November 5, 1943

Governor Herbert Lehman
Foreign Economic Administration
Washington, D. C.

Dear Governor Lehman:

I wonder if I might send you the attached memorandum directly and personally, as I feel it deals with the most vital single problem in the forthcoming public reaction towards, and perhaps acceptance of, UNRRA. I think it would make all the difference in the world if you felt it possible to act along these lines and feel justified, therefore, in putting the memorandum before you immediately in order that you may have time to think it over and see whether you share its conclusions.

Cordially,

Elmer Davis
Director

Enclosure
