April 15, 1961.

Colonel Alfred Katzin  
United Nations  
New York.

Dear Colonel Katzin:

My husband has been very unhappy that there has been no really good and human history of UNRRA and would like to think in terms of someone who would be qualified to write such a history from the standpoint of the philosophy of UNRRA and the heart and soul of the organization which started with my husband back in 1943.

We have been told that all UNRRA records are stored somewhere in the U.N. in large cartons and to date have never seen the light of day. This seems like a tragic waste. I would greatly appreciate it if you would make some inquiries regarding this and let me know just where they are and if they would be available for study and tabulation should we find the proper person to handle it.

I hope that we will have the opportunity of seeing you and Mrs. Katzin at an early date. In the meantime, kindest regards, in which my husband joins me.

Very sincerely yours,

(Sent by Mrs. Lehman)
