April 7, 1937.

Dear Governor Lehman:

The American Guild for German Cultural Freedom is an organization in the process of formation.

It has two purposes. One to help sustain the various artists and writers of distinction who have been forced to leave Germany, hoping that in time Germany will become civilized and that the culture will be permitted to thrive. In the meantime these people are going to try to keep it alive.

Their second purpose is to get in touch with the outstanding people of German origin, the so-called German-American and try to interest them in assisting to overcome the Nazi propaganda in America.

The organization has very fine people connected with it and I should think you could join it with perfect ease.

Yours very sincerely,

Caroline O. Lehman
