May 3, 1958

MEMORANDUM

TO: SENATOR LEHMAN

Attached is a Thermo-Fax of the message we have received from Vice-President Nixon in the form of a tape.

It is not too bad, but it really doesn't say anything constructive, policy-wise. Having asked for and obtained it, we will have to play it at the dinner, and, of course, release it on that occasion.

While some may judge it an addition to literature, it certainly is no addition to the definition of Administration policy.
