Honorable Herbert H. Lehman
The United States Senate
Capitol, Washington 25, D.C.

December 24, 1954

My dear Senator:

East Side Post No. 4 of the Jewish War Veterans, forwarded to me the original of the enclosed resolution in connection with units for single person occupancy in Federally aided housing projects. The Housing Authority, in reply to this communication informs me that it has been unable to get the Public Housing administration to permit them to include units for single persons in its plans.

Inasmuch as there are presently a limited number of State aided projects, will you be good enough to look into this question, in order to get some action from the Public Housing administration. If it is determined that desired results can not be obtained within the scope of present legislation, would you be good enough to make an effort to amend the United States Housing Act to cover the situation.

I am sending this letter to Senator Ives.

Very truly yours,

LEONARD FARBSTEIN
