Two Columbia scholars were elected to the American Academy of Arts and Sciences, and one faculty member was elected to the National Academy of Sciences.

Nicholas Turro, the William P. Schweitzer Professor of Chemistry, was one of six in the nation to receive the recently established National Science Foundation's Directors Award for Distinguished Teaching Scholars. This award recognizes creative new ways to teach undergraduate science, technology, engineering, and math.

Columbia is currently in the middle of a five-year $1.2M capital plan. New construction includes a new School of Social Work building; Lenfest Hall, a residence for law students; a new building to house faculty as well as the new Columbia School for Children. Ground has been broken for all of these projects.

In athletics, the men's fencing team won its twenty-ninth Ivy League title. Johnathan Reese, Columbia football player and the fifth most prolific running back in Ivy League history, was drafted by the New York Jets.
