June 21

Dear Governor —

It made me very happy to get a telegram from the children the other day. It was a very sweet thought and I was really touched. I hope their recent visit was not too much of a burden to you —

Since writing under the circumstances (and I'm sure, reading also) is difficult I'll spare you an account of my present trip, except to say that Baton Rouge looks good, and Memphis, bad.
I'm terribly sorry to bring this matter up again, but Mr. Zabarsky, the D.P. whose status you so kindly looked into for me a while ago, has informed me that he will go to Washington shortly and would very much like a few moments' call on Mr. Edelevterin. Of course I don't know whether it would serve any practical purpose, but obviously you understand how much it would mean to one in his predicament, and so I would appreciate it so much if you would ask Mr. Edelevterin to see this man at
any possible time.

I hope to see you and Mr. Lehman soon. Meanwhile, thanks and affectionate greetings to you both.

Richard
