May 5, 1941

Honorable Herbert H. Lehman
Executive Chambers
Albany, New York

My dear Governor Lehman:

Thank you for your letter of April 22nd. We, of course, appreciate the necessity for the policy which you have adopted in respect to serving on committees within New York State. At the same time we are grateful for the interest you have expressed in The Agricultural-Industrial Foundation, Inc. and will keep you informed as to developments.

You will be interested in knowing that the directors of the Foundation, recognizing how closely the work of the Public Information Committee—Milk Marketing Program will dovetail with that which is being carried on by the State Bureau of Milk Publicity, are planning to propose to the Commissioner of Agriculture and Markets that certain phases of the milk publicity program be carried on by the Foundation. Funds provided by the State under such an agreement would be supplemented by gifts to the Foundation from private sources for the same purposes.

With high regards, I am

Sincerely yours,

Frank E. Gannett, President
