November 17, 1950

Dear Senator Lehman:

A slightly belated note to add my congratulations to the many you must have received. We have valued your understanding of the whole public affairs program, and I look forward to telling you of some recent developments when you are back in Washington.

Incidentally, I think we have made some important progress in the matter of letter writing campaigns to overseas populations.

Cordially,

Edward W. Barrett

The Honorable

Herbert H. Lehman,

United States Senate.
