Biography

BBZ's collection is significant for many reasons. Her knowledge of church history within the United Church of Christ is not equaled. She was the first woman to teach on the staff of The Chicago Theological Seminary. She was the first woman to be Dean of the Faculty at the Pacific School of Religion and she became the first woman to be President of Hartford Seminary. In addition to her work in the academic arena, she has been appointed to several National Council of Churches commissions. She has done supply preaching in numerous churches and is a much sought after speaker.

Barbara Brown was born in 1939, to Helen and Floyd Brown. When she was six years old, her sister Shirley was born. BBZ received both her M. Div. and Doctoral degree from Duke University. In 1966 after taking her preliminary exams, she moved from Durham to Philadelphia. She married to Professor Joseph Zikmund II. Joe was hired at Temple University to teach in the Political Science Department. She was ordained as a Christian minister in the United Church of Christ in 1964 and completed her Doctoral degree in 1969. Files relating to her doctoral dissertation on subject of the first president of Oberlin College, Asa Mahan, have been gifted to the Oberlin College archives.

While living in Wayne, Pennsylvania, BBZ worked as supply preacher as well as instructor at three separate colleges. Her one year appointments were at Albright College in Reading, PA; Temple University in Philadelphia; and at Ursinus College in Collegeville, PA.

In October 1969, in the year that BBZ received her doctoral degree, Barbara and Joe's son, Brian was born. Soon afterwards, they moved from Philadelphia to Albion, Michigan, where Joe joined the faculty of the Political Science Department of Albion College. Albion was Barbara's hometown, with numerous relatives living in the surrounding area. During those years Barbara did many part-time jobs. She was an interim pastor in several churches and an adjunct faculty member at Albion College. BBZ and another faculty wife started a program at the college entitled, "Life Planning for Women." In 1974 she was elected to the City Council.

In 1975 the family moved to Chicago for Barbara's new faculty position at The Chicago Theological Seminary. She taught courses on women and on the church. She became the Director of Studies (Assistant Dean).

In 1977 she was asked to give a keynote address at the General Synod of the United Church of Christ. It was so well received that she immediately became a nationally known denominational leader and was soon in demand as a speaker across the country. Because of her visibility as an academic, she soon began receiving offers for positions in theological schools.

In 1981 Barbara, Joe and Bryan moved to Berkley, CA, for Barbara to take on the role of Dean of the Faculty at the Pacific School of Religion (PSR). Barbara was appointed as Dean for five years initially and then renewed. 1988-89 was a sabbatical year for her. After her return in June 1989, her review vote was scheduled for December of that year. Two votes were to be taken in secret ballot: first, on whether she should have a third term as Dean, and second, on whether to be granted tenure. Much to everyone's surprise, she was not renewed as Dean, but WAS granted tenure. Barbara thought that she wouldn't get tenure, because she had not published much, which could be deemed "scholarly". However, not to be renewed as Dean was a shock. The President of PSR was outraged, taking it personally as a vote against him. The entire PSR community and the UCC leadership in the region were in turmoil. The situation prompted Barbara to more seriously consider leaving PSR.

In the early 80's BBZ also became involved in the National Council of Churches Commission on Faith and Order. This involved ecumenical bilateral conversations between those in the Reformed tradition and Roman Catholics. In 1985 she was appointed to be a member of the Programme on Theological Education of the World Council of Churches. She served on this commission for six years.

As one of the few female Deans or Presidents in any Association of Theological Schools (ATS) seminary in the United States and Canada, Barbara was asked to serve on several of the organizations committees. She attended the Warren Deem Institute in Theological Education Management. She was elected to the Executive council of ATS. Eventually she was elected the first woman and the first Dean to be President of ATS, 1986 to 1988. In addition to being President, she served on committees related to women and served on the committee to relocate the ATS offices from Dayton, Ohio to Pittsburgh, PA. She served on the task group to rewrite the ATS's constitution, helped to develop long-term goals, and also became involved in the search for a new executive.

In the 1990's Barbara served for six years on the group, which rewrote the "accreditation standards" for ATS. In the late 1990's she served on the Advisory Committee on Theological Education Leadership, which sought to develop training and support events for deans and presidents.

While still wrestling with the decision over staying or leaving PSR, Barbara considered several positions (as dean or president) at Yale, Wesley, Andover Newton and Union Theological Seminary. She was considered for the Presidency of the National Council of Churches. Barbara seriously considered two job offers at this time: staff member of the World Council of Churches Programme on Theological Education in Geneva,

Switzerland or President of Hartford Seminary. Barbara accepted the Hartford position in 1990, leaving ten years later.

From April 2001 she taught at the Graduate School of American Studies at Doshisha University in Kyoto, Japan.

Processing

When the Burke Library acquired Zikmund's papers, an attempt was made to maintain the original order she imposed throughout the course of her career. They are arranged in the original order utilized by their creator. Files noted with a * signify photographs within that folder.

Folded materials were flattened. Newspaper clippings were photocopied on acid free paper. Staples, rubber bands, and metal clips were removed and replaced with plastic clips. All materials were placed in acid-free folders and boxes.
