Dear Mr. Lehman,

On July 4-5, Ein Hashofet is celebrating its 10th Anniversary. Ten years have passed since a group of American pioneers ascended the Hills of Ephraim, have extended the mountain frontiers during the eventful Tower and Stockade period, and have established a colony considered by many among the finest in the country.

We rejoice in the fact that an area wild, barren and desolate, has now been settled by four other colonies and has become a blessing to both Jew and Arab. We are proud to carry the name of Louis D. Brandeis (Ein Hashofet - the Well of the Justice). We feel great satisfaction in having proven that Americans can be successful pioneers in Palestine.

It gives me great pleasure to send to you this letter knowing your keen interest in the development of Palestine. I hope that you will honor us with a message for the occasion of our celebration. If by coincidence you are planning to visit Palestine we would feel greatly honored to receive you as our guest.

Sincerely yours,

Shmuel Ben-Zvi
