The Honble Governor E.R. Lehman,  
Embassy of the United States of America,  
1 Grosvenor Square, S.W. 1.  

April 16, 1943  

Dear Governor Lehman,

I feel I should send you just a line on behalf of myself and the rest of us at the Treasury to say how very greatly we appreciated last night's conversation. It is worth a cycle of Cathay in terms of telegrams to have so full an exchange of mind between those principally concerned. We on our side feel that we know what is in your mind and we shall do what in us lies to be cooperative. And you on your side will have had a glimpse of the problems of the future as we see them.

In some respects it is a god-forsaken job you have taken on. But one cannot imagine a piece of work more worth doing well and carrying through to general success. Our best hopes and wishes will go forward with you.

Yours sincerely,
