Senator Herbert Lehman
Washington, D.C.

Dear sir,

I know your life is hectic, but I do hope you have found time to look into the recent rulings of the Commissioner of Indian Affairs which in effect break up tribal lands and hasten their passage into non-Indian hands. We have had a poor record for generations in our Indian dealings, but there were signs a few years ago that we had turned over a new leaf. I am the more distressed.
that the Indian Bureau is reverting with a vengeance to its old high-handed abuse of a minority. Is there anything you can do about it?

Sincerely yours,

Mlle. White
