Governor Herbert H. Lehman  
European Regional Office, UNRRA  
11 Portland Place  
London, W-1  

Dear Governor Lehman:

I am sending you herewith a letter from Mr. Hancock, and copies of letters which have come to you which he has sent to me.

I have written him saying that the data is in New York and I am asking Mrs. Bergman to show him what is available so that he may select the proper material for Mr. Daniels. I have explained that Mrs. Lehman has the picture and will send it to him when she returns.

Sincerely,

Carolin A. Flexner

I think you would want to know that some of us are worried about the army personnel coming to Vienna. Their attitude to persons needing definite education before being sent to work over refugees. You may want to see that some action is taken and the personnel being employed there.
