This is WCOW-TV, a paid political broadcast, and we present John Crommelin, in behalf of his candidacy for the United States Senate in the May Democratic primary.

Admiral Crommelin:

Good Evening, Ladies and Gentlemen: I am John Crommelin, candidate for the United States Senate in the forthcoming Democratic Primary, on May first. You boys and girls listening and looking at the TV and your mothers and father and you adults telephone your friends now and tell them to tune in on WCOW-TV, Channel 20, for during the next twenty minutes, I am going to discuss a subject of vital importance to all Alabama voters and, in fact, of vital importance to all loyal Americans. The subject of my discussion is "Survival in the Age of Treason." I say again, "Survival in the Age of Treason". Now every man and woman in Alabama with bat brains knows that there is something radically wrong in Washington, D. C. Let's determine what is causing the trouble and what we can do about it. Go back a short time and in 1949, while serving on the top planning staff in the Pentagon, I became convinced that there was a brand of Communism operating within our Federal government which was not the Soviet, Russian brand. I published a signed statement to some people whom I considered to be the first echelon of our government, not the Supreme Court, but people, telling you what I had observed and recommending certain basic changes in the organization of the armed forces.

As a result of this exposure, I was ordered back home to Alabama on March 15th, 1950, twelve years ago almost to the day. Determined to carry on the fight against subversion in our Federal government in the political field, and I campaigned for the United States Senate and made over two hundred political speeches in which I told my fellow Alabamians that it was my opinion that if we did not wake up, we would lose our Freedom and our form of government without firing a shot. That was back in 1950. Again in 1956 I ran for the Senate and told you that Lister Hill had gone North, turned Left and sold us out and I produced a mass of photostats to prove this, and again in 1958 I ran again for public office and stated that Communism is Jewish from start to finish and submitted a platform, for corrective action at the State level. Although I was not elected in any of these campaigns, the seeds of truth were planted in the hearts and minds of thousands of Alabama voters and now we are preparing to reap an abun-
dant harvest.

I cannot help but feel that the thread which runs through the entire fabric of the Constitution of the United States is one line of scripture, "Ye shall know the truth and the truth shall make you free." However, before we proceed further, let's have some brief recap of those three political races. I am going to go about it in a somewhat reverse fashion, because it took about six or eight years before the people could understand it, exactly what I was talking about.

I am going to start with the 1953 race. In 1958 I told you that Communism was Jewish from start to finish. How let's examine that. Rabbie Stephen Wise, and here is his picture, stated in a radio address in 1936 in New York, he said this, "Some call it Marxism, I call it Judaism". He was President of the World Jewish Congress and he should know. When the Hollywood Ten were brought to Washington for a quiz about the communist activities in Hollywood, and here is a picture of all ten of them, which appeared in a recent issue of the Saturday Evening Post, and all of them are Jewish, including someone who calls himself Ring Lardner.

Now let's take the atomic spies. There has never been a conviction of an atomic spy who was not Jewish, with one exception, that was May in England and he married a Jewess. Let's take the NAACP, the President of the NAACP, he is a Zionist Jew named Arthur Spingarn and there never have been but two Presidents and the one before him was named Elias Spingarn.

Then there have been about one million, one hundred and forty thousand copies of this document, called the "Coming Red Dictatorship" and it lists fifty top operators in the dictatorship and in the Communist-Jewish conspiracy and I would like to invite your attention to one man, C. Douglas Dillon, he is number four on the list, there he is right there and his real name is Lepawsky and he was Under-Secretary of State under the so-called Democrat or the so-called Republican Eisenhower, and he is now Secretary of the Treasury under Mr. Kennedy. Then down here in the Military Establishment, the one I am perhaps the most familiar with, we have a Jewish Man named Lemnitzer, who serves on the Joint Chiefs of Staff. He can go directly to the President. We have one named Hyman Rickover, who was born in Poland, he had not blossomed out into a wonderful authority on education, and also, I understand, has considerable influence of selecting the Captains
for the atomic submarines, the Polaris, etc. The other one is named Curtis Le May, who is at the present time, Chief of Staff of the Air Force, so you can see that we have a considerable number of Jewish people who are in high positions in the Federal government. Now I have here a Department of State, decimal file No. 361005179, and it says it is reliably reported that Jacob Schiff, the well known New York Jewish banker, is now financing the Bolshevik movement and this was in 1919.

