Hon. Ernest W. McFarland  
United States Senate  
Washington 25, D. C.

Dear Senator:

As Senator Lehman wrote you on December 20, and as other Members of the Senate may have written you, we are very much interested in the subject of immigration. We are about to introduce an omnibus bill, which will be offered at the appropriate time, as a substitute for S.2550, the omnibus bill originally introduced by Senator McCarran and now reported by the Judiciary Committee as a committee measure. It is implicit that we are very much opposed to S.2550.

The purpose of this letter is to ask that the official objector for the Majority be advised of our opposition to this measure and be requested to object on behalf of the undersigned to the consideration of this measure whenever it is called up on calendar. We request that this be made a standing objection in regard to any unanimous consent request for the immediate consideration of S.2550.

It would be appreciated if this request could be acknowledged, either formally or informally.

With kindest personal regards,

Sincerely yours,
