.]

FOR several months past our great public improvements have progressed but slowly, owing to the want of confidence in the persons having them in charge, which was caused by the recent exposures of fraud in almost every department of our city government; but the question is: What is to be the future of such improvements under a reorganized system? Are they to be left as they are in an unfinished state, under a mistaken system of economy, or pushed forward with energy and vigor, so that the city may derive the benefit by taxation from the increased value of the land? If delay is to ensue, it can only be compared to the stupidity of a builder who, having nearly completed a structure, suspends operations, while with a little more effort on his part the building might be able to produce an income. Hence the whole result of his labor is lost, owing to the want of completing the enterprise.

New York City is to-day in a similar situation; the question can well be asked: "What are we going to do about it?" One thing is certain, that without progress is made, the taxable property of the up-town section must decline, for the increased taxable valuation has been about 300 per cent. within the past five years. What has given this increased valuation, whereby the city has derived a large income, except the public improvements in progress and in contemplation? Once allow them to stop and values must recede. Nothing is so destructive to real estate values as doubt and uncertainty. Is it good policy and sound economy to stop where we are? We opine not. Many persons who have but little knowledge of real estate matters have an idea that our great public up-town improvements were instituted by the "Ring." This is not the case, for with the single exception of the East-side Boulevard (which only exists on paper) all of the up-town improvements were either the work of, or were intrusted to the care of the old Central Park Commission,—such, for instance, as the St. Nicholas Avenue, Manhattan Street, and the Morning and Riverside Parks. All these four admirable and far-sighted improvements were layed out and surveyed under the direction of the late Comptroller of the Central Park, Mr. Andrew H. Green. Hence, if there is any opposition, it comes more particularly from those unacquainted with real estate matters, who, in their desire to injure the "Ring," talk of deferring our public improvements until a more "convenient season." Such a policy would be suicidal both to the financial and progressive interests of New York. Now is the accepted time to carry out and finish the grand works in progress, as the people have thrown off the yoke of "Ring" oppression.

Under the care of Colonel Stebbins as President of the Department of Public Parks, we think there will be no reason to complain, as he is fully acquainted with all the works in progress, and well knows their necessity in the future.

The Morning and Riverside Parks will probably be the first important works to be taken in hand, and we do hope that the newly reconstructed Board will not act in the same dilatory manner, in respect to these works, as that which characterized the late defunct one.

C. J. C.

CITY STEAM TRANSIT.

THERE is at last a reasonable prospect that the valuable charter owned by the Viaduct Railroad Company will be turned to some use. A new board of directors has been chosen, in which does not appear any of the politicians now in such disrepute, and there is every reason to believe that before five years are over, upper New York and Westchester County will have a rapid means of communication with "down town."

There is no denying the damper put upon real estate investments up-town and beyond by the failure of the viaduct project last summer. Shrewd and prudent operators were "caught" by the brilliant prospect which was opened up by the possible completion of a city steam road within a few years, and discounted the future too hastily.

But it will all come right. Those who can hold up-town and Westchester County property at present prices will do well with it, as the public imperatively demand city steam transit. The road once under way, and we will see a larger and solid advance in the price of all real property from One Hundred and Tenth street to Yonkers upon one side, and to New Rochelle upon the other.

IT is to be hoped after Register Sigel is once installed into his office that he will call the attention of the proper authorities to the lack of accommodations in the Hall of Records for the work he has to do. The condition of the building is a disgrace to the property-holders of New York. We ought to have one of the most substantial buildings of the kind in the world, not only fire-proof, but burglar-proof and mob-proof. It is appalling to contemplate the possibility of the loss of all the records of titles to real property in New York City. One of the most painful embarrassments under which Chicago now suffers is the destruction of the title-deeds. Such an occurrence should be rendered impossible in this city.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

EIGHTY-THIRD ST., S. S., 80 E. 3D AV., ONE FIVE-story brick tenement, 21.8x65; owners, SMITH & SON; architect, WM. JOSE.

FORTY-SECOND ST., N. S., 175 W. 2D AV., ONE four-story brick carpenter's shop, 75x60; Owners, JACKSON & STEINMETZ; architect, F. S. BARUS.

WEST 54TH ST. (NO. 560), ONE FIVE-STORY BRICK tenement, 28x53; owner, E. HOFER.

FIFTY-FIFTH ST., S. S., 260 W. 1ST AV., ONE FIVE-story brown-stone tenement, 27x52; owner, THOS. MCGINNISS; architect, W. O'GORMAN; builders, EDWIN THORP & BROS.

FIRST AV. AND 63D ST., S. W. COR., TWELVE FIVE-story brick and iron tenements, 25x65; owner and builder, JOHN GLASS; architect, W. MCNAMARA.

FOURTH AV. AND 78TH ST., S. W. COR., ONE four-story brick stable, 51.2x100; owner, JOHN WEBB; builder, S. LOWDEN.

HUDSON ST., E. S., 75 W. THOMAS ST., ONE FOUR-story brick stable and dwelling, 24x71.9; owners, G. GARNER & CO.; architect, J. D. FOUGET; builder, CORNELIUS O'RILEY.

LEXINGTON AV. AND 71ST ST., S. E. COR., SIX four-story and basement brown-stone dwellings, 16.8x50; owners, MORAN & ARMSTRONG; architects, RENWICK & SANDS.

LEXINGTON AV. AND 70TH ST., S. E. COR., TWO four-story brown-stone dwellings, 21.6x50; owner, CHARLES HUBER.

SEVENTIETH ST., S. S., 63.6 E. LEXINGTON AV., two two-story brown-stone stables, 17x25; owner, CHARLES HUBNER.

PRINCE ST., S. S., 47.6 E. MOTT ST., ONE FIVE-story brick tenement, 24x63; owner, L. BOHM; architect, W. GRAUL.

SIXTY-FIRST ST. AND MADISON AV., N. W. COR., four four-story brown-stone first-class dwellings (1) 21x30, (3) 21.8x25.5; owners, D. & J. JARDINE and OTHERS; builder, L. N. CROW.

EAST SEVENTY-FIRST ST. (NOS. 150 AND 152), two four-story and basement brown-stone dwellings, 12.6x55; owners, MORAN & ARMSTRONG; architects, RENWICK & SANDS.

EAST TWENTY-SEVENTH ST. (NO. 226), ONE TWO-story brick stable, 25x18; owner, C. CALLAHAN.

EAST TWENTY-NINTH ST. (NO. 200), ONE TWO-story brick stable, 22x25, owner, D. SCHREIFER; builder, G. D. HILYARD.

WASHINGTON ST. (NOS. 76, 78, 80, AND 82), ONE seven-story brick factory, 100x89.9; owner, B. T. BABBITT.

WEST BROADWAY AND THOMAS ST., N. W. COR., one five-story brick store, 25x50; owner, J. B. LAWTON; architect, CHAS. MELTAM; builders, A. J. FELTER & SON.

ALTERATIONS TO BUILDINGS.

One brick tenement house, No. 259 William street, 29½ by 40, four stories, front wall to be taken down and rebuilt; Mrs. Helen Langdon, owner.

One brick tenement-house, Nos. 687 and 689 Third avenue, 40 by 40, four stories, front and rear walls to be taken down, front to be built on iron girders, supported by iron columns on first story, rear wall to be rebuilt 8 feet in rear of present wall, making building 48 feet deep; John Sexton, owner.

UNSAFE BUILDINGS.

Watts street, No. 43, J. J. West, owner; stairs on rear of extension decayed.

Bowery, No. 214, Bliss & James, agents; unsafe and broken second story floor beams.

Fifth avenue, building north side, 57 feet northwest corner of Fiftieth street, A. Rathbone, owner; unsafe and settled north wall.

Broome street, building south-west corner of Essex street, Mrs. M. A. Peck, owner; unsafe and rotten beams and weather boarding.

Broadway, No. 478, Henry Blunt, agent; unsafe floors.

First avenue, block front from Fortieth to Forty-first street, C. O. Billings, owner; lintels of insufficient strength.

Canal street, No. 303, Thomas W. Marshall, owner; unsafe north and east walls (excavating).

Eighty-sixth street, building north side, 125 feet west of First avenue, James Stewart, owner; in a generally unsafe condition.

Broome street, No. 28, Joseph Dodin, owner; west wall unsafe (excavating).

MARKET REVIEW.

BRICKS.—We find nothing positively new on the general market for North River Hards since our last, except probably just a trifle more steadiness and not quite so much of a tendency towards an accumulation of stock afloat. While the proposed building operations are not very extensive at the moment there is, of course, some under way and to be commenced, and in preparation for these contractors have bought a few cargoes from day to day, and dealers have found it necessary to operate fairly, in order to meet their ordinary distributive calls, and these, in connection with the demands from neighboring cities, have afforded an outlet for the great bulk of the arrivals, only very common and undesirable parcels remaining on hand for any length of time. Receivers, however, have been quite willing operators at all times, and any reasonably full bid was pretty sure of immediate acceptance, as the inquiry was deemed somewhat precarious and likely to become materially modified at any moment. Except in a few isolated cases, dealers have shown very little inclination to lay in winter stocks as yet, and until this demand can be brought into something like animation a rather dull market is looked for, and receivers in many cases still think that trade can only be stimulated by a farther modification of values. Advices from the points of production speak of the views of manufacturers as being quite firm, and opposed to any concessions from current rates, but, while there is a tendency to hold back stock lying at Haverstraw Bay and vicinity, not likely to have access to our market until pretty late in the season, owners of the accumulation "up river" are pretty free shippers, and disposed to get forward everything possible before the close of navigation shuts them off. Occasionally something extra has sold at $10.25@10.50 per M, but it has to be pretty good stock to realize $10 per M, and from this the range is down to $9. New Jersey Hards are in moderate supply, and are called steady at $8.50@9 per M. There is not enough Long Island stock here as yet to establish a market. Pale Brick continue stronger than other grades, and sell quickly at full former rates, say, $6.90@7 per M, but inferior lots have been parted with at $6 per M. Philadelphia Fronts in a wholesale way are dull. Croton Fronts also continue quite slow, and not only are sales scarce, but it is difficult to obtain a bid. We quote at $12@14@15 per M, according to shade. We note exports of 10,000 bricks to Central America.

HAIR.—For plasterer's hair the general demand is reported as very good and the market shows a pretty active tone, fully in proportion at least to other styles of building materials. On local account dealers require considerable amounts for immediate distribution, and beside this, are laying away a little stock for winter use, appearing satisfied that no further modification of cost is likely to occur, while on shipping orders large amounts are going forward.

The latter outlet takes invoices into the nearby country towns and villages, especially in New Jersey, to a great many of the Southern cities, and also to various points along the Eastern seaboard, with one or two California orders hinted at. The stock on hand is small of both kinds, and, as an unusual occurrence of late, cattle hair shows a relatively lighter accumulation than goat, the first named having been consumed very freely for felt making, etc. The receipts do not amount to much and the prospect for an increase is not particularly encouraging, as tanners complain of current rates, and say they must have higher figures before they ship freely. Our wholesale dealers, however, though firm, are not much inclined to make any alteration at present, and are not likely to until they conclude their contracts for next spring's delivery, negotiations for which will probably be opened next month. We quote goat at 35c, and cattle at 25c per bushel of 7 lbs, but in a retail way from yard, dealers get about 3c advance over the above figures on a bushel of 6 lbs. Foreign stock of all kinds is more or less nominal, in the absence of stock importers finding no margin for profit, while domestic sells at present rates.

LATH.—The position appears to be a pretty strong one for the selling interest, and fully realizes the views of receivers, as noted in these columns from time to time for a month or six weeks past. Dealers have been holding off in the constant hope that easier terms would be granted, in order to attract their attention, and in the meanwhile were gradually reducing their stocks in yard, until at last many have not enough lath on hand to supply an ordinary call from consumers, and, of course, nothing to fall back upon for winter, and must purchase to keep trade moving. This is just the result predicted by receivers, and though for two weeks past a great many lath have come to hand, all were wanted even at the advancing rates, and more could have been sold were they here. Aside from this stimulating influence, however, manufacturers would have refused entirely to forward stock or to allow their agents to sell, except at an advance, as the recent increase in the cost of transportation has made it necessary that lath should command higher figures, in order to admit of even a margin for expenses. Lath are not in reality scarce, but the majority of owners are financially strong enough to carry them rather than sell at a loss. At the close, values stand about 10c per M higher than last week, and the general feeling is firm, with light supplies of all kinds offering. Sales at $2.60 per M.

LIME.—As for really new or particularly interesting features, this market does not appear to show any for the present, the selling interest, as usual, retaining most of the advantage of the position, though with the approach of the fall season buyers probably have to submit more readily than during the summer months. There is, however, some reason to be found for full rates just now, as the cost of transportation is increasing, the number of vessels available is not remarkably large, and deliveries can hardly be made with the promptness called for. Cooperage stock also remains firm and at full rates. The demand is kept as close as possible, but it is evidently fair, and appears to make a place for about all offered, with indications that a few more cargoes could be accommodated. Northern grades are quoted firm, and the nominal market rates are the same as on Eastern. We learn, however, that irregularity again begins to show itself occasionally, and that to effect quick sales desirable buyers are accommodated with somewhat easier terms, on both grades. The supply, however, is pretty large, and this has some effect in weakening the views of sellers. Choice brands of State finishing for certain manufacturing purposes, however, are in full demand and command extreme figures readily. A small supply is available at the close, and the market remains quite firm at $1.35 per bbl for common, and $1.75 do for finishing.

LUMBER.—The retail demand, though in many instances called fair, is not by any means liberal, and, taken as a whole, business at the yards is somewhat dull. Buyers make their appearance with the actual wants of the hour calculated down very closely, and can seldom be induced to operate to an extent beyond the amounts they know they can use to immediate advantage, especially as the accumulation and assortment here is such that any sudden and unexpected necessity can be met without much trouble should such arise. Holders in few, if any, instances are urging business, and seem content to wait until an outlet for their stocks presents itself, yet all are pretty willing sellers and meet full bids without much hesitation, even on the goods considered especially valuable. Prices generally may be written as firm, yet still, outside figures are not in all cases insisted upon, as most of the stock here pays a good fair profit at ruling rates, and though the future looks reasonably encouraging, it is deemed more prudent to show a desirable customer some few favors than take the chances of his going to a neighboring dealer and obtaining the accommodation asked for. A few additions are still being made to the accumulation, but the stock may be considered as pretty well in for the season and not likely to further greatly increase. A couple of weeks ago we called the improvement at Albany something of a nominal one, in view of the ability of buyers to obtain goods at old figures, by working in a quiet, cautious manner. This statement the *Argus* characterizes as "very incorrect, and not borne out by facts." We beg to differ. That buyers from this city, as well as from other points, have paid the full advance asked, and even higher in a few cases, we are willing to admit, but this was more owing to injudicious management and blind submission to the somewhat exciting feelings current at that time, than from any actual necessity; and we are positively assured by some of our leading and perfectly reliable dealers, that not only when our remarks appeared, but even within a very few days, they have been enabled by quietly shopping around and using no undue haste, to secure just as good and just as cheap lumber in the Albany market as they could before the Western fires gave a very acceptable stimulus to the annual movement to run prices up on late fall buyers.

The wholesale market continues generally firm, and all desirable goods are held at extreme figures, yet, on the whole, from recent information received, we dot not think that sellers at the interior markets have really had all the advantage represented, and during the last two or three weeks, while the quoted rates were high and buoyant, buyers have been enabled to negotiate quietly on comparatively easy terms, and, indeed, in some instances at prices but little higher than before the fires at the West, and the stimulus obtained therefrom. In fact, it was rather late in the season to jump the market, as all the principal buyers had secured their supplies, and a good many holders would prefer selling out stocks on hand to carrying over until spring, and to do so kept their terms comparatively easy. Again, there is a belief that next year's crop is not after all likely to fall away at all and may increase, as a large amount of injured timber will have to be cut to be saved, and the logging preparations in the uninjured districts are on a very liberal scale. As to the loss s recently sustained, we call attention to the following extract from a paper published right in the heart of the Michigan lumber district:—"In regard to the damages done to the pineries by the recent fires, the general impression is that it is something enormous. This, we are glad to say, is a mistake. We have information from nearly all the leading districts North, and from estimates furnished, the losses, at the outside, will not exceed 10 per cent." The above is partially confirmed from other sources, and there is evidently less alarm at the West than heretofore. Exporters continue to operate moderately and only in small lots.

Eastern Spruce fluctuates to some extent with the supply offering, but the selling interest does not appear to gain much advantage, while depressing influences are quickly felt. Still, the market can hardly be called weak, and the chances are more in favor of an improvement than of a decline. The season is now rather late, the stock of logs is low, a great many of the leading points of supply are likely in a few weeks to be shut off, while freights are high, and, except in the way of meeting previous contracts, manufacturers are not much inclined to forward any considerable quantity of stock. Buyers also are very well represented, and though showing no great anxiety, seem prepared to take any reasonable offering. At the close, the amount of stock offering is moderate, and though not buoyant, prices have a strong tone. We quote at $15.50@17 per M feet for inferior to fair schedules, and $17.50@20 do for good to prime do. White Pine is still held with much firmness, and meets with a fair average demand, though buyers are not very anxious, and, as a rule, appear to find about all the stock they want available. The excitement has certainly died out somewhat on this market, and though owners of the atock see every reason to hold firmly, and insist upon full figures, they crn hardly realize a further advance at present. We quote at $22@28 per M for good to prime box and shipping boards; $30 for choice do. and pickings and selects at $35@45 do. Yellow Pine firm and in demand, though there is said to be a probability of an increased offering within a few weeks. We quote at $28@33 per M as the extremes for common to choice random

cargoes, and $34@40 for special orders. There is some little demand for Eastern Hemlock at about $14@15 per M, but not much activity. The hard woods in fair request for shipment and steady.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.
Africa	76,476	553,984	492,009

Value	$17,173	$489,608	$552,325

We note additional exports as follows:—To London, 51 logs maple, value $800; to Cuba, 1 mast, $150, and 80,000 shingles, $788; to Central America, 70,000 shingles, $500; to Rotterdam, 6,000 staves; to Liverpool, 17,352 do; to London, 11,400 do; to British N. A. Colonies 2,700 do; to British West Indies, 2,700 do, and 9,904 shooks; to Bilboa, 6,000 staves; to Lisbon, 6,000 do; to Africa, 6,000 do; to Peru, 6,000 do; to British Guiana, 300 shooks; to French West Indies, 200 do; to Porto Rico, 1,077 do; to Cuba, 40,000 hoops. Receipts as follows:—From Jacksonville, 113,000 feet lumber; from San Francisco 47 logs cedar, 14 logs laurel; from Maine coast, 16 cargoes lumber, 3 do lath; from St. John, N. B., 600,765 feet lumber, and 495,400 lath; from St. George, N. B., 110,000 feet lumber, 200,000 lath; from Ship Harbor, N. S., 900,000 lath; from Musquash, N. B., 650 pcs. piling; from Shulee, 750 pcs. piling. Charters as follows:—A Brig, 320 tons, from Savannah to Rio, Lumber, $20 and primage; a Schr., 120 tons, from Brunswick, Ga., to Aspinwall, Lumber, $15; a Br. Brig, 266 tons, to St. Johns, N. F., 65 and 70c for dry and wet bbls; a Schr. from Jackson ville to New York, Lumber, $13; one same voyage, $12.75; one from Jacksonville to a Sound port, $13.

Advices from Rio Janeiro to October 25th report as follows:—

Pitch Pine Deals—Nominal value 45‖000@46‖000 per doz. 14x3x9, to net G. ‖42.58@‖43.79 per 1,000 feet.

One Inch Lumber—Worth 105 rs. lb. foot, to net G. ‖36.72 per 1,000 feet.

Swedish Deals—20‖000@30‖000 per doz. 14x3x9.

The Saginaw *Courier* contains the following:—

The past thirty days have been days of unprecedented activity in lumbering matters. the only activity apparent to those not of the woods. being the exodus of woodsmen, who come and go in large gangs. Their stay in this city is brief. As a rule they find ready employment and take the train the following day for the lumber camps, where they will remain until jovial spring breaks up the icy fastnesses, and the log crop comes down to gladden the heart of the lumberman. We have no means of estimating the amount of logs that will be got out for the Saginaw market. Lumbermen generally say "Well, I guess I'll get in several million, more or less; it will depend on the winter," and that is just about the fact in the case. There is no use in concealing the fact that the stock calculated on is a large one, yet if the winter is open and there is but little snow, the timber cut being mostly "long haul," there will be a large shortage. A fair estimate of the number of men in the woods on the Saginaw, its tributaries, and the Shore streams contiguous to the valley, is ten thousand. What this vast army of men will accomplish during the winter, can better be told four months from now, than estimated at the present time, when so much "depends on the season."

In regard to lumbering at Muskegon, a correspondent at that point says:—"The logging season has begun on this and White River in good earnest. Contracts, amounting in the aggregate to over 350,000,000 feet, have already been made on the Muskegon River and its tributaries. White River will not fall short of 75,000,000, making a total for this county of over 425,000,000, to say nothing of smaller localities. Logs have raised $1 already, while wages promise to be higher this winter than they have for the past two. Men and teams are scarce, and our loggers find it impossible to get the help they want for the winter. . . . . Some of our firms have cleared this season, over and above expenses, from $25,000 up to $75,000. They could not help but make money—wages being low, both last winter and during the cutting season, while lumber sold for a good price.

A correspondent of the *Courier*, writing from Bay City, says:—

Seasoning lumber by steam process, though an old method, has been reduced to a practical system. We understand Messrs. Arnold & Co., of Wenona, are about to attach a machine to their extensive works, for the purpose of seasoning lumber by the above process. This machine, as we understand, is a simple cylinder made of wrought iron, similar to the shell of a boiler, with a track laid the full length of it; seven thousand feet of lumber is run in on the trucks, and the doors of the machine close. A pipe conveys the escaping steam from their mill or factory into this cylinder, and in a few hours the lumber is taken out, and stocked up, and in a few weeks afterwards, is considered more thoroughly seasoned than it would be by two years standing.

The Boston *Commercial Bulletin* reports as follows:—

The lumber market has been fairly active, and sales to carpenters and builders have been large for the season, at prices within range of quotations. The prevalence of northerly winds, this and the early part of last week, brought in a large fleet of vessels from the Eastward, loaded with spruce and hemlock. The retail wharves present an unusually busy appearance, taking on their cargoes and storing them. Eastern freights have advacced materially. Freights that have ruled at $2.50@2.75 to Bangor and Boston, during the summer months, are now quick at $3 25@3.75, enhancing the cost just so much. Hence desirable or ordered cargoes of spruce are costing higher. Many Eas ern mills are now closing up, and light receipts by water are expected till spring. Facilities for furnishing spring cut dimension lumber by railroad exist to such an exthent that the close of the season Eastward does not cause such an advance as in former times, and buil ling operations may continue through the winter and the early spring months. Stocks of Eastern lumber are fair, not in excess, and in desirable lengths and sizes are hardly up to the average of former years. With the usual demand, lumber is likely to remain very firm during the next six months. What the future may bring forth depends upon the success or failure of the coming winter logging season and the next spring freshets. Prices are firmer, and for many grades have advanced.

The following are the surveys for the week:—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	961,538	Spruce	3,393,276
Hemlock	241,603	So. Pine Plk. & Tim.	7,656
Black Walnut	40,715	Hard wood	27,861
So. Pine Flooring	55,960		
Total			4,728,609

The Chicago market is reported by the *Times* as follows:—

CARGOES.—The receipts were light and the demand only fair. Prices, although not decidedly lower, continue to favor buyers. Sales were chiefly at $20@22 for good to choice strips and boards; $19@22 for long joists and scantling; $16.50@18 for short do; $16@17 for fair mill, run, and $10@14 for mill culls and coarse common mixed. Sales include: 1 deck-load of lumber at $25: 110,000 feet mill-run at $17.25; 105,000 feet scantling and joists at $18.50.

The Chicago *Evening Post* says:—

Saginaw is thronged with men who come there to seek jobs in the woods the coming winter. They are mostly from Canada, although not a few are from the State of Maine. Every train brings a delegation, and every train for Midland and Muskegon takes out as many more. Notwithstanding this large influx of hardy sons of the forest, the demand is not supplied. There is so great a demand for laborers for the lumber business that lumbermen have caused bills to be posted in the province of Quebec, offering good wages to the French population, to induce them to come to the Saginaw Valley.

In regard to lumbering operations in Huron county and the East shore, the Port Huron *Press* says:—

Lumbering operations during the coming winter will evidently exceed those of any year preceding. This is owing to the immease amount of lumber that will be required to supply the place of that destroyed by fire this fall, and also to the circumstance that thousands of acres of land have been burned over, whereon the timber is fit for present use, but will spoil if exposed to the action of the elements for another year. Therefore lumbermen are obliged to use this material immediately, even at a large sacrifice. The rush for the woods has already commenced, the ordinary wages offered for men being $30 per month. Large numbers of men are coming over from Canada and find work without difficulty. One firm. Messrs. Hubbard & Co., of Huron City, advertise for 150 men, and other firms are preparing on the same large scale. This will do much in the way of helping the sufferers from the forest fires, as they may obtain plenty of work and good pay for the same. There are fair prospects that next season will be a good one in all branches of business.

A Savannah report is as follows:—

LUMBER.—There are many orders on the market; all the mills are at work, and prices are advancing. We quote:

Ordinary sizes	$20 00@21 00
Difficult sizes	21 00@25 00
Flooring boards	20 00@22 00
Ship stuff	20 00@24 00
Mill Timber	$ 7 00@ 9 00
Shipping Timber	——
700 feet average	9 00@10 00
800 "	10 00@12 00
900 "	12 00@14 00
1,000 "	13 00@16 00

TIMBER.—The receipts for the past week have been light, and the demand is good for all classes of timber. We quote:—

FREIGHTS.—Coastwise vessels for lumber and timber are scarce and in demand, and are readily placed on arrival at full rates. We quote:—Lumber to Philadelphia, $8@8.50: New York lumber, $9.50@10.50: Sound ports, $9.50@10.50. Lumber to Boston, $10.50. To Baltimore, lumber, $8. The rates for timber are from $1 to $1.50 higher than lumber rates. To Cuba, $10. To River Platte, umber, $23, and 5 per cent. primage.

The *Courier* also contains the following:—

IMPORTANT SALE.—Mr. P. A. Dow, of Flint, purchased a few days since, of Redfield & Parker of Lapeer, 12,000,000 feet of pine lumber, six and one half miles north of Lapeer City, at $10.50 per M, mill run, amounting to over $130,000. The logs are to be banked on Norway Lake, where the mill is situated, which is to manufacture them into lumber, and the lumber is to be delivered at the station at Lapeer, at the rate of 3,000,000 feet per year.

The following is from the *Lake Superior Miner:*

This immense source of wealth, lying at our doors, has been overlooked by our residents. and to-day is controlled by non-residents who have purchased the valuable pine land for speculative purposes. We look upon the lumber interest that is destined at no very distant day, much nearer than many people suppose, to play an important part in building up the village of Ontonagon, to be of vast importance, and its value and proportions can hardly be estimated. In magnitude it may not, perhaps, be equal to the Saginaw Valley, but it is a question that time will settle. The Ontonagon river, with its east and west branches, and the numerous streams that are tributary to them, pass through one of the most valuable pine countries in the Upper Peninsula, and we have been told by parties that have travelled through it for examination, that much of the pine is superior to that in Lower Michigan, while the river and its branches offer unusual facilities for getting it out. To those that have examined the country, it is surprising that our own people have allowed such a source of wealth to lie dormant. And then the hard wood forest, containing some of the very choicest hard woods, is immense, and in time will become very valuable for manufacturing purposes.

Several parties of men have been in the woods all summer, selecting pine lands for eastern capitalists, and we presume will continue to during the winter. The recent fires on the shores of Green Bay will have the effect, we believe, to attract the attention of lumber and mill men to the pine lands of the Upper Peninsula, for there can be no doubt that the destruction of pine there has been very great, and much of what is left standing will have to be cut immediately, or it will become useless.

