April 18, 1956

Honorable Wallace F. Bennett
Senate Office Building
Washington, D. C.

My dear Senator:

Thank you for your invitation to join in co-sponsoring S. 3543. I read with interest the material your letter enclosed as well as the bill itself, as reprinted in the Congressional Record.

I am aware that there has been considerable interest in the recent hearings on automobile marketing practices. It seems clear that a need for some remedial legislation exists, if appropriate and useful provisions can be devised.

Frankly at this time I do not feel myself sufficiently expert on the subject to take a firm position. However, your proposal contains very interesting ideas, and I will follow the discussion of it closely and with the hope and expectation of receiving a good deal of enlightenment on this subject.

With kindest personal regards,

Yours very sincerely,