Now let's get down here in Montgomery, Alabama. We have here in Montgomery a man who has been identified before the Eastland Committee down in New Orleans, I think, it was about March 4, 1954, a man named Clifford Durr, who was identified as having attended closed Communist meetings, that means of course, that he was a member of the Communist Party and that man has recently moved his office down to Weil Brothers Cotton Company and I believe that Weil Brothers could give him a great deal of information how John Crommelin was kept off the TV in 1959 when he ran for Mayor of Montgomery, isn't that correct Mr. Weil?

Now we have something else here, which we found out here in Montgomery, and I will bring this on down from a national level to a local level. Here in Montgomery, some individuals evidently got their hands on some very, very interesting stuff, some confidential documents, of the so-called Anti-Defamation League of B'nai B'rith, which is the big Jewish organization and the Anti-Defamation League is really a tax exempt organization, but of course they are highly political and they are on the face of it, and I have got the documentary proof of it right here, and they were interested in my political campaign here in Montgomery, Alabama, and in addition to that, though, we have a confidential document from one Abe Goldstein, who is the Southeastern representative for the Anti-Defamation League of the B'nai B'rith and it here stated that on April 8, 1959, and I want to read to you a little statement here, it says that the "arguments on the other side are all so obvious; Jews by the basic tenets of our religious faith are for justice for all, hence Jewish groups are generally against any form of racial or religious discrimination and therefore, oppose to racial segregation (that is their own writing I am reading to you). Then we have another document here which we discovered here in Montgomery and it was addressed to a group of men here, Mussafer and Heilpern and Schloss, I
believe, and it was giving them some instructions on how to work on the police force here in Montgomery, Alabama, which I consider to be a highly subversive activity for any tax exempt organization, as a matter of fact the Anti-Defamation League in my opinion is nothing in the world but the Communist-Jewish Gestapo, the underground, the police force.

Now as recently as February 6, 1962, this appeared in the ALABAMA JOURNAL, "The Jews protest bible teaching, they don't want the Bible to be taught in the schools here in Montgomery, they don't want it taught in the schools anywhere in the United States or anywhere else, so I think that gives you a rather comprehensive idea especially Communism is monitored by the Jews, it is a tremendous operation, they control the money, control all the means of the media for communication. I don't say all of them but the great majority of them and as a result of that they have a tremendous influence over here on our government and on our way of life and they have promoted this integration movement and program and if we don't stop it, and stop it soon, we will certainly pass into a place, state, become a mongrelized people which is absolutely unthinkable for a white man.

Now I started with 1958, to show you what the background was. Of course I knew it in 1950 and I knew it in 1956, but you weren't ready for it so I waited until 1958, until you had a chance to look around and see for yourself. In 1950, just to show you that I had some indication of what the situation was, I told you that in my opinion we could lose our freedom and our form of government without firing a shot, of course people thought that was ridiculous. We got a good Army, a good Navy, a good Air Force, we were the greatest military and naval power on earth, air power on earth, and yet in 1950, Harry S. (for Solomon) Truman got us involved in what he called a police action in Korea. Well that police action, it was reported in the papers that we lost 34,000 men killed and missing, but as a matter of fact, I understand the Army files stretched that a little bit, there were about 52,000 men killed or missing and we found out that the orders that went to General MacArthur, Van Fleet, went through the United Nations Security Council and were monitored by the Russians, who unquestionably were providing the know how and the military planning for the North Koreans and for the Chinese. I have talked this Korean War over with some of the great Commanders over there and there is no question in my mind but those 34,000 or 52,000 men, I remember an article came out in a paper and Harry Truman said,
"Well, there were not many killed, just about 32,000". I remember that the article came out in the paper and say to you this, those 31,000 or 52,000 men killed in Korea were, in my opinion, not battle casualties, they were political murders and they should be lain on the door step of Harry S. (for Solomon) Truman and I say there has been treason in Washington and there was treason and there has been. If you don't believe it, you ask some of the boys who were over there in Korea, you don't have to talk to the Generals, talk to the privates, they know and so does everybody else.