We make the following extract from the Menominee *Herald* of the 25th inst., on this subject:—

"The recent conflagration has done more damage to the timber that stood in its course than was at first supposed. The beautiful hardwood ridges, which lay south and west of Peshtigo, and those west and north of this place, have been ruined, and after a few years will be worse than useless. Along the two rivers, large quantities of pine had been left standing by the mill companies as a sort of 'rainy day' provision, left to repair the misfortunes of some unfortunate season's logging, which must all be put into the water during the coming winter, or the worms will spoil it. Good woodsmen who have passed over the pineries affected in the Menominee, estimate that fully two-thirds of the timber is down, and should the winter be one of deep snows the expense of cutting and hauling will be very great. Fortunately, however, no one company has more in this State than they can use for a season's work, and they will not be obliged to overstock in order to preserve the timber. Some provision should also be made for cutting the land on the railroad land, and the C. & N. W. officers should go so far as to obtain an act of Congress allowing the pine to be cut if necessary. There is not so much of it that it cannot be wasted as well as not.

"Parties outside, owning pine land within a radius of 16 miles of the mouth of this river, can rest assured that they are destroyed, and should make immediate arrangements for their being cut off this winter.

"It will thus be seen that a large extent of country will necessarily have to be cleared of its pine, and only hasten the day of departure of mills to other points, where pine is more plenty; and what is true of Menominee is also true of other points on the shores of Green Bay."

The Green Bay (Wis.) *Advocate* reports as follows:—

PEELING LOGS.—We learned last week, at the Office of Winslow, England & Co., Oconto, that a portion of their contracts for logging this season includes the peeling of the bark from the logs, which is a new thing in these pineries, although, we are told, a common practice in Pennsylvania. The advantage claimed for the practice are that the logs float easier and are not so liable to jam in the streams; that the lumber is not stained by the bark; and that the logs cut better, there being no sand to dull the saws, as is the case with logs having the bark on. The cost for stripping off the bark is from 50 to 60 cents per thousand feet, and the advantages gained, including the superior quality of the lumber, it is claimed will much more than overbalance the expense. J. W. McCauly, logging on Fish Brook for this firm, will bark his logs.

If the advantages prove as great as claimed it is probable that other firms will follow suit another year.

LUMBERING ON THE SUSQUEHANNA.

An approximate idea of the immensity of the lumber trade along the Susquehanna may be formed from an article in the *Raftman's Journal*, which we reproduce: "Owing to the sparse floods in our streams last spring, the greater portion of the logs, and a large number of the rafts of square timber failed to reach the lower markets, and at present are still lying literally in the mud, all along the West Branch of the Susquehanna and its tributaries above Lock Haven. The vast amount of lumber thus lying along

the streams alluded to is estimated at about 100,000,000 feet of logs, and 250,000 cubic feet of square timber and spars. The value of the logs at $7.50 per 1,000 feet, board measure, would be $750,000, and the other timber about $250,000 more, making a grand total of about $1,000,000 worth of lumber now lying dormant along our mountain streams. These figures may seem enormous to those unacquainted with the vastness of the lumber business in Clearfield and adjoining counties, but we presume will not be gainsaid by those who know its extent. That this large amount of unavailable capital should affect the financial prosperity of the entire lumber district in this part of the State will not be disputed, and that the results flowing from the failure of the lumber reaching a market are felt, more or less, in all business trades and professions, will not be denied. Besides, the stock of logs at Lock Haven and Williamsport being about used up also affects this section very materially, financially, as many of our business men are heavily interested in the mills at these two points. But notwithstanding these untoward circumstances, the log and lumber dealers are busily engaged in making contracts for the getting out of lumber and logs for next season's trade."

We were informed yesterday that the recent heavy rain has caused quite a rise in the West Branch and other streams in the north—sufficient to enable rafts to be driven as far as Williamsport. The lumber men are having them removed with all possible despatch to the latter place, the boom at which point is rapidly filling up.

The St. Louis *Democrat* contains the following:—

Before St. Louis can ever become a great lumber market, such as she ought to be, and handle the supply which is at her command, she will first have to improve her facilities.

There are at her door, and but for certain impediments, she might become the greatest receiving and distributing point for lumber in the United States. It is this that forces stocks to winter in Alton slough and Quincy bay, and keeps them back in rivers and tributaries, and we are surprised that the very men who hold this interest at stake should never move in its behalf. Let any one visit our northern wharf, and behold the condition of the levee from Ferry street to Angelica street, which should have been condemned years ago, and be now in use for an expanding city, while otherwise there are but "washes" and drift hills, which makes it difficult for piling lumber or geting trains in or out, and private parties claim the privileges of its use, realizing from it revenues which, honestly, are the city's portion. We think this a very important question for the Lumberman's Association to consider.

The weather has been very favorable during the past week for the lumbermen, and they have been enabled to make good progress in drawing and hauling lumber, so that upon the close of navigation but little, if any, will be wintered in the water here. Stocks in the yards are very much broken and reduced, and the lumbermen will enter the coming season with a heavy demand, as their present supply will hardly prove adequate for the wants of the trade. Hence we anticipate large orders for native kinds, such as yellow pine, poplar, etc. The receipts the past week comprise one raft 800,000 feet lumber, and 500,000 laths from Chippewa, and one raft containing 1,000,000 feet of Minnesota lumber, which has been laid up at Alton (all previously sold). If the weather keeps open a few weeks longer, some rafts now near Keokuk will be able to get in, which will somewhat increase the annual receipts for 1871.

The Providence Lumber Market is reported by the journal as follows:—

LUMBER.—Freights in Lumber had advanced, the mills are shutting down, and is expected the receipts of Eastern Lumber will be light hereafter for the remainder of the season. We make no change in our quotations, although it would probably be difficult to furnish cargoes at present prices. We quote Pine Boards, Nos. 1 and 2, $58@60; No. 3, $48@50 ₱ M; No. 4, $35; Box Boards, Western, $23@27; Western Pine Stocks $28@32; Eastern do. $22; Hemlock $17; Spruce $18; Shaved Pine Shingles $8 per M; shaved Cedar $4@7; Southern Cedar $5@7. sawed Cedar, extra, $4.50; do do, No. 1, $3@3.50; Spruce Shingles $2.25@3; Laths, Spruce $2.50 per M; Pickets, Spruce, $15; Pine 20; Clapboards, extra $65; clear $60; No. 1, $40; Western Ash Lumber $50@60; White Ash $80@100; Black Walnut $80; White wood $40@60; Maple $40@55; Birch $40@50; Cherry $60@80; Oak $45@60; Mahogany $200@250.

METALS.—Ingot Copper continues in good demand, principally for forward delivery, and prices have sustained a further advance of ¼@½c per lb. New Sheathing shows a falling off of 1c per lb, but other manufactures of copper are quiet and unchanged. We quote: Ingot 24¼@24½. New Sheathing 31c. Yellow Metal 24c. and Old Sheathing 20@21c all net cash. The stock of Scotch Pig iron has been replenished somewhat liberally since our last review, but with an increased inquiry nearly all the arrivals have been sold, so that at the present writing the market is again quite bare of stock. We quote: Glengarnock $34@35 per ton; Eglinton $33@34; and Coltness $39. There is no stock of Gartsherrie here at present. American Pig continues quiet, but with small stock; prices are firmly held. We quote: No. 1, $36@37; No. 2, $34@35 ex ship, and forged $33@34 per ton. Refined Bar is firm, on reports of an excited English market, and higher prices there, and the tendency is to a corresponding advance in prices here. We quote from store as follows: Bar Swedes, $107.50 @120; refined, ordinary size, $85; refined, 1¼ to 6 by ¼ and 5-16, $90; refined, 1 and 1¼ by ¼ and 5-16, $92.50; refined, 2¼ to 3 round and square, $92.50; scroll, $102.50@132.50; ovals and half round, $102.50@122.50; band, $97.50; horse-shoe, $100@105; rods, 5-8 to 3-16 inch, $90@125; hoop, $107.50@150; nail rod, per lb., 6¾c. Common Sheet is rather scarce and higher, closing firm at the advance. We quote at 5@5¾ for single D and T, and 6@6¾ for D and T Charcoal. Galvanized Sheet is quite unchanged. We quote at 12@13c for 14@20; 12¼@13¼c for 22@24; 13¼@14c for 25@26; and 15@18c for 27@29, all less 27½@30 per cent. to the trade. Russia Sheet is in moderate demand at steady prices. Some of the late receipts have been sound and are held at 18c gold. We quote at 17½@18c gold, according to number. Pig Lead is extremely quiet and prices nominally unchanged. We quote at $5.90@6.00 for common to good foreign. Manufactured Lead is in limited request but prices continue steady. We quote at 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin is quiet, but with continued favorable advice from abroad reporting advancing markets, holders here are very firm and demanding an advance, even on our revised quotation. We quote in coin at 36¼@36½c for English; 38c for Straits, and 42c for Banca, all gold. Plates are in good demand and holders continue firm at our advanced prices. We quote I. C. charcoal, $8.87½@9.25; I. C. coke, $7.75@8.75; Coke, $6.50@7.62½, and Charcoal Terne, $7.87½@8.50. Sheet Zinc continues scarce, and a still further advance has been established, closing firm at the higher value. We quote Mosselmann at 10¼@10½c gold.

NAILS.—The demand has been very fair and pretty general, nearly or quite all the regular sizes are coming in for an average share of attention, and some of the dealers have worked their stocks down materially. A fair number of distant interior buyers are represented, but the call appears to be gradually working this way, as is usual with the approach of the time when the close of navigation may be expected. The export inquiry has been somewhat variable, but on the whole fair, and about the usual assortment of goods was taken. The deliveries from the mills, with a few exceptions, are pretty regular, and though, as above noted, the supplies on hand are not at all times large, buyers can, as a rule, make a fair selection. The general range of prices remains about as last noted, but with a very firm tone on all styles of goods. We quote per 100 lbs.: cut, 10@60d, $4.65; cut, 8@9d, $4.90; cut, 6@7d, $5.15; cut, 4@5d, $5.40; cut, 3d, $6.15; cut, 2@3d, fine, $6.90; cut spikes, all sizes, $4.90; cut finishing, casing, box, etc., $5.15@$6.65; clinch, $6.15@6.65; horse-shoe, forged, No. 10 to 5, per lb. 19@23c. Other styles are selling as follows: Copper, 37@39c per lb; yellow metal, 24c do. The exports for the week are 663 pckgs, valued at $3,582; and since January 1st, 15,666, valued at $98, 417.

PAINTS AND OILS.—While the demand for wholesale parcels is not large or quick, there is enough doing to give the market an appearance of a fair amount of life, and business, taken altogether, may be considered as quite satisfactory. The prevailing call is void of any speculative movement that we can learn of, and appears to proceed entirely from the legitimate wants of the trade, making all sales *bona fide* and just so much stock out of the way. Some of the leading importers are a little short on their assortments and selections of goods cannot in all cases be made up without a little search, but still the majority of buyers find about what they want and we do not learn of any actual scarcity of either domestic or foreign styles. Jobbers are doing very well, some are quite busy and seem to be satisfied with the position and with full rates, as a rule, obtained former quotations are supported without much difficulty. Nearby country buyers are in better attendance, most of the distant orders having been filled. Linseed Oil has shown no important change for the week, a moderate jobbing trade with some little demand for export prevailfng and the supply offering proving fully equal to the outlet. Crushers as a general rule ask for 76c but are not inclined to allow a customer to escape them, and rather than miss a sale will be pretty sure to accept 75c per gallon in cash.

Exports as follows:—

	This week.		Since Jan. 1, 1871.	
Paint.....pckgs.	565	value $5,174	8,314	value $133,980
Linseed oil, galls.	843	"	794 11,478	" 9,897
Oxide zinc, pckgs.	—	"	— 3,620	" 38,110

PITCH.—The market continues in about the same position as previously noted. The stock is not large, the demand only moderate, and prices steady at the figures ruling at our last review. We quote at $4.75 for city delivered. Receipts for the week.—bbls: since January 1st, 888 bbls; for same time last year, 2,342 bbls. Exports for the week, 227 bbls; since January 1st, 2,624 bbls; same time last year, 3,550 bbls.

SPIRITS TURPENTINE.—There has been a moderately active business reported this week at prices about ½@¾c lower than at our last, closing rather more steady at the decline. We quote merchantable and shipping order, at 67½@68¼c; and from store, about 70c. Receipts for the week, 1,066 bbls; since January 1st, 60,419 bbls, and for the same period last year, 63,472 bbls. Exports for the week, 41 bbls; since January 1st, 14,146 bbls, and for the same period last year, 15,639.

TAR.—Trade in this article continues limited to purchases for immediate wants, but with rather a light stock, prices show more firmness. We quote Washington at $3.62½@3.75; and Wilmington $3.75@4, as it runs. Receipts for the week, 60 bbls; since January 1st, 17,890 bbls; for the corresponding period last year, 46,493 bbls. Exports for week, 161 bbls; since January 1st, 9,024 bbls, and corresponding period last year, 14,589 bbls.

ALBANY LUMBER MARKET.

The *Argus*' report for the week ending November 21, 1871, is as follows:—

The present condition of the lumber markets is in favor of advanced prices, and it is questionable if under the most favorable circumstances there can be an overproduction the coming year. Lumbering operations have now commenced in earnest—and the amount of logs got out this winter will only be limited by the scarcity of men and the usual contingencies of the season—high wages and advanced stampage, long distance of drawing logs and increased cost of lumbering on account of falling of trees in masses, caused by the fires—all will increase the cost of production; and to cover even cost, high prices will be required. One thing must be borne in mind, that though the quantity of logs cut this season will be large, from the necessity of sawing logs a large portion will remain over for another year, and the burning of so many large mills will naturally lessen the capacity of manufacturers. The stock of lumber remaining over at Saginaw and other points will be light, and most of it has already been sold. Prices keep high, and manufacturers are firm in their views and very independent. In Michigan $8, $10 and $40 is asked for lumber that sold this summer at $6. $12 and $25, and in Pennsylvania an advance of $10 ₱ M. ft. has been established, and stocks there are very low. Higher prices have been realized than were reported in our last. Sales in the district for the balance of the season will not be large. The shipments will be active, the great object now being to send forward the lumber that has been sold. Prices are firm, receipts light and the stocks gradually diminishing. With two more weeks of mild weather business will be pretty well over, and light stocks left to winter over.

The receipts of Lumber at Buffalo during the week by Lake and Rail were 1,659,600 feet. At Oswego, by Lake, 6,771,400 feet.

We have no further report of the receipts of Lumber by Canal: the third Canal week of November does not close until to-morrow. The receipts (one day short of the week) are 8,603,600 feet; the receipts for the third week last year were 11,798,800 feet.

Lake freights are $6.00 to Buffalo, and $9.00 @ 9.50 to Oswego. Canal freights from Buffalo to Albany are $6.75 @ 7.00 on hard wood, and $5.75 @ 6.00 on soft; from Oswego to Albany, $3.75.

River and Eastern freights are quoted as follows:

To New York, per M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	3 00
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, per ton, to Boston	2 50

JAMES TAYLOR.

No one should Build or Live in a House

WITHOUT EXAMINING OUR

ELECTRICAL APPLIANCES,

without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'

Burglar Alarm Telegraph.

This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION

is requested to our new

HOUSE ANNUNCIATOR,

An improvement upon the French system.

IT CONSISTS OF A SINGLE

CALL BELL AND ANNUNCIATOR,

in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house **RINGS THIS BELL AND ANNOUNCES THE ROOM** from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by

ONE BATTERY, OR BY THE SAME BATTERY

that operates the

Burglar Alarm Telegraph.

It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have

An Attachment for Ringing Door Bells and Servants' Bells from the

TABLE OR DINING ROOM,

by placing a spring in the floor, and covered by the carpet. Also, for

Calling the Coachman from the Stable.

Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,

OFFICES:—
7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.

The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.

All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

BOYNTON'S
IMPROVED ELEVATED
OVEN RANGE.

This *Beautiful Range*, improved last year, is offered to the *Public* as the most *Complete*, *Convenient*, and *Desirable Elevated Oven Range* in the *Market*, and is the *result* of long experience in the *Manufacture* and *Setting* of *Cooking Ranges*; and we do not hesitate in recommending it as the *nearest* to *perfection* of any *Elevated Oven Range* in the *Country*.

The *body* of this Range is higher than other *Patterns*, and is more like the *French Kitcheners*, making it much more convenient and *easy* for the *cook*.

The *Hot Closets* are more accessible, placed in a *natural* position, being in the body of the Range, instead of above the ovens, as in other patterns.

ALSO,
FURNACES, HEATERS, AND STOVES
IN LARGE VARIETY.

We always guarantee the work we do ourselves to be perfectly satisfactory.

RICHARDSON, BOYNTON & CO.,

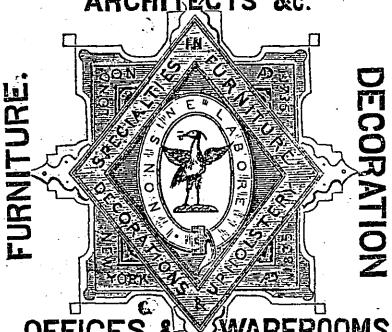
REAL ESTATE RECORD
AND BUILDERS' GUIDE.



VOL. VIII. NEW YORK, SATURDAY, DECEMBER 2, 1871. No. 194.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION,

TERMS.

One year, in advance.....$6 00
All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

DON'T STOP IMPROVEMENT.

IT is desirable that, while wisdom is required and economy should be exacted in the city disbursements, the much needed improvements should go on. The great danger is that, after all the extravagance, we may now run to the other extreme of parsimony. All the money that can be saved should be saved, but let not the savings be effected by stopping the so much needed improvements. The Dock system should be developed in its utmost perfection; steam transit should be secured in various directions within the city limits; all avenues and streets that have been opened should be completed; and a new bridge built over the Harlem River. New York is destined to be the metropolitan city of this continent; and it must prepare itself for that great and dignified future which awaits it. This cannot be done by unwise economy; but by large and liberal and *honest* expenditures. Every dollar wisely laid out now will, by the rich usury of time, be worth thousands of dollars in the future. It has been too much the fashion, in times past, to wait until a locality was built over before supplying the needed improvements. This was not only wasteful and inconvenient, but unnecessarily costly. We hope our new Park Commissioners will bear this in mind. The danger is not that they will not save money for the next few years, but that they will be niggardly as regards the completion of works already begun, or as regards the carrying out of those enlarged plans for the adornment of our city which have already been devised. Whatever may be said against those who have had the affairs of our municipality in their charge during the past few years, it is certain that their plans for the benefit of the city were upon a large and liberal scale. The systems of parks and boulevards, of docks and bridges which have been undertaken will be monuments of the largeness of view and forethought of the men who planned them, and will endure as long as the city endures.

A FOURTH AVENUE VIADUCT.

IT is understood that the owners of the railroad tracks on the Fourth avenue are willing to build an elevated platform over the street upon which to run their cars from Harlem River to the Forty-second Street Depot—thereby surrendering the street again to the purposes of ordinary local traffic. They had this scheme in mind when the Forty-second Street Depot was first proposed, but were deterred from bringing the matter before the Legislature because of the expense that would have been involved in purchasing those honest gentlemen who represent the people of New York at Albany. The outcries that have been raised over the unavoidable accidents occurring in Fourth avenue, owing to the multiplicity of trains running in and out daily, will probably bring this scheme again to the surface; and if it is possible to get the matter through the Legislature, the work will be soon accomplished. With the great increase of population along the central belt of the island, the annoyance and danger attendant upon crossing those Fourth avenue tracks will of course be much greater than they are even now; especially as the business of the railroad must necessarily increase. The value of the proposed alteration, therefore, can hardly be overestimated; and if the Central and Hudson River directors are permitted to make this change, it would suggest a solution of the problem of City Steam Transit very readily. For with an Elevated or Viaduct Railroad, such as they would be compelled to construct from Harlem River to 42d street, it would be an easy matter to continue the same down to the City Hall. Instead of waiting for the organization of a new machinery, we should thus have *sur le champ* a vast corporation, with any amount of money at its back, who could absolutely give New York all the steam facilities it required within two years' time. The RECORD has before urged this matter, upon the failure of the Viaduct Railroad last summer; and it repeats what was then said, that Commodore Vanderbilt is the right man to appeal to, to give New York what it should have—Steam Transit through the city.

THE APARTMENT HOUSE SYSTEM,

So often commented upon in the RECORD, is, we see, at length attracting the attention of the daily press; and the very large profits which have so far attended these ventures have made the subject quite as attractive to capitalists and builders. For persons who put their money into ordinary dwelling-houses are satisfied with realizing 10 or 12 per cent., but here is a class of structures in which the profits so far seem fabulous!—25, 30, 35 per cent. has been the reward of those capitalists who have had the pluck to erect these most desirable houses. We allude to such buildings as the one in 13th street, near 2d avenue; the one in 18th street, near 4th avenue; and the large new Apartment House corner of 5th avenue and 15th street. We hear rumors of whole blocks of vacant land being taken up with a view to erect palaces for persons who wish to enjoy the conveniences of the family hotel and the apartment house. There is no doubt that a wisely planned scheme, which would give families the advantage of a fine and well-appointed suite of rooms, with meals and wines at club prices (thus saving them the expense of a private staff of servants), would pay immense profits. But of course any scheme of this kind requires immense capital; and besides, our architects have as yet hardly turned their attention in this direction. It would be well, we think, for our foremost architects to give this matter serious attention, and to devise schemes for Apartment Houses to cover whole blocks. For it is inevitable that, with the profits heretofore secured, this class of buildings will soon be in demand. And, even in the event of their failing to secure patronage (which is scarcely possible), edifices thus constructed could be easily converted into hotels, of which New York has, even now, too few.

WE hope that in framing the New City Charter attention will be paid to the suggestion first made in the REAL ESTATE RECORD that a Board of Auditors composed wholly of tax-payers, for the examination, and approval or rejection, of all bills and charges whatsoever, be a part of the machinery of our City Financial Department. We have now, it is true, an honest Comptroller; but there is this danger that the Legislature, taking it for granted our Finances will in future be wisely and faithfully managed by him, will fail to make any provision against the possibility of the office again falling into incompetent or dishonest hands. The point we make, then, is that no bill should be paid until it has passed the scrutiny of the Comptroller or his assistant specially designated for the purpose; but further, that a Committee or Board representing the Tax-payers of New York should have the right of absolute veto upon every sort of charge or outlay, no matter in what Department it originated. This provision would be very simple; but practically it would be found a very effectual one. It would be worth all the rubbish declaimed in newspapers and on the stump about "electing honest men alone to office." Let us have a Board of Audit of Tax-payers

We wish to call the attention of our patrons to the fact that for some time past we have been giving the Westchester County conveyances of property.

One of the schemes of the now defunct "Ring" was to annex the lower portion of Westchester County to New York City. It is to be hoped that this will still be effected; and then we anticipate seeing Westchester County united to New York by one or more lines of steam conveyance running right into the heart of the city. Thus we expect to see steam transit from City Hall to New Rochelle and Yonkers an accomplished fact within the next two years. Then there will, indeed, be an immense demand for Westchester County property; and the present files of the RECORD will be found of very great value, as all the transfers in the lower part of the county will be therein registered. The interest in Real Estate which has heretofore expended itself in speculations on the outskirts of Brooklyn and the towns of Jersey, will be concentrated in the *new* New York which will grow up on the northern side of the Harlem river.

The City improvements must go on! We regret to see the manifestation of a disposition on the part of the new Board of Public Parks to put a stop to the works which were in progress. This is not wise. It will damage the city in many ways, especially it will seem an acknowledgment to the world that past extravagance and peculation have really injured and embarrassed us. We cannot afford to make any such admission. Every piece of improvement now under way should be carried to full completion. This is due to the tax-payers who have paid or are about to pay their assessments. These improvements add to the taxable value of their property; they encourage architects and builders to put up more houses; and indirectly they will help to give business to the Viaduct or the Underground Railroad—whichever it shall please our capitalists to build. By all means let the improvements go on. We feel them to be of such real importance to the city, that we cannot help speaking urgently upon the subject. We want our Riverside Park finished. We want our Morningside Park put under way. We want the upper part of the island civilized. And all public encouragement should be given to whichever line of steam transit is finally decided upon.

There was a little paper similar to our own published in Chicago for some time; but unfortunately the people of that city allowed it to die. Then came the fire; and with it were swept out of existence all titles and proof of ownership of hundreds of lots in that unfortunate city. Since the great catastrophe we have had frequent applications for copies of the paper, containing the transfers of Realty, and a complete file of those printed transfers would to-day be of incalculable value to the distressed property-holders of Chicago who desire to borrow money (and find plenty willing to lend) and yet can show no titles to their lots. There ought to be a printed record of every transfer that is made. This, in view of what has occurred in the West, is a matter of great importance, which it would be well for the new Register and the new Legislature to act upon.

WEST SIDE ASSOCIATION.

The first public meeting of this Association will be held at the West Side Hall, Broadway, northeast corner of 44th street (over Ford's New Market), on Friday Evening, 1st December, 1871, at 7½ o'clock.

The following subjects will be presented:

By Hon. Fernando Wood: Legislation Needed for the West Side, and the Duties of the Legislature to the City.—By Wm. A. Whitbeck: Rapid Transit.—By Wm. R. Martin: The General Situation of West Side Improvements: Shall they be Stopped?

Wm. R. Martin, *President.*
141 Broadway.

James F. Ruggles, *Secretary.*

MARKET REVIEW.

BRICKS.—The market for North River Hards appears to remain in much the same condition as noted for some time past, the demand and supply about balancing, and prices showing no decided alteration in favor of either seller or buyer, though if there be any advantage at all, the latter class of operators can claim it, as there is a little more anxiety shown to get rid of stock than to secure it. The season is drawing to a close, a few weeks may shut off navigation, and a great many manufacturers need funds to settle up accounts for the year, and are now forwarding stock with as much rapidity as possible, and will be likely to continue the same plan just as long as the river remains open, especially if an outlet is presented for their consignments. A good many dealers, to be sure, continue offish, and purchase little if any more than they can use to immediate advantage, but others are commencing to put away a portion of the supplies they will be likely to want when connection with the points of production is shut off, and builders and contractors also are piling up stock in front of locations where they will want it during the winter. The present consumption, too, though not by any means equal to the summer months, is very fair, and taken altogether, bricks are selling very well and somewhat better than was expected by the trade two or three weeks ago. Indeed, the wholesale operators begin to speak more hopefully, and many venture to venture to predict that the winter supply of bricks will not be obtained at much if anything below the range of values now current, though, on the whole, the position appears to be so evenly balanced, that it is probable a very small excess of the supply over the outlet would cause a break. The intervention of a holiday has caused some reduction of business during the present week, but as we close there does not appear to be any stock afloat unsold. For very choice styles $10.25@10.50 per M may be quoted; but $10 per M is an average top rate, and $9.50 for common grades, with an inferior cargo now and then as low as $9 per M. New Jersey Hards continue in rather moderate supply, and the offerings, as a rule, are sold without much difficulty at about $8.50@9 per M. Long Island stock is not plenty and somewhat nominal, but we understand there will be a fair supply available when wanted. Pale Brick continue to sell very well, and for the best $7 per M has again been obtained, but the supply begins to more evenly balance the demand, and a good many very desirable cargoes have changed hands at $6.50, and fair at $6 per M. Philadelphia Fronts in a wholesale way are nominal, but sell very fairly from yard. Croton Fronts are dull, and quoted at $12@15 per M, with a probability that any change in price would be downward rather than upward.

LATH.—Having once gained the advantage sellers are loth to part with it, and the general tone of the market may still be considered as very strong, if not somewhat buoyant. The yards have not been enabled to accumulate any great amount of stock, owing to the pretty free distribution, and winter supplies are still wanted, while at the same time the consumption continues large, and builders seem likely to use as many lath as during any fall for years past. The offerings have been irregular, according to wind, etc., and the number of vessels available, but there is not likely to be any actual scarcity of stock, as the recent improvement in values has been sufficient to give manufacturers a good margin, and they will now ship right along steadily as opportunity may occur. The general average of quality on full cargoes is good, though now and then an odd lot runs poorly. The demand at the close is very good, the supply offering small, and prices remain firm at full $2.60 per M, and some receivers think, from the hints thrown out by buyers, that still better figures could be obtained for prompt delivery.

