My Governor Lehman:

I thought you would be interested in a report for the Soil Conservation Service, the Resettlement Administration and the Rural Electrification Administration entitled, "Little Waters: A Study of Headwater Streams and Other Little Waters: Their Use and Relations to the Land."

In my opinion this report deals with a subject of great importance and I am glad to send you a copy with my compliments.

Sincerely yours,

Harold C. Ickes
Secretary of the Interior.

Hon. Herbert H. Lehman,
Governor of New York,
Albany, New York.

Enclosure.