Now let's get into my 1956 campaign in which I said Lister went North, turned left and sold us out. You may not realize it but in 1936 at the Democratic National Convention, Lister Hill introduced the two-thirds rule, introduced the resolution and started the mechanics of doing away with the two-thirds rule in the convention, which gave the South a vote in the government, up to that time the person had to get two thirds of the votes of the delegates in order to get nominated on the Democratic ticket and Lister Hill introduced the resolution to make it a simply majority. When he did that, that took away the voice of the South in the Federal government, on a national scale, we would have no more say-so as towns would be President and of course were followed by people like Truman, Eisenhower and our present President, Kennedy, and that also set the stage for integration and then Hill came along with his Hill-Burton Act and in that Act they had the phrase, the "race, creed and color clause" which makes our hospitals integrated.

Then we had a man named Dick Rives appointed to the Federal bench here in Montgomery, and he came out of a Hill law office here and I have some photostats of Mr. Rives, I have sent them to the Circuit Judges of every Circuit and I have sent them to every Sheriff and it shows that kind of individual Mr. Rives was, he took $750.00 from the Phoenix City gang to pay for a trip to Washington, D.C.

Then Hill, you know has voted for every one of our fine give-away programs. He voted for giving away to foreign nations approximately One Hundred Billion Dollars of the money that came out of your pocket and mine and also that will be coming out of our children's children's pockets, from now on practically, to give it away to foreign nations and for what?

This is a recent issue of the Saturday Evening Post, February 10th, you see that headline, "The New Wealth of Europe". Of course they are wealthy, we have given them tremendous sums of money, but I would like to see Lister Hill travel from the Tennessee border to the Florida line.
as I have done and I guarantee he won't see too much evidence of wealth. Also you might be interested to know that there have been seven hundred textile mills closed down in this country and textile mills are the biggest industry we have at the present time, according to my latest figures from Washington, last week, there are 333,000 textile workers out of a job and in addition to that, I got something in the mail a couple of days ago, called the Greater Nebraskan. It is a very well printed magazine from Omaha, Nebraska, and has an article in there by the Hon. E. Y. Berry, Congressman from South Dakota. Now listen to this, in 1960 we imported the live or carcass equivalent of one million, five hundred thousand and four thousand head of beef, one million, three hundred thousand head of hogs, one million, one hundred thousand head of sheep and lamb.

We imported that. Is there any reason for our farmers having such a tough time?

Now recently the State Department got a bill introduced in Congress and in both the Senate and the House and I will read you what it says. This is Bill H. S. 2180 which was passed as follows:

"Be it enacted by the Senate and the House of Representatives of the United States of America and in Congress assembled, (short title).

Section 1: This Act may be cited as the Arms control and disarmament Act for world peace and security.

Hill voted for it but Eastland, Ellender, Mundt, Russell and Talmadge, and Thurmond, and Powers and Stennis, they voted against it, and they should have. The man that sent it to me is a very prominent individual and I see he wrote across the top of it "Treason". Now that's Lister Hill.

Now you might wonder what's going on. Well, here in Washington in the Washington Post of November 26, 1961, it says here, "Congressional study shows party loyalty." Highest partisan support among Senate Democrats was Lister Hill of Alabama, with one hundred per cent, in other words Hill has voted for the Administration one hundred per cent, he has followed the party line and there is no reason why he should not follow the party line, because I am going to tell you something that some of you know but some of you don't- now I mean it is the Communist-Jewish line in many respects, influenced by the Press and all media of Communi-
tions. Hill follows that line because Hill himself is Jewish.

