July 1953

UNITED STATES CIVIL SERVICE COMMISSION

NOTICE OF RATING
for
FIRST CLASS POSTMASTER EXAMINATION

To
Mr. Lynn E. Pickard

# 32 Clinton Street
Dansville, New York

Date
DEC 10 1953

This is NOT a notice of appointment. It is a report of the result of your examination. It is important that you keep it.

IMPORTANT—Ordinarily nothing can be accomplished by writing to the Commission in regard to your relative standing and prospects of certification. The names of eligibles are entered on the registers according to the ratings attained, and every proper consideration is given to those whose names are reached for certification. If, however, you find it necessary to write to the Commission, be sure to indicate the date, place, and title of the examination taken by you.

IT IS ALSO IMPORTANT THAT YOU STATE YOUR CORRECT RATING.

Your rating in the examination is as follows:

SUBJECT:
Experience, training, and general fitness ........................................... 94.00

VETERAN PREFERENCE 5 points ........................................... 5

PREFERENCE ADDED 10 points ........................................... 10

TOTAL ........................................... 104.00

Your name now stands No. 1 on the register of eligibles.

RATING REQUIRED.—Competitors must attain a rating of 70, before the addition of credits for preference, in order to become eligible.

The names of competitors who attain a rating of 70 or above are entered on the register of eligibles. In accordance with the provisions of the Veterans Preference Act of 1944, the names of eligibles granted 10-point preference are placed (in the order of numerical ratings) ahead of all others on the register and the names of eligibles granted 5-point preference are placed on the register in the order of standing determined by the augmented ratings along with the names of nonpreference eligibles. The period of eligibility is ordinarily one year, unless the Commission finds it desirable to extend the eligibility of the entire register for an additional period.
