October 7, 1948

Dear Board Members:

Mr. Clarence Francis has signed a letter to leaders of business, industry and labor in New York City, inviting them to a small intimate dinner the night of October 22nd to discuss plans for the Association in New York City to serve the United Nations in locating here.

Enclosed is a copy of Mr. Francis' letter. Obviously, we want all of the members of the Board to attend the dinner, but since a letter from Mr. Francis to the Board members might sound altogether too formal, I am writing this letter and enclosing a copy of the letter you would have received from Mr. Francis if you were not a Board member.

Dr. Emerson will preside. Mr. Francis and I will both speak on the program for New York City, and there will be one or two other speakers. The dinner will start promptly at 7:00 PM and adjourn at 9:30 PM, and then the United Nations Ball begins at 10:00 PM.

I hope that you will attend the dinner and that you and your family will attend the United Nations Ball that follows.

Faithfully yours,

Clark M. Eichelberger

P.S. As we have done previously, we shall ask Board Members more or less to be hosts at the tables.
