January 16th, 1932.

Joseph J. Canavan, Esq.,
Secretary to the Lt. Governor,
Executive Chamber, Albany, New York.

Dear Mr. Canavan:

We have discovered a typographical error in the Administration's report to the Governor and the Legislature, and are desirous of immediately correcting the same. Copies have been released only to the following persons: one copy to Governor Roosevelt; one copy to Lt. Governor Lehman; one copy to Senator Fearon and one copy to Speaker McGinnies. I have to-day telegraphed to Lt. Governor Lehman making the correction, which is as follows:

Page 16, Section 6 now reads:

It is suggested that the following sentence be added:

"The word 'town' as used in this Act is intended to identify that unit of local government on which home relief is already a charge; towns and villages are to be dealt with directly by the state administration."

From the sentence immediately following this paragraph in the report, the error is obvious and Section 6 should properly read:

It is suggested that the following sentence be added:

"The word 'town' as used in this Act is intended to identify that unit of local government on which home relief is already a charge; towns and villages are not to be dealt with directly by the state administration."

We have to-day notified the gentlemen to whom the report has been sent, as well as our office in Albany, requesting that the correction be made and no copies will be released from our office until they are so corrected.

Will you kindly make the correction on Governor Lehman's copy?

Very truly yours,

Harry L. Hopkins
