Honorable Herbert H. Lehman,
Senate Chamber,
Albany, N. Y.

My dear Herbert:

Thank you for your very kind and sympathetic letter in reference to my recent illness and for your advice about avoiding any further chances. I am beginning to feel myself, but intend to remain in the house, under my doctor's orders, until the early part of next week.

I suppose you are worn out with the strenuous session and will be happy to see adjournment. It should be a source of great pride to you, however, to know of the admiration and respect for you which is shared not only by those in the Legislature, but from various parts of the State.

Congratulations and best wishes for continued success.

Sincerely your friend,
