April 23, 1956

Honorable Gordon Allott
United States Senate
Washington, D.C.

Dear Senator Allott:

It is my understanding that you plan to introduce in the near future a bill proposing the establishment of a national park at the site of the present Dinosaur National Monument, similar to H.R. 10614, which has already been introduced in the House by Congressman Aspinall.

I would be very pleased to join with you as a co-sponsor of this legislation in order that the Dinosaur National Monument may be preserved for our generations to come.

Very sincerely yours,

cc: F.W.
