Your Political Power is a Force for Victory...

A WIN-THE-WAR plan must include the election in November, 1942, of a Win-the-War Congress, and other public officials who support the war effort.

There must be no politics-as-usual. We cannot afford at this crucial time to indulge in log-rolling, patronage schemes or any of the petty practices that surround politics-as-usual.

The Congressmen we send to Washington for the next session of Congress and the representatives we send to Albany must be men and women who want with all their hearts to rain blows upon the enemy wherever he can be found; who want to lick all three of the axis partners and wipe their hateful nazism, fascism and feudalism from the face of the earth.

If you are for winning this war, for winning a complete and conclusive victory as quickly as possible over all of your country's enemies, then the only kind of public official who can truly represent you is one who has no other interest.

Will he support the war effort, yes or no?

Some of them will say "Yes" at the same time that they are hiding splitting and hampering activities behind super-patriotic speeches. While they are attempting to hamper war production work with anti-labor legislation and propaganda. While they are supporting the anti-democratic Dies and Coudert Committees. While they are opposing every measure to guard the health of the people and every measure to preserve the morale of the people. While they are trying to divide the United Nations. While they are fighting for higher prices for the benefit of special interests. While they are sniping at the President or his administrative assistants.

While they are demanding that our troops be kept at home and away from the enemy. While they are making speeches designed to create disunity or to undermine confidence in our military and naval commands. While they are sowing suspicion and causing discrimination between race and race and class and class.

And some of them will boldly say "Yes" at the very moment that they are plotting with the Clivenden set to promote a negotiated peace—a peace which would be a victory for Hitler, Mussolini and Hirohito. Coughlinites, pro-fascists and appeasers will be trying to elect such people.

The test is simple. Who is for winning the war must also be for confidence in our elected officials, for the bettered health of the people, for unity of classes and races and creeds, for a strong labor movement and increased production, for all-out aid to our allies, and for the equality and freedom of the democracy for which we fight. All these—with no "buts."

The American Labor Party—Labor's political arm—invites you to use it as your medium of political power in this coming crucial election.

There are no contradictions in the American Labor Party. Everybody in it is on one road—the road to victory. The ALP is an important balance of power in this state. It is not interested in labels, and it will support for Congress and other offices anybody, regardless of party affiliation, who is genuinely out for victory over the fascist axis.

We have a great President. We are a great nation. We have great allies.

Let's elect a great Congress!
Talk It Over with Your ALP Club

There is an American Labor Party club in your neighborhood. Drop in at the next meeting and introduce yourself to the chairman. He will be glad to tell you all about the American Labor Party and its plans for helping to win the war this year.

Your club is:

The American Labor Party
New York County Committee

VITO MARCANTONIO, Chairman
EUGENE P. CONNOLLY, Secretary
SAM BURT, Treasurer

16 East 41st Street
New York, N. Y.
MUrray Hill 3-3998
