August 17, 1940

Dear Excellency:

I can not refrain from saying how much I appreciate all you have said and done for England in this dread hour. I too believe America's fate depends upon the way England comes out in her lone battle against this human devil Hitler - and his colleagues Stalin and Mussolini - and it rejoices
in the courage it takes to come boldly forth as Governor of this great State and be as fearless as you have been. England has made her mistakes but now she is making a great and gallant fight for God and freedom.

May your name shine like a very insignificant person to your illustrious wives. Rehman and to your Esteem-

Very sincerely,

Lady (Margaret) Armstrong

Wife of Sir Harry Armstrong
