August 26, 1933.

Mr. W. L. W. Field,
The Milton Academy,
Milton, Mass.

Dear Mr. Field:

I want to thank you for your letter of August 24th which reached us this morning. We had awaited this letter after receiving your telegram of an earlier date, for there were certain matters with regard to which we were not entirely clear.

We did not know whether or not the "private home to which you referred meant the home of one of the masters, situated on the school campus. In Mrs. Lobman’s conversation with you she gathered that the "private home" is not an integral part of the school nor is it on the school grounds, but some distance away. While we are confident that any arrangement which you make for your students would be entirely satisfactory, we are disappointed to think of the possibility of John’s being in a separate unit away from the school, because of the handicap involved so far as making friends is concerned, as well as the fact that the supervision may be less rigid.

I am therefore glad to be assured that you will watch the situation and that you will place John in a dormitory at the beginning of the school term if it is in any way possible to do so.

Thanking you for your courtesy and interest, and with kind personal regards, believe me,

Very truly yours,
