June 5, 1937

Dr. Judah L. Magnes,
President, Hebrew University,
Jerusalem, Palestine.

My dear Dr. Magnes:

I have been advised that on July 5th you will celebrate your sixtieth birthday. May I join some of your countless friends in sending you my warmest congratulations and best wishes.

I recall with the greatest satisfaction, my long association with you which dates back to the early years of the century when you first became a great influence in the life of the Jewish community of the city through the creation of "Kehillah". Since then your leadership in spiritual, educational and civic fields has been greatly inspiring to the peoples both here and abroad. I hope you will be spared in good health and contentment for many more years of service.

May I ask you to extend to Mrs. Magnes and your children my heartiest greetings.

With best wishes, I remain

Very sincerely yours,