Now whereas the most serious threat to the security of these United States is not the external, economic, military or psychological power of Russia but it is the evil, internal menace of world wide Communist-Jewish conspiracy, with headquarters in New York City and in Washington, D.C. This conspiracy controls not only our Federal government and the Communists in America, but the Communists in Russia as well and whereas we white Christians are the greatest freedom loving peoples, the great anti-communist peoples on earth, but our government in Washington is controlled by the Communist-Jewish conspiracy and 73 Jews placed in key positions, whoever is elected. This is the strangest political paradox in all history.

And the means they have employed to get control of our government is a complete domination of all media of communication. The Communist-Jewish conspiracy has captured practically all news media, and means of communication, to-wit, large daily newspapers, wire services, live TV and radio, the movies and the publishing companies, the planned result is that the American people have been bemused, beguiled and betrayed for the last thirty years or longer and the citizens of the United States denied the truth. For instance, here on the local Alabama scene, a New York Jew bought the Birmingham News and the TV station WAPI. The Editor of the Montgomery Advertiser was a national committeeman of the notorious Civil Liberties Union and there is a document which proves it and the publisher of the Mobile Press Register is a man of unquestionable Jewish background who calls himself Chandler, and last but not least, a man from Montgomery, Alabama, identified before the Senator Eastland Committee as a Communist was for many years a Commissioner of the Federal Communications Commission and they kept me off TV in Birmingham in 1960, and they kept me off TV in Mobile except for one appearance in 1960, although the funds at that time were available to pay for it, they would not let me go on. Of course, this particular individual was not Commissioner then, I don't who he is now, but it is useless to look into his background, so you can see what is behind the situation, I repeat that there is TREASON in Washington.

Treason cannot exist except in time of War and I say it is treason because we are involved in a Cold War, just recently right here in Montgomery the Chaplains out there at Maxwell Field came in and gave
a talk down town here at one of our down town business clubs and he said exactly this, "We are involved in a Cold War and anyone who gives aid and comfort to the enemy in time of War is a traitor and don't forget it."

Now, we heard of course that the international Communists have a plan, a sadist plan for liquidation of these United States and we know that they seize communications first of all and we know, of course, that they have given the silent treatment here in Alabama to deny you people the right to know what I am trying to tell you, but there are chinks beginning to appear in the armor of these so-called brains and so forth that monitor the propaganda and the news media. For instance, right here in Montgomery, as a result I think from pressure by the DAR and the John Birch Society and so forth, Bill Mahoney down here on the Alabama Journal, is beginning to show sometimes a certain sign of titoism. As a matter of fact, I think Mahoney would like to come out and tell you that Communism is Jewish from start to finish, but he knows that if he does old Talma Dick Hudson would fire him in ten minutes, so he is not going to say anything, but he approaches it from the oblique angle. Now I find out that these people attack, these people here in our local Press, they attack the DAR and the John Birch Society, they attack the KKK and I want you to know that I am not a member of the John Birch Society and am not a member of the KKK and strangely enough, I have never been invited to join the DARS. However, I believe these three organizations are the three finest organizations that we have. I think the DAR understands this problem and they use, just as ladies should, they use the soft approach, they don't go out and play hard nosed football like the KKK, John Crommelin, Gerlad K. Smith, Connie McGinley and a few of us, but somebody has got to get out there and do this job at the grass roots and we are out here doing it. We need their help and I think we can get it. I think we get their sympathy and I think we can expect their help.

