

0: Prologue; Raven

Love is like a raven, soaring high on MDMA:  
all smiles and rainbows, hot blood and carrion.

1: *Alive.*

Bill Cosby is black,

and this taxi is yellow.

You make me feel alive  
Like wrigglin' Jell-O.

**2: Sapiosexual.**

Bullets are lead,

and that glow is uranium.

Your brain is so fine,  
I want my dick in your cranium.

**3: Earl Grey, Stalker.**

**Badminton's weird,**

**but tea is delicious.**

I see you in the bushes,

doing something suspicious.

# 4: Hedonism

The train, it has left,  
and the pie, it is baked.

I know this doesn't rhyme,

but let's all get naked.

# 5: The Atomic Woman

Brave men raised the flag

over old Iwo Jima.

Girl, you da bomb

that flattened Hiroshima.

**6: Cards for all occasions,  
eschatons included.**

How fragile are we,

in this urban metropolis.

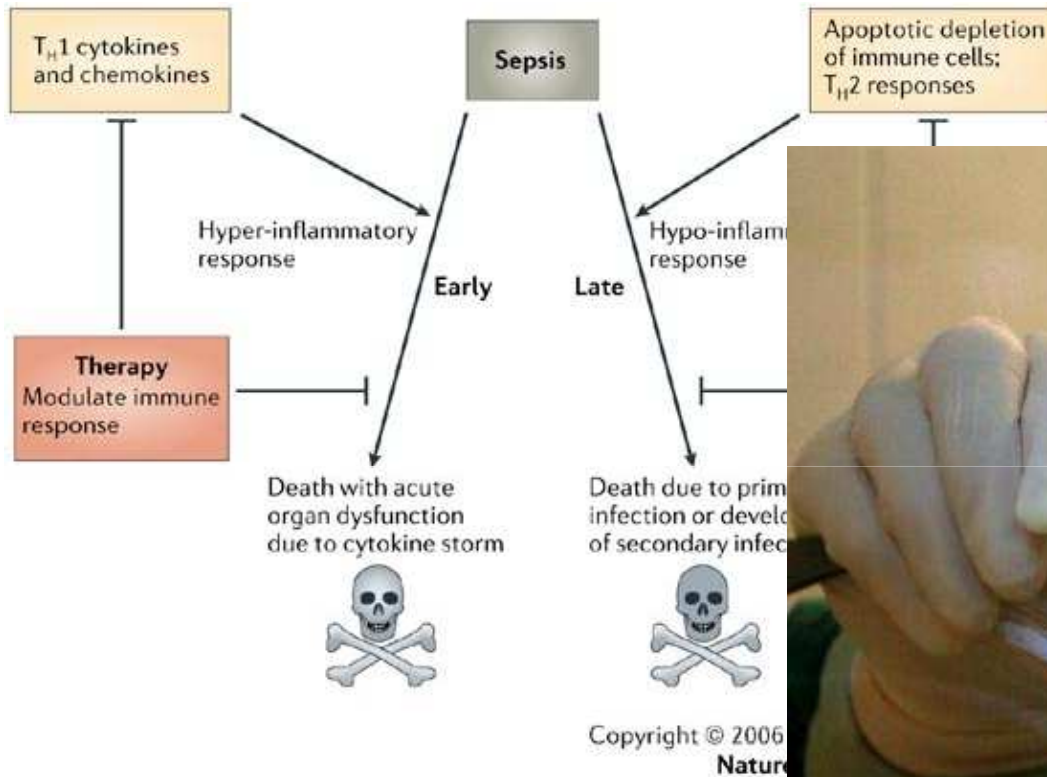

I'll have your back

in the zombie apocalypse.

# 7: Paging Doctor Blood Fetish

# Septicemia's tragic,

and Swine Flu's upsetting.

Won't you come back to my place  
for some old-time bloodletting?

# 8: Cleanse Your Soul.

Blasphemy is a sin,

and Babel was a tower.

I want to know you,  
biblically, in the shower.

## 9: Department of Homeland Impurity

Government is complex;

the Vatican's a theocracy.

I want to get buried

in your bureaucracy.