LIME.—Eastern stock is still quoted as very firm, and more likely to favor sellers for the balance of the year than to change to a lower level of values. The wants of the retail dealers are about equal to the ordinary average, and this will afford an outlet for pretty much all that can be offered, especially as the competition from State stock must fall off somewhat as soon as communication with the points of supply is prevented by the closing of inland navigation. The ruling prices here also hardly offered a margin to clear cost and expenses, when winter freight charges are taken into consideration; and all these points, in connection with the monopoly which controls the product of the Eastern kilns, gives buyers little opportunity to gain any advantage. The market for State lime continues in the usual mixed condition, and values vary according to circumstances of supply, demand, etc., though the irregularity is most noticeable on the common grades, the finishing stock holding up to extreme quotations very well. A few more cargoes are offering at the close, but the demand appears to take them all, and the market remains firm at $1.35 per bbl for common, and $1.75 do for finishing.

LUMBER.—The yard trade has again been rather moderate, with the dulness somewhat increased by the occurrence of a legal holiday, and in a general way the market shows nothing new for the week. The buyers in attendance appear to be a regular run of customers who have been operating along from hand to mouth all the season as they might happen to want goods, and are still carrying out this policy as the safest, even in the face of the immense amount of high-priced lumber talk now being indulged in on all sides. This indifference, however, may be in a measure accounted for by the fact that buyers at this point are nearly all consumers, and of a class not likely to want very large amounts, the distribution to other markets formerly made here having in a great measure been broken up by the increased facilities for transportation, which have enabled country dealers, etc., to make their purchases direct from the primary markets. Our builders are not calling for many fresh invoices at present, and manufacturers, as the end of the year approaches, prefer having as small a stock on hand as possible. Most of the dealers have accumulated enough to carry them through until spring; but as opportunity admits and storage room can be found, a good many are bringing forward purchased supplies to pile away and season until wanted, instead of wintering over in the interior. Prices show a little irregularity on poor stuff, but, as a whole, are pretty well sustained on all the good to prime qualities.

In a wholesale way the movement has been large or small, according to the offerings of coastwise cargoes, as these now cover about the bulk of the supply available. Sellers, as a rule, have remained pretty firm, and refused most negotiations not likely to be opened on a basis of about former figures, but have not attempted to force any advance. Dealers in Western and Northern stock, and agents of mills are talking very buoyantly about next year's prices, and endeavoring to effect contracts for spring delivery for parcels still left on hand, and now and then meet with some success. But buyers, as a rule, are not inclined to lose any caution, and there appears to be no fears entertained in regard to the supply. There is no doubt the fires in the woods and the axe together, especially the latter, however, are making sad havoc with our forests, which should be provided against at once; but the very fact that the trees are thus being taken off with such fearful rapidity only tends to keep the supply of lumber full for the present, even in the face of the increased demand, and until the scarcity begins to be actually felt throughout the entire land, a material advance in prices can hardly be forced or maintained. The export movement from this point keeps along about even with last year, and shows no attractive features at present.

Eastern Spruce has met with fair, though by no means active call, and good management alone has enabled receivers to work off their cargoes without causing any serious disturbance of the market. A fair proportion of recent receipts have come in on contract, but quite a good many cargoes were offered for sale without attracting much competition, and it frequently required some little search to find a buyer. Extra-sized sticks, of course, did the best, the general remarks applying mainly to mainly to medium and common sorts. Manufacturers are reported as feeling very firm and not at all anxious to send forward supplies at present rates; yet there is plenty comes, and more known to be on the way and loading. The market closes with a steady tone and moderately supplied. We quote at $16@17 per M for inferior to fair specifications, and $17.50@20 do for good to prime do. There is a little call for Eastern Hemlock at about $14 per M, but sellers want $15, and business does not amount to much. White Pine is firm on all grades, so far as holders are concerned, and necessity now and then compels buyers to submit to the terms asked, but there is no very heavy demand, and a further advance is not looked for at present. The supply here, as compared with the outlet now shown, is very fair. We quote at $22@28 per M for good to prime box and shipping boards; $30 for choice do; $35 for pickings, and $45 for selects. Yellow Pine is wanted on contract, and a few good random cargoes could be disposed of to advantage. The supply, however, is coming forward fairly, and likely to still further increase, as the fear of contagious disease being allayed by the appearance of frost, and the weather on the Eastern coast much rougher, vessels are run with greater freedom on the Southern voyage. We quote at $28@33 per M for random cargoes, and $35@40 for special cuts.

A city contemporary, speaking of yellow pine, remarks:—The prospects of the trade in yellow pine lumber are at present very encouraging for the Southern mill men. During the last few months there has been a prevailing demand for tonnage at all the points of export, and the consequent advance in ocean freights has given quite an impetus to ship building. The Eastern ship-yards have been comparatively busy, and some heavy orders for ship timbers have been received at from $35 to $56 per M feet. Several large factories about to be erected at Fall River, Mass., has caused a good inquiry for heavy girders and beams, and the market has an upward tendency. The European demand is large, and many of the heaviest dealers at the South have made large contracts at paying prices for hewn timber, and also for sawed lumber, for which there is a growing demand. From South America the inquiry is moderate, while most all the West India markets are bare, with an increasing inquiry. Large contracts have been made for the English and French islands, at from $32 to $33 gold, free from duty. For the Spanish islands the demand is also heavy. At the South the mills are generally well supplied with orders, although the stock of logs is small.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.

Total feet	169,262	14,999,534	15,737,825
Value	$5,384	$494,992	$560,495

We note additional exports as follows:—To British West Indies, 15 spars, $1,500; to Hayti, a lot of spars, etc., $2,500; to Havre, 135 logs maple, $2,847; to Hamburg, 3,600 staves; to Rotterdam, 2,400 do; to Antwerp, 3,600 do; to Liverpool, 10,800 do; to Merseilles, 6,000 do; to Cadiz, 115,220 do: to French W.I., 4,000 do; and 720 shooks; to Brit. W. I., 8,535 shooks; to British Guiana, 1,013 shooks; to Cuba, 11,296 shooks and 79,600 hoops; to Porto Rico, 600 shooks, and 25,000 hoops; to Mexico, 50 shooks. Receipts reported as follows:—From Apalachicola, 175,000 feet lumber; from New Berne, N. C., 455,000 shingles; from Norfolk, Va., 65 cords Juniper logs: from Maine coast, 12 cargoes lumber, 2 do lath; from St. John, N. B., 206,704 feet lumber: from Lepeaux, N. B., 500 pcs piling; from St. Georges, N. B., 107,023 feet lumber, 150,000 lath; from Musquash, N. B., 160,000 feet lumber, 24,000 lath; from Shulee, 600 pcs piling.

Charters as follows:—A barque, 759 tons, to Cadiz, staves, $40 for light, and $60 for extra heavy pipe, other kinds at proportionate rates; a brig, from Satilla River to Rio, lumoer, $19 and primage; a British schr, 200 M, lumber, from St. John, N. B., to Trinidad, P.S., $9: three schrs, from Jacksonville to New York, lumber, $12.50; a brig, from Fernandina to New York, $11; two British brigs from St. Mary's River to Havana, R. R. ties, 50c; a schr, from Wilmington, N. C., to Galveston, R. R. ties, 45c each and primage; one from King's Ferry, Fla., to New York, resawed lumber, $11; one from Savannah to New York, lumber, $9.50; one, same voyage, timber, $11.50; two, 120,000 feet dry boards from Jacksonville, $12.50—outward cargo $300 and $400 respectively.

GREAT ACTIVITY IN LUMBERING OPERATIONS—GENERAL EXODUS OF WOODSMEN, ETC.—The past thirty days have been days of unprecedented activity in lumbering

matters, the only activity apparant to those not of the woods, being the exodus of woodsmen, who come and go in large gangs. Their stay in this city is brief. As a rule, they find ready employment, and take the train the following day for the lumber camps, where they will remain until jovial spring breaks up the icy fastnesses, and the log crop comes down to gladden the heart of the lumberman. We have no means of estimating the amount of logs that will be got out for the Saginaw market. Lumbermen generally say "Well, I guess I'll get in several million, more or less; it will depend on the winter," and that is just about the fact in the case. There is no use in concealing the fact that the stock calculated on is a large one, yet if the winter is open and there is but little snow, the timber cut being mostly "long haul," there will be a large shortage. A fair estimate of the number of men in the woods on the Saginaw, its tributaries and the Shore streams contiguous to the valley, is ten thousand. What this vast army of men will accomplish during the winter, can better be told four months from now, than estimated at the present time, when so much "depends on the season".

In regard to lumbering at Muskegon, a correspondent at that point says: "The logging season has begun on this and White River in good earnest. Contracts amounting in the aggregate to over 350,000,000 ft. have already been made on the Muskegon River and its tributaries. White River will not fall short of 75,000,000, making a total for this county of over 425,000,000, to say nothing of smaller localities. Logs have raised $1 already, while wages promise to be higher this winter than they have for the past two. Men and teams are scarce, and our loggers find it impossible to get the help they want for the winter. * * * Some of our firms have cleared this season, over and above expenses, from $25,000 up to $75,000. They could not help but make money—wages being low, both last winter and during the cutting season, while lumber sold for a good price."

In regard to lumbering operations in Huron county and the East shore, the Port Huron *Press* says:—

Lumbering operations during the coming winter will evidently exceed those of any year preceding. This is owing to the immense amount of lumber that will be required to supply the place of that destroyed by fire this fall, and also to the circumstance that thousands of acres of land have been burned over, whereon the timber is fit for present use, but will spoil if exposed to the action of the elements for another year. Therefore lumbermen are obliged to use this material immediately, even at a large sacrifice. The rush for the woods has already commenced, the ordinary wages offered for men being $30 per month. Large numbers of men are coming over from Canada and find work without difficulty. One firm, Messrs. Hubbard & Co., of Huron City, advertise for 150 men, and other firms are preparing on the same large scale. This will do much in the way of helping the sufferers from the forest fires, as they may obtain plenty of work and good pay for the same. There are fair prospects that next season will be a good one in all branches of business.

The following interesting extracts on the Lumber Trade of Michigan are taken from the *Williamsport (Pa.) Gazette and Bulletin* correspondence:—

MESSRS. EDITORS:—Agreeable to promise made in my last month's communication from Bay City, Michigan, I have thrown together such items as I have been able to collect, relative to the great lumber interest of the Bay State, more especially that part of it which is produced on the Saginaw River and Bay. And I presume the magnitude of the business will startle many a Susquehanna lumberman who has hitherto deemed himself well posted in lumber matters, and did not hesitate to believe (and so express himself) that the article produced on the Susquehanna waters, and concentrated at and near Williamsport, would, as to amount and quality, generally bear a favorable comparison to the same product of any other locality in the United States. I believe the mill capacity in our Valley, within a compass of forty miles, does not exceed three hundred and twenty millions of feet, if run to the full extent, from the spring opening to the fall closing. Whereas there was really manufactured in the Saginaw Valley, in 1870, seven hundred and four and-a-half millions (704,500,000) feet of lumber, while the real capacity exceeded eight hundred and thirty millions of feet (830,000,000), to which there must be added for 1871, at least (70,000,000) seventy millions for new mills, making the aggregate over nine hundred million (900,000,000) feet. And all this is outside of the lath, stave, and shingle trade, which are of themselves enormous items of lucrative traffic, and furnish labor for many hundreds of men.

In 1870 there were in operation eighty-three mills of varied capacity and power, propelling sixty (60) mulay saws, (79) seventy-nine circular saws from four to seven feet diameter, and fifty-one (51) gangs (this does not include the Shore or Bay mills, whose number I do not exactly know, but whose capacity is over 148 millions). These eighty-three saw mills possessed a capacity of 665½ millions of feet. In referring to a table of statistics for 1870, I find the yield of

Lumber	704,500,000
Sawn Shingles	178,500,000
Pickets and Lath	62,250,000
Sawn Staves	11,250,000

The pickets, lath, and staves are all produced in the saw mills, and the shingles in twenty-nine separate establishments. One would at a cursory glance suppose such a vast product thrown upon the market would glut it to utter stagnation, but the facts are otherwise, for the lumber of Saginaw Valley is rising contiuually, having gone up from three to ten dollars per M feet during this present season. For instance, common went up from $11 to $14.00 per M, good from $35 to $45 and $50 per M, and ready at that, no dullness in the market—most of this manufactured stuff is floated from the Saginaw lumber yards direct to Detroit, Cleveland, Buffalo, Albany, and New York.

To the foregoing figures for 1870 I am authorized, by actual personal inquiry, to add, for 1871, nine to the saw mills, eleven to the shingle mills, seventy-two millions of lumber, and ninty-eight millions of shingles, and yet owing to the winter being bad for stocking, the crop of logs will almost entirely run out in the month of October, consequently the product from this enhanced number of mills will, for 1871, not vary much from manufactured.

Lumber	761,250,000 feet
Lath and pickets	109,000,000 "
Shingles	271,250,000 "
Staves	19,000,000 "

For the locality of the Saginaw Valley, including the Shore or Bay mills: and this does not take into account the product of about 15 mills in the interior, running principally on custom work, amounting to over 10,000,000 consumed in their vicinity. Also there is estimated about thirty-four millions more of lumber produced inland and brought to the Saginaw for shipment, making the aggregate in the vicinity of 795,250,000 but for this year. These are indeed enormous figures for lumber produced in our State, if it should indeed include the whole State. But it does not, only a small locality is represented here—*three counties* alone furnish all enumerated, while other localities are equally rich in the same material for wealth, though not as yet so fully developed. In fact the pine forests of Michigan not yet broken into are vast, but I am told the woods are "full of timber hunters," and the pine lands have taken a rapid stride upward within the last six months, and so they *will* continue to advance until *all* are located and in the hands of operative capitalists.

What I have said of the Saginaw Valley can easily be supplemented by other parts of the State; for instance, the log crop of Muskegon county, for 1871, is 292,779,107 feet, falling short of the crop for 1870, for the same locality, about fifty millions. The estimate for the year 1872 is already made at the figures of 324,604,290 feet, and I have authority for stating that the cost, or rather value of these logs at the several mills are nine dollars per thousand feet. This lumber finds market West and South. Then again, Flint, Grand Rapids, Grand Haven, and many other points, are fast assuming an importance in this trade that eventually will loom up to magnificent proportions, and pushing forward, the Wolverine State to overcap our own dear, romantic Keystone in the constellation.

The lumber runs well into the uppers, usually about 30 per cent. which brings the figures pretty well up. Therefore at an averave price—

Lumber, ft.	761,250,000 @ say	$27 00	$21,553,750
Lath	107,000,000 @ "	1 50	214,000
Pickets	2,000,000 @ "	6 50	13,000
Shingles	271,250,000 @ "	4 50	1,220,625
Staves	19,000,000 @ "	7 00	133,000
Salt	700,000 @ "	1 20	840,000
Total value			$23,974,375

Product of $4,179,000 invested, and the labor of about four thousand one hundred men.

The following items are from the Saginaw *Courier*:—

EDITOR COURIER:—In your issue of November 18, "Bay City Items," is a notice of a process for seasoning lumber by steam, of which I am the general manager.

Your informant has evidently made some mistakes in getting his information, or else he did not consider it worth while to inform himself of the true facts relating to seasoning lumber by this process.

This cylinder is 19 feet long, 5 feet in diameter, built of best boiler iron capable of sustaining a pressure of 120 lbs. to the square inch. This cylinder will hold 1,500 feet lumber, run in on a car, instead of 7,000 feet, and is treated by live steam under high pressure, instead of escape or exhaust. We treat a carload of lumber (or what the cylinder contains) in from three to ten minutes, instead of a few hours, and it is then stuck up in the atmosphere from ten to thirty days. In drying weather the effect is produced, according to the information of your informant, as thoroughly seasoned as lumber air dried for one or two years. The method is entirely new, the first of lumber being treated under high pressure of live steam.

SOME OF THE RESULTS OF THIS PROCESS.

The changes of the constituents of the lumber are to the effect of coagulating the albumen, mineral salts, sap, resinous substances, forming it into a mucilage and leaving it in the pores of the wood, making the fibre tougher and not impairing the color; less liable to swell in moist places or shrink in dry, hot air, making the lumber more durable, as the chemical changes, having destroyed that which ferments, necessarily prevents decay.

JOHN Y. CHAPMAN.

The *Courier* records the burning of the mil at Flint, and says:—

The loss is estimated as follows:—Mill building with machinery, two circulars and one upright, two shingle machines and one lath machine, $25,000; 200,000 feet lumber, uppers, say $80,00; 1,500,000 feet lumber, lower grades, say $25,00. Other, calamities in and about the mill and yard will probably foot up $5,000 more, making the gross amount as stated fully $26,000.

SAGINAW LUMBER MARKET.

Sales by cargoes about as follows:—

First clear	$40 00@45 00
Fourths	38 00@40 00
Box	33 00@35 00
Three upper grades	38 00@40 00
Common	14 00@15 00
Shipping culls	7 00@ 7 50
Lath	1 95@ 2 10
SHINGLES—	
Sawed A 1	4 00@ 4 25
Sawed A 2	2 25@ 2 75
Shaved—None in market.	

The Stillwater *Gazette* says the sales and shipments of logs and lumber are probably closed for this season. There are nine rafts laid up at the foot of Lake Pepin for the winter. Of these four are lumber rafts belonging to Schulenberg, Boeckler & Co., four log rafts belonging to Darant & Hanford, and one log raft belonging to Isaac Staples.

The Minnie Will took out eight strings a few days since, destined for Clinton, Iowa, probably the last departure of the season.

The tow-boat St. Croix took out a raft from the Chippewa river a week ago.

No important sales of logs or lumber are reported at Stillwater during the past three or four weeks. The prices of logs have advanced in the Stillwater market from $1.50 to $2 during the past sixty days—the ruling prices now being from $11.50 to $13 per thousand. At the various lumber points down the river the price of lumber, since the Chicago fire, shows an advance of from $3 to $5 per thousand.

The lumber mills of Red Wing have sawed during the logging season, as follows; Cogel & Betcher, 4,222,000 feet; Howe, Graves & Co., 4,120,000 feet, being a total of 8,342,000 feet.

Concerning the future the Stillwater *Gazette* says:—

We learn from parties familiar with the business, that more logging will be done in the pineries on the St. Croix and its tributaries during the coming winter than any season preceding.

It is estimated that about four hundred teams and between fifteen hundred and two thousand men will be engaged this winter, mostly by lumbering firms in this place. The average amount of logs cut 100,000 feet by each man—so that, taking the outside figures as to the number of men employed, we have 200,000,000 feet as the result of this winter's work in the pineries.

The largest amount cut in any season preceding this was two years ago, when the total amount scaled was about 190,000,000 feet.

The Chicago *Times* of last week contained the following:—

"When we take into account the fact that there was from 75,000,000 to 80,000,000 feet of lumber destroyed by the late fire, together with the unusually large demand for common grades for the erection of temporary buildings throughout the burnt district, the stocks now in hand are much larger than could have been reasonadly expected, and yard prices are much lower than they would have been, had not dealers, with a most praiseworthy liberality, kept prices at or near the same range that prevailed before the late fire. It is estimated by those in a condition to know, that the stocks at the present time are not much less than 100,000,000 under what they were at this date last season."

Last weeks report on the Troy market is given by the *Times* as follows:—

LUMBER.—During the past week the greatest activity has prevailed in the lumber market. Receipts have been light, but shipments have been very brisk, and the docks have been fairly humming with business. The slight rise of water in the river now allows the largest class of barges to load to their fullest capacity, and there is now a prospect that all the lumber sold can be shipped this season, particularly as navigation will probably hold good for at least two or three weeks longer. Prices are firm at our outside figures, and the tone of the market is very strong. Freights remain unchanged, and as there is now such a large number of canal boats offering to load for New York, they will not advance probably until about the last week of the season.

From St. John, N. B., we have the following:—

Deal Freights unchanged, offerings continue light, and shippers pretty well supplied. The only engagements we hear of are those of a Br. barque now in Providence, for Dublin, on private terms, and barque Cupid, 650 tons, for Dublin, at 76s. 3d. West India Freights dull—a scarcity of vessels prevails; a schr. of 153 tons, for Trinidad, P. S., at $8.50. Coastwise Freights continue active, vessels much wanted, and the market remains firm. We quote to Liverpool, 67s. 6d. @ 70s.; London, 60s.; Clyde, 67s. 6d.; Bristol channel, large size, 60s., small do. 65s. @ 70s.; Ireland, East Coast, 70s. @ 80s., according to size and destination; do. West Coast, handy sizes, 80s. @ 85s.; River La Platte, $16@17; North side Cuba, $8@8.50; South side, $9 nominal; Windward Islands, $8@8.50; Boston, Laths 75 c., Lumber $3.75; Providence, Laths 85 c., Lumber $4.25; New York, Laths 95 c., Lumber $4.75; Philadelphia, Laths $1, Lumber $5.

The following is from Wilmington, N. C:—

Shipping is very scarce at present and but little doing in this article. The City mills are selling cargoes at the following rates. Cargo rates for Pine Steam Sawed Lumber ₱ 1000 feet:—Ordinary assortment, Cuba cargoes at $17 @18; do. Hayti cargoes, $18; full cargo wide Boards, $20@25; do. Flooring Boards, rough, $22@23; Ship Stuff as per specifications, $23@24; and Deals, 3 by 9, $20@23.

The Pensacola *Mail* reports as follows:—

Very little Hewn Timber has yet come to market, owing to the low state of the rivers and creeks in Alabama. Quotations as follows:—60 feet average, 10 cents ₱ cubic foot. 70 do. 11, 80 do. 12, 90 do. 13, and 100 do. 14. There is little or no variation in Sawn Timber. We quote 25 feet average 12 @ 14 cents ₱ cubic foot, 20 do. 14 @ 16, and 35 do. 16 @ 18, delivered. Flooring still continues in good demand, but gang-sawed is generally preferred. Having heretofore met with heavy losses in shipping on consignment, or what are termed "speculation" cargoes, they prefer to supply orders from Lumber merchants at less prices. We quote prime Flooring Boards $17.50 @ 19 ₱ M feet, f. o. b.; ordinary sizes Cuba and Texas Scantling, $15 @ $16; special sizes and long lengths do., $16 @ 20; No. 1 Edge Boards, $10 @ 11; No. 2 do., $8 @ 9; S. A. market Deals, $17 @ 18; and English do., $13 @ 14.

METALS.—American Ingot has ruled very active, especially early in the week, and large sales have taken place aggreegating a million and a half pounds, principally for December and January delivery, at prices fully ⅛@¼c in advance of the transactions the previons week. The manufactures of copper are firm with a slight advance on yellow metal bolts. We quote: Ingot 25c; New Sheating 31c: Yellow Metal 24c, and Old Sheating 20@21c; all net cash. Scotch Pig Iron has ruled rather quiet, scarcity of stock restricting transactions. We quote: Glengarnock $35.50 per ton; Eglinton $34. The market is entirely bare of Coltness and Gartsherrie, the former held at $35 gold to arrive. American Pig is quiet as usual at this season, just at the close of navigation, but the general appearance of the trade is bright for the coming year. We quote No. 1, $36@37, No. 2, $34@35, and forged $33@34.

Refined bar is still held with considerable strength at the late enhancement of values, and the tone of the market tends to a still further advance.

We quote from store as follows: Bar Swedes, $107.50@120; refined, ordinary size, $90; refined, 1¼ to 6 by ¼ and 5-16, $95; refined, 1 and 1½ by ¼ and 5-16, $97.50; refined, 2½ to 3 round and square, $97.50; scroll, $107.50@137.50; ovals and half round, $107.50@125; band, $102.50; horse-shoe, $105@115; rods, 5-8 to 3-16 inch, $95@130; hoop, $112.50@160; nail rod, per lb., 6¾c. Common Sheet is rather scarce and the late advance is fully supported. We quote at 5¾@6 for single D and T, and 6@6½ for D and T Charcoal. Galvanized Sheet is quiet and unchanged. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 27½@30 per cent. to the trade. Russia Sheet continues firm but quotably unchanged. Sound is held at 18c gold. We quote at 17½@18c gold, according to number. Pig Lead continues quiet, the sales by the Government restricting business. We quote at $5.90@6.37½ for common to good foreign. Manufactured Lead is unchanged, but prices are firm. We quote at 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin is in only moderate demand, but in the face of this prices have been still further advanced on cable advices of higher prices abroad, closing firm at the enhancement. We quote in coin at 37c for English; 38@38½c for Straits, and 43c for Banca, all gold. Plates have ruled fairly active, and prices fully supported at the recent advance. We quote I. C. charcoal, $8.87½@9.25; I. C. coke, $7.75@8.75; Coke, $6.50@7.62½, and Charcoal Terne, $7.87½@8.50. Sheet Zinc is scarce, and sales are only in small lots for consumption at fully former prices. We quote Mosselmann at 10@10½c gold, with sales from store at 11@12c currency.

NAILS.—The market has shown a comparatively strong tone throughout, and business has been very good, the demand still coming from about all the regular sources, and taking average amounts. The distant interior buyers are probably less plenty, but there is an increase in the number from near by points, and these are urging the shipment of their goods with all the expedition possible, especially where canal transportation is depended upon, as this means of communication is very precarious at this season, and likely to cease at any moment, when, of course, the charges by rail must materially increase the cost of stock to dealers. The supplies now on hand are equal to the present outlet, and can meet it for some time to come, but stocks are not increasing to any extent. The export call is fair, but not likely to greatly reduce supplies at present. Prices remain very firm on all grades. We quote per 100 lbs.: cut, 10@60d, $4.65; cut, 8@9d, $4.90; cut, 6@7d, $5.15; cut, 4@5d, $5.40; cut, 3d, $6.15; cut, 2@3d, fine, $6.90; cut spikes, all sizes, $4.90; cut finishing, casing, box, etc., $5.15@$6.65; clinch, $6.15@6.65; horse-shoe, forged, No. 10 to 5, per lb, 19@33c. Other styles are selling as follows: Copper, 37@39c per lb; yellow metal, 24c do. The exports for the week are 598 pckgs, valued at $3,314; and since January 1st, 16,264, valued at $101,731.

PAINTS AND OILS.—Business in a wholesale way has been good, and even better than supposed during the past two or three weeks, a good many quiet sales having been effected, and the stocks in several cases now growing quite small. There are fair amounts of foreign goods expected, but even these cannot be considered as all available, as some of the leading styles have been sold with a little freedom to arrive. Prices, of course, under these circumstances are maintained without great difficulty, and have here and there advanced, while on all the standard goods the tone is rather buoyant, with sellers somewhat indifferent operators. The demand does not develop any speculative feeling that we can learn of, but appears to come direct from the regular trade. Jobbers have been doing a first rate business, and distributing to about all the regular outlets. About the greatest anxiety was shown on the part of buyers who hope to get their goods through via canal, and immediate shipments were positively insisted upon, even though a slight margin overruling market rates was paid for the accommodation. The stocks in store are pretty fair, but contain some broken lots. Linseed Oil has been quite dull, the moderate business doing being in the main confined to small jobbing lots. For this outlet the supply offering has been more than sufficient, and sellers were a little anxious to realize, giving values a depressed tone. The asking rate is about 73c, but some crushers will accept 72c, and outside lots can be obtained at 72c in casks.

Exports as follows:—

	This week.			Since Jan. 1, 1871.	
Paint.....pckgs.	8	value	$1,334	8,299,	value $135,314
Linseed oil, galls.	140	"	80	11,618	" 9,977
Oxide zinc, pckgs.	—	"	—	3,620	" 38,110

PITCH.—The stock continues light and fully former prices are strictly adhered to, while in some cases holders are demanding a slight advance. We quote prime city delivered at $4.75@5. Receipts for the week, 123 bbls; since January 1st, 1,011 bbls; for same time last year, 2,342 bbls. Exports for the week, 44 bbls; since January 1st, 2,668 bbls; same time last year, 3,550 bbls.

SPIRITS TURPENTINE.—The receipts have been more liberal, which has depressed the market, and prices show a decided falling off as compared with last closing without much strength. We quote merchantable and shipping order at 65c; and retail lots from store, about 67½@68c. Receipts for the week, 2,717 bbls; since January 1st, 63,136 bbls, and for the same period last year, 64,648 bbls. Exports for the week, 678 bbls; since January 1st, 14,824 bbls, and for the same period last year, 15,651.

