Honorable Herbert H. Lehman
United States Senate
Washington, D. C.

Dear Herbert:

I have your letter of the 11th. I will be glad to visit Niagara Falls to make an on-the-scene study of the Niagara power situation.

It occurs to me that after the reports from the various departments are in, if the Committee should so desire and if you would want it, there might be some merit in considering the holding of hearings on the bill at Niagara Falls.

With kindest regards, I am,

Sincerely,

Rob 't S. Kerr.