And I want you also to know that the eyes of the entire Nation regardless of the fact that they have tried to silence this race here in Montgomery, the eyes of the entire Nation are on this race, for the Senate
and I have something here to support that (Richard, come on over here, put your camera on Richard.) Ladies and Gentlemen, this is my nephew Richard Crommelin, and he is down here acting as my Secretary and for your information, Richard's father was, in my opinion, the first man whoever shot down a zero with a navy fighter. He knocked two of them down in the battle of the Coral Sea and Richard did not come home but we're here, Richard, his boy here, and I am here and you are going to know what is going on too.

I want to read you some of these letters I have gotten here from some of these folks. He picked up a few and I have a few more minutes here. Now this is a letter from Evanston Illinois, now I won't read the man's name at the end of it. He sent me a $10.00 check. He said:

"Dear Admiral Crommelin:

I wish I could contribute more than this $10.00 to your campaign for the Senate. I am out of a job both of my Grandfathers were in the Union Army, but today my sympathies are overwhelmingly with the South and I am sure both of my Grandfather's sympathies would be too if they were living today. However you are not fighting just for the South, you are fighting for the United States, but not for the United States alone either, we are fighting for the survival of the entire white race in all parts of the world and if we lose the Black man and the brown man and the yellow man will also lose because our well organized civilization will slip back within the confusion.

Sincerely yours, and that is his name

We are not alone, that man is from Evanston, Illinois. Here is a letter from a man over here in Georgia. We have some good people in Georgia, we also have some skunks over there up around Atlanta.

"Dear Admiral Crommelin:

Your policy as printed is what the USA needs badly. I have relatives (underscored) in Mobile, Alabama, Birmingham, Tuscaloosa, Anniston, and so forth and it will be my pleasure to promote your candidacy for the United States Senate. I am
over three score and ten, but in A I condition." And that was from a pal over in Georgia. I have never been there, I don't know the man, never heard of the man. And here is another letter from Glendale, California, and it says:

"Dear Admiral Croomsalin:

Enclosed is a small donation toward your campaign fund and I pray God that you will be elected so that we have at least one man in the Senate who is completely unafraid to face the real enemy—the Zionist Jew. I am only sorry that I cannot afford to donate more but you can be assured that in place of money you shall have my prayers. May God Be With You."

That's a lady too, a lady from Glendale, California. So we are not alone. The people know what is going on. Now I have told you what the situation was here in this country and in Alabama, we are the proving ground for this hideous thing they are trying to put over on us, trying to take our government away from us and force us into a United Nations dictatorship, and send these troops in, these thousands of men trained out there deep in the heart of Texas, in my opinion, these men from Yugoslavia, these so-called Pilots, were trained primarily to monitor the Commissioner jobs in case the United Nations sends a police force in here. God Forbid!

So what can you do about this treason? I say you can do this and this is the real nub of the whole thing. The last thirty years have been designed primarily where they can get into a position where they can use the power behind the Military, but they don't have the Military, as yet. Whereas we are still a free people by virtue of the one fact that the Communist-Jewish conspirators have not yet subverted the rank and file of our Armed Forces who are, in general, loyal to the Constitution of the United States. And so far, have never been conquered by anyone in either a hot or a cold war, whereas a white, Christian United States Senator with a broad background in the military service and personal knowledge of the character of many of the officers in the key positions in the Armed Services and also with a background of practical civilian and business and political experience and a profound student (I am going to pat myself on the back, I claim to be a profound student of the Communist-Jewish conspiracy at this particular time in history if backed up by you voters, I can do it unless
you back up, if I can win the votes, after I get in the Senate I can render invaluable service to all of the people of these beloved United States of America, who appreciate the necessary action to clean the traitors out.

My purpose is to conduct a hard hitting campaign in every precinct in Alabama, win this election, establish a close, harmonious man to man relationship with each and every white, Christian member of the U.S. Senate and by precept and by example provide whatever measure of courage, wisdom, and leadership is necessary to restore control of the Federal government to you white Christians, my own people, so Help Me, God.

This is John Crommelin, running for the U.S. Senate. Thank you very much.