TAR.—There has been a moderate demand, but prices are a shade easier, caused by more liberal receipts. We quote Washington at $3.37½@3.75; Wilmington $3.62½@3.75, as it runs. Receipts for the week, 261 bbls; since January 1st, 18,151 bbls; for the corresponding period last year, 46,614 bbls. Exports for the week, 227 bbls; since January 1st, 9,251 bbls, and corresponding period last year, 14,614 bbls.

JAMES TAYLOR.

No one should Build or Live in a House

WITHOUT EXAMINING OUR

ELECTRICAL APPLIANCES,

without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'

Burglar Alarm Telegraph.

This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION

is requested to our new

HOUSE ANNUNCIATOR,

An improvement upon the French system.

IT CONSISTS OF A SINGLE

CALL BELL AND ANNUNCIATOR,

in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by

ONE BATTERY, OR BY THE SAME BATTERY

that operates the

Burglar Alarm Telegraph.

It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have

An Attachment for Ringing Door Bells and Servants' Bells from the

TABLE OR DINING ROOM,

by placing a spring in the floor, and covered by the carpet. Also, for

Calling the Coachman from the Stable.

Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,

OFFICES:—

7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.

The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.

All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

BOYNTON'S
Portable "Salamander"
FURNACES.
Surface or Base Burners.

THIS NEW AND POPULAR PORTABLE FURNACE HAS BEEN TESTED IN LARGE NUMBERS during the past three years, and we feel perfectly SAFE in stating that there never has been a more SUCCESSFUL FURNACE introduced in the market, and one that has acquired so FAVORABLE AND EXTENDED A REPUTATION.

The SUCCESS of the BOYNTON SALAMANDER PORTABLE FURNACE for the past THREE YEARS has been so REMARKABLE, that we have been induced to adapt the THREE LARGEST SIZES TO BRICK WORK, and by the addition of a CAST-IRON RECESS FRONT, we are prepared to furnish a BRICK-SET FURNACE at a price almost as cheap as a PORTABLE, and one that we will GUARANTEE to give entire satisfaction.

They are adapted for Heating all classes of Private and Public Buildings.

Also, RANGES and STOVES in large variety.

We always guarantee the work we do ourselves to be perfectly satisfactory.

REAL ESTATE RECORD
AND BUILDERS' GUIDE.

VOL. VIII. NEW YORK, SATURDAY, DECEMBER 9, 1871. No. 195.

Published Weekly by

THE REAL ESTATE RECORD ASSOCIATION.

TERMS.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

OUR LUMBER REPORTS.

IT is quite amusing to observe the manner in which some of our exchanges from the distributing depots attempt to find fault with our lumber reports, one asserting that certain statements are entirely without foundation, and not borne out by facts, and another, rather better mannered, thinking we give rather doleful accounts of the state of affairs here, and calling the RECORD the great "bear" journal of the lumber trade, and so on *ad lib.* We are not much surprised that a paper failing to report the lumber market in the most buoyant terms should attract attention and be called to account, for it seems to be a settled practice, especially on the approach of Fall, to send out from the large lumber centres all sorts of extravagant statements in regard to short supplies, exhaustive demands, etc., until it would be reasonable to believe that the last log in the country was cut and on its way to the saw. Our market reports during the past year have shown some fluctuations in the volume of trade according to season, but on the whole a satisfactory aggregate of business to dealers at remunerative prices. When the movement was slow we did hesitate, nor had we any fear, in saying so, and when there was an increase of the call it was at once acknowledged, but a little revival of the demand was not distorted and magnified into a sweeping inroad of buyers who were to clean the yards of stock and run values up to an unheard of range. In fact, we have represented the position just as it was without regard to "bull" or "bear," and propose to continue on the same course in the future, though for the benefit of those who may think that a disposition to give matters a "blue" tone prevails, we will state that just the contrary is the case, as we are too thoroughly New Yorkers, both by birth and education, to overlook any opportunity for reporting our market in just as bright a light as truth will admit of. One great advantage we have over most papers making special lumber articles, is the fact that our markets are not prepared by parties in the trade who have an axe to grind, but by our own regular reporters, who have no other interest than to see that their reports are as near correct as possible, and who base their ideas upon information gleaned from all classes of dealers throughout the city. As for the extensive assortment of reports from other points, which we lay before our readers each week, in order that they can form their own opinion of the general condition of affairs, we notice that some of our exchanges find the collection a perfect mine for lumber items, and draw on it liberally without any sort of credit, and one journal, "down East," not a thousand miles from the "Hub," eked out its weekly lumber report for a month or two by sometimes using verbatim extracts, and sometimes a rehash from the letter of one of our correspondents on the subject of white pine.

NEW CHARTER PROVISIONS.

AMONG the schemes for bettering our municipal government before the New York and Brooklyn Reform Committees, is one by Mr. John B. Hodgkins, which seems to have attracted a good deal of attention. We refer to it here only because its adoption would seriously interfere with the real estate business as at present conducted. If we understand his plan Mr. Hodgkins wishes to tax city lots for improvements and assessments without any reference to whether they are built upon or not. Thus, if A owns a costly house on a 25 feet lot, he shall not be called upon to pay any more than B, who is possessed of a bare lot.

Of course the object of this curious provision is to force the improvement of property, and prevent speculation in unimproved real estate. If it were possible to get a charter enacted with so revolutionary a provision, its effect could not but be pernicious. It would be objectionable in all its workings. It is not desirable to stimulate building until there is a natural demand for new houses, and taxation, such as proposed, would mean the confiscation of the property of all who owned unimproved real estate within the city limits.

Among other schemes urged is one to consolidate New York, Brooklyn, and the lower portion of Westchester county into one municipality. This is inevitable some day, and might as well be done now as at some future time. We are one people so far as local interests are concerned, and with a proper civil service there is no reason why one local government would not gain in honesty and efficiency as much as it would in dignity and power. By all means let us have consolidation.

THE RECORD of November 25th first called the attention of the public to the disgraceful and unsafe condition of the Hall of Records of this city. The Grand Jury now in session have been prompt to present the matter to the Court, and after a personal inspection of the building report that they found it in a painful state of dilapidation—nothing really approaching fire-proof about it, and they recommend that immediate steps be taken to rescue the books and documents therein from their present peril. We hope the coming Legislature will grant an appropriation, and authorize the erection of a new fire-proof building suitable for the accommodation of the rapidly growing business of the Register's office.

BELGIAN PAVEMENT.

87th st., from 3d to 5th av.*

MARKET REVIEW.

BRICKS.—For North River Hards the market is somewhat firmer, but does not appear to be greatly excited over the closing of navigation, nor does the demand show any decided increase. The shutting off of supplies thus far has been in the main from the extreme "up river" yards, the "Bay" makers still being able to communicate with the city without much difficulty and showing a fair disposition to get stock forward. Buyers do not seem to be much alarmed at the prospect ahead and are inclined to move with a little caution, many of the dealers still remaining without an accumulation of stock, and talking indifferently when questioned as to the probability of making purchases. Builders, too, who buy and pile up stock for winter use seem to be holding off, and taken altogether the movement is a little below expectations. Still on the other hand the selling interest does not give way and as a rule the inclination is to hold out for pretty full figures. There appears to be no reason to believe that building operations are to fall off altogether or indeed that work is to run greatly behind the average, and the fact that the demand has been comparatively light so far, and that dealers have neglected to lay in supplies gives wholesale operators reason to think that the call when it does come will be all the quicker, and a general rush of buyers will at least sustain present views and may afford a basis of an advance. Current values, to be sure, are pretty full, and buyers—especially yard dealers—complain that they can see no money in submitting to the asking rates; but if the cold weather seriously obstructs navigation, and in consequence materially reduces the number of brick available, sellers gain much advantage. About $10 has been an average for the bulk of the business, but rather more sales were made at $10.25@10.50 for very prime and choice lots, and few if any cargoes sold below $9.50 per M. On New Jersey stock there does not appear to be anything new, about $8.50@9 covering most of the transactions, and the comparatively moderate offerings all finding a market. Long Island stock is quiet, though we understand that a few contracts have been made at about equal to the price on good North River grades. Pale Brick are probably meeting with nearly or quite as much demand as a week ago, but, as expected, the supply begins to increase somewhat, and with receivers offering their cargoes about as fast as they come to hand, the extreme price is modified somewhat, and only in exceptionable cases can $6.50 per M now be exceeded. On Croton Fronts the general report is "nothing new." There is some demand, of course, but it is neither quick nor general, and the supply exceeds the outlet on all qualities. Now and then there is some talk of asking higher rates, but dealers inform us that actual sales show nothing of an advance, and $12, $14, and $15 per M are still quoted for brown, dark, and red. Philadelphia Fronts by cargo are not selling, and rates nominal, but there is a distribution from yard about in proportion to other stock at $32@35 per M according to quantity, delivery, etc.

LATH.—The ideas of sellers are still quite strong and confident, as a rule, and many are inclined toward a continued advance in values until the regular season comes to a close. The market, however, has now reached a point where general buoyancy is less likely to be displayed, and there may indeed be something like reaction. Dealers, to be sure, do not, from all accounts, control a very large supply in yard, and builders' wants look large, but the increased cost is likely to diminish the consumption, and certainly has already induced greater caution, while manufacturers have now been enabled to fully offset the increased cost of transportation, and are likely to get forward all the stock they can. The supplies to be obtained, if really wanted, are fair as yet, and the majority of dealers seem inclined to accept all full bids as soon as made. Some few have talked of piling out, but none appear to have adopted this expensive course thus far. As we close, there is no stock on the spot, and very little offering to arrive; but the tone is most decidedly firm. Immediately after the close of our last report $3 was obtained, and this may still be considered the ruling value, with more buyers than sellers.

LIME.—Sellers continue to claim the advantage and may reasonably be supposed to retain it, as at the best the position is regulated pretty much as manufacturers may dictate, and at this season there is not much likelihood of a decline being accepted, except under the most positive necessity. Some competition from the Northern stock still retards the movements of Eastern a little, but there is not likely to be any great accumulation of unsold supplies here, and, indeed, a large number of the cargoes are disposed of before arrival. For the Northern or State lime there is a very good demand on the fine grades and full prices bid, especially lots well adapted to special manufacturing purposes; but the common grades continue in an unsettled nominal condition, and range from the regular market rate to 10@15c below, according to quantity, terms of payment, etc. Dealers continue to quote as cargo rates for all kinds at $1.35 per bbl for common, and $1.75 do for lump, but there has been so very few sales of late that these figures are merely nominal and more likely to be too high than too low.

LUMBER.—Dealers are distributing a fair number of small lots from day to day, on orders from about the usual average of buyers, and all are doing more or less business, but the yard trade is certainly far from active, and there is room for plenty more business. Stock continues to come to hand from coastwise sources, and the receiving and storing of this occupies considerable attention, and keeps a goodly number of men employed, but there is ample time for more deliveries than are now making, and a much larger outlet could easily be filled. Still, we hear no complaints of importance, the movement, such as it is, being profitable and probably on a par with all other articles of merchandise, especially at this season, when every one who buys goods is very apt to calculate closely to actual wants, in order to carry as little as possible over into the new year. On prices the previous range of quotations covers about the position, with extremes only insisted upon where quality of stock, quantity handled, terms of payment, etc., absolutely require it, and buyers not often enabled to operate at inside figures, unless they can show extraordinary good reasons for obtaining favors. The assortment is as good, if not better, than usual, and any reasonable selection can be made without difficulty.

The wholesale market remains quite firm for all styles of goods, but otherwise shows no features of general interest at the moment. The offerings are not large, nor are they expected to be at this season of the year, and the demand makes a place for pretty much everything coming to hand, with buyers in the majority of cases submitting to the the views of sellers quite readily, and now and then intimating that somewhat better figures would be paid for special accommodations. Manufacturers, however, are not willing to make any further contracts for this year, and they now confine themselves almost exclusively to turning out supplies on back orders, with now and then a lot to seek a market. At all points of supplies the tone is said to be very strong, and some application for contracts on the next crop at about ruling figures it is reported have been refused. Buyers, however, in most cases are rather cautious, and few can be made to believe that the period of lumber famine is as yet at hand. There appears to be rather more inquiry from exporters, and quite a number of odd lots are under negotiation on foreign account at full rates.

The market for Eastern Spruce is pretty steady, and sellers very reasonably expect to hold the bulk of the advantage from this time forward until the spring supplies commence to come to hand. Very favorable winds may possibly bring in a pretty large fleet occasionally, and cause such an accumulation as to make moderate concessions necessary, in order to work off the excess, especially on common grade; but that the general range of values can be greatly depressed is thought to be out of the question. Some few calls have already been made for contracts on next spring's production, but as buyers are unwilling to pay an advance, and manufacturers, partaking of the buoyant spirit current among most lumbermen, refusing to negotiate at ruling figure, very little has been done. As we close, the tone is firm and the supply small. We quote at $16@17 per M for inferior to fair schedules, and $17.50@20 for good to prime do. White Pine is fairly active, with a prospect of some increase, for, in addition to a very good outlet on home account, foreign buyers are commencing to look around, and their margins will in many cases admit of the payment of rates asked. Some of our dealers have been throwing out feelers in regard to next season, but find the rates asked are so high, and in some cases unreasonable, that the disposition is to allow manufacturers to cool off a little before any attempt is made to close contracts. We quote at $22@28 per M for good to prime box and shipping boards; $30 do for choice; $35 do for pickings do, and $45 do for selects. Yellow Pine timber and lumber are both in very good demand on special orders, and prime heavy and long sticks will command extreme figures. Random stock, however, has not much sale and is tame on price. We quote at $28@33 per M for random cargoes, and $35@40 per M for prime to very choice special cuts.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.
Africa	——	553,984	492,009
Alicante	——	——	41,700

Value	$3,204	$498,196	$582,845

We note additional exports as follows:—

To Liverpool, 66 logs maple, $1,035; 15,900 staves; to Bremen, 6,600 staves; to Glasgow, 2,400 staves; to Gibraltar, 10,000 staves; to Cadiz, 18,840 staves; to Danish West Indies, 7,000 hoops; to British West Indies, 950 shooks; to British Guiana, 600 shooks; to French West Indies, 3,046 shooks; to Cuba, 120 shooks; to Porto Rico, 5,696 shooks, and 770 bundles hoops; to Brazil, 1,013 shooks; to Argentine Republic, 300 shooks. The receipts reported are as follows:—From Jacksonville, 150,000 feet lumber; from Fernandina, 162,000 feet do; from Brunswick, Ga., 138,000 feet do; from Maine coast, two cargoes lumber; from St. John, N. B., 541,840 feet lumber, and 48,000 lath. Charters as follows:—A Schr., 397 tons, hence to Canary Islands, White Pine Lumber, $12; several from Jacksonville, with Resawed Lumber, $12,50 to New York, and $13 for Sound ports; two from Savannah to New York, $9.50.

The followine letter was sent to us from a correspondent in West Troy:—

Editor Real Estate Record:

Your position on the lumber question in last week's RECORD was *well taken* against the *Argus* people; and in confirmation of it we send you the enclosed slip from the Troy *Whig* report of the 25th inst.

Yours, respectfully,
HILL, OGDEN & VAN SCHOONHOVEN.

West Troy, Nov. 29th, 1871.

"LUMBER.—The season now drawing to a close, is marked in its last stages by very large shipments and very small receipts, leaving consequently the prospect of a very light stock to be wintered over. In a perfectly healthy and normal state of affairs, in the consuming districts, this would have induced great excitement, and led to an unusually high market. Such, however, has been the balance of contending elements, that the market while closing strong is still only quiet and firm, sellers being quite as willing to market their goods, as buyers to take them, while both parties seem to be satisfied. Even at the high rates current there is no material change in quotations."

From Portland, Me., we have the following:—

Inquiries continue for both Foreign and Coastwise, but there is a difference in the view of owners and shippers. The engagements since our last report are as follows:—Brig Spray Bloom, hence to Guadaloupe, at 30c for Sugar Hhd. Shooks under and 27c on deck; brig Amelia Ann, hence to Halifax, 22c on Flour; brig George Gilchrist, hence to North side Cuba, at the round sum of $2,300 out; barque Rachel, from St. John, N. B., to North side Cuba, and thence to Philadelphia, $7 per hhd. for Sugar, and $5 per hhd. for Molasses; brig George Burnham, hence to Cardenas, 35c for Molasses, and 40c for Sugar Hhd. Shooks and Heads; bark Ellen Stevens, hence to Matanzas, 40c for Hhd Shooks, and Heads. Coastwise.—There is a demand for vessels hence to New York, $3 for Lumber, and a large demand for tonnage at Bangor te load Lumber. Schr. Joseph Fish has been taken from Bull Creek, S. C., to Portland at $12.50 for Pitch Pine Lumber.

LUMBER ON THE ALLEGHENY RIVER.—A letter to the Erie *Dispatch* from Youngsville, Warren county, dated November 20, says:—

The recent flood in the Allegheny river and its tributaries, taken as a whole, injured as much as it benefited lumbermen. The water rose in the night with a rush, taking rafts that had been stuck in the channel all summer, and throwing them on the heads of islands and other more inconvenient places than those occupied during the dry weather. The water fell nearly as fast as it had risen, and by the time the owners of rafts, safely tied up in the eddies (many of whom were at their up-river homes, a hundred or more miles away), gof on the spot, the water was receding fast. Notwithstanding many ordered the cables slipped, only to be stranded on the shoals all along the river. A few got safely to Pittsburgh, but lumbermen in general are to-day in a more trying predicament than one week ago. As the vitality of the upper Allegheny depends upon the lumbering interests, it is sincerely hoped that a flood, sufficient for the safe removal of the large stock of lumber now rafted, may come soon. Pittsburgh, and other markets below, need our lumber as much as we need the avails of it.

The Troy Weekly *Times* says:—

LUMBER.—During the past week the activity in the lumber market has continued unabated. Receipts have been small, but shipments were very extensive. Quite a number of buyers were on hand, completing their orders for the winter's stock. It now looks as if all the lumber that has been sold will be shipped this fall, and a very bare market will be the result. Some articles of coarse lumber are entirely out of the market, and there will be no opportunity to get in a supply until next year. The tone of the market is strong, but there is very little inclination to take advantage of the present scarcity of some articles to advance their price.

The following is the amount of lumber shipped from the port of Bay City, Mich., during the years '64, '65, '66, '67, '68, and 69.

	1864.	1865.	1866.
Lumber, ft	141,806,301	154,727,945	160,927,330

Hoops	490,700	555,000	5,544,300

A correspondent of the Saginaw *Courier* writing from Standish, Mich., says:—

There are two saw mills and three shingle mills in active operation, which give employment to a great many men who, for the most part, have settled in the village, and are building houses, and clearing lots at a great rate. The occupation of a great part of the population consists in manufacturing lumber, shingles, hoops, railroad ties, telegraph poles, etc. Besides these, there are a great many employed

in the woods in the immediate vicinity of Standish, getting out logs for the mills around here.

Lumbering operations are going on briskly, and car loads of men and provisions going up to the lumbering camps on the Pine and Rifle rivers as fast as possible, with two trains daily on the route. The Whipple Brothers, have sold out their mill here to Cross, Wright & Co., and contemplate starting another saw mill near here. There is a good chance for farmers to settle here, as there is a great demand and quick market for produce. Land can be bought here from $2 to $10 an acre, which will raise good corn, hay, oats, etc.

The Boston *Commercial Bulletin* reports as follows:—

The demand for seasonable grades of lumber continues fair and most dealers have been fairly active since our last. There is considerable finishing going on, of buildings commenced some weeks ago, and if the weather will permit, the business is likely to hold out good for a month to come. The arrivals from the Eastward are large, especially of spruce, which is being taken on at the yards as a winter supply. The recent cold snap is shutting up the rivers, and lumbermen are hurrying up to get their stocks to market. The receipts from the West are light and prices are firm. Shingles and clapboards are in good supply, but the demand is very limited.

The following are the surveys for the week:—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	1,183,466	Spruce	2,804,092
Hemlock	206,199	Pine Tim. & Joist	4,615
Black Walnut	19,318	Hard wood	38,400
Total			4,256,090

The following are dealers' *wholesale* prices, and the range given covers the different qualities and grades, and those *paid* for consignments sent here from different sections.

Western Lumber.—Michigan Pine, Nos. 1 and 2, $52@58; No. 3, $43@48; No. 4, $35. Black Walnut, Nos. 1 and 2, $60@75; do. do. Culls, $40@50. Ash, Nos. 1 and 2, $40@48; 3d quality do. $30@35. Cherry, Nos. 1 and 2, $55@62; 3d quality do. 35@40. White Wood, Nos. 1 and 2. $36@44; do. ½, $28@33; 3d quality, $25@30. Oak, $45@50. Butternut, Nos. 1 and 2, $55@65; 3d quality, $30@35. Michigan Pine Saps, $40@43; do. Pickings, $35@38. No. 4 Michigan Pine Boards, $25@28. Best Michigan 6 in. Strips, $45@50.

Canada Pine.—Selects Dressed, $50@53. Shelving Dressed, $36@38. Sheathing, 1st qual., $45@47; do. 2d do., $30@32; Ceiling Dressed, $37@40. Dressed Shippers, $26@28.

Eastern.—Pine Clear, Nos. 1 and 2, $65; No. 3, $50; No. 4, $38@40; No. 5, $30@35. Common, Pine Shipping Boards, $21@23; No. 5, $20@22; Refuse, $16; Spruce, Scantling and Plank, $16@17; Boards, $16@17.50. Hemlock boards, $15. Laths, spruce, $2.25@2.37½ Hemlock, $1.75; Pine, $2.25@2.50.

Southern Pine.—Timber, resawed, $20@37. Flooring, Nos. 1 and 2, $30@36; Ship stock, $30@34; Hewn timber, $22@53; Refuse, $14@22.

Shingles.—Spruce, extra, $2.50; No. 1, $2@2.25; Shaved Pine, $6@8; Sawed, $2.50@6. Shaved Cedar, $4@6½; Sawed, $2.50@5. Extra 18 in. Sawed Pine, $2.75@6.25; do. 18 in. Shaved Pine, $7¼@7¾.

Clapboards.—Spruce, extra, dressed 4 ft., $37@38; clear, $27@28; No. 1, $18@20. Dressed, extra, 6 ft. 6 in. $48@54. Clear, 6 in. $45@50. No. 1, 6 in.. $40@46. Extra, 5½ in., $43@50. Clear do. $40@46. No. 1 do. $35@42. Pine extra, sap dressed, 60. Clear, 55. No. 1, $30@35.

The St. Louis *Democrat* says:—

The lumbermen throughout the country are just beginning to realize the loss to them by the destruction of 50,000,000 feet of lumber at Chicago. When we take into consideration that the most of the lumber destroyed was what is called "uppers," finishing boards, dressed flooring, etc., and was piled in the yards as selected stock, we can imagine the effect its loss will be on the market in trying to replace it with other qualities of lumber. Then the planing mills that were burned, and where the lumber was piled and in seasoning process, were located in that portion of the city where the fire was most effective. With the loss of these mills, and the imperative demand continually made upon this kind of lumber, there is no reckoning to what extent the influence of this loss is felt, or in what manner it may be sustained, but that there are remedies for replacing it with other kinds, such as yellow pine, poplar, etc., is manifest. Business at the yards during the past week was light, and transactions limited, while there was some improvement at the levee and depots.

Quotations for the past week have been for yellow pine flooring, green, $14@26; dry, $25@30; dimension, $17@18. Black walnut dull for common at 25@50, and brisk for good and choice at $30, 32.50, $35, $40, 42.50@45. Poplar in demand, and choice lots are especially inquired for. We quote boards and strips at $17@20, and $23@24 for good and choice. Oak at $20@24 and $30 to $42.50 on orders. Ash, $26@25 for mill-run lots. Sycamore, $18. Cypress, $16@20. Cedar-hewn, $18@23; sawed, $25@28; posts, $25@29 for good and choice. Vineyard poles, $20 per hundred. Yard business slack.

The Cincinnati *Gazette* reports:—

There is not much activity in the market, but the lower grades are firm at full prices. Hard green lumber is in fair demand, but the offerings are liberal at previous prices. We quote yard prices as follows:—

LUMBER.—Clear, per M, $55@57·50; first common, per M, $45@50; second do do, $30@32.50; third do do, $22.50@25; first common flooring, per M, $55@60; second do do do, $35@46; first do partition, do, $50@55; first common weatherboarding, dressed, per M, $30@32.50; second common weatherboarding, dressed, per M, $22.50@25; pine joists and scantling, per M, $22.50@25; hemlock do do, $17.50@20. SHINGLES.—18-inch sawed, per M, $5.50@6; 16-inch do, $4.50@5; 18-inch shaved do, $7@7.50. 16-inch do, $5@5.50. LATH.—Per M, $3.50@4. POSTS—Red cedar, per M feet, $8@10. And hard green lumber, on arrival at depots, as follows—Oak, per M, 23@25; ash per M, 22@24; cherry, per M, $25@35; walnut, per M, $30@40; poplar, per M, $20@23 do.

From the Providence *Journal* we obtain the following:—

Navigation having closed both East and West, the receipts of lumber for the season are over, save what is received by rail. All the mills have shut down for the season. Demand for lumber is active, prices firm and stock light.

The Savannah market is reported as follows:—

LUMBER.	
Ordinary sizes	$20 00@21 00
Difficult sizes	21 00@35 00
Flooring boards	20 00@23 00
Ship stuff	20 00@24 00
TIMBER.	
Mill Timber	$7 00@ 9 00
Shipping Timber	
700 feet average	9 00@10 00
800 "	10 00@12 00
900 "	12 00@14 00
1,000 "	13 00@16 00

FREIGHTS.—Coastwise vessels for lumber and timber are scarce and in demand, and are readily placed on arrival at full rates. We quote: Lumber to Philadelphia, $8@8.50; New York, lumber, $9.50@10.50; Sound ports, lumber, $9.50@10.50. Lumber to Boston, $10.50. To Baltimore, lumber, $8. The rates for timber are from $1 to $1.50 higher than lumber rates. To Cuba, $10. To River Platte, lumber, $23, and 5 per cent primage.

METALS.—American ingot continues in active speculative demand, and contracts have been made the past week for nearly 2,000,000 lbs at 25@25¼ cash, and 25½c for latter part of December, January and February, closing exceedingly firm, with holders strengthened by a scarcity of stock, higher prices abroad and the close of navigation, thus cutting off all supplies from the Lake Superior region until spring opens. The manufactures of copper are firmly held, but prices are not materially changed. We quote:—Ingot, 25½@25½c; New Sheathing, 31c; Yellow Metal, 24c, and Old Sheathing, 20@21c, all net cash. In Scotch Pig the market is generally quiet, the agitation of the tariff question restricting business. We quote: Glengarnock 35@$35.50 per ton; Eglinton $34. The market is entirely bare of Coltness and Gartsherrie, the former held at $35 gold to arrive. American Pig continues quiet, and now that navigation is closed stocks will probably accumulate. We quote No. 1, $36@37; No. 2, $34@35, and forged, $33@34. Refined Bar continues firm, with the tendency still towards higher prices. We quote from store as follows: Bar Swedes, $107.50 @120; refined, ordinary size, $90; refined, 1¼ to 6 by ¼ and 5-16, $95; refined, 1 and 1¼ by ¼ and 5-16, $97.50; refined, 2½ to 3 round and square, $97.50; scroll, $107.50@137.50; ovals and half round, $107.50@125; band, $102.50; horse-shoe, $105@115; rods, 5-8 to 3-16 inch, $95@130; hoop, $112.50@160; nail rod, per lb., 6¾c. Common Sheet is very scarce and the tendency toward better prices. We quote at 5¾@6 for single D and T, and 6@6½ for D and T Charcoal. Galvanized Sheet is quiet and unchanged. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 27½@30 per cent. to the trade. Russia Sheet continues firm but quotably unchanged. Sound is held at 18c gold. We quote at 17½@18c gold, according to number. Pig Lead meantime continues quiet, but the tone is, if anything, rather better. We quote at $5.90@6.37½c for common to good foreign. Manufactured Lead is quiet, but prices are steady. We quote at 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pide, all less 10 per cent. to the trade. Pig Tin is rather quiet and unsettled; the devices from abroad still report advancing markets which sorengthens holders, and they are only offering sparingly and at full prices, while buyers appear to be holding off. We quote in coin at 38¾@39c for English; 39@40c for Straits, and Banca 43. Plates continue in good request, with a firm and advancing tendency, in sympathy with the higher prices of pig. We quote I. C charcoal, $9@9.50; I. C. coke, $7.75@8.75; Coke, $6.50@7.62½, and Charcoal Terne, $7.87½@8.50. Sheet Zinc has been sold to the extent of all the available stock in first hands. We quote nominally at 10@10½c gold for Mosselmann.

