March 23, 1956

Honorable Wright Patman
House of Representatives
Washington, D.C.

Dear Congressman Patman:

I want to thank you for sending me a copy of your book, "Our American Government -- The Answers to One Thousand and One Questions."

I have studied it with very great interest. I think it answers a vast number of questions on which the public is very little informed. It is particularly valuable because it provides an interesting set of answers to the questions which inevitably arise in the minds of many people about how government works. Certainly your book will greatly add to their understanding of the institutions and procedures of our Government.

I hope your book will have a very wide circulation.

Very sincerely yours,
