June 8, 1955

Honorable Ezra T. Benson
Secretary of Agriculture
Washington, D. C.

Dear Mr. Secretary:

A number of my constituents are deeply interested in S. 1120 which, if it became public law, would increase to $100,000,000 the funds available annually for the school children's milk program. The current authorized program limits expenditures to $50,000,000 and provides June 30, 1956 as the expiration date.

The Senate Committee on Agriculture informs me that it referred this bill to you for comment on February 21, 1955, and has not yet received a reply.

I would appreciate your comment on this proposal.

Yours very sincerely,

cc: Mr. Harvey K. Allen