NAILS.—Dealers still speak very encouragingly of this market and most of the reports made are quite strong. A good demand has prevailed from all quarters and was general enough to reach nearly every description of stock, while buyers were easy to please, and took quantities fully in proportion to the movements of other styles of goods. The stock is somewhat unevenly divided, some agents holding fair amounts and others experiencing a little difficulty in meeting their orders. Taken altogether, however, there is an accumulation sufficient for present needs, and, unless the demand further increases, an actual scarcity is not feared. Exporters are still to be found on hand, but the call comes in the main from domestic sources. Prices have undergone no change worthy of note and we retain former figures, with most dealers calling the position quite firm. We quote per 100 lbs.: cut, 10@60d, $4.65: cut, 8@9d, $4.90; cut, 6@7d, $5.15; cut, 4@5d, $5.40; cut, 3d, $6.15; cut, 2@3d, fine, $6.90; cut spikes, all sizes, $4.90; cut finishing, casing, box, etc., $5.15@$6.65; clinch, $6.15@6.65; horse-shoe, forged, No. 10 to 5, per lb, 19@33c. Other styles are selling as follows: Copper, 37@39c per lb; yellow metal, 24c do. The exports for the week are 158 pckgs, valued at $737; and since January 1st, 16,422, valued at $102,468.

PAINTS AND OILS.—The wholesale market continues to present a generally firm and encouraging tone. The demand on the spot may only be called fair, as jobbers are inclined to buy closely to immediate wants, and allow manufacturers and importers to carry the bulk of the stock until after inventories are taken and accounts straightened out, etc., a matter generally attended to during the present and early part of next month. For next year's delivery, however, a great many contracts have been entered into at full and, in some cases, higher rates, and sellers, in nearly every instance, appear to feel much confidence in the early future of the market. Chinese Vermilion, Orange Mineral, Rochelle Ochre, and zincs of most kinds have for some time been in small supply, but the first named is now more plenty. Whiting is doing well at extreme rates. Of Glues the accumulation and assortment is good and buyers a little fastidious as to quality, or wanting any considerable quantity have to pay extreme rates. The jobbing trade is not active but msy be called fair, and requires about the ordinary variety of goods. Linsced Oil has been in rather moderate demand and the sales made have not greatly reduced the stock, but the production is smaller and crushers begin to show a firmer tone. There is an absence of any pressure to realize, and for all makes the asking rate s now about 74@75c per gallon in casks.

Exports as follows:—

	This week.	Since Jan. 1, 1871.
Paint.....pckgs.	165, value $3.095	8,564, value $165,373
Linseed oil, galls.	— " —	11,618 " 9,977
Oxide zinc, pckgs.	— " —	3,620 " 38,110

PLASTER PARIS.—For several weeks past there has been a good demand for Lump, and dealers have experienced some difficulty in meeting all the calls made upon them. A scarcity of vessels and higher freight charges had something to do with checking the movement, though small supplies of rock was the main difficulty. During the summer working season there was an impression that the call this autumn would prove light, and the result was that less quarrying was done than usual and the error not discovered until too late to be remedied. Holders of what was ready, however, have, of course, reaped the benefit, and their sales were quick at full and advanced prices. Very little of even the poorest can now be obtained for less than $4 per ton, and some of the best lots have reached $5. For the fine grades the call has been in the main from our city manufacturers laying in stock for winter use, but of the common grades large amounts have been shipped to points along the Hudson, where they will be carried over until spring and then worked up into land plaster. This plan is necessary as navigation at the Eastward does not open early enough to get supplies forward in order to be of any benefit to the farmer. The imports at this point since January 1st foot up 42,895 tons. Calcined has been in good demand for local consumption and domestic shipment, and manufacturers disposed of about all they could produce. There has also been a little call for export. Pricee have shown irregularity according to brand, amount of goods sold, etc., but though some inferior lots went as low as $1.90, about $2@2.25 covers the general range for good merchantable stock.

PITCH.—There has been very little done in this branch of trade the past week. The supply continues light and holders firm in their views, but no actual advance has been reported. We quote prime city delivered at $4.75@5. Receipts for the week, nil bbls; since January 1st, 1,011 bbls; for same time last year, 2,342 bbls. Exports for the week, nil bbls; since January 1st, 2,668 bbls; same time last year, 2,575 bbls.

SPIRITS TURPENTINE.—There has been rather more activity the past week at steady prices, and at the close holders are quite firm. We quote merchantable and shipping order at 65c; and retail lots from store, 67@68½c. Receipts for the week, 2,305 bbls; since January 1st, 65,441 bbls, and for the same period last year, 66,485 bbls. Exports for the week, 55 bbls; since January 1st, 14,879 bbls, and for the same period last year, 15,781.

TAR.—The receipts continue rather free, which with a slow trade tends to weaken the market, and prices are a shade easier. We quote Washington at $3.37½@3.62½; Wilmington $3.62½@3.75, as it runs. Receipts for the week, 327 bbls; since January 1st, 18,478 bbls; for the corresponding period last year, 46,873 bbls. Exports for the week, 123 bbls; since January 1st, 9,374 bbls, and corresponding period last year, 14,826 bbls.

ALBANY LUMBER MARKET.

The *Argus'* report for the week ending December 5, 1871, is as follows:—

Severe winter weather set in last week, and a more sudden and unexpected closing of canal and river navigation has seldom been known. The mild weather of yesterday, and the heavy rain, gave promise that the river would open again, if not the canal; but the sudden change of last night to high wind accompanied by hard frost, have put this out of question, and navigation may be regarded as closed for the season. The calculations of a great many have been upset by this sudden closing. A large quantity of lumber brought for the winter's supply, will have to be wintered over here; much that is on board barges and canal boats remains frozen in on the river between this city and New York—in all not less than 25,000 feet. A large quantity of lumber is also frozen in on the canal, and will be attended with trouble and heavy expense in the care of it during the winter. The stocks remaining over in the District unsold are very light: much less than last year, with a scarcity of different kinds. The lumber unshipped on account of early closing will be held over on account of purchasers who, with few exceptions, in view of the prospect of advanced prices in the spring, will hold on to their purchases. The market closes very firm, with an upward tendency in prices. This year's business contrasts favorably in extent and results with the business of last season. The one was unprofitable and unsatisfactory; while this year a large and profitable business has been done. If Albany can only hold its own in the future as it has done the past season, there will not be much to apprehend from the sharp competition it has to contend with. It is worthy of being chronicled that one house has done the largest business ever before done in the District; its sales the past season amounting to nearly one million two hundred and fifty thousand dollars, while an increased business has been done by all the dealers.

Our figures of the Canal receipts show those of the last week of the season and the aggregate receipts of the season.

The receipts at Albany by the Erie and Champlain canals for the fourth week in November were:—

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	12,547,200	168	....	.....
1870	8,654,700	855	....	70,000

The receipts at Albany by the Erie and Champlain canals, from the opening of navigation to the closing of navigation were:—

	Bds. & sctl'g, feet.	Shingles, M.	Timber, cubic feet.	Staves, lbs.
1871	418,600,800	27,525	9,575	10,358,500
1870	434,411,600	21,167	1,250	17,092,960

River and Eastern freights are quoted as follows:

To New York, per M	$1 50
To Bridgeport and New Haven	2 00
To Norwich and Middletown	2 50
To Hartford and Providence	3 00
To Boston, soft wood	5 00
To Boston, hard wood	6 00
Staves, per ton, to Boston	2 50

Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House

WITHOUT EXAMINING OUR

ELECTRICAL APPLIANCES,

without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'

Burglar Alarm Telegraph.

This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION

is requested to our new

HOUSE ANNUNCIATOR,

An improvement upon the French system.

IT CONSISTS OF A SINGLE

CALL BELL AND ANNUNCIATOR,

in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house **RINGS THIS BELL AND ANNOUNCES THE ROOM** from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by

ONE BATTERY, OR BY THE SAME BATTERY

that operates the

Burglar Alarm Telegraph.

It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have

An Attachment for Ringing Door Bells and Servants' Bells from the

TABLE OR DINING ROOM,

by placing a spring in the floor, and covered by the carpet. Also, for

Calling the Coachman from the Stable.

Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,

OFFICES:—

7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.

The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.

All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

NEW YORK AND BROOKLYN.

WE hope that the gentlemen having in charge the new charter for New York and Brooklyn will see if they cannot come to some understanding as to the incorporation of these two cities into one grand municipality. The continued separation of them seems an absurdity. Their interests are identical, and most of the prominent residents in Brooklyn either do business in New York or own property here. Being thus involved in the concerns of our city, it is but fair that they should have some voice in its management. The Police and Fire Departments of the two cities should be centralized; and the administration of justice could be so arranged as to meet the legal requirements of both sides of the city. In every way this union would put a stop to a great deal of waste; and it would insure, too, a general improvement in the tone of our municipal politics if New York could take rank as one of the few very great cities of the world. Brooklyn and New York will soon be firmly bound together in a material sense by the new bridge; why should they not be united morally and politically? With Brooklyn joined to New York, and the lower part of Westchester included in the new grand municipality, our city would be one that all Americans might well be proud of. To be Mayor of New York would be to hold a more distinguished position than the Governor of the State. The Mayor should be a true representative of the dignity and splendor of the great corporation. He should live in state, and his residence should be one of the ornaments of the city. At his official dwelling the Princes the Grand Dukes, and all the other distinguished strangers who enter our gates should be received in a style befitting the Metropolis of the United States. Economy is well enough in its way; but the first city of the Western Hemisphere, wielding the commerce of the continent, should wear an imperial front to the whole world. It should emulate Florence, Genoa, and Venice in the days of their grandeur. With these added dignities, with this grand and noble tone pervading all our municipal life, there would be no danger of thieves and plunderers being admitted to high office. And now, while on the subject of the dignity of the office of the Mayor of the City of New York, we have a suggestion to make to our great merchant, Mr. A. T. Stewart. On the corner of Fifth avenue and Thirty-fourth street he has erected, at an enormous expense, a great palace fit for the residence of a prince. Now, if he wishes to perpetuate his name, let him donate this great house to the City of New York, to be used as the residence of the chief executive officer of the city, and we predict the time will come when the Fifth avenue palace will become as famous and well known as the White House is to-day.

A NEW HALL OF RECORDS.

FROM what we hear we are inclined to believe that the Register-elect, General Sigel, intends to urge upon the Legislature the necessity of building a new Hall of Records. The present accommodation is simply scandalous, and a disgrace to the city of New York. The destruction of our Records would be an appalling calamity, and measures should be taken to have copies made of every document affecting titles, so that in event of the destruction of the Hall, property-holders would not be put to the serious embarrassment of being compelled to prove their titles in the absence of records. The Grand Jury have represented this building as a nuisance. By all means let their hints be followed by the erection of a new Hall of Records, and better accommodations for the Register. There is no need of an expensive structure; but it should be entirely detached, and far enough away from other buildings to avoid the dangerous consequences of combustible neighborhoods—those "prodigal blazes" so lavish in a generosity of destruction. The building, too, should be both fire-proof and burglar-proof. Finally, we repeat it with emphasis, measures should be taken for the transcription of every paper that in any way affects the titles of property in the city of New York.

PROJECTED BUILDINGS.

The following plans embrace all that have been considered by the Superintendent of Buildings since our last report:—

FORTY-THIRD ST., N. S., 121 W. 2D AV., ONE two-story brick second class dwelling, 25x25; owner, THOS. MONYHAN.

FIFTY-NINTH ST., S. S., 105 E. 3D AV., THREE five-story brick tenements, 25x60; owner, J. G. BURCHELL.

FIFTY-FIRST ST., N. S., 75 E. 10TH AV., ONE four-story brick tenement, 25x60; owner, HENRY J. BURCHELL; builder, S. O. WRIGHT.

FIFTY-SECOND ST., S. S., 75 E. 10TH AV., NINE four-story brick tenements, 25x60; owner, H. J. BURCHELL; builder, S. O. WRIGHT.

MOTT ST., (NOS. 135 AND 137,) TWO FIVE-STORY brick tenements, 25x52; owner, A. O'NEILL; architect, JAS. BARRETT; builders, KELEHER & MORRISSEY.

SIXTH ST., N. S., 70 E. 2D AV., TWO FOUR-STORY brick dwellings, 19x50; owners, J. & J. B. VANTZEN; architect, JOHN MCINTYRE; builders, GEO. HEITFELDER, HOFFMAN & FANNING.

SEVENTY-SIXTH ST., N. S., 135 E. 3D AV., TWO four-story brick tenements, 25x80; owner, IRA DORGING; architect, J. G. PRAGUE; builder, T. MCCORMACK.

TENTH AV., E. S., BET. 51ST AND 52D STS., EIGHT four-story brick tenements, 25x60; owner, H. J. BURCHELL; builder, S. O. WRIGHT.

WASHINGTON ST. (NOS. 713 AND 715), TWO FIVE-story brick tenements, 49.3x50 and 47x50; owner, W. FOSTER; architect, P. TOSTEVIN; builders, RABOLD & TOSTEVIN.

WASHINGTON ST. (NOS. 782 AND 784, AND NO. 3 Bethune st.), three five-story brick tenements; owner, JOS. HAIGHT, JR.; architect, W. E. WARING.

ALTERATIONS IN BUILDINGS.

One brick dwelling, No. 3 East Fortieth street, four stories and basement, 27.6 by 65, two stories to be added to extension in rear; Mrs. Alden, owner.

One brick brewery, No. 326 West Thirty-ninth street, three stories, 67 by 56, one story to be added; A. Frick, owner.

Two brick stables, Nos. 70 and 72 Robinson street, four stories, 45.6 by 80, front walls to be taken out and rebuilt; A. S. Chamberlain, owner.

One brick and frame building, No. 7 Centre Market place, three stories, 25 by 33, first story to be taken out and rebuilt; J. H. Racey, owner.

One frame building, No. 1 Birmingham street, two and a half stories, 32 by 26, half story to be added; Mr. Morgan, owner.

PROCEEDINGS OF THE COMMON COUNCIL AFFECTING REAL ESTATE.

[* under the different headings indicates that a resolution has been *introduced* and laid over for further action. † indicates that the resolution has been passed by one Board and sent to the other for concurrence. ‡ indicates that the resolution has passed both Boards, and has been sent to the Mayor for approval.]

MARKET REVIEW.

BRICKS.—On the market for North River Hards, the firm tone noted in our last has been maintained, indeed increased if anything, and prices generally are somewhat higher, the long contest between dealers and manufacturers appearing to have been finally decided in favor of the latter, with a fair prospect that they can retain the advantage so long as they have anything to offer, and this period will of course now depend upon the state of the weather and the amount of ice in the Hudson. "Up-river" stock is now pretty well shut off, and most of the supplies must be drawn from Haverstraw and vicinity, while from the latter place the shipments are uncertain, as many vessels have of late been unable to leave owing to low tides, adverse winds, etc. Another cause tending to reduce the amount of brick offering is the fact that quite a number of vessels of late, after coming down and discharging cargoes, have hauled off and laid up for the winter. The general demand of late has not been remarkably active, and buyers were seemingly inclined to manifest considerable caution in their movements, but still the call was large enough to take pretty much everything offering, and probably an outlet can be found for all arrivals at the rate they now come to hand. As before noted, yard dealers have accumulated very little stock, and not much is piled up by contractors, but enough building is in progress to consume a fair number of brick weekly. On prices we should place the range for the majority of recent sales at $10.25@10.50 per M; very prime, $10.75 do; and some choice lots, $11 do; while common sell at $10, and some very inferior at $9.75 do. New Jersey stock is quoted at $9@9.50 per M, but somewhat nominally, as there is not much selling at the moment. Rumors are still current of sales of Long Island stock, but these reports do not appear to be confirmed. We understand, however, that manufacturers have fixed their price at $10.50 per M, and assert that they will ship nothing in this direction until the above rate can be obtained. Pale Brick is in very good demand, and shows a rather better tone with a recovery from the temporary depression recently noted, and the range now standing at about $6.50@7 per M. Croton Fronts are still quoted at $12@15 per M, but there can hardly be said to be any regular market rates, and about the best way to get at values is to show a desire to purchase, when it is probable that something easier than the figures named would be allowed. Philadelphia Fronts are in moderate demand but steady, with sales from yard $32@25 per M, according to delivery, etc.

LATH.—Receivers continue to talk firmly, and seem to consider the market as safe against any decided downward turn for the balance of this year. The supplies expected are small, and there is said to be little doubt that all the offerings will be wanted as soon as they reach port, and indeed a good many buyers are reported as constantly on the lookout to secure cargoes previous to arrival. Still the cost of lath at present does not show a very large margin for profit at the retail distributive rate, and unless dealers can discover a better prospect for the winter consumption than is just now shown, they are inclined to buy with caution. Not but that the wants of builders are fully as large as previously estimated, but this outlet is thought to be fairly provided for at the moment, and no one cares to carry an excess of stock. The very scant supply offering at the close, and several dealers on hand very anxiously looking after stock, gives much strength to the position, and prices may be placed at full $3.12½ per M, with sales rumored at $3.25. Indeed, just at the moment, Laths are firmer than any other building material,

LIME.—The market does not show many interesting features at the moment, business ruling pretty dull, and neither buyer nor seller appearing to take any very great amount of interest. All large movements may be considered as about over for the season, and the wholesale transactions are now likely to be confined simply to such parcels as may happen to drop in coastwise, and for these full prices are predicted throughout. The accumulation on hand is understood to moderate more, so it is thought, than for many years at this season, and this is a strengthening influence, and gives wholesale dealers much confidence. Jobbers, however, claim that they have bought sparingly because the prospect for a winter's business was poor, and they had no desire to have their money lying locked up in useless stock, and that even though the amount in yard is small, there will probably be enough for distribution to all buyers. Again the agents of the Northern kilns have as usual accumulated a considerable amount from which purchases can be made, and can even bring stock down by rail if needed, at a very slight increase over the present cost. The general advantage, however, is with the selling interest, and the market may be considered as pretty firm. We quote at the close at $1.35 for common; and $1.75 for finishing, but hear of no recent cargo sales.

LUMBER.—It appears to be pretty much the same old story with the great majority of the yard dealers, a light, irregular, and somewhat uncertain business doing, but aggregate at the end of the week footing up very fair, and probably as much as could reasonably be expected during the present month. The call also appears pretty general so far as it goes, embracing a little of nearly every style of goods, and working stocks

out evenly, though the accumulation is so well assorted that almost any grade of lumber could stand a pretty good run. Some few of the yards are minus certain parcels suddenly shut off by the close of inland navigation, but no dealer is likely to be inconvenienced by the absence of expected supplies. An arrival or two from coastwise sources occasionally requires a little attention, as the late summer contracts are just now coming to hand. Domestic shipments have improved a little since the river closed, but are not large, and no great amount of distributive trade is looked for. On prices we cannot discover that any important change is to be made. Sellers having stocks all in hand, and enabled to fairly control the position, are of course quite firm, but there does not appear to be any inclination to advance figures in the face of a slow trade prevailing.

In a wholesale way business is quite small, and confined simply to such few cargoes coming in coastwise unsold. The majority of these are disposed of without difficulty, and at pretty full rates, the market showing a firm general tone. Here and there we can learn of negotiations pending on contracts for next season's crop, but there does not appear to have been much accomplished thus far, most of the movements on both sides being more with an idea of testing the position than with any expectation of coming to terms. The end of the year too is approaching, and operators generally are rather disposed to straighten out and settle up old accounts before they enter into further engagements. Both buyers and sellers appear to feel pretty confident of the future, the one thinking the buoyancy of lumber values over-estimated, and a reaction sure to follow; while on the other hand prices are claimed to be below rather than above the range the position warrants, and that manufacturers are determined to obtain the prices asked or cease the production. This is the usual talk every winter, and as usual does not amount to much until some positive indications of the supply and demand can be obtained, as these are the actual influences.

Eastern Spruce shows nothing really new for the period under review. There is demand enough for all the stock coming to hand, and more could probably be placed to advantage, but buyers are not remarkably anxious and may simply be said to provide a place for cargoes upon arrival. This does not give receivers much of a change to spring the market or to insist upon extravagant rates, but the advantage is most undoubtedly in favor of the selling interest, and the tendency of prices toward a higher range. The demand for contracts on the next cutting continues to some extent, but in view of the very full terms asked buyers seem inclined to withdraw. The market closes dull but nominally steady. We quote at $16@$17 per M for inferior to fair specifications; and $17.50@$20 for good to prime do. White Pine continues in good steady demand in the way of small lots as wanted for manufacturing purposes and to fill export orders, and prices are pretty firm on all grades. Accounts from the interior continue extremely firm, and in some cases evidently too high to meet, though if we were to believe some reports, there would not be a stick of timber available next year, nor lumber of any kind except such as might happen to lay in retail yards. We quote at $22@$28 per M for good to prime box and shipping boards; $30 do for choice do; $35 do for pickings; and $45 for selects. Yellow Pine in demand with not much stock available, though an increased supply is expected, the mills having been very busy of late. Prices firm at $28@$33 per M for random cargoes; and $35@$40 for prime to very choice special cuts.

The exports of lumber are as follows:—

Value	$26,838	$525,934	$591,154

We note additional exports as follows:—

To London, 114 logs maple, value $1,590; to Havre, 25 logs maple, value $288: to British Australia, 96,000 lath, value $264; to Hayti 100,000 shingles, value $1,400, and 250 staves; to Antwerp, 8,700 staves; to Rotterdam, 15,260 staves; to London, 10,800 staves; to Glasgow, 2,400 staves; to Gibraltar, 32,880 staves; to British N. A. Colonies, 8,400 staves; to Havre, 2,000 staves; to Marseilles, 6,000 staves; to Bordeaux, 3,600 staves; to Cadiz, 254,000 staves; to Peru, 5,460 staves; to British West Indies, 6,135 shooks; to Cuba, 1,800 shooks, and 43,400 hoops: to Venezuela, 207 shooks: to Brazil, 599 shooks. Receipts reported embrace 300,000 feet lumber from Jacksonville, and 5,000 R. R. ties from Norfolk. The charters embrace:—A Brig from a Georgia port, to River Plate, 275 M Lumber, £22 and primage; a Schr. 139 tons, from Jacksonville to Jamaica, Lumber, $11, and back to New York with Logwood, $5 and port charges: five Schrs. from Jacksonville with Lumber, $12 to New York, affd $12.50@12.75 to L. I. Sound ports; one from Savannah to New York, $9.75; several Brigs and Schrs., from Southern Lumber ports to New York, at £12@12.25 from Jacksonville, $10.50 from Satilla and Doboy, and $9.50 from Savannah.

Latest mail advices from Rio Janiero report:—

Pitch Pine Deals.—45‖000@46‖000 per dozen of 14x-3x9.

One Inch Lumber.—Worth 105 rs. per foot.

The following is from the circular of Scannel Bros., of St John, N. B.:—

Deal Freights remain inactive, with very little tonnage offering. Some few charters have been effected since our last issue, viz.: One for Liverpool at 71s; one for Warrenpoint, 70s; one for Warrenyoint or Belfast, 70s; one for Queenstown and East Covst, Ireland, 82s 6d; and one for Cork Quay, 75s. West India Freights may be said to tend downwards; though shippers, thus far, have only been supplied by vessels arriving here from the Cape Breton Coal ports; which trade has this season been exceedingly active, and promises to increase. American vessels have not yet offered very freely, owing to the remunerative employment enjoyed by that class in their Coastwise Coal trade—rates for that business having advanced to about $3.50 from Philadelphia to Massachusetts ports. In Coastwise Freights an active business has been done and at higher rates. We quote as follows: To Liverpool, 67s 6d@70s; London, 60s, nominal; Clyde, Bristol Channel, large size, 60s, small do, 65@70s; Ireland, East Coast, 70@80s, according to size and destination; Ireland, West Coast, handy sizes, 80@85s; River La Platte, $16@17; North Side Cuba, $8@8.50, Shooks, 25@26c: South Side, nominal; S9; Windward Islands, $8@8.50; Boston, Lath, 75c, Lumber, $3.75; Providence, Lath, 90c, Lumber, $4.50; New York, Lath, $1, Lumber, $5; Philadelphia, Lath, $1.10, Lumber, $5.50.

The Maine rivers are all closed, and lumbering operations have commenced in real earnest. It is estimated that over one hundred million feet of lumber will be the winter's cut of the Kennebec loggers.

The Boston *Commercial Bulletin* reports as follows:—

The market for lumber remains quiet, though seasonably active, and most descriptions wanted for finishing purposes are readily taken at current prices. Arrivals from the East have been large in anticipation of a close of navigation on the rivers, and the yards are now pretty generally supplied for the winter. Western receipts are light, as most lumber from that section just now is used at home to build in Chicago and further points West. Prices are firm and unchanged. The supplies from Michigan next season are not likely to be shorter than usual in consequence of the late forest fires in that State. It is stated on the very best authority that not more than five per cent. of the standing pine timber has been touched, and of this amount there will not be more than one per cent. absolutely lost. The remainder will be cut this winter and prepared for market. The fires raged with greatest severity in the counties of Huron and Sanilac, from which the bulk of the pine had already been cleared. Gennessee, Isabella, Lapeer, and Midland counties also suffered, but the great pine region of Michigan now lies to the north-west of these counties, and it has entirely escaped the ravages of the fires.

The following are the surveys for the week:—

Domestic Lumber.	Feet.	Domestic Lumber.	Feet.
Pine	525,372	Spruce	1,327,121
Hemlock	439,982	Pine Tim. & Joist	12,990
Black Walnut	43,478	Hard Wood	67,107
So. Pine Flooring	32,496	So. Pine Pl. & Tim.	49,008
Total			2,497,554

The Troy Weekly *Times* reports as follows:—

LUMBER.—The severe and unexpected cold snap of last week brought the lumber trade to a sudden close. Fortunately, there were very few boats, considering the season of the year, loaded with lumber frozen in on the canals. But there is a considerable amount of lumber on canal boats and barges caught in the ice on the river. The early close of navigation has left unshipped much lumber which was sold and which is wanted below. The stock remaining on hand is generally thought to be light, but no accurate estimate has yet been made. The season just closed has been on the whole rather dark, although for the first two opening monahs, and the last two closing months, trade was fairly active. The gross amount of sales is less than for several previous years.

The Saginaw *Courier* reports as follows:—

SAGINAW LUMBER MARKET.

Sales by cargoes about as follows:—

First clear	$40 00@45 00
Fourths	38 00@40 00
Box	33 00@35 00
Three upper grades	38 00@40 00
Common	14 00@15 00
Shipping culls	7 00@ 7 50
Lath	1 95@ 2 10
SHINGLES—	
Sawed A 1	4 00@ 4 25
Sawed A 2	2 25@ 2 75
Shaved—None in market.	

"VALUABLE LUMBER COMPILATION."

Newspaper correspondents, in expatiating on the resources of the Saginaw Valley, get bewildered in the labyrinth of figures, and in writing of lumber feel that a discrepancy of a few hundred millions is a less observable difference than as many cents with the public debt. A correspondent of the Williamsport (Pa.) *Gazette and Bulletin*, has a long letter in regard to the Saginaw lumber market, which is republished in the REAL ESTATE RECORD, and the Saginaw *Enterprise*. The latter gulps the mess of figures, which it designates as a "valuable compilation." This Pennsylvania writer starts out with the proposition that there are 83 saw mills, etc., on the river, which cut in 1870, 704,500,000 feet of lumber. Facts—The Saginaw Valley mills, including those of Midland and St. Charles, cut, in 1870, 576,726,606 feet of lumber. Of sawn staves the writer enumeratea 11,250,000, while the facts are that there were less than one million. The writer further says that the lumber runs 30 per cent. into uppers, and the market price is $27 per thousand feet, which, if it were a fact, would make our lumbermen the happiest and richest of men. For a half-column newspaper article, so full of misstatements and absurdities, commend us to that published in the Williamsport *Gazette*. In conclusion, the writer estimates the lumber cut of the Saginaw mills for 1871, at 761,250,000, which is only about three hundred million feet of the actual figures.

