United States Senate
WASHINGTON, D.C.

January 23, 1951.

Dear Senator Lehman:

I am happy to accompany this note with a specially prepared three-pound box of Jumbo California DeLuxe Dried Figs. That is the typically California modest manner in which this product is described by the California Fig Institute and it is with their compliments and best wishes that I present this box to you.

The Institute also asked me to remind you that it will sponsor the National Fig Festival during February in the San Joaquin Valley — and that the entire American commercial fig production comes from California.

With all good wishes,

Cordially,

Richard Nixon

Senator Herbert H. Lehman
