December 19, 1954

At a regular meeting of East Side Post No. 4, Jewish War Veterans, the following resolution was unanimously moved and adopted:

WHEREAS, there are many elderly people living on the sites selected for housing projects by the New York City Housing Authority, who are eligible on every score to be residents of the new projects to be built on the site selected, and

WHEREAS, these people are not permitted to become tenants of these new projects for the sole reason that they are living alone, and the Housing Authority makes no provision for people living alone to be tenants of such projects, and

WHEREAS, these people have been in said neighborhoods for many years, have special language problems, and desire above all else to remain in the neighborhoods that they know and have their friends and neighbors,

NOW, THEREFORE, BE IT RESOLVED, that the East Side Post #4, Jewish War Veterans, goes on record as being opposed to the practice of making no provision for such lonely people, and that no future projects be planned without apartments being planned with these people in mind.