LUMBER AT GRAND RAPIDS.—Wonderly & Co., proprietors of the Empire gang saw mills, Grand Rapids, effected a sale of 500,000 feet of common boards at $16 per M, in their yards. The Grand Rapids & India Railroad transports from 25 to 30 car loads of lumber to points in Southern Michigan and Indiana daily.

RAFTING ON THE SHORE.—The amount of logs rafted out of the Au Gros River the past season is 24,700,000 feet, and out of the Rifle River 55,240,500, as shown by the books of the boom companies. The amount of logs run out of the Au Gros in 1870 is 35,091,635 feet, and out of the Rifle, 80,427,714 feet.

The Chicago Evening *Post* says:—Saginaw is thronged with men who come there to seek jobs in the woods the coming winter. They are mostly from Canada, although not a few are from the State of Maine. There is so great a demand for laborers for the lumber business that lumbermen have caused bills to be posted in the Province of Quebec, offering good wages to the French population to induce them to come to the Saginaw Valley.

SALE OF PINE LANDS.—Pine lands are changing hands very rapidly this winter. W. S. Patrick has sold to William E. Dodge, of New York, 6,800 acres for $37,000; and George P. Cobb, of Bay City, has purchased of J. J. Curtis, of Massachussetts, 1,400 acres in town 17, north of range 3 and 4 East.

The *Enterprise*, published at Mt. Pleasant, Isabella county, in the midst of the lumbering district, says that large camps have been opened in all parts of that county where there is any timber, and the indications are that a very heavy crop will be banked during the winter. A much heavier amount of timber will be put in on account of the fires which have damaged large tracts of pine, and as this damaged timber depreciates very rapidly in value, every exertion will be made to put it afloat this season. The unusual activity in this branch of business is very apparent in the increased demand for laborers, the advance in wages, and in the price of farm produce, especially those articles most used in camp, the average price for good workmen being about $30 per month, while hay in the stack is worth $25; corn 85 cents; oats 65 cents, and potatoes $1.25, though it is true the destruction of hay by the fires and the shortening of the potato crop by drought and bugs has much to do with the advance of price in those articles. The increased activity in this branch of business is further indicated by the large amount of business done by all dealers in provisions, feed, clothing, and lumbermen's supplies, who seem to be enjoying a more bountiful harvest than ever before, notwithstanding the vast amount of that class of commodities which are daily brought in from abroad over the F. & P. M. Railway.

The Tuscola *Pioneer* says that a few days ago a contract was concluded between Mr. Scott, agent of Litchfield & Co. and William Fenner, of Juniata, by which the latter agrees to get out for said company 40,000,000 feet of logs. The timber is understood to be in the region of the Forks of the Cass, and is to be delivered at the Boon.

The *Courier* gives the following interesting statement of the movement of Saginaw lumber during the past season:—

The season just closed has been one of the most favorable for the lumber market for a number of years. The market opened early in the season flat, with a large stock on hand; toward the middle of the season the market was good, and at the close excellent. The stock of logs was not as large as last year, and in consequence several mills on the river "shut down" early on account of the supply of logs running out. The season of navigation closed early and abrupt, leaving more lumber on the river than there would have been by twenty to thirty million feet, had the river been kept open ten days longer. In consequence of the severe storms during November, nearly obstructing for a time lake navigation, the shipments for that month were lighter than they would have been otherwise. In the tabular statement below we show the shipments from Bay City and East Saginaw, for November, by lake, and those of the corresponding months last year; also the shipments for the whole river for the past three seasons:—

EAST SAGINAW.

	Nov., 1870.	Nov., 1871.
Lumber	27,580,250	25,003,825
Lath, pcs	2,400,800	1,800,200
Shingles	13,800,000	11,336,000
Salt bbls	19,478	13,017
Pickets	28,000	.....

BAY CITY.

	Nov., 1870.	Nov., 1871.
Lumber	22,701,210	37,660,603
Lath, pcs	2,891,450	3,439,000
Shingles	6,444,470	6,829,000
Salt bbls	39,556	49,475
Staves	.....	250,000
Hoops	2,006,000	500,000
Timber, cub. ft	.....	10,000

SAGINAW RIVER FOR WHOLE SEASON.

	1869.	1870.	1871.
Lumber, ft	474,912,425	487,480,268	516,629,474
Lath, pcs	46,425,909	44,417,634	46,294,820
Shingles	88,878,500	130,449,490	142,661,500
Salt bbls	480,480	481,894	516,892

The above figures are from the Custom House, and although perhaps not mathematically correct, are approximately correct. The shipments by rail for the year are correspondingly large, but we cannot give the figures at this time.

LOG STATEMENT.

From the principal boom companies, we have not secured the official report, which will probably not be given until after January 1st. From those rivers which we have heard from officially, and a close approximate estimate based on the number of logs, we are enabled to give the following statement of logs rafted out of the several streams which go to supply Saginaw mills for the season of 1870 and 1871:—

	1870. Feet.	1871. Feet.
Tittabawassee	347,041,240	266,000,000
Cass	60,492,233	55,850,000
Rad	14,894,521	1,000,000
Kawkawlin	15,552,099	25,000,000
Au Gres	35,091,635	24,760,060
Rifle	80,427,714	55,240,000
	553,949,432	444,790,000
Logs in boom from previous year	153,295,437	52,138,462
Logs for season cut	707,344,869	496,928,462

The Au Sable River furnishes a few logs for the Saginaw mills, but on the other hand a large portion of the logs run out of the Rifle and Au Gres are cut by Tawas mills. The Flint and Pine rivers on the shore furnish a few logs, and also the Pincogning and other shore streams, an amount that will probably be covered by 20,000,000 feet.

THE NEW INSPECTION LAW.

The new lumber inspection law went into effect for the first time this season, and we believe has worked more satisfactorily than the various lumber interests on the river expected. It was first inaugurated under a strong prejudice, which has gradually worn away, and we believe hereafter but little opposition will be offered to it. The appointment of Mr. Ed. Y. Williams, of Bay City, as Inspector General, was a good one, and one the manufacturers and dealers who urged it have had no occasion to regret.

Following is a statement of lumber inspected under the new law, which passed through the Inspector General's office:

	Feet.
Bay City District	95,938,734
East Saginaw District	52,036,193
Saginaw City "	43,913,194
Total	191,888,121

This amount is less than one half of the whole amount inspected on the river. This is explained by the fact that a large amount had been bought or contracted for early in the season, to be inspected the old way, and many manufacturers shipped to their own yards, thus avoiding inspection here.

THE MARKET—LUMBER ON HAND.

In a future article we shall give a review of the market, lumber on dock, etc., with a comparative statement with former years. The price of lumber is nominally our quotations. There is not to exceed 25,000,000 feet of unsold lumber—possibly much less—on the river, and as a consequence there is but little doing. There are few sales on next year's cut.

The *Courier* also contains the following:—

HOW TO SAVE BURNED PINE.—G. W. Smith, of Saranac, furnishes the following suggestion in regard to the way in which burned pine may be saved:—

It is supposed that there will be a great amount of pine timber that is killed by fire in Michigan and Wisconsin destroyed by the borers. But all the timber that is cut down between now and hot weather, and a little channel cut through the bark along the top, to let the water in, will not be disturbed by the borers. The sap will rot off and the main wood will remain sound. I think an axe struck in along the top in season will stop the borers. By this simple method a great amount of timber can be saved with little trouble.

G. W. SMITH.

SARANAC, Nov. 25, 1871.

The following is from the Muskegon *News and Reporter*:—

Jerome W. Mason, Marshal Lloyd, and others of our loggers, have returned to the city, reporting progress in the pineries at different points on Muskegon river. There is plenty of snow for sleighing and "banking" logs has already commenced in earnest. All of the heavy contracts are made, and the amount will rather exceed than fall short of 350,000,000 feet on this river and its tributaries, aside from the amount to be cut and put in by the mills above Newaygo. The woods are literally alive with men and teams; still the cry is for help, and additional forces are constantly coming forward.

For the following statement of lumber, shingles, etc., cut by the mills at Pentwater, in 1871, we are indebted to S. A. Browne, Esq. It will be seen that the manufacture of shingles is carried on very extensively in that locality:—

S. A. BROWNE & CO.

	Capacity.	Cut in 1871.
Lumber, feet	15,000,000	10,000,000
Shingle mill	18,000,000	15,000,000
Saingle mill	15,000,000	14,000,000
Lath	5,000,000	3,000,000

JOHN E. ELDRED.

Lumber	2,000,000	1,500,000
Shingles	50,000,000	28,000,000

MOULTON & FLAG.

Shingle mill, 1	12,000,000	10,000,000
Shingle mill, 2	12,000,000	8,000,000

BAILEY, UNDERHILL & CO.

Shingles	12,006,000	8,000,000

JARED H. GAY, AT CRYSTAL.

Shingles	16,000,000	3,000,000

The present owner has only run this mill about two months this fall.

The St. Louis *Democrat* says:—

The lumber business presents no new feature in prices over last week, but shows a demand for dimension lumber which has not been exhibited for several years past, indicating the shortage of the log this season, and scarcity of the article in hand. The low stage of water has seriously affected the business in getting logs down the river and to the mills, and, as a consequence, a heavy demand prevails at this time.

We now quote green yellow pine flooring at $17@27: dry, $28@30. Dimension—mill, new, $18. Poplar in demand at $19@21@23@24 for good and choice. Walnut, choice and dry in demand, and inquired for at $40@45, and very dull for common at $25@30. Oak and hickory in fair demand in small lots, at $30@37. Ash, $20@25 for mill run lots, and $26@28 on orders. Cypress, $16@18. Sycamore, $18. Cedar—hewn, $20@24; sawed, $30@32.50. Posts in demand at $26@29 for good and choice. Vineyard poles dull at $10 per 100

METALS.—With further advices of still higher prices abroad for Chili Bar, and no possibilities of any amount of supplies from the Lake region, the holders of Ingot copper have entire control of the stock, and under a very active speculative demand, have advanced their prices fully ½ per cent., and 2c for future delivery. Manufactures of copper are also higher, and held very firm in sympathy with Ingot. We quote:—Ingot, 26¾@27c; New Sheathing, 34c; Yellow Metal, 24c, and Old Sheathing, 20@21c, all net cash. In Scotch Pig iron there is very little change from last week, the market continues quiet, and runs are a shade lower, but as stocks are light they are held firm at the decline. We quote: Glengarnock $34; Eglinton $33.50@34, and Summerlee $35.50@36 per ton. American Pig is about as usual at this period of the year, and prices weak. We quote nominally: No. 1, $36@37; No. 2, $34@35, and forged, $33@34. Refined Bar is without change, but holders continues firm. We quote from store as follows: Bar Swedes, $107.50 @120; refined, ordinary size, $90; refined, 1¼ to 6 by ¼ and 5-16, $95; refined, 1 and 1¼ by ¼ and 5-16, $97.50; refined, 2½ to 3 round and square, $97.50; scroll, $107.50@137.50; ovals and half round, $107.50@125; band, $102.50; horse-shoe, $105 @115; rods, 5-8 to 3-16 inch, $95@130; hoop, $112.50 @160; nail rod, per lb., 6¾c. Common Sheet is very scarce and firmly held. We quote at 5½@6 for single D and T, and 6@6¼ for D and T Charcoal. Galvanized Sheet is quiet and unchanged. We quote at 12@13c for 14@20; 12¾@13¼c for 22@24; 13¾@14c for 25@26; and 15@18c for 27@29, all less 27½@20 per cent. to the trade. Russia Sheet is quiet and unchanged. Sound is held at 18c gold. We quote at 17½@18c gold, according to number. Pig Lead remains quiet, the close of navigation having checked the out-of-town demand. We quote at$5.90@6.37½c for common to good foreign. Manufactured Lead is quiet, but prices are steady. We quote at 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin early in the week under review was in active demand and large sales were effected, but toward the close became more quiet, though the holders continue firm. We quote in coin at 38c for English; 38½@39c for Straits, and 43c for Banca. Plates have been in active demand at generally higher prices: We quote I. C. charcoal, $9@9.50; I. C. coke, $8.25@8.75; Coke, $7.00@8.00, and Charcoal Terne, $8.25@8.50. Sheet Zinc is scarce and higher. We quote at 10¾@11½c gold for Mosselmann.

NAILS.—The demand is fair, but hardly so active of late, and the market begins to lose vim somewhat. The communication with the interior is now so much more costly that the buyers who are compelled to operate reduce their orders to the smallest possible limits, especially as the call is in the main from near-by points, and in case of any sudden emergency additional supplies can be obtained without great difficulty. There is some export demand, about equal to the average, it is said, for the season. Stocks on hand not large, but there is a tendency to accumulate on the least desirable grades, and the tone is only steady. Sellers, however, have not as yet offered any important concessions, and the general range of values remains about as before. We quote per 100 lbs.: cut, 10@60d, $4.65; cut, 8@9d, $4.90; cut, 6@7d, $5.15; cut, 4@5d, $5.40; cut, 3d, $6.15; cut, 2@3d, fine, $6.90; cut spikes, all sizes, $4.90; cut finishing, casing, box, etc., $5.15@$6.65; clinch, $6.15@6.65; horse-shoe, forged, No. 10 to 5, per lb, 19@33c. Other styles are selling as follows: Copper, 37@39c per lb; yellow metal, 24c do. The exports for the week are 445 pckgs, valued at $3,993; and since January 1st, 16,887, valued at $106,461.

PAINTS AND OILS.—Business is without remarkable activity in a wholesale way, but still there is enough doing to give an air of considerable life, and the Trade generally speak in very encouraging tones of the prospect for the coming year. A great many goods have already been contracted for, but some of the leading buyers who are known to want stocks have made up very few invoices as yet, and it is thought must soon commence operations on a more extended scale. The stocks here in first hands are small, the additions immediately due do not amount to much, and recent advices from abroad indicate that free shipments will be checked by the small amounts ready, especially of English goods. Prices quite firm, and in some cases slightly inclined to buoyancy. Jobbers are rather dull just now, owing to the reduced facilities and increased cost of communication with the interior, but on all sales insist upon extreme prices, especially for imported goods, though some standard domestic stock is doing first-rate. Linseed Oil has not been very active, but in a retail way the movement was fair, and the market has remained pretty steady generally. Crushers are not very willing to operate with freedom at present, as the ruling rates hardly allow a margin on the cost of production, while at the same time the stock on hand is moderate and fairly under control.

Exports as follows:—

	This week.		Since Jan. 1, 1871.	
Paint	pckgs. 70,	value $413	8,634,	value $165,786
Linseed oil,	galls. 391	" 316	12,009	" 10,293
Oxide zinc,	pckgs. —	" —	3,620	" 38,110

PITCH.—There has not been any transaction of moment during the week, but with no further supplies prices are a shade firmer. We quote prime city delivered at $4.37½@5. Receipts for the week, nil bbls; since January 1st, 1,011 bbls; for same time last year, 2,342 bbls. Exports for the week, nil bbls; since January 1st, 2,668 bbls; same time last year, 3,615 bbls.

SPIRITS TURPENTINE.—The market has ruled fairly active, the demand principally for shipping order, and with large sales this description of stock has become rather scarce and prices are higher, closing very strong at the advances. We quote merchantable and shipping order at 65½@66½c; and retail lots from store, 67½@68½c. Receipts for the week, 893 bbls; since January 1st, 66,344 bbls, and for the same period last year, 67,153 bbls. Exports for the week, 190 bbls; since January 1st, 15,069 bbls, and for the same period last year, 16,140.

TAR—Has been in fair request, but with continued free receipts prices are again a shade easier. We quote Washington at $3.37½@360; Wilmington $3.50 as it runs. Receipts for the week, 379bbls; since January 1st, 18,357 bbls; for the corresponding period last year, 46,943 bbls. Exports for theweek, 9 bbls; since January 1st, 9,383 bbls, and corresponding period last year, 14,910 bbls.

Cor. 50th Street, NEW YORK.

Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House

WITHOUT EXAMINING OUR

ELECTRICAL APPLIANCES,

without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'

Burglar Alarm Telegraph.

This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION

is requested to our new

HOUSE ANNUNCIATOR,

An improvement upon the French system.

IT CONSISTS OF A SINGLE

CALL BELL AND ANNUNCIATOR,

in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by

ONE BATTERY, OR BY THE SAME BATTERY

that operates the

Burglar Alarm Telegraph.

It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have

An Attachment for Ringing Door Bells and Servants' Bells from the

TABLE OR DINING ROOM,

by placing a spring in the floor, and covered by the carpet. Also, for

Calling the Coachman from the Stable.

Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,

OFFICES:—

7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.

The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.

All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

One year, in advance.....$6 00

All communications should be addressed to

C. W. SWEET,

7 AND 9 WARREN STREET.

NO receipt for money due the REAL ESTATE RECORD will be acknowledged unless signed by one of our regular collectors, HENRY D. SMITH or THOMAS F. CUMMINGS. All bills for collection will be sent from the office on a regularly printed form.

HINTS TOUCHING MUNICIPAL REFORMS.

THE articles which have recently appeared in the RECORD respecting those modifications which should be made in our City Charter to insure good government, have, we find, attracted considerable attention in influential quarters, and are likely to produce some fruit. It is a most extraordinary feature of the recent newspaper discussion of municipal affairs, that nothing whatever has been suggested in the way of amendment—nothing which is of the slightest practical value. Beyond denunciations of corporation officials, and vague declamation as to what is needed to insure the purity of our City Government, no tangible scheme whatever has been proposed. The most absurd of the suggestions which have been made is that which insists upon our men of business turning politicians. Now politics are a means, not an end; and it is quite impossible that people whose best energies are given to the service of society in the way of business, should devote their valuable time to scheming against trained politicians in primary elections, caucuses, and conventions. What we need is some self-acting machinery in the Charter, which, against the greed of plunderers, will pit the self-interest of the tax-paying classes. The one point which we have urged from the beginning, and which we propose to urge until the final adoption of the Charter, is that the large tax-payers of the city of New York should be made directly responsible for the correctness of all bills and charges made against the municipality. In other words, we want the Legislature to designate William B. Astor, A. T. Stewart, Judge Roosevelt, the President of the Trinity Church Corporation, and other well-known and responsible tax-payers, to the number, say, of one hundred, as a Board of Audit, to see to the correctness and validity of every bill which the city is asked to pay. This Board of Audit, be it understood, must have no legislative authority whatever. All it should do is to veto the payment of an exorbitant or unjust monetary demand. We insist that this is at once the simplest and most feasible plan for the correction of those irregularities which have crept into our financial system. It is idle to talk of electing tax-payers to certain Boards; the Constitution of the State forbids that. But it is without the power of the State to forbid those citizens who are most affected by exorbitant taxes from sitting in judgment upon the bills. Such a tribunal could be added to the civic machinery by some supplementary act passed after the Charter had been adopted. In this act a certain number of gentlemen might be expressly named, and the power might be conferred upon them of adding to their body a sufficient number of other prominent taxpayers (rated at not less than $500 per year on real estate), to completely organize the Board.

The other needed reform would be the application of the current notions of Civil Service to our city administration; and it is curious to notice that not one of the party papers has even alluded to the necessity of this most important and desirable provision. The Legislature, in this new charter, should declare that all the minor offices in the gift of the city and county should be thrown open to competition; and that every lad who had been educated in our public schools, and had followed, for three years after leaving school, certain prescribed studies, should be put down as eligible for clerkships or other suitable offices, in the various Departments of the City Government. At the same time, all city officials of *every grade and rank* should be prohibited from membership or association with any political club; and moreover, should be immediately deprived of official employment, if it was found that they furnished money to any party, or for the purpose of electing any candidate. Such regulations as these would cut at the very root of all our city difficulties. "The spoils" it is, in the first place, which give to politics their perennial corruption; and in the next place, it is the part which public officials are not only permitted but incited to take in municipal contests. Their bread is made to depend upon their unblushing and scandalous partnership. But their business is to serve the city—not a party, nor themselves.

It is not at all improbable that a party legislature will oppose any such stringent measures as those we have indicated above; but, in such a case, honest tax-payers will not be slow to perceive that those who are now clamoring loudest for reform mean nothing more than a change of office-holders, so that they may get a share in the public plunder. The general impulse and clamor for reform is no doubt a goodly sign of the times, but we seriously doubt the motives of many of those persons who are most prominent in the movement.

These two reforms, however, would, we think, of themselves cure all our city troubles. It is of course desirable that the Charter should be perfect in other respects. The Mayor ought to be the one sole responsible head of the City Government. The Aldermen should be elected on some system that would give the minority a voice in the proceedings of the local legislature—in other words, we should have some system of minority or personal representation. But all this is of minor importance compared with the reform of our City Civil Service, and with the appointment of a Board of Audit of tax-payers having a direct pecuniary motive in insisting that none but honest bills be paid.

There is one other point of reform worth consideration, and that is, the division of the duties of Comptroller among several officials. While we hold that there should be, as now, one chief responsible head of the Finance Department, it is obvious that the business of the city and county is so large and important, that it is impossible for one man to grasp all the details, and properly disburse the thirty millions of dollars which is about the sum of our annual expenditures. Accordingly, it would seem advisable to have one officer to pay the legislative salaries, and be responsible for everything connected with that department; another officer should attend to the interest account; a third should look after the assessments; another should attend to the miscellaneous claims; and so on through all the department—so many officials acting under one head, and all responsible to the Mayor for every line of ordinary disbursement. Under such a plan, and with the scrutiny of the people's Board of Auditors, together with the frequent publication of the financial status of the city, there would be little danger of a recurrence of those scandals which the citizens now so justly deplore.

THE GAS QUESTION.

THERE is a general feeling among our citizens that they are not well served in the matter of gas. The complaints are that the gas is of extremely poor quality, while the price charged is unconscionably high. To remedy these grievances there is but one thing to be done, and that is for the City Government itself to take this matter in hand, and supply gas as it now supplies water. With all the rottenness of our city management in the past, there is no disputing the fact that in the matter of water the citizens have been well served. In London, where the water supply is in the hands of private companies, the same difficulties occur as with us in the matter of gas: the quality of the water is not good, the dues are extortionate, and the whole service unsatisfactory. The fact is that all natural monopolies, such as gas and water, should be under the supervision and government of the community itself. It

would be safe to predict that the city could supply gas at one-half the cost and one-third better in quality than the local companies have been able to do for some years past. From the very nature of the case, the first consideration in a gas company is the profits of the stockholders. It is organized to make money, and that function it must fulfil, whatever else it does. The service of the community is always a merely ancillary motive. But in whatever is done by the city, the comfort and convenience of the citizens is always the paramount consideration, even when the heads of departments are themselves public plunderers. Of course, however, we would not advise this change unless a proper civil service was organized for the municipality. If the Department of Gas was to be worked as the Street Department has been worked, it would be an almost unmixed public evil; though it is open to doubt whether under the worst city management we should be so badly treated as we now are by the gas companies.

GOLD AND REAL ESTATE.

THE decline in the premium on gold which has been going on for the past ten days may have a very important bearing on the prices of Real Estate. If gold goes down to 105 the silver money which would immediately be thrown into circulation will give an upward impulse to prices. It will be the same as if twenty or thirty millions of dollars were added to the general circulation of the country, and which of course would have an inflating effect upon all prices. Let the premium upon greenbacks become nominal, and immediately there would be added to the circulation all the gold which is now held as a commodity. The effect of this must be simply tremendous. A fever of speculation will seize upon the whole country, and values will go kiting in a manner which we have not witnessed since 1865. It has long been held by persons conversant with the effects of paper money that we should never return to specie payments and a convertible currency until the country had seen an immense movement in real property—a return to something like the fever of 1837, only with a far more substantial basis of values to work upon. The immense extension of the railroad system of the country has rendered possible the growth of population in all large cities. This has not been discounted as it might be. Once assured of a steam communication from the Battery, through our island, to Yonkers and New Rochelle, and there would be an immense local excitement in real estate. All these contingencies should be borne in mind by holders of this kind of property. In past times we have been inclined to caution dealers against indulging in too high expectations as to values. But should gold and silver again become money, and circulate side by side with the great masses of paper money now in the country, and should the government, at the same time, do as it promises to do —reduce taxation and lower the tariff—we should enter upon a season of business activity such as this country never before saw. A very great part of the use of paper money is as a medium passing between private individuals and the government in duties, taxes, and so on. A reduction of the taxes, therefore, would cause the retention of large sums to be employed in traffic and trade. We judge that if the reduction of taxes is made during this coming session of Congress, the effect would be a rise in the premium on gold, as the proportion of paper money in the business of the country would be largely increased, and would hence become of less intrinsic value. At any rate the year 1872 promises to be a lively one in every respect. Usually the year of the Presidential Election is a bad business year, on account of the political excitement; but notwithstanding this impending turmoil, there is every reason to believe that it will be an exceptionally busy period.

CITY STEAM TRANSIT.

THE most influential members of the West Side Association still seem to favor an underground rather than a viaduct or overground road. They point to the fact that there is one great underground road in operation, that of London, where viaducts, though used to bring freight and passengers into the city, are not deemed suitable for local city traffic. "But one swallow," says the proverb, "does not make a summer;" and one successful road does not exhaust all the resources of engineering skill. It is certainly pleasanter and more healthful to ride in the open air than in an underground, artificially lighted tunnel. The soil of London is dry and sandy; that of New York is a moist, sticky clay. This would certainly make some difference in the travel of the two cities, for the environment must affect the atmosphere of the tunnel. We still think that Commodore Vanderbilt would be the proper person to give New York what it needs for its immediate wants. Steam communication with his great depot would be an immense accommodation to the down-town travelling public, and he should be called upon to furnish it.

Among the other schemes afoot is one by the Third Avenue Company, which offers to build a steam road over the centre of the street. It is a powerful corporation, and its measures will bear scrutiny.

MARKET REVIEW.

BRICKS.—There is not much of a market for North River Hards, indeed, in a wholesale way the market may be said to be virtually over for the season. A few cargoes occasionally straggle in, and are readily disposed of at very full prices, with plenty of room for the sale of still more stock, but the receipts are too uncertain to admit of any regular or positive basis of values, momentary influences making a difference frequently of 25@50c per M. For a general range $10@11 per M may be given as about a fair quotation, and can be obtained without much difficulty; but if two or three buyers happen to be awaiting an arrival and are all a little anxious, sellers find the competition strong enough to admit of asking and getting something better. On the other hand, however, if customers are not in waiting, receivers are willing to offer at the above rates, which admit of a good margin for profit, and, indeed, were it possible, a very large amount would undoubtedly be forthcoming, as the most strenuous efforts are being made to get cargoes into market. Manufacturers have a pretty large stock on hand, and would be pleased to realize upon it at the prices now to be obtained, but the ice embargo prevents free shipments. The demand direct from builders just now is not large, but dealers in many cases find they have held off a little too long, and begin to feel the necessity of having stock, though we do not think that any one buyer would take a large amount, the comparatively free outlet arising mainly from the fact that pretty much all retailers have worked on the same policy and are short of supplies. Dealers in New Jersey stock state that the ice shuts off all communication with the points of production, and in the absence of leading sales call the market nominal at about $9.50@10 per M. Of Long Island brick there does not appear to have been many sold thus far, but it is thought that ruling rates will draw out an increased supply. Pale Brick are firm and sell readily when offered at about $7 per M, but the supply is small and the market slow. For Fronts there is not much demand, while prices may be called steady for Philadelphias, and more or less nominal for Crotons.

CEMENT.—With the closing of the river the wholesale market for Rosendale virtually came to an end for the season, and the position has since been somewhat nominal. The quotation current is $1.75 per bbl, which was the cargo rate when the ice shut off supplies, but it is probable that not many, if any, purchases could be made at this figure, and we understand that some manufacturers, in order to meet only partially filled contracts, have bought from dealers and paid as high as $1.90 per bbl, while in small lots from yard on consumptive distribution the rate is variable, according to quantity, delivery, etc. The stock accumulated here is generally understood to be small, though in some quarters it has been intimated that fair amounts have been quietly laid away, and that manufacaurers themselves have stored up a quantity in Brooklyn. Foreign not very plenty, but selling slowly, and worth $1.50@6 per bbl, according to quantity, quality, etc.

