Hon. Herbert H. Lehman
Senate office Building
Washington, D.C.

Dear Sir:

For the second year in a row Buffalo now finds itself without any Federal Aid for harbor improvements.

In view of the fact that the St. Lawrence Seaway has now been approved it is of prime importance that funds be made available for harbor development on the entire Niagara Frontier.

The Council, at our last meeting, adopted a resolution that the representatives of our area secure Federal aid for the purpose of providing adequate harbor facilities to the Niagara Frontier for deep sea ships. They also directed that you be advised of this action and that you favor us with an explanation of the reasons why Congress omitted Buffalo in the appropriations.

Further, the Council is anxious to know what further steps can and will be taken from here on to be recognized.

We are sure that your interest in this area is just as genuine as ours and will thank you for your prompt response.

Very truly yours,

CIVIC COUNCIL

Leonard M. Rapp
Secretary
