Senator Herbert H. Lehman
Senate Office Building
Washington, D.C.

Dear Senator Lehman:

I feel sure you will be interested to see the enclosed Annual Report prepared for our Board. The farm workers covered in this report are on the very bottom of the economic scale.

May I call your attention particularly to the section dealing with the importation of Mexican farm workers. Although contracts given the workers who are imported legally call for a minimum of 50¢ an hour, we continue to receive reports of 25¢ an hour being paid both to contract workers and to illegal "wetbacks".

Please note also the Louisiana situation where farm workers are deemed by their employers not to have the right to organize, and where a judge has ruled they do not have the right to strike during the harvesting season.

With best wishes.

Sincerely yours,

Frank P. Graham