LATH.—Any arrival of stock just now would be likely to find a very good market, as there is no danger of large amounts coming to hand, and there is plenty of room for a few extra cargoes. A good many dealers have not secured all they are likely to require, and would be pleased to make up the deficiency at a pretty full figure. The wholesale market, however, may be considered as virtually over until spring, and rates for cargoes more or less nominal. The yard rates are somewhat uncertain as yet, and some sales are making at a very small advance over the quoted wholesale figure, but in reality there is not enough business doing to fully establish a market, and the movement is likely to drag somewhat until after the opening of the new year, though there is said to be work enough laid out to consume the entire accumulation here, and all likely to come to hand by spring. As we close, the market is extremely firm, and a few odd lots recently received commanded a further advance, about 1,000,000 lath selling at $3.50 per M, and wholesale dealers say they could do still better had they stock to offer.

LIME.—There is little if anything new since our last on the general features of this market, business keeping down to moderate average, with no prospect of an early improvement. Nothing of importance arrives, and, indeed, a large offering could hardly be disposed of just now, even if it should come to hand, as few calls for cargoes are made, notwithstanding the small stock in yard, and the retail distribution at the same time proving moderate, there is not much to give life to the market. Now and then a dealer is found who is a little anxious to secure a wholesale invoice to put in store, and these wants can be and are met to some extent from the supply accumulated by the Northern agents, in view of such a demand. We have heard of some sales of "State lime," so called, at a very low figure, but they seemed to be from unknown kilns, and really did not amount to enough to warrant a quotation. As we close there is nothing of special interest to be presented, the market remaining nominally at $1.35 per bbl for common, and $1.75 per bbl for lump.

LUMBER.—We should be very much pleased to relieve the minds of some of our interior friends, who seem to think our remarks are not quite buoyant enough, by reporting an active and stirring market; but our weekly perambulation among the yards fails to show any increase of business, and some dealers are actually willing to acknowledge that they are not doing quite so much. Buyers are to be found nearly every day, of course, but they take just what they want for immediate consumption and no more, preferring to operate on the hand-to-mouth plan for the present. The Trade have been entertained all the summer and fall by reports from interior points of supply of great scarcity of lumber; but some way or the other our dealers have managed to find enough, and brought it through, too, notwithstanding the early freeze, and there probably never was a better assortment, and probably never a much more plentiful accumulation, than that now on hand. A goodly amount of it was bought cheap also, as compared with the prices *asked* at some of the leading points of distribution towards the close of the season, and can be sold at fair profit without putting prices above the figures current for several weeks past.

There can hardly be said to exist any regular wholesale market at present, as most of the leading sources of supply are shut off by the ice, and receipts are uncertain, and at the best quite small. This, however, enables sellers to retain most of the advantage, and such lots as do come to hand find a very ready sale and command full figures, especially where the quality is in any way desirable. Agents and most buyers are now engaged in preparations to settle to arrange, and settle up contracts on the deliveries of last season, and this has a tendency also to retard business, as operators generally desire to as certain how they stand before entering into fresh engagements. The views of manufacturers, however, are still reported as very high, and there is the usual expression of an adamantine determination to make no concessions from the rates now asked. Buyers, however, have heard this same thing before, and are not greatly alarmed. Exporters are looking around a little more freely, and owners of goods suited to the foreign markets think they see indications of a better trade within a few weeks, though small and frequent orders seem more likely to be given than any call for large invoices.

Eastern Spruce is to a great extent nominal at present, the supply coming to hand being small and uncertain, and in reality not enough to establish a positive value. Everything sells, however, when offered, and receivers are pretty sure to ask a stiff figure for a schedule containing anything like a fair assortment, and former figures are undoubtedly plenty low enough to quote. We understand that a few contracts for special cuttings, such as are not very likely to be affected by a considerable change in the market, have already been concluded, but on ordinary orders buyers are still somewhat indifferent and hold off, in hopes that manufacturers may be induced to grant somewhat easier terms. As we close, the market is steady, with a few sales recently made. We quote at $16@17 per M for inferior to fair specifications, and $17.50@20 for good to prime do. White Pine is called very firm generally, and some holders say is likely to advance before other grades. The demand at present, however, is moderate, and the market shows no very interesting features worthy of extended remark. We quote at $22@28 per M for good to prime box and shipping boards; $20 do for choice do; $35 do for pickings, and $45 for selects. Yellow Pine in fair demand and former prices current, but dealers do not appear to be altogether satisfied with the position, and some complain of extreme dulness. We continue to quote at $28@33 per M for random cargoes, and $35@40 do for prime to very choice special cuts.

The exports of lumber are as follows:—

	This week.	Since Jan. 1.	Same time 1870.
	Feet.	Feet.	Feet.
Africa	——	553,984	492,009
Alicante	——	——	41,700
Amsterdam	——	——	——
Antwerp	——	959,689	774,100
Argentine Republic	——	678,654	2,548,087
Beyrout	——	40,000	9,588
Brazil	70,109	1,697,050	1,303,461

Venezuela	——	93,870	128,653
Total feet	761,343	16,442,443	16,645,603
Value	$24,764	$548,798	$598,583

We note additional exports as follows:—

To London, 96 logs maple, value $1,405; to Hayti, 20,000 shingles, value $240; to French West Indies, 1 spar, value $112; to Canary Islands, 96 spars, value $443; to Bremen, 5,700 staves; to Liverpool, 24,000 do: to London, 6,600 do; to Seville, 131,520 do; to Cuba, 14,000 do, 2,089 shooks, and 115,000 hoops; to British West Indies, 3,120 shooks; to French West Indies, 1,457 do; to Porto Rico, 24,000 hoops, and 60 bundles do. Receipts as follows:—From Savanna, 165,000 feet lumber; from Satilla River, 148,000 feet do; from Musquash, 165,000 feet deals, and 14,000 lath; and from Saulee, 700 pcs piling. Charters as follows:—A Br. Brig, 311 tons (now at Boston), from St. John, N. B., to Montevideo, lumber, $17 and primage; one, 193 tons, from Wilmington, N. C., to Fagardo, P. R., lumber, and back to a port north of Hatteras, sugar, 60c and port charges; a Brig, from Pensacola to a port north of Hatteras, lumber, $11; a Brig and two Schrs., from Jacksonville to New York. $12.25@12.37½ on boards and resawed lumber; a Schr., 180 tons, to Point Petre, Guadeloupe, shooks, 55c, and back from a neighboring port on private terms: two Br. Brigs, from St. John, N. B., to North Side Cuba, shooks, 25c; one, 214 tons, from Norfolk to Berbice, staves, $14; a Schr., 94 tons, to St. Domingo and back, $1,500 and port charges; a Schr., from Satilla to New York. lumber. $11; four from Jacksonville to New York, $12@12.25; two, from Savannah to New York, $9.50.

Latest advices from Rio Janeiro report as follows:—

Pitch Pine Deals.—Good quality worth 44$000@45$000 per doz. 14x3x9 to net G. $42.41@43.47 per 1,000 feet.

One Inch Lumber.—Still worth 105 rs. per foot to net G. $37.50 per 1,000 feet.

Exchange—On London firm at 24½d. for Bank, and 24¼d, with some business at 24⅝d for private bills, and closes firmly at these rates for 90 days. On France, 380@390 rs. per franc; and on Hamburg, 720 rs. per Bank Mark, 90 days.

The Boston *Commercial Bulletin* reports:—

The lumber market continues active for the season, and all desirable grades suitable for finishing and repairing are in demand at steady prices. Inland navigation has closed, and the bulk of receipts is now by rail. The yards generally, with the unusual drain upon them, are not very abundantly stocked for the winter, but the receipts by rail are quite large, and will probably be sufficient for current requirements, notwithstanding the limited transportation facilities.

Canada lumber is firm and selling readily, and stocks are ample for all purposes. Prices are firm and unchanged, and for all seasonable grades the demand is brisk.

There has been a large call from Baltimore and Philadelphia for laths, the prices of which have stiffened up. The orders for all winter are large, and the stock is comparatively light. Clapboards are scarce, and singles remain about the same, not many being at present used.

The following are the surveys for the week:—

DOMESTIC LUMBER.	Feet.	DOMESTIC LUMBER.	Feet.
Pine	659,012	Spruce	1,827,889
Hemlock	532,744	Pine Tim. & Joist	40,273
So. Pine Flooring	175,314	So. Pink & Tim.	210,663
Black Walnut	28,526	Hard Wood	68,345
Total			3,532,766

The following are dealers' *wholesale* prices, and the range given covers the different qualities and grades, and those *paid* for consignments sent here from different sections.

Western Lumber.—Michigan Pine, Nos. 1 and 2, $52@58; No. 3, $43@48; No. 4, $35. Black Walnut, Nos. 1 and 2, $60@75; do do Culls, $40@50. Ash, Nos. 1 and 2, $40@48; 3d quality do, $20@35. Cherry, Nos. 1 and 2, $55@62; 3d quality do 35@40. White Wood, Nos. 1 and 2. $36@44; do ½, $28@32; 3d quality, $25@30. Oak, $45@50. Butternut, Nos. 1 and 2, $55@65; 3d quality, $30@35. Michigan Pine Saps, $40@43; do Pickings, $25@28. No. 4 Michigan Pine Boards, $25@28. Best Michigan 6 in. Strips, $45@50.

Canada Pine.—Selects Dressed, $50@53. Shelving Dressed, $36@38. Sheathing, 1st qual., $45@47; do 2d do, $30@32; Ceiling Dressed, $37@40. Dressed Shippers, $26@28.

Eastern.—Pine Clear, Nos. 1 and 2, $65; No. 3, $50; No. 4, $38@40; No. 5, $30@35. Common Pine Shipping Boards, $21@23; No. 5, $20@22; Refuse, $16; Spruce, Scantling, and Plank, $16@17; Boards, $16@17.50. Hemlock boards, $15; Laths, spruce, $2.50@2.57½ Hemlock, $1.75; Pine, $2.25@2.50.

Southern Pine.—Timber, resawed, $30@37; Flooring, Nos. 1 and 2, $30@36; Ship stock, $26@34; Hewn timber, $22@33; Refuse, $14@22.

Shingles.—Spruce, extra, $2.50; No. 1, $2@2.25; Shaved Pine, $6@8; Sawed, $2.50@6. Shaved Cedar, $4@6¼; Sawed, $2.50@5. Extra 18 in. Sawed Pine, $2.75@6.25; do. 18 in. Shaved Pine, $7¼@7¾.

Clapboards.—Spruce, extra, dressed 4 ft., $37@38; clear, $27@28; No. 1, $18@20. Dressed, extra, 6 ft. 6 in., $48@54. Clear, 6 in. $45@50. No. 1, 6 in., $40@46. Extra, 5½ in., $43@50. Clear do. $40@46. No. 1 do. $35@42. Pine extra, sap dressed, 60. Clear, 55. No. 1, $30@35.

The following is from the Saginaw *Courier*:—

A Montrose correspondent says: J. W. Begole, of Flint, is lumbering 160 acres of pine to the river by contract. Grant and McGregor, joining, are also lumbering about the same amount of their own and some other small lots bought of some other parties. J. B. Garland, of Clio, has bought large quantities, and offers to buy all the white oak timber Montrose offers. He makes the timber into bolts in the woods, then draws them to his mills in Clio, where he manufactures them into oil barrel staves, then ships them to Cleveland, where he has heavy contracts. I was told by

one of his "deck hands" that he had already invested $45,000 in oak timber standing in its primitive state.

SAGINAW LUMBER MARKET.

Sales by cargoes about as follows:—

First clear	$40 00@45 00
Fourths	38 00@40 00
Box	32 00@35 00
Three upper grades	38 00@40 00
Common	14 00@15 00
Shipping culls	7 00@ 7 50
Lath	1 95@ 2 10
SHINGLES—	
Sawed A 1	4 00@ 4 25
Sawed A 2	2 25@ 2 75
Shaved—None in market.	

The *Courier* also contains the following review of the Saginaw lumber market for the year past:—

The season of 1871 opened with a large stock of lumber on the river, less than half of which was sold. It was then understood that the stock of logs would be light, but the outside markets were tolerably supplied, and the demand for lumber was comparatively light. It was not until about the middle of the season that any change was experienced. The market began to tighten, and a few far-sighted speculators made their appearance in the market with a view of buying up the stock so far as their means would admit. It is told of one man, an Eastern man, by the way, who, after looking over the situation, said, in a confidential manner, to his friends, that if he could control a few thousand dollars, he could put Saginaw lumber at a higher price than it ever was before or will be again. But he lacked one essential. He had brains, but lacked money. This was unfortunate—for him. He did, however, secure the confidence of several operators, bought up 15,000,000 or 20,000,000 feet (we are not certain as to the amount), and has made a lot of money. This was the conditon of the market at that time. Freights were dull, and many of the manufacturers and lumbermen who had held their stocks for some time were anxious to sell. In September the market began to brighten. Previous to that time $6, $12, and $35 was the average price paid for lumber, many sales even being made at less than these figures. In October the Chicago fire took place. Millions of feet of lumber were destroyed, and the great lumber trade at that point was partially suspended. Stocks in Eastern yards had run down close. The pine forests were swept by fire, and hundreds of mills were destroyed. This state of affairs tended to increase the rise in the price of lumber that had already commenced. Prices soon reached $7, $14, and $40, and touched $8, $16, and $42.

Since navigation closed, prices have been quoted nominally at $7, $14, and $40. There is but little doing, as the stock on the river is very light, and those who hold lumber show no particular anxiety to sell. According to the estimates made by the Inspector General, there is now on the river (exclusive of the stocks on McGraw's, Sage's, and Folsom & Arnold's dock, 49,020,000 feet of lumber, all of which is sold except 16,235,000 feet. Following is a statement of lumber on river at the close of the seasons named:—

	On Dock.	On Dock sold.	Balance unsold.
1865	41,453,000	22,362,000	19,091,000
1866	44,415,700	14,211,000	30,204,700
1867	69,970,200	19,435,571	50,534,200
1868	57,401,017	13,402,990	53,998,027
1869	93,221,614	14,526,000	78,805,614
1870	130,422,190	47,862,000	82,560,190

From this it will be seen that the stock of lumber on the river is lighter than it has been since 1866, and the amount unsold is less than it has been for the past eight or ten years.

Of the market for 1872, we can no more than conjecture, and any conjectures are likely to be wild. The amount of snow, the extent of the spring freshet, and many other things, are to be taken into consideration. The stock of logs will undoubtedly be greater than ever before. The figures at which contracts for next season's lumber are being made is an indication that the opening price will not show a decline. Should buyers show a disposition to run down the market at the opening, they will find lots of backbone here.

BAY CITY, Dec. 15, 1871.

An estimate of the number of men employed and engaged in the different lumber camps, this winter, has been made by parties interested in the lumber business, and find, as near as can be ascertained, 10,300 men in all departments. This, at an average of $30 per month, gives $309,000 it would cost per month to pay men, say nothing of the teams, provisions, and other expenses. The above estimate is said to be low as to the number of men and price per month.

From Pensacola we have the following:—

MAIL OFFICE, Dec. 15, 1871.

TIMBER.—Owing to a succession of heavy rains, both here and in Alabama, the cutters are very busy in rafting up and bringing their timber to market. As yet few transactions have taken place, much of the timber being on contract. A few rafts which came in last week still remain unsold. We quote:—

60 to 70 feet average	10c.	per cubic feet.
70 to 80 " "	11c.	" " "
80 to 90 " "	12c.	" " "
90 to 100 " "	13c.	" " "
100 ft. and upwards, 14c to 17c		" " "

For B1 good class and upwards, delivered at Ferry Pass.

There is little or no variation in sawn timber, and we do not look for any change until the fall fleet arrives. We quote:—

25 feet average	12c.@14c.	per cubic feet.
30 " "	14c.@16c.	" " "
35 " "	16c.@18c.	" " "

Delivered at vessel.

LUMBER.—Flooring still continues in good demand, but gang-sawed flooring boards are generally preferred. Our mills are nearly all in working order, prepared for the winter's work. Having heretofore met with heavy losses in shipping on consignment, of what are termed "speculation" cargoes, they prefer to supply orders from lumber merchants at less prices. We quote:—

Flooring boards, prime	$17.50 to 19	per M ft. f. o. b.
Scantling, ordinary sizes, Cuba and Texas	15.00 to 16	" "
Do. special sizes and long lengths	16.00 to 20	" "
Edge Boards, No. 1	10.00 to 11	" "
Do. No. 2	8.00 to 9	" "
Deals, S. A. market	17.00 to 18	" "
Do. Eng. do.	13.00 to 14	" "

FREIGHTS.—Two small British vessels came in last week, and are still seeking freights. There is no activity in the West India trade, and freights are stagnant. Northern freights are good, and our rates could readily be obtained. European vessels are also in good demand, and high rates of freight are being offered. We quote:—

U. Kingdom, hewn, orders, per load	28s to 40s	
do. do. direct ports, "	36s 6d to 39s	
Liverpool, sawn "	35s to 36s 6d	
Cuban ports, lum., per M sup. ft	$8 to $9	gold
Buenos Ayres, " "	21 to 22	"
Galveston, " "	10 to —	cur.
Ports north of Hatteras	10 to 12	"

METALS.—Ingot copper continues in active request, and further large sales have been effected at steadily advancing prices. The advices from abroad quote advancing markets, which, with the prevailing impression here that the stock is not sufficient to supply the consumptive demand, tends to enhance values, and operations for forward delivery have taken place at as high as 28c. Manufactures of copper are held very firmly at the late advance, and prices tend upward, in sympathy with the raw material. We quote:—Ingot, 27@27½c; New Sheathing, 34c; Yellow Metal, 24c, and Old Sheathing, 25½@26c, all net cash. The market for Scotch Pig continues exceedingly quiet, and prices are called firm, but the receipts are liberal and actual buyers could easily obtain concessions from the present ruling prices. We quote: Glengarnock $34; Eglinton $33.50@34, and Summerlee $35.50@36 per ton. American Pig is excessively dull, and stocks are accumulating; prices are not very strong, and rather tend downwards. We quote nominally: No. 1, $36; No. 2. $34@35, and forged, $33@34. Refined Bar is steady at the late advance. We quote from store as follows: Bar Swedes, $107.50 @120; refined, ordinary size, $90; refined, 1¼ to 6 by ¼ and 5-16, $95; refined, 1 and 1½ by ¼ and 5-16, $97.50; refined, 2½ to 3 round and square, $97.50; scroll, $107.50@137.50; ovals and half round, $107.50@125; band, $102.50; horse-shoe, $105 @115; rods, 5-8 to 3-16 inch, $95@130; hoop, $112.50 @160; nail rod, per lb., 6¾c. Common Sheet is very scarce and firmly held. We quote at 5½@6 for single D and T, and 6@6½ for D and T Charcoal. Galvanized Sheet is quiet and unchanged. We quote at 13@13c for 14@20; 12½@13¼c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 27½@30 per cent. to the trade. Russia Sheet is lower. We quote at 15⅞@16c gold, according to number. Pig Lead continues inactive, though there is rather more firmness in the tone of the market, owing to cable advices from London reporting an advance of $1 per ton. We quote at $5.80@6.25c for common to good foreign. Manufactured Lead is quiet, and prices are steady. We quote at 9½c for bar; 10½c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin continues quiet, but as cable advices report prices as fully supported at the late advance, holders here remain firm. We quote in coin at 38c for English; 28½c for Straits, and 43c for Banca. Plates are less active, but prices continue firm, though quotably unchanged. We quote I. C. charcoal, $9@9.50; I. C. coke, $8.25@8.75; Coke, $7.00@ 8.00, and Charcoal Terne, $8.25@8.50. Sheet Zinc is scarce and no stock offered from agents' hands. The price is nominally unchanged. We quote at 10½@11½c gold for Mosselmann, from store.

NAILS.—Business continues in rather a dull condition, and the market presents nothing of general interest for the time being. Interior buyers will not take more stock now than their most positive wants call for, and the distribution in this way is confined mainly to small retail parcels, while on local account but little demand prevails, as dealers are so near the stock as to be enabled to secure a supply whenever required. Sellers are willing operators at current figures, and are enabled to show a fair general assortment, but we do not hear of any pressure to realize. Foreign orders are fair in number, but call for only small parcels, exporters appearing to be moving with quite a cautious policy. Prices on all grades at the close remain about as last given, and are generally called steady. We quote per 100 lbs.: cut, 10@60d, $4.65; cut, 8@9d, $4.90; cut, 6@ 7d, $5.15; cut, 4@5d, $5.40; cut, 3d, $6.15; cut, 2@3d, fine, $6.90; cut spikes, all sizes, $4.90; cut finishing, casing, box, etc., $5.15@$6.65; clinch, $6.15@6.65; horse-shoe, forged, No. 10 to 5, per lb, 19@33c. Other styles are selling as follows: Copper, 37@39c per lb; yellow metal, 24c do. The exports for the week are 282 pckgs, valued at $2,315; and since January 1st, 17,169, valued at $108,776.

PAINTS AND OILS.—A few contracts for delivery soon after the opening of the coming year have again been closed, but the general wholesale market is settling down into a state of quietude in view of the approach of the time when the entire trade prefer giving their attention to the settling up and general straightening out of accounts. Most reports made are of an encouraging nature, and there seems to be a general belief that next season's business will be very fair and remunerative. There is a scarcity of a good many English-made styles at present, and though accounts from abroad are a little conflicting at present, there appears to be an impression that no important increase of the accumulation can take place for several months. On all values much strength is shown, and there is an entire absence of any pressure to realize. Venetian red, Orange mineral, and French zinc are all in short stock and very firm, and it is also somewhat difficult to find a good selection of Rochelle ochre. Glues are firm and the supply falling off as the production at present is quite small. Among jobbers business is reported as quite dull and the demand mainly local, interior orders being curtailed by the high cost of transportation. Linseed Oil continues in rather moderate demand, and the market shows a comparatively dull and nominal tone in the absence of any leading sales. Crushers, however, still insist that ruling values do not admit of a margin for profit over the cost of production, and they refuse to name any lower prices; indeed, so far as sellers are concerned, the position is firm at 74@75 per gallon; but with buyers responding so very slowly there can only be considered as the asking rates.

Exports as follows:—

	This week.	Since Jan. 1, 1871.
Paint.....pckgs.	643, value $3,620	9,277, value $169,406
Linseed oil, galls.	1,799 "	1,398 13,808 " 10,691
Oxide zinc, pcks.	— "	— 3,620 " 38,110

PITCH.—The market continues rather quiet, but prices are firm, the last sales made having been at $5. We quote prime city delivered at $4.87½@5. Receipts for the week, 100 bbls; since January 1st, 1,111bbls; for same time last year, 2,342 bbls. Exports for the week, 92 bbls; since January 1st, 2,769 bbls; same time last year, 3,685 bbls.

SPIRITS TURPENTINE.—Early in the week, under advices of an advance at Wilmington, and higher prices abroad, parcels in shipping order were in active request, and the market became somewhat excited, and rapidly advanced to 70c; but later the excitement subsided, and towards the close it was found difficult to secure a bid above 68c. We quote merchantable and shipping order at 68½@69c; and retail lots from store, 69½@70c. Receipts for the week, 474 bbls; since January 1st, 66,818 bbls, and for the same period last year, 69,255 bbls. Exports for the week, 154 bbls; since January 1st, 15,161 bbls, and for the same period last year, 17,216.

TAR.—The market is quite dull, but prices do not exhibit any material alterations. We quote Washington at $3.25; Wilmington $3.50 and Newberne $3@3.25, as it runs. Receipts for the week, 100 bbls; since January 1st, 18,457 bbls; for the corresponding period last year, 46,973 bbls. Exports for the week, 163 bbls; since January 1st, 9,557 bbls, and corresponding period last year, 14,940 bbls.

Cor. 50th Street, NEW YORK.

Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House

WITHOUT EXAMINING OUR

ELECTRICAL APPLIANCES,

without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'

Burglar Alarm Telegraph.

This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION

is requested to our new

HOUSE ANNUNCIATOR,

An improvement upon the French system.

IT CONSISTS OF A SINGLE

CALL BELL AND ANNUNCIATOR,

in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds—the bell continuing to ring until the servants give it attention. The whole thing is operated by

ONE BATTERY, OR BY THE SAME BATTERY

that operates the

Burglar Alarm Telegraph.

It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have

An Attachment for Ringing Door Bells and Servants' Bells from the

TABLE OR DINING ROOM,

by placing a spring in the floor, and covered by the carpet. Also, for

Calling the Coachman from the Stable.

Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,

OFFICES:—

7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.

The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the on y one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.

All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

BOYNTON'S
IMPROVED ELEVATED
OVEN RANGE.

This *Beautiful Range*, improved last year, is offered to the *Public* as the most *Complete*, *Convenient*, and *Desirable Elevated Oven Range* in the *Market*, and is the *result* of long experience in the *Manufacture* and *Setting* of *Cooking Ranges*; and we do not hesitate in recommending it as the *nearest* to *perfection* of any *Elevated Oven Range* in the *Country*.

The *body* of this Range is higher than other *Patterns*, and is more like the *French Kitcheners*, making it much more convenient and *easy* for the *cook*.

The *Hot Closets* are more accessible, placed in a *natural* position, being in the body of the Range, instead of above the ovens, as in other patterns.

ALSO,
FURNACES, HEATERS, AND STOVES
IN LARGE VARIETY.
We always guarantee the work we do ourselves to be perfectly satisfactory.

POSTAL TELEGRAPHY.

THE recommendation of President Grant to the Postmaster-General, to buy up the telegraph lines and make telegraphy a part of the postal service of the country, reflects, we believe, the almost unanimous sentiment of the business community. Of course, the ready objection may be urged against the idea, that it would be a new source of corruption in the general government; but for that our absurd civil service establishment is to blame: there is no inherent difficulty in the business itself to prevent the government from undertaking the duty. The simple fact is sufficient that in England and on the continent the governments *do* run the tele-

graphs; and run them, too, to the very great satisfaction of the community. There is no word of complaint against their assumption by the government. Indeed, the telegraph is another of those natural monopolies which should never be worked in the interests of any set of men as against the interests of the community. Corporations look to their own interests, first, last, and always; and to the public interest only so far as it subserves their own. Hence we are compelled to pay tolls which bear no proportion to the service performed; hence the avoidance of service in localities where it does not pay. A public service cares nothing for profit; it regards the public convenience as a matter of prime consequence. Therefore a government Telegraphic Department would not only supply cheaper telegraphy between great cities and towns, it would extend the wires to placss which the companies do not now deem it profitable to work. The difficulty lies in the minds of those people who entertain the antiquated rubbish respecting the limitations of the powers of a government. These ideas might have suited very well the discussions which were in vogue twenty or thirty years ago; but they are now altogether out of date. All the governments of the world are assuming powers in the interests of the people which would have been thought dangerous and excessive in the days of the old Democrats. The new school of political thought gives a much larger measure of authority to governments than the old *doctrinnaires* would ever have dreamed of tolerating. Thus the world moves. An efficient government telegraphic system in this country would in time almost supersede the sending of letters by post. But, as we have said, it must not be attempted until we can have a postal service resembling that which obtains in Great Britain.

THE PROPOSED CHARTER.

As we supposed would be the case, the proposed charter of the Committee of Seventy is neither better nor worse than the dozen other charters we have had in the last twenty years. So far as its provisions go, it contains only one real improvement, that relating to minority representation in the Board of Aldermen. If the Legislature adopts this particular recommendation, it will be possible to elect from five to ten members out of the forty-five, who are honest men as the world goes. With universal suffrage, the very best we can do under any machinery is one reputable man to five purchasable scoundrels. The cumulative vote gives us a chance to do this.

We see no provision made in this proposed charter for any reform in our local civil service. Until all the minor city appointments are permanent, after a competitive examination, there can be no purification of our politics. There should be a provision that any interference in our local elections, by any city official, should be punished by a heavy fine.

