

Module Eight

General Findings and Observations

General Findings

- Overall, does the research address our question of interest?
- If so, is there a great deal of research that addresses our question of interest?
- Which types of research are missing (syntheses, our population of interest, etc.)?

Group Discussion

- Start with research syntheses found
- Individual research articles
- Other evidence

Discussion Points

- General overview of the research question or hypothesis
- How recent is the evidence?
- Main findings
- What is the general quality of the evidence?
- How well does it fit?
