Dear Paul:

I am sending you herewith a letter which I have just received from Jouett Shouse which you will find self-explanatory. I am sure that you will hear from him some time next week.

May I say again that I have seen virtually nothing of Jouett Shouse for a great many years and have not in any way followed his activities. At the time that I knew him well he was an intelligent and energetic young man. That, however, was a great many years ago and a lot of water has gone over the dam since then.

With kindest regards,

Yours very sincerely,