The special reform urged by the RECORD, that no bills be paid until after passing the scrutiny of a Board of Audit appointed by the tax-payers, has not been adopted. Until that is done, we have no hope of fraudulent bills being stopped payment.

IMPORTANT BUSINESS CHANGES.

NEW YORK CITY.

Allyn & Phelps, fancy goods, jewelry, etc., succeeded by Bruns, Moore & Co.
Ayers, Isaac, scales, etc., deceased.
Forbes, R. W. & Co., lumber, changed to R. W. Forbes.
Friedlander, C. W. M. & Co., tailors' trimmings, dissolved.
Goodwin & White, railroad supplies, changed to Thomas H. White.
Macfarlane & Randell, provisions, changed to Randell & Sabin.
Paret, Henry & John, clothing. Special $200 m. to Nov. 30, 1875.
Philips, Geo. A. & Collins, shipping and comm., changed to John Collins, Jr.
Rahmer & Co., hats and caps, Charles L. Rahmer deceased.
Sears, Leavitt & Co., hardware, changed to Sheldon Leavitt, Jr.

MARKET REVIEW.

BRICKS.—The wholesale market for North River Hards continues in a more or less nominal condition, owing in the main to the absence of stock. There was nothing accumulated in first hands unsold, and the ice embargo shutting off supplies from the point of production, receivers had no stock to offer, and business, of course, came to a dead stop, and there was in reality no basis upon which to establish a quotation. About $10@11 per M are given as nominal rates, according to the latest important sales, and it is very probable that these figures could be obtained again, and some wholesale dealers think that for first-class stock even higher figures would be paid. The yards are very poorly supplied, both as to quality and assortment, and dealers generally feel anxious to purchase in view of the probability that they must sell out long before spring, unless the river should unexpectedly open. In that case, the offerings would undoubtedly prove fully equal to the transportation facilities, as there is plenty of brick at the points of manufacture, and owners would be very well pleased to realive at ruling prices could they only get their stock into market. There is said to be but small amounts likely to come to hand from New Jersey, and though the Long Island manufacturers can now obtain about the prices they desired, and are expected to commence shipments, a few millions, we understand, will cover all the brick they can spare. Pale Brick are wanted to some extent, and a few cargoes could be used to immediate and decided advantage, and $7 per M would undoubtedly be paid for anything at all desirable in quality. Croton Fronts are a nominal sort of article, and though very fine grades are now and then called for, this production meets with little favor from the Trade in general. Philadelphia Fronts sell moderately from yard, and are steady at from $32 up to $35 per M, according to quantity, mode of delivery, etc.

LATH.—A strong tone continues on this market; in fact, the firmness, if anything, is more decided than upon any other of the leading building materials. The neglect of dealers to lay in stocks, and a full steady consumption as compared with the supply offering, makes the amount on hand

much smaller than usual at this season, and with the difficulty of getting in additional amounts, receivers anticipate no check to the sale of all they may have to offer. Values are pretty high, to be sure, and may act as an influence to curtail the demand somewhat, and it is also thought will be likely to draw out lath from every point where it is possible to make shipments: but sellers are confident that there is no danger of an overstock, and look upon the position as all their own, for some time to come. At the close, the general tone of the market remains very firm, and a good many buyers are unsupplied. A considerable amount of stock has been sold since our last report at $3.50 per M, but the general asking rate is now $3.75 per M.

LIME.—The market may be called firm, though in a wholesale way there is not in reality much of a market just now, the supplies being very uncertain and sellers unwilling to state any positive figure for their goods until the probable call and amounts to meet can be ascertained. There is not much danger of too heavy an amount coming forward at this season, however, and but little fear is entertained that all will not be sold about as soon as offered. Buyers, to be sure, are somewhat slow and cautious in their movements, especially as the year draws to a close, when accounts are to be settled and other kindred business to be attended to, but dealers can be found without much of a search who have room for stock, and will take it at a fair rate. The Northern lime is firmly held, and the stock here not offered freely, as a better market is hoped for later in the season, but still buyers will be accommodated to a fair extent at ruling market values. The wholesale quotations remain at about $1.25 per bbl for common, and $1.75 do for lump, but in the absence of leading sales these figures are more or less nominal.

LUMBER.—"Pretty dull" seems to be about the idea of most dealers just now, as respects the condition of affairs on the retail market, and we have nothing new or really interesting to advise for the current week. Some small shipments southward have been made, and this, with a light call for odd lots in a jobbing way from sundry local sources, embraces about the entire outlet. Prices remain as before, and without exception appear to be steady, yet no full bid is refused, and the entire supply here is available to those who may desire to make selections. Goods adapted to various manufacturing purposes are the most sought after at present, building stock moving a little slower in proportion than usual, and the immediate prospect ahead somewhat doubtful, though the yearly settlements soon to be made, and the hoped-for more positive indications of the financial position during the next twelve months, are likely to show whether the improvement of real estate will be large or small when the proper time for commencing operations arrives.

In a wholesale way business is also very dull, though every one in the trade seems to look upon this as a natural condition of affairs for the season, and no particular dissatisfaction is expressed. The offerings for immediate delivery by cargo are very naturally confined exclusively to coastwise arrivals, with receivers of Eastern supplies having very little to place on the market, and the receipts from the South regulated pretty closely to the outlet. At certain points in the interior supplies are available by rail were they required, but our dealers have most too much stock on hand to make it necessary to resort to this expensive mode of transportation as yet. There is the same old story from the points of production, very high prices being talked of, a scarcity of lumber and an exhaustive demand put down as a positive fact, and manufacturers determined to do all sorts of rash things rather than come down one farthing from their very magnificent ideas of what they ought to realize for stocks remaining on hand, and the next cutting. The export demand is fair on special orders, but not quick, or likely to be for a week or two.

On Eastern Spruce the natural tendency is upward just now, as the supply is small and the demand active enough to take about all receivers have to offer. Prices, indeed, are stronger, but the advance is not very decided, and it is probable that much of an addition to the cost would have a tendency to lessen the demand, buyers feeling no great desire to lay in high-priced goods. Contracts are still making, but the particulars, beyond a statement that full figures are obtained, are refused, on the plea that the publication of transactions would convey no definite information to the Trade. The market closes firmly, and one or two cargoes have sold a trifle higher. We quote at $17@18 per M for inferior to fair specifications, and $18.50@20.50 for good to prime do. White Pine sells fairly, but not actively at present. Prices are firm, as a rule, and the offerings only equal to the outlet, this class of stock still being looked upon with much general favor. Boxmakers are buying scarcely anything at the moment. We quote at $22@28 per M for good to prime box and shipping boards; $30 do for choice do; $35 for pickings, and $45 do for selects. Yellow Pine moderately active and steady, but without specially new features. We quote at $28@33 per M for random cargoes, and $35@40 do for prime to very choice special cuts. Piling in fair supply and dull. Some of the choice hard woods are called for foreign account at full rates.

We were shown a letter from parties in New York, wishing to negotiate for ship timber, such as flitch timber, knees, and plank. Eastern ship-builders have become satisfied, from experience, that the oak timber of Saginaw is unsurpassed in point of quality. The timber merchants of Quebec have discovered this years ago, and the day is not far distant when Eastern builders will send their moulds and models to the Saginaw, and work out their frames ready to place in the vessel. By this they will save much in transportation. A ship's whole frame can be worked out at Bay City, placed on board of canal barges, or on railroad cars, and landed in the dock-yards at New York ready to set up. As Bay City is the general timber depot of the State, parties interested would do well to come and examine for themselves as to our facilities for ship-building. In a few years, when all the railroads which are now under way and in contemplation are completed, it will give the Saginaw Valley facilities for shipping ship timber which no other city in the West has, as the roads will pass through some of the best oak and pine timber regions in Michigan.

The exports of lumber are as follows:—

	This week. Feet.	Since Jan. 1. Feet.	Same time 1870. Feet.
Africa	——	553,984	492,000
Alicante	——	——	41,700

Total feet	131,781	16,574,224	17,320,965
Value	$9.253	$559,051	$618,576

We note additional exports as follows:—

To Havre, 26 logs maple, value $257; to Liverpool, 2 cases veneers; to London, 14,292 staves; to British N. A. Colonies, 6,000 do; to Havre, 1,350 do; to Marseilles, 1,950 do; to Seville 19,200 do; to Lisbon, 2,400 do; to Peru, 3,000 do; to British West Indies, 350 shooks; to British Guiana, 800 do; to French West Indies, 3,450 do; to Cuba, 4,525 do, 9,610 box shooks, and 115,250 hoops; to Porto Rico 2,700 shooks. Receipts reported as follows:—From Jacksonville, 325,000 feet lumber; from Darien, Ga., 150,000 feet do; from Norfolk, 5,000 R.R. ties: from St. John, N. B., 266,482 feet deals. Charters as follows:—A Ger. Bark, 680 tons, to Montevideo and Buenos Ayres, Lumber, $20 per M, and Merchandise, 20c per foot: a Ship, 862 tons (bound from Antwerp to Key West), from Brashear, La., to Mare Island, California, Live Oak, 70c per cubic foot; a Schr., 139 tons, to Brunswick, Ga., to Mayaguez, P. R., Lumber, and back to port north of Hatteras, Sugar, 55c, and Molasses, $5.50 under, and $4 on deck; a Br. Bark, 310 tons (now at Boston), from St. John, N. B., to North Side Cuba, Snooks, 25c; a Br. Schr. (now in the Provinces), from St. John, N. B., to Havana, Shooks, 26c; a Schr., from Savannah to New York, Timber, $12; a Brig and Schr., from Savannah to Providence, R. I., Lumber $10.

The following is from Savannah:—

LUMBER.—The demand for lumber is better than at any time during the past year. The mills are all full of orders, and many orders are on the market. We quote:—

Ordinary sizes	$20 00@21 00
Difficult sizes	21 00@35 00
Flooring boards	20 00@22 00
Ship stuff	20 00@24 00

TIMBER.—The receipts for the past week have been large, and the demand is good for all classes. We quote:—

Mill timber	$7 00@ 9 00
Shipping timber	
700 feet average	9 00@10 00
800 "	10 00@12 00
900 "	12 00@14 00
1,000 "	13 00@16 00

FREIGHTS.—Coastwise vessels for lumber and timber are scarce and in demand, and are readily placed on arrival at full rates. We quote:—Lumber, to Philadelphia, $9: to New York and Sound ports, lumber, $9.50@10.50; lumber, to Boston, $10.50; to Baltimore, lumber, $8. The rates for timber are from $1 to $1.50 higher than lumber rates. To Cuba, nominal. To River Platte, lumber, $23 and 5 per cent. primage.

Recent advices from St. John, N. B., report as follows:—

Deal Freights nominal. West India Freights have declined to 23c to Cardenas for orders on Shooks, at which two vessels were placed.

From Portland, Me., we have the following:—

There is no improvement, and Freights to Cuba are lower. There is some Cooperage to go forward, but the rates are not satisfactory to ship-owners. The engagements for the week include barks Mary Pratt and Woodside, hence to Buenos Ayres, at $17 gold for Lumber; schr. E. M. Sawyer, hence to Porto Rico, at round sum of $600 out; schr. Grace Webster, hence to Cardenas, at round sum of $1,200 out: brig J. W. Spencer, hence to north side Cuba, on private terms: brig Mary E. Marriner, hence to Matanzas, 18c for Box Shooks, and 52c per bbl for Potatoes; brig Earnest is loading for Rio Grande by the owners, Messrs. R. Lewis & Co. Coastwise Freights dull; the rate for Lumber to New York is $3; brig Johanna was taken for Mobile at $7 for Hay, and 35c for Bbls.

We obtain the following items from the Saginaw *Courier*:—

LUMBER INSPECTION.

FIRST ANTUAL REPORT OF ED. Y. WILLIAMS, INSPECTOR GENERAL OF THE SAGINAW DISTRICT.

To the Hon. Henry P. Baldwin, Governor of State of Michigan:

SIR—In accordance with the requirements of an "act to provide for the uniform inspection of lumber," approved March 25th, A.D. 1871, I have the honor to present herewith my first Annual report as Inspector General of lumber for the Saginaw district.

To account for the discrepancy between the amount of lumber shipped from this district and the amount herewith reported, I would say, that as the law did not take effect until after the above-mentioned date, and as all arrangements were still to be made to give it systematic efficiency, a large amount of lumber was contracted for before this office was prepared to properly attend to the business, and as a consequence has been shipped from this district without passing through this office. The amount of lumber certified to by this office is as follows, viz.:—

	Feet.
Of upper qualities	27,722,483
Of common	125,234,221
Of culls	16,931,927
Total amount by inspection in qualities	169,878,631
" " measured straight	22,290,586
" " inspected and measured	192,169,217

The receipts and expenses of this office have been as follows, viz.:—

	Feet.	Amount.
To fees received for inspecting	169,878,631	$42,469.66
To fees received for marking	894,732	89.47
" " measuring	22,290,586	3,343.59
Received 4 cents per M. for office expenses	192,169,217	7,686.77
		$53,589.49

EXPENSES.

By paid salaries to Inspector General and Deputies	$5,236.11	
By paid Inspectors for legal fees	45,902.72	
By paid office rent, furniture, books, stationery, clerks, &c	2,043.96	
Cash on hand	406.70	
		$53,589.49

I have pleasure in stating that the operation of the law under which this office is organized meets with universal favor, when understood.

All of which is respectfully submitted.

E. Y. WILLIAMS,
Inspector General of Lumber for the Saginaw District.

BAY CITY, Dec. 13, 1871.

BAD RIVER.—From Mr. Louis Penoyer, of St. Charles, who is largely interested in pine land and lumbering operations on Bad River, we learn that arrangements have been made to get out the present winter about 45,000,000 feet of logs on Bad River and its tributaries. Some of the lumbering is done near headwaters, and possibly ten or fifteen millions may be hung up unless there is one of the most remarkable freshets on record. Bad River, last season, run out about 25,000,000 feet of logs.

THE AU SABLE LUMBER AND SHINGLE CO.—The Au Sable Lumber and Shingle Company, the stockholders of which live in this city—except one in Detroit—have, during the past summer, erected one of the finest mills on the shore. The company have expended during the past season over $60,000 upon the land conveyed to them by Mr. Smith, which they have heretofore held by contract. Mr. C. L. Ortman, a stockholder since the organization of the company, has purchased of Mr. F. B. Smith 200 shares of the stock of the company, paying $3,640. The gang in use is one of the Wickes patent, the first one made by the Wickes Bros. of that kind, a full description of which was given in the columns of the *Courier* at the time it was on exhibition here. The capacity of the mill is about 13,000,000 feet of lumber per season, running day time only.

LUMBER IN GRATIOT COUNTY.—A correspondent writing from Summerton, Gratiot county, says:—

Lumbering in this neighborhood has commenced on an extensive scale this season. Salt River has been cleared out for log driving up to this point. Indications are that it will be literally filled up with logs from this place to Salt River village. Eight camps are in operation near here in a radius of two miles. Some of them haul to the north branch of the river. It is estimated that fifty teams will be engaged in hauling at these camps, besides those engaged in skidding and toting. This makes the demand for labor and produce very active in this vicinity.

A curious fact is related of the Maine wood-choppers, who, in the winter months, while felling trees amid snow and ice, cannot wear close-fitting boots, but very large sizes, that allow their feet to slip to and fro, thus causing friction and warmth. But from this they have their feet completely encrusted with corns. In the spring, when they raft their logs, they do not change their clothing or boots for weeks, until their arrival at the saw mills. All the while their feet have been saturated in water, and when the boots are removed, the corns fall off like nutshells from the kernel.

The Wenona *Herald*, speaking of the town of Standish on the line of the Jackson, Lansing, and Saginaw Extension, says:—

James Loomis is lumbering at this point for Cross & Co., employing about sixty men. Cross & Co.'s mill has a capacity of 40 M feet of lumber per day, is stocked with timber cut on the company's lands by Loomis, and will run the entire year. This firm also have a store, and deal largely in groceries, provisions, lumber, shingle, and camp supplies. The railroad company has constructed a track to their mill, greatly facilitating the shipment of lumber. Three-fourths of a mile north is Lane's saw mill, which is cutting about 20,000 feet per day. Curry & Heath have a mill one mile above, which has a capacity equal to Lane's. Mr. Curry is also express agent, and runs a variety store, doing a lucrative business. A gentleman named Stanton has a force engaged getting out timber for a saw and shingle mill which will be located eighty rods north of the bridge. Mr. J. Buel is operating a shingle mill about half a mile east of the place.

WISCONSIN LUMBER BUSINESS.

The Wausau *Wisconsin* says, the lumber merchants from the lower country have been creating quite a stir in that village during the past week, one man alone contracting 20,000,000 feet of lumber, to be delivered at Davenport in the Spring. The roads leading to the pine woods from Black River Falls are crowded with teams constantly, and more supplies are being carried to the camps than ever before on Black River. If the weather is favorable at least 250,000,000 feet of logs will be put in this Winter.

The Boston *Commercial Bulletin* reports:—

The lumber market is very firm but quiet. Builders are engaged in closing old contracts rather than making new engagements. Quite a fleet of vessels, that were loaded eastward several weeks ago, are still detained by adverse winds. A few are arriving; but the receipts from the East, beyond the vessels expected as above, may be considered at an end for the season.

It is yet too early in the season to fully determine the demand for lumber next year; yet the railroad corporations and manufacturing companies are projecting extensive improvements, which will require large quantities of lumber. Our local railroads are large consumers, now that their business requires such extensive and additional facilities.

The weather just now is unfavorable to large consumption of lumber. The shipping trade is inactive. The retail yards are quiet, but prices are firm. Railroad receipts from the West and Canada are ample for all wants, and the future of home building operations depends largely upon the condition of the money market. With the return to greater ease, so that the Savings Banks may have a surplus to invest in mortgages, building in the suburbs will undoubtedly be brisk. There is no change to note in prices, which remain tolerably firm.

GAZETTE AND BULLETIN OFFICE,
WILLIAMSPORT, PA., December 22, 1871.

Notwithstanding the closely locked streams and the permanent closing of all lumber business, so far as manufacturing is concerned, we have no rise in prices to note. Everything is held very firm at our former quotations, although the stock is being rapidly reduced by the orders filled by railroad. The lumbermen are busy in the woods, and there is a fair prospect that the quantity cut will be as large as in any previous winter. The closing of the streams caught a large quantity of logs in the ice, or in such a position as to be taken away with the spring ice flood. Those are being taken and secured at considerable expense, to save them from being carried away in the ice floods. Two weeks more of good working weather will see them generally secure.

METALS.—Ingot Copper has been less active, but the late advances are fully sustained, with holders offering sparingly and only at full rates. Manufacturers of copper continue firm. We quote:—Ingot 27@27½c; New Sheathing, 24c; Yellow Metal, 24c; Old Sheathing, 25½@26c, all net cash. Scotch Pig Iron continues inactive, partly from natural causes, the close of the year, and consequent attention of dealers to taking account of stock, and balancing up of the year's business, and partly from the low prices ruling, which importers say will not pay cost, freight, and insurance, and they are therefore placing all the arrivals in store and not offering. We quote:—Glengarnock, $34; Eglinton, $33.50@34, and Summerlee, $35.50@36 per ton. American Pig is also very quiet, and prices are unchanged. We quote nominally: No. 1, $36; No. 2, $34@35, and forged, $33@34. Refined Bar continues steady at the late advance. We quote from store as follows: Bar. Swedes, $107.50 @120; refined, ordinary size, $90; refined, 1¼ to 6 by ¼ and 5-16, $95; refined, 1 and 1½ by ¼ and 5-16, $97.50; refined, 2½ to 3 round and square, $97.50; scroll, $107.50@137.50; ovals and half round, $107.50@125; band, $102.50; horse-shoe, $105 @115; rods, 5-8 to 3-16 inch, $95@130; hoop, $112.50 @160; nail rod, per lb., 6¾c. Common Sheet is very scarce and firmly held. We quote at 5½@6 for single D and T, and 6@6¼ for D and T Charcoal. Galvanized Sheet is quiet and unchanged. We quote at 12@13c for 14@20; 12½@13½c for 22@24; 13½@14c for 25@26; and 15@18c for 27@29, all less 27½@30 per cent. to the trade. Russia Sheet is unchanged. We quote at 15¾@16c gold, according to number. Pig Lead is in improved request, and prices are firm, and rather in favor of the seller. We quote at $5.80@6.25 for common to good foreign. Manufactured is quiet and steady. We quote at 9¼c for bar; 10¼c for sheet and pipe; 15c for tin-lined pipe, all less 10 per cent. to the trade. Pig Tin still remains quiet and prices nominally unchanged. We quote in coin at 38c for English; 28½c for Straits, and 43c for Banca. Plates are unchanged, but firmly held. We quote: I. C. charcoal, $9@9.50; I. C. coke, $8.25@8.75; Coke, $7.00@8.00. and Charcoal Terne, $8.25@8.50. Sheet Zinc continues quiet and no stock offered from agents' hands. The price is nominally unchanged. We quote at 10¾@11¼c gold for Mosselmann, from store.

NAILS.—There is still a slow and uncertain movement confined in the main to unimportant orders from jobbers and some call from exporters, and nothing seems to indicate an increase until after the opening of the New Year. According to the somewhat conflicting reports as to the accumulated supply we should judge the stock on hand to be neither very large or very small, but a fair aggregate and likely to prove sufficient for all immediate outlets, even on the most desirable grades. Holders, in the majority of cases, talk pretty steadily, and exhibit no open anxiety to operate, the general range of prices remaining about as before, but on odd lots some concessions are occasionally made in order to close out quickly. The manufacturers, it is understood, do not contemplate a revision of price-lists for the present. We quote per 100 lbs.: cut, 10@60d, $4.65; cut, 8@9d, $4.90; cut, 6@7c, $5.15; cut, 4@5d, $5.40; cut, 3d, $6.15; cut, 2@3d, fine, $6.90; cut spikes, all sizes, $4.90; cut finishing, casing, box, etc., $5.15@6.65; clinch, $6.15@6 65; horse-shoe, forged, No. 10 to 5, per lb 19@33c. Other styles are selling as follows: Copper, 37@39c per lb; yellow metal, 24c do. The exports for the week are 74 pckgs, valued at $440; and since January 1st, 17,243, valued at $109,216.

PAINTS AND OILS.—All the reports made are still of a favorable and encouraging character, and the Trade, almost without exception, speak buoyantly. For immediate delivery there is not much doing, except to supply the pressing and unexpected wants of jobbers who may happen to run out of stock, but contracts for 1872 are making continually, and frequently the movement in this way assumes pretty large proportions. Buyers are stimulated by a prospective large interior demand with the opening of the regular spring business and the continued firm accounts from abroad where stocks on hand now are not only greatly reduced, and prices very strong, but the production of many leading articles has fallen off materially and there is likely to be a scarcity for many months to come. The jobbing business has come to an almost complete stand-still, only a few odd irregular parcels going out, mostly on mail orders—but this is not unusual during the present month, and sellers in all cases insist upon full figures for the goods changing hands. Linseed Oil has been irregular, with a few sales at lower figures, but the concession was mainly owing to a desire to close out before the end of the year on small odd lots, and as we write, the feeling is again somewhat firmer. The stocks on hand are not very large, the production is comparatively light, and crushers still complain that at the present cost of seed the value of oil should rule higher in order to admit of a respectable margin for profit.

Exports as follows:—

	This week.		Since Jan. 1, 1871.	
Paint.....pckgs.	1, value	$61	9,278, value	$169.467
Linseed oil,.galls.	318, "	248	14,126 "	10,939
Oxide zinc, pcks.	— "	—	3,620 "	38,110

PITCH.—There is very little change to notice in the market, excepting maybe a shade more firmness on the part of holders. We quote prime city delivered at $4.87½ @5.25. Receipts for the week, nil bbls: since January 1st, 1,111 bbls; for same time last year, 2,342 bbls. Exports for the week, nil bbls; since January 1st, 2,769 bbls; same time last year, 3,750 bbls.

SPIRITS TURPENTINE.—As usual, at this period of the year, there is very little inquiry for Spirits, and the market presents a quiet, uninteresting appearance. We quote merchantable and shipping order at 67½@68c; and retail lots from store, 68½@69c. Receipts for the week, 202 bbls; since January 1st, 67,020 bbls. and for the same period last year, 70.280 bbls. Exports for the week, 58 bbls; since January 1st, 15,219 bbls, and for the same period last year, 17,342.

TAR.—Is in but moderate inquiry, but prices continue steady at fully former figures. We quote Washington at $3.25; Wilmington $3.50, and Newberne $3@3.25, as it runs. Receipts for the week, nil bbls: since January 1st, 18,457 bbls; for the corresponding period last year, 46,973 bbls. Exports for the week, 47 bbls; since January 1st, 9,584 bbls, and for corresponding period last year, 15,102 bbls.

Property sold and rented. Loans negotiated. Charge of houses and collection of rents a specialty.

No one should Build or Live in a House

WITHOUT EXAMINING OUR

ELECTRICAL APPLIANCES,

without which no house can be said to have all or even the MOST IMPORTANT OF MODERN IMPROVEMENTS; in fact, they are indispensable for the complete outfit of a first-class house with what may be termed necessary conveniences. All English and French houses at the present time are furnished with this electrical apparatus.

E. HOLMES'

Burglar Alarm Telegraph.

This one Bell, located in the Sleeping-Room, when set for the night, rings upon the opening of each door and window of the house. It is a watchman that has but one house to protect; never goes to sleep; cannot be bought off; and an experience of ten years, without a failure, proves it to be perfectly reliable and satisfactory.

PARTICULAR ATTENTION

is requested to our new

HOUSE ANNUNCIATOR,

An improvement upon the French system.

IT CONSISTS OF A SINGLE

CALL BELL AND ANNUNCIATOR,

in the kitchen or servants' department, and so arranged that the simple touch of a small ornamented spring in each room of the house RINGS THIS BELL AND ANNOUNCES THE ROOM from which the call proceeds —the bell continuing to ring until the servants give it attention. The whole thing is operated by

ONE BATTERY, OR BY THE SAME BATTERY

that operates the

Burglar Alarm Telegraph.

It is simple, perfect, and reliable, and will not get out of order, and is a very great improvement upon the old system of "bell pulls." We also have

An Attachment for Ringing Door Bells and Servants' Bells from the

TABLE OR DINING ROOM,

by placing a spring in the floor, and covered by the carpet. Also, for

Calling the Coachman from the Stable.

Send for pamphlet containing ten or twelve hundred TESTIMONIALS. They are from our best citizens and first business men of New York and vicinity.

E. HOLMES,

OFFICES:—

7 Murray Street, New York.
6 South Clark Street, Chicago, Ill.
1111 Chestnut Street, Philadelphia, Pa.
69 West Fourth Street, Cincinnati, Ohio.
205 River Street, Troy, N. Y.
121 Washington Street, Boston, Mass.

CAUTION.

The public are cautioned against all infringements upon this patent, even when called improvements; other parties have slightly changed my method of doing the same thing, and without any practical experience speak of it as a very great improvement. This invention is the only one that has had practical experience. It has been in general use for ten years, and every real, practical, or desirable improvement that study and actual experience could suggest has been added.

All violations of my patent, either by using or vending an infringement, will be dealt with to the full extent of the law for such cases provided.

H. METCALF,
113 BEEKMAN STREET.

BOYNTON'S
IMPROVED ELEVATED
OVEN RANGE.

This *Beautiful Range*, improved last year, is offered to the *Public* as the most *Complete, Convenient,* and *Desirable Elevated Oven Range* in the *Market*, and is the *result* of long experience in the *Manufacture* and *Setting* of *Cooking Ranges*; and we do not hesitate in recommending it as the *nearest* to *perfection* of any *Elevated Oven Range* in the *Country*.

The *body* of this Range is higher than other *Patterns*, and is more like the *French Kitcheners*, making it much more convenient and *easy* for the *cook*.

The *Hot Closets* are more accessible, placed in a *natural* position, being in the body of the Range, instead of above the ovens, as in other patterns.

ALSO,
FURNACES, HEATERS, AND STOVES
IN LARGE VARIETY.

We always guarantee the work we do ourselves to be perfectly satisfactory.

RICHARDSON, BOYNTON & CO.,
