The Honorable Herbert H. Lehman  
United States Senator  
Senate Office Building  
Washington, D. C.

Dear Senator Lehman:

Thank you for your letter of July 18 and I am indeed pleased to learn of the progress which has been made by S. 3732, the Federal Flood Insurance Bill, which has had your active support and leadership.

We have followed the progress of this Bill with great interest and have urged the entire North Carolina delegation to support it at every opportunity. Last week we sent wires to the members of the House Rules Committee and the Eastern Seaboard Governors urging favorable action and support.

You may have noted that a North Carolina Congressman, L. H. Fountain, was a member of the House Banking and Currency Committee whose motion resulted in the Bill being reported out. We in North Carolina are deeply interested in this legislation and believe that it is constructive and worthwhile.

Sincerely,

LUTHER H. HODGES  
GOVERNOR
